LAWRENCE COUNTY, MISSOURI

NOTES TO BUDGETARY COMPARISON SCHEDULES

December 31, 2010 and 2009

1. BUDGETARY INFORMATION

The 2010 and 2009 annual budget, prepared under the cash basis of accounting, was adopted on January 20, 2010 and January 21, 2009, respectively for all revenues and expenditures of the General Revenue Fund and all special revenue funds of the County. Any increase in appropriations during the fiscal year must be approved by the County Commission. The 2010 and 2009 budget was amended on December 15, 2010 and November 4, 2009, respectively to authorize expenditures of unanticipated revenues received during the year. Any remaining unencumbered appropriations lapse at the end of each fiscal year.

2. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

During the year ended December 31, 2009, actual expenditures of the following funds exceeded budgetary limits by:

Fund	Amount Exceeding Budgetary Limits
Judicial Sales Tax Fund	$848,091

SCHEDULE 21

LAWRENCE COUNTY, MISSOURI

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and
Officeholders of Lawrence County, Missouri

Compliance

We have audited Lawrence County, Missouri's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of Lawrence County, Missouri's major federal programs for the years ended December 31, 2010 and 2009. Lawrence County, Missouri's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Lawrence County, Missouri's management. Our responsibility is to express an opinion on Lawrence County, Missouri's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lawrence County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Lawrence County, Missouri's compliance with those requirements.

In our opinion, Lawrence County, Missouri complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009.

Internal Control Over Compliance

Management of Lawrence County, Missouri is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Lawrence County, Missouri's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the County Commission and Officeholders, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

LAWRENCE COUNTY, MISSOURI

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

December 31, 2010 and 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

   A. Purpose of Schedule and Reporting Entity:

      The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with OMB Circular A-133. This circular requires a Schedule of Expenditures of Federal Awards showing total expenditures for each federal financial assistance program as identified in the Catalog of Federal Domestic Assistance (CFDA) and identification of programs that have not been assigned a CFDA number as "Other Federal Assistance."

      The schedule includes all expenditures of federal awards administered by the County.

   B. Basis of Presentation:

      The schedule is presented in accordance with OMB Circular A-133, which defines federal financial assistance "…assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals."

   C. Basis of Accounting:

      The schedule is presented on the cash basis of accounting, which recognizes expenditures only when cash is disbursed. This is the same basis of accounting presented in the financial statements.

   D. Federal Assurances:

      Lawrence County, Missouri did not have federal insurance in effect during the year, or have federal loans or loan guarantees outstanding at year end which are required to be reported in accordance with OMB Circular A-133.

LAWRENCE COUNTY, MISSOURI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended December 31, 2010 and 2009

1. SUMMARY OF AUDITORS' RESULTS:

Financial Statements

Type of Auditors' report issued: Unqualified

Internal control over financial reporting:

- Material weaknesses identified? __X__ yes _____no
- Significant deficiencies identified that are not considered to be material weaknesses? __X__ yes _____none reported

Noncompliance material to financial statements noted? _____ yes __X__no

Federal Awards

Internal control over major programs:

- Material weaknesses identified? _____ yes __X__ no
- Significant deficiencies identified that are not considered to be material weaknesses? _____ yes __X__ none reported

Type of Auditors' report issued on compliance for major programs: Unqualified

Any audit findings disclosed that are required to be reported in accordance with Section 510(a) of Circular A-133? _____ yes __X__ no

Identification of major program:

CFDA Number	Name of Federal Program
10.557A	Special Supplemental Nutrition Program for Women, Infants, and Children
10.560A	Child and Adult Care Food Program – State Administrative Expense
14.257A	Homeless Prevention and Rapid Re-Housing Program
93.268	Immunization Grants
93.712A	Immunization and Vaccines for Children Grants – ARRA Supplemental Funding-Immunization
93.713A	ARRA Child Care and Development Block Grant

Dollar threshold used to distinguish between type A and type B programs: $300,000

Auditee qualified as low-risk auditee: ____ yes __X__ no

2. FINANCIAL STATEMENT FINDINGS:

10-1 Segregation of Duties

Criteria: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Condition: Some employees have access to both physical assets and the related accounting records, or to all phases of a transaction.

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Cause: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties.

Recommendation: We realize that because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our

professional standards require that we bring this lack of segregation of duties to your attention in the report.

Views of Responsible Officials: The limited number of available personnel prohibits segregation of incompatible duties. Procedures will be reviewed and monitoring procedures will be put into place.

10-2 Preparation of Basic Financial Statements

Criteria: A properly designed system of internal control, which includes preparation of financial statements in conformity with Governmental Accounting Standards, includes having accounting professionals as part of the system to perform that function.

Condition: The County has personnel in place to perform all bookkeeping functions necessary to maintain a general ledger and prepare internal use statements for management and the County Commission. However, the County does not have personnel with the knowledge, experience and training to prepare governmental financial statements in conformity with Governmental Accounting Standards as part of their internal control system.

Effect: The County employs the auditors that perform the biannual audit of the financial statements to prepare the biannual financial statements.

Cause: The County does not have personnel with sufficient knowledge to prepare governmental financial statements in conformity with Governmental Accounting Standards as part of their internal control system.

Recommendation: We recognize that the County may not have the resources to hire personnel with the knowledge to prepare governmental financial statements in conformity with Governmental Accounting Standards. However, we recommend that management continue to increase their knowledge of financial reporting.

Views of Responsible Officials: The County does not have the resources to hire additional accounting personnel with the knowledge, experience, and training solely to prepare governmental financial statements in conformity with Governmental Accounting Standards. The County does have personnel with sufficient knowledge to understand and take responsibility for the basic financial statements.

10-3 Budgetary Practices

Criteria: Section 50.740, RSMo prohibits expenditures in excess of budgeted amounts. State law requires annual budgets to be prepared for all county funds. If appropriate, budgets should be amended according to Section 50.622, RSMo 2000, which provides that counties may amend the annual budget during any year in which the County receives additional funds, which could not be estimated when the budget was adopted and that the County shall follow the same procedures required for adoption of the annual budget to amend the budget.

Condition: During the year ended December 31, 2009 actual expenditures of the Judicial Sales Tax Fund exceeded budgetary limits by $848,091.

Effect: Without an accurate budget, the county cannot make proper financial decisions concerning the county's finances.

Cause: County officials did not monitor the budget to determine that the budget was in compliance with state law.

Recommendation: We recommend that the County Commission amend the budget when circumstances arise that were unforeseen during the budgetary process in order to maintain strict compliance with budgetary law.

Views of Responsible Officials: The County Commissioners will ensure all budgets are in accordance with state law.

3. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS:

No findings or questioned costs were noted that are required to be reported.

EXHIBIT 5

LAWRENCE COUNTY, MISSOURI

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

For the Year Ended December 31, 2010 and 2009

1. FINANCIAL STATEMENT FINDINGS

08-01 Segregation of Duties

Condition: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Status: Not implemented and is repeated as finding 10-01.

08-02 Preparation of Basic Financial Statements

Condition: The County has personnel in place to perform all bookkeeping functions necessary to maintain a general ledger and prepare internal use statements for management and the County Commission. However, the County does not have the resources to have accounting professionals with the knowledge, experience and training to prepare governmental financial statements in conformity with Governmental Accounting Standards as part of their internal control system.

Status: Not implemented and is repeated as finding 10-02.

2. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were no federal award findings or questioned costs in the audit of the years ended December 31, 2008 and 2007.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Ripley County, Missouri

The Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Ripley County, Missouri

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Ripley County, Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, Ripley County, Missouri prepares its financial statements on the cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position - cash basis of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Ripley County, Missouri, as of December 31, 2010 and 2009, and the respective changes in financial position - cash basis, thereof for the years then ended in conformity with the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 15, 2011, on our consideration of Ripley County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on

compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 28 through 70 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Ripley County, Missouri has not presented the Management Discussion and Analysis (MD&A) that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Ripley County, Missouri's financial statements as a whole. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements of Ripley County, Missouri. The combining and individual nonmajor fund financial statements and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Ripley County, Missouri

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Ripley County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise Ripley County, Missouri's basic financial statements and have issued our report thereon dated July 15, 2011 which was modified because the financial statements are prepared on the cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Ripley County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ripley County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Ripley County, Missouri's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies, or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider to be a material weakness and another deficiency that we consider to be a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to

prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 10-1 to be a material weakness.

A *significant deficiency* is a deficiency, or combination of control deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 10-2 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ripley County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Ripley County, Missouri's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Ripley County, Missouri's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the County Commission and Officeholders, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

RIPLEY COUNTY, MISSOURI

NOTES TO THE BASIC FINANCIAL STATEMENTS

December 31, 2010 and 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 1.B, these financial statements are presented on the cash basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied, to the extent they are applicable to the cash basis of accounting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails.

A. Financial Reporting Entity:

The County's financial reporting entity is composed of the following:

Primary Government:	Ripley County, Missouri

In determining the financial reporting entity, the County complies with the provisions of GASB Statement No. 14, *The Financial Reporting Entity.*

The County's reporting entity includes the County's governing board and the operations of all related organizations for which the County exercises financial oversight. Oversight responsibility is derived from the governmental unit's authority and includes, but is not limited to, financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountable means the primary government is accountable for the component unit and the primary government is able to impose its will or the component unit may provide financial benefits or impose a burden on the primary government. In addition, component units can be other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The County is governed by a three member county commission and is a county of the 3rd class. As required by accounting principles generally accepted by the United States of America, the County has evaluated the above criteria to determine whether any other

entity meets the definition of a component unit and must be included in these financial statements. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

Productive Living Board

The Productive Living Board, which is governed by a board of directors appointed by the County Commission, provides disability services to the residents of Ripley County. The Productive Living Board is included in the financial statements of the County as a component unit due to its financial relationship with the County.

Senior Citizen Fund

The Senior Citizen Fund, which is governed by a board of directors appointed by the County Commission, provides senior services for Ripley County residents over the age of fifty-nine. The Senior Citizen Fund is included in the financial statements of the County as a component unit due to its financial relationship with the County.

B. Basis of Presentation:

Government-Wide Financial Statements

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. These statements include all funds of the County except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. For the years ended December 31, 2010 and 2009, the County had only governmental activities.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. The County also has fiduciary funds. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the County or meets the following criteria:

1. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type, and
2. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund are at least 5 percent of the corresponding total for all governmental funds.

The funds of the financial reporting entity are described below:

Governmental Funds

General Revenue Fund - The General Revenue Fund is the primary operating fund of the County and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are either legally restricted to expenditures for specified purposes or designated to finance particular functions or activities of the County. The reporting entity includes the following Special Revenue Funds, which are reported as major funds:

Fund	Description
Special Road and Bridge Fund	This fund as presented is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for road and bridge purposes.
Assessment Fund	This fund as presented was established as a result of Section 137.750, RSMo. The fund is used to account for all transactions surrounding the normal operating assessing function.
Law Enforcement Sales Tax Fund	To account for the revenues and expenditures associated with a 1/8 cent sales tax for law enforcement and judicial activities.

Recorders User Fee Fund is a major fund in 2009 and a nonmajor fund in 2010

Recorders User Fee Fund	This fund as presented is used to account for the fifty percent retainage of the $4.00 user's fees to be charged by the recorder as set out in Section 59.319, RSMo. This fund is to be used for record storage, microfilming and preservation.

The reporting entity also includes the following Special Revenue Funds which are reported as nonmajor funds:

Fund	Description
Children's Trust Fund	Accounts for fees collected by the Recorder of Deeds for the issuance of marriage licenses as set out in Section 451.151 RSMo.

Fund	Description
Domestic Violence Fund	This fund as presented is used to account for all transactions resulting from an increase of $5.00 for a marriage license and $10.00 for a decree of dissolution of marriage as set out in Section 455.205, RSMo. The use of these proceeds is restricted to providing financial assistance to shelters for victims of domestic violence.
Election Services Fund	This fund as presented is used to account for the receipt of the "proportional costs" of conducting an election when a question or candidate is submitted to a vote by two or more political subdivisions as set out in Section 115.065, RSMo. This fund is used for training programs and to purchase additional supplies or equipment to improve the conduct of elections.
Law Enforcement Restitution Fund	Accounts for revenues received and expenditures paid for the investigation, prevention and interventions of narcotics as set out in Section 50.550 and 50.565, RSMo.
Law Enforcement Training Fund	This fund as presented is used to account for all transactions resulting from an increase of $2.00 in court costs for criminal law violations as set out in Section 590.140, RSMo. The use of these proceeds is restricted to the payment of training expenses for law enforcement personnel.
Prosecuting Attorney Bad Check Fund	To account for the revenues and expenditures of the Prosecuting Attorney for the collection of insufficient funds checks as provided in Statute 570.1, RSMo. The Prosecuting Attorney retains a fee based on the amount of the collection recovered.
Prosecuting Attorney Delinquent Tax Fund	To account for fees collected as set out in Section 136.15, RSMo for the Prosecuting Attorney's collection of delinquent taxes, licenses, and fees for the State of Missouri.

Fund	Description
Prosecuting Attorney Retirement Fund	This fund as presented is used to account for all transactions resulting from a $4.00 surcharge in all criminal cases filed in courts of this state as set out in Section 56.807, RSMo. Each month, $271.00 is required to be remitted to the State of Missouri for a retirement fund for prosecuting attorneys. Excess funds over the amount required to be sent to the state can be returned to the General Revenue Fund. This fund was established under Section 56.807, RSMo.
Prosecuting Attorney Training Fund	This fund as presented is used to account for all transactions resulting from an increase of $1.00 in court costs for criminal law violations as set out in Section 56.765, RSMo. The use of these proceeds is restricted to the payment of training expenses for prosecuting attorneys.
Sheriff's Revolving Fund	This fund as presented is used to account for all transactions resulting from a fee of $95.25 processing each application for a certificate of qualification for a concealed weapon endorsement as set out in Section 50.535.10, RSMo. The use of these proceeds is restricted to use by law enforcement agents for purchase of equipment, training, and any reasonable expenses related to accepting and processing concealed weapons permit applications.
Sheriff's Civil Fee Fund	Accounts for civil fees collected by the Sheriff's Department. The use of the proceeds is restricted to Sheriff's department.
Forest Service Title III Fund	To account for National Forest revenues that are committed towards allowable Title III projects.
Collector's Tax Maintenance Fund	This fund as presented is used to account for the two-sevenths of the 7 percent fee charged by the Collector for collection of delinquent and back taxes as set out in Section 52.290, RSMo. This fund is to be used for additional administration and operation costs for the office of the collector.

Fund	Description
Ripley County Memorial Hospital Project Fund	This fund as presented is used to account for all transactions resulting from the receipt and disbursement of grant. Grant receipts are passed through to the Ripley County Memorial Hospital to be used to construct a new center.
Purnam CDBG Fund	To account for transactions resulting from the receipt and disbursement of a CDBG grant.

Fiduciary Fund Types (not included in government-wide statements)

Agency funds account for miscellaneous assets held by the County for other funds, governmental units, and individuals. The agency funds are custodial in nature and do not involve measurement of results of operations.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

In the government-wide Statement of Net Assets and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, within the limitations of the cash basis of accounting, as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus, as applied to the cash basis of accounting, is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the government-wide Statement of Net Assets and Statement of Activities and the fund financial statements, governmental, business-type, fiduciary activities are presented using a cash basis of accounting. This basis recognizes assets, liabilities, net assets/fund equity, revenues, and expenditure/expenses when they result from cash transactions. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Cash and Cash Equivalents

Section 110.270, RSMo, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in the U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The County has not adopted such a policy.

Cash and cash equivalents include both deposits and short-term investments. Investments are considered short-term when original maturities are less than three months. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions, and short-term U.S. Treasury bills.

Equity Classification

Government-Wide Statements - Equity is classified as net assets and displayed in two components:

1. Restricted net assets - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

2. Unrestricted net assets - All other net assets that do not meet the definition of "restricted".

It is the County's policy to first use restricted net assets prior to the use of unrestricted net assets when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Financial Statements - Governmental fund equity is classified as fund balance.

C. Revenues, Expenditures, and Expenses:

Program Revenues

In the Statement of Activities, cash basis revenues that are derived directly from each activity or from parties outside the County's taxpayers are reported as program revenues. The County has the following program revenues in each activity:

Revenue	Source
Judicial and Court Related	Various fees, fines, and costs.
Public Safety	Law enforcement fines and fees, and prosecuting attorney collections and fees.
Transportation	Grants for construction and operation of roads and bridges in the county.
Health and Welfare	Health and welfare collections and fees.
General County Government	Public officials fees.

All other governmental revenues are reported as general. All taxes are classified as general revenue even if restricted for a specific purpose.

D. Internal and Interfund Balances and Activities:

In the process of aggregating the financial information for the government-wide Statement of Net Assets and Statement of Activities, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified.

Fund Financial Statements

Interfund activity, if any, within and among the governmental fund categories is reported as follows in the fund financial statements:

1. Interfund reimbursements - Repayments from funds responsible for certain expenditures/expenses to the funds that initially paid for them are not reported as reimbursements but as adjustments to expenditures/expenses in the respective funds.

2. Interfund transfers - Flow of assets from one fund to another where repayment is not expected are reported as transfers in and out.

Government-Wide Financial Statements

Interfund activity and balances, if any, are eliminated or reclassified in the government-wide financial statements. Amounts reported as interfund transfers in the fund financial statements are eliminated in the government-wide Statement of Activities except for the net amount of transfers between governmental and business-type activities, which are

reported as Transfers-Internal Activities. The effects of interfund services between funds, if any, are not eliminated in the Statement of Activities.

E. Inventories and Capital Assets:

Inventories include office equipment, road and vehicle maintenance supplies, and fuel. Capital assets consist of land, buildings, furniture, equipment, vehicles, and infrastructure such as roads and bridges. Both inventories and capital assets are recorded as disbursement when they are purchased or constructed.

F. Long-Term Debt:

Consistent with the cash basis of accounting, long-term debt is not reported in the government-wide or fund financial statements. Proceeds from debt issuances are reported when received, and payments of principal and interest are reported when disbursements are made.

G. Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

H. Risk of Loss:

The County protects itself from risk of loss by purchasing commercial insurance for property damage and liability risks. The County does not self-insure its risk.

2. CASH AND INVESTMENTS

At December 31, 2010 and 2009, the reported amount of the County's deposits was $1,546,582 and $1,391,498, respectively. The bank balance for the years ended 2010 and 2009 was $4,260,740 and $3,775,595, respectively.

Reconciliation of government-wide Statement of Net Assets to the cash footnote:

	2010	2009
Cash and Cash Equivalents	$ 555,997	$ 538,423
Agency Funds	990,605	853,075
	$1,546,582	$1,391,498

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The County's deposit policy for custodial credit risk requires compliance with the provisions of state law. County policy further requires that all securities that serve as collateral against the deposits of a depository institution must be held in safekeeping at a non-affiliated custodial facility. Of the bank balance $624,653 and

$538,225 was covered by federal depository insurance and $3,636,087 and $3,237,370 was covered by collateral held by the County's safekeeping agent in the County's name for the years ended December 31, 2010 and 2009, respectively.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Missouri; bonds of any city having a population of not less than two thousand, county, school district, or special road district of the State of Missouri; bonds of any state, tax anticipation notes issued by any first class county, or a surety bond having an aggregate value at least equal to the amount of the deposits.

The County's investments at December 31, 2010 and 2009 are as follows:

	December 31, 2010	
Investment Type	Maturity	Amount
Certificates of Deposit	2/06/11	$57,932

	December 31, 2009	
Investment Type	Maturity	Amount
Certificates of Deposit	5/06/2010	$57,082

Certificates of deposit are classified as investments but are considered deposits for custodial risk determination. State statues require that the County's deposits be collateralized in the name of the County by the trust department of a bank that does not hold the collateralized deposits. As of December 31, 2010 and 2009, all certificates of deposit are entirely insured or collateralized with securities.

The County holds investments in U.S. Government agency obligations. These investments are stated at fair market value.

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The County has no formal investment policy regarding interest rate risk.

The County has an investment policy that limits its investment choices other than the limitation of state law as follows:

Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.

The County places a limit on the amounts it may invest in any one issuer. The County had no concentration of credit risk for the years ended December 31, 2010 and 2009.

3. ASSESSED VALUATION, TAX LEVY, AND LEGAL DEBT MARGIN

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are due and payable on or before December 31. Taxes paid after December 31 are subject to penalties. The County bills and collects its own property taxes and also taxes for most other local governments.

The 2010 and 2009 assessed valuation of the tangible taxable property (excluding railroad and utilities) and the tax levies per $100 assessed valuation of that property were as follows:

	2010	2009
ASSESSED VALUATION		
Real Estate	$67,158,672	$69,101,533
Personal Property	17,705,814	16,996,613
	$84,864,486	$86,098,146
TAX LEVY		
General Revenue Fund	$ .3015	$.2991

The legal debt margin is computed as follows:

Constitutional debt limit	$4,243,224	$4,304,907
General obligation bonds payable	-	-
Legal Debt Margin	$4,243,224	$4,304,907

Under Article VI, Section 26(b) and (c), Missouri Constitution, the County, by a vote of its qualified electors voting therein, may incur indebtedness for any purposes authorized by law of the County or by any general law of the State of Missouri. The borrowings authorized by this section shall not exceed five percent of the value of the taxable tangible property in the County.

4. RETIREMENT PLAN

1. County Employees' Retirement Fund (CERF)

A. Plan Description:

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter

form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000 could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity.

Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

Annual cost-of-living adjustments, not to exceed 1 percent, are provided for eligible retirees and survivor annuitants, up to a maximum of 50 percent of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statutes and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

B. Contributions:

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2 percent of gross compensation. Effective January 1, 2003, in addition to the prior contributions requirements, participating county employees hired on or after February 25, 2002 are required to make contributions of 4 percent if they are in a LAGERS county and contributions of 6 percent if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2010 and 2009, the County collected and remitted to CERF, employee contributions of approximately $94,105 and $99,477, respectively, for the years then ended.

5. INTERFUND TRANSFERS

Interfund transfers for the years ended December 31, 2010 and 2009, consisted of the following:

	Transfers In (Out)	
	2010	2009
General Revenue Fund	$ (88,003)	$ (70,779)
Special Road and Bridge Fund	(20,000)	(70,700)
Law Enforcement Sales Tax Fund	159,500	192,669
Forest Service Title III Fund	(26,000)	(27,669)
Election Services Fund	(7,595)	(1,939)
Prosecuting Attorney Bad Check Fund	(19,402)	(18,782)
Prosecuting Attorney Delinquent Tax Fund	-0-	(1,000)
Prosecuting Attorney Retirement Fund	2,200	2,200
Sheriff Revolving Fund	-0-	(4,000)
Recorder User Fee Fund	(1,000)	-0-
Ripley County Memorial Hospital Fund	300	-0-
	$ -0-	$ -0-

Transfers are used to (1) move receipts from the fund that statue or budget requires to collect them to the fund that statue or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

6. RISK MANAGMENT

The County is exposed to risk of loss due to property damage or theft, employee health or actions, and liability to the general public. The County seeks to overcome these risks through the purchase of commercial insurance. There has been no reduction in insurance compared to the previous year. The County has not settled claims resulting from these risks that exceeded its commercial coverage in any of the past three fiscal years.

The County is insured under a retrospectively rated policy for workers' compensation coverage. The initial premium may be adjusted based on actual experience. Adjustments in premiums are recorded when paid or received. During the years ended December 31, 2010 and 2009, there were no significant adjustments in premiums based on actual experience.

RIPLEY COUNTY, MISSOURI

NOTES TO BUDGETARY COMPARISON SCHEDULES

December 31, 2010 and 2009

1. BUDGETARY INFORMATION

The 2010 and 2009 annual budget, prepared under the cash basis of accounting, was adopted on January 29, 2010 and January 30, 2009, respectively for all revenues and expenditures of the General Revenue Fund and all special revenue funds of the County. Any increase in appropriations during the fiscal year must be approved by the County Commission. The 2010 and 2009 budget was amended on December 29, 2010 and December 23, 2009, respectively to authorize expenditures of unanticipated revenues received during the year. Any remaining unencumbered appropriations lapse at the end of each fiscal year.

2. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

During the year ended December 31, 2010, actual expenditures of the following funds exceeded budgetary limits by:

Fund	Amount Exceeding Budgetary Limits
Prosecuting Attorney Bad Check Fund	$495

During the year ended December 31, 2009, actual expenditures of the following funds exceeded budgetary limits by:

Fund	Amount Exceeding Budgetary Limits
Sheriff Civil Fees Fund	$4

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and
Officeholders of Ripley County, Missouri

Compliance

We have audited Ripley County, Missouri's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of Ripley County, Missouri's major federal programs for the years ended December 31, 2010 and 2009. Ripley County, Missouri's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Ripley County, Missouri's management. Our responsibility is to express an opinion on Ripley County, Missouri's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Ripley County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Ripley County, Missouri's compliance with those requirements.

As described in item 10-3 in the accompanying Schedule of Findings and Questioned Costs, Ripley County, Missouri did not comply with requirements regarding allowable costs/cost principles that are applicable to its Schools and Roads – Grants to States program. Compliance with such requirements is necessary, in our opinion, for Ripley County, Missouri to comply with the requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, Ripley County, Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009.

Internal Control Over Compliance

Management of Ripley County, Missouri is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Ripley County, Missouri's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 10-1 and 10-3 to be material weaknesses.

This report is intended solely for the information and use of the County Commission and Officeholders, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

RIPLEY COUNTY, MISSOURI

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

December 31, 2010 and 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Purpose of Schedule and Reporting Entity:

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with OMB Circular A-133. This circular requires a Schedule of Expenditures of Federal Awards showing total expenditures for each federal financial assistance program as identified in the Catalog of Federal Domestic Assistance (CFDA) and identification of programs that have not been assigned a CFDA number as "Other Federal Assistance."

The schedule includes all expenditures of federal awards administered by the County.

B. Basis of Presentation:

The schedule is presented in accordance with OMB Circular A-133, which defines federal financial assistance "…assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals."

C. Basis of Accounting:

The schedule is presented on the cash basis of accounting, which recognizes expenditures only when cash is disbursed. This is the same basis of accounting presented in the financial statements.

D. Federal Assurances:

Ripley County, Missouri did not have federal insurance in effect during the year, or have federal loans or loan guarantees outstanding at year end which are required to be reported in accordance with OMB Circular A-133.

RIPLEY COUNTY, MISSOURI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended December 31, 2010 and 2009

1. SUMMARY OF AUDITORS' RESULTS:

Financial Statements

Type of Auditors' report issued: Unqualified

Internal control over financial reporting:

- Material weaknesses identified? X yes ____ no
- Significant deficiencies identified that are not considered to be material weaknesses? X yes ____ none reported

Noncompliance material to financial statements noted? ____ yes X no

Federal Awards

Internal control over major programs:

- Material weaknesses identified? X yes ____ no
- Significant deficiencies identified that are not considered to be material weaknesses? ____ yes X none reported

Type of Auditors' report issued on compliance for major programs: Unqualified

Any audit findings disclosed that are required to be reported in accordance with Section 510(a) of Circular A-133? X yes ____ no

Identification of major program:

CFDA Number	Name of Federal Program
10.665	School and Roads – Grants to States
14.257A	Homeless Prevention and Rapid Re-Housing Program
16.588	Violence Against Women Formula Grant
97.036	Disaster Grants – Public Assistance Grants

Dollar threshold used to distinguish between type A and type B programs: $300,000

Auditee qualified as low-risk auditee: ____ yes __X__ no

2. FINANCIAL STATEMENT FINDINGS:

10-1 Segregation of Duties

Criteria: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Condition: Some employees have access to both physical assets and the related accounting records, or to all phases of a transaction.

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Cause: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties.

Recommendation: We recognize that the County may not have the resources to have an accounting professional with the knowledge, experience, and training to prepare governmental financial statements in conformity with Governmental Accounting Standards. However, we recommend that management continue to increase their knowledge of financial reporting.

Views of Responsible Officials: The limited number of available personnel prohibits segregation of incompatible duties.

10-2 Preparation of Basic Financial Statements

Criteria: A properly designed system of internal control, which includes preparation of financial statements in conformity with Governmental Accounting Standards, includes having accounting professionals as part of the system to perform that function.

Condition: The County has personnel in place to perform all bookkeeping functions necessary to maintain a general ledger and prepare internal use statements for management and the County Commission. However, the County does not have personnel with the knowledge, experience and training to prepare governmental financial statements in conformity with Governmental Accounting Standards as part of their internal control system.

Effect: The County employs the auditors that perform the biannual audit of the financial statements to prepare the biannual financial statements.

Cause: The County does not have personnel with sufficient knowledge to prepare governmental financial statements in conformity with Governmental Accounting Standards as part of their internal control system.

Recommendation: We recognize that the County may not have the resources to hire personnel with the knowledge to prepare governmental financial statements in conformity with Governmental Accounting Standards. However, we recommend that management continue to increase their knowledge of financial reporting.

Views of Responsible Officials: The County does not have the resources to hire additional accounting personnel with the knowledge, experience, and training solely to prepare governmental financial statements in conformity with Governmental Accounting Standards. The County does have personnel with sufficient knowledge to understand and take responsibility for the basic financial statements.

FEDERAL AWARD FINDINGS AND QUESTIONED COSTS:

This section includes the audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

10-3 Schools and Roads – Grants to States

Federal Grantor -	U.S. Department of Agriculture
Pass-Through Grantor -	State Office of Administration
Federal CFDA Number -	10.665
Program Title -	Schools and Roads – Grants to States
Pass-Through Entity Identifying Number -	Not Applicable

Award Years - 2010 and 2009
Questioned Costs - $50,895

Criteria: Federal guidelines indicate Title III monies may be used for reimbursement for emergency service costs on public lands, costs for supervising mandatory community service work on public lands, easements for non-motorized access or conservation, forest-related educations, fire prevention and planning, and community forestry.

Condition: During the years ended December 31, 2010 and 2009, Ripley County received $1,025,545 through the Schools and Roads – Grants to States Program and retained $50,895 for Title III projects. Seventy-five percent of the remaining amount was disbursed to the school districts in the county and twenty-five percent was retained for the Road and Bridge (Unapportioned) Fund.

The $50,895 was credited to the Law Enforcement Sales Tax Fund. Supporting documentation was not available to indicate Title III monies were spent as allowed by the Schools and Roads – Grants to States Program. No other documentation is available to support Title III expenditures.

Effect: As a result, we question costs of $50,895 which represent Title III monies without adequate supporting documentation. Without adequate supporting documentation, the County cannot ensure Title III monies were expended as allowed by federal guidelines.

Cause: Responsible officials believe call logs are sufficient to document expenditure of Title III funds.

Recommendation: We recommend that the County Commission ensure Title III expenditures are supported by adequate documentation and work with the grantor agency to resolve the questioned costs.

Views of Responsible Officials: As indicated above, federal guidelines indicate Title III monies may be used for reimbursement for emergency service costs on public lands. There is approximately 100,000 acres of land in Ripley County owned by the Federal Forest Service. This equates to about one-fourth of the total land mass. There are several sites for which the Sheriff's department receives a multitude of calls for disturbances, thefts, fights, etc. The amount of monies received from Title III is less than 10% of the Sheriff's operating budget. Call logs are available to document the number of calls that would be attributable to emergencies on Federal lands. Therefore, we disagree with the aforementioned finding.

RIPLEY COUNTY, MISSOURI

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

For the Year Ended December 31, 2010 and 2009

1. FINANCIAL STATEMENT FINDINGS

There were no financial statement findings in the audit of the years ended December 31, 2008 and 2007.

2. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

08-1 Schools and Roads – Grants to States.

Federal Grantor -	U.S. Department of Agriculture
Pass-Through Grantor -	State Office of Administration
Federal CFDA Number -	10.665
Program Title -	Schools and Roads – Grants to States
Pass-Through Entity Identifying Number -	Not Applicable
Award Years -	2008 and 2007
Questioned Costs -	$71,829

Condition: During the two years ended December 31, 2008, Ripley County received Schools and Roads – Grants to States Program and retained $71,829 for Title III projects. The $71,829 was credited to the Law Enforcement Sales Tax Fund. Supporting documentation was not available to indicate Title III monies were spent as allowed by the Schools and Roads – Grants to States Program.

No other documentation is available to support Title III expenditures. As a result, we question costs of $71,829 which represent Title III monies without adequate documentation. Without adequate supporting documentation, the County cannot ensure Title III monies were expended as allowed by federal guidelines.

Status: Not implemented and is repeated as Finding 10-03.

08-2 Violence Against Women Formula Grants

Federal Grantor -	U.S. Department of Justice
Pass-Through Grantor -	State Department of Public Safety
Federal CFDA Number -	16.588
Program Title -	Violence Against Women Formula Grants (DVERT)

Pass-Through Entity Identifying Number -	2005 WEAX 005
Award Years -	2008 and 2007
Questioned Costs -	Unknown

Condition: The director of the Violence Against Women program was reimbursed mileage for commuting from his home to workplace. Reimbursements should only be made for mileage from his regular workplace to other locations as required in the performance of his duties. Any reimbursement for commuting should be included as wages on the employee's W-2. These reimbursements were not reported on the employee's W-2.

Status: Implemented.

08-3 Violence against Women Formula Grants

Federal Grantor -	U.S. Department of Justice
Pass-Through Grantor -	State Department of Public Safety
Federal CFDA Number -	16.588
Program Title -	Violence Against Women Formula Grants (DVERT)
Pass-Through Entity Identifying Number -	2005 WEAX 005
Award Years -	2008 and 2007
Questioned Costs -	Unknown

Condition: Salaries paid to an employee from the Violence Against Women Grant Funds are not properly documented by time entry. The employee has duties under both the LEST and DVERT programs but does not document how much time she spends on each duty. Therefore, the County must arbitrarily allocate a percentage of her time to the DVERT program in order to determine amounts to be paid from grant funds.

Status: Implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Harrison County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Harrison County, and issues a separate report on that audit. In addition, in cooperation with the county, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Kevin G. Hudson, Certified Public Accountants, is attached.

Independent Auditors' Report

To the County Commission of
Harrison County, Missouri
Bethany, Missouri

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Harrison County, Missouri, (the County) as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

As discussed more fully in Note 1, the County prepares its financial statements on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position-cash basis of the governmental activities, each major fund, and the aggregate remaining fund information of the County as of December 31, 2010 and 2009, and the respective changes in financial position-cash basis, thereof for the years then ended in conformity with the basis of accounting described in Note 1.

Independent Auditors' Report
(Concluded)

In accordance with *Government Auditing Standards,* I have also issued my report dated August 31, 2011, on my consideration of the County's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with the *Government Auditing Standards* and should be considered in assessing the results of my audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information, budgetary comparison information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and is not a required part of the basic financial statements of Harrison County, Missouri. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Original Signed by Auditor

Kevin G. Hudson, C.P.A.
Trenton, Missouri

Harrison County, Missouri
Management's Discussion and Analysis
For the Two Years Ended December 31, 2010

The discussion and analysis of Harrison County's financial performance provides an overall review of the County's financial activities for the years ended December 31, 2010 and 2009. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the basic financial statements, including the notes to the financial statements, to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2010 and 2009 are as follows:

- The county's total governmental revenues exceeded total expenditures by $462,143 for the year ended December 31, 2010. The total expenditures exceeded governmental receipts by $135,798 for the year ended December 31, 2009.

- The county's governmental funds ended the year ended December 31, 2010 with a combined cash balance of $2,432,666 and the year ended December 31, 2009 of $1,970,523.

- County revenues for the year ended December 31, 2010 of $4,552,337 increased by $282,591 over the county revenues for the year ended December 31, 2009 of $4,269,746. This increase is related to FEMA grants received during 2010.

.

- County expenditures for the year ended December 31, 2010 of $4,090,194 decreased by $315,530 over the county expenditures for the year ended December 31, 2009 of $4,405,544.

Overview of the Financial Statements

The contents of this report comply with the presentation requirements of Statement No.34 of the Governmental Accounting Standards Board, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments,* as applicable to the cash basis of accounting. The county's basic financial statements consist of government-wide financial statements, fund financial statements, and notes to the financial statements. The notes are an integral part of the government-wide and fund financial statements and provide more detail about the information presented in the statements. This report also contains other financial information in addition to the basic financial statements.

The county has elected to present its financial statements on the cash basis of accounting, a basis of accounting other than accounting principles generally accepted in the United States of America. "Basis of accounting" refers to when financial events are recorded. Under the cash basis of accounting, revenues are recorded when received rather than when earned, and expenditures are recorded when paid rather than when the related liabilities are incurred. Therefore, when reviewing the financial information and discussion in this report, the reader should recall the limitations resulting from use of the cash basis of accounting.

Government-Wide Financial Statements

The Government-Wide Statement of Net Assets and the Government-Wide Statement of Activities report information about the county as a whole. These statements present the county's net assets and show how they have changed. Over time, increases or decreases in the county's net assets are one indicator of whether its financial health or position is improving or deteriorating. However, to assess the county's overall financial health, the reader needs to consider additional nonfinancial factors. The government-wide financial statements report only governmental activities - activities such as general government operations, public safety, and health and welfare that are usually financed through taxes and intergovernmental receipts. The county has no business-like activities-activities financed wholly or partially by fees charged to external parties for goods or services.

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the county as a whole. Some funds are required to be established by state law or by bond covenants. However, the County Commission establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, or other sources of receipts. The fund financial statements include only governmental funds, which focus on the flow of money into and out of those funds and the balances left at year end that are available for spending. The governmental fund statements provide a detailed view of the county's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether more or fewer financial resources can be spent in the near future to finance the county's programs.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages18-26 of this report.

Other Information

This report also includes as required supplementary information this Management's Discussion and Analysis and the Budgetary Comparison Schedules for all governmental, special revenue funds and capital projects funds - cash basis. Such information is intended to supplement the government-wide financial statements, fund financial statements, and notes to the financial statements but is not a part of those statements.

In addition, the report includes the following components that are not a required part of the financial statements: the Schedule of Expenditures of Federal Awards, required for audits of federal program expenditures conducted in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.*

Government-wide Financial Analysis

Below is a chart showing assets, receipts and disbursements for the years ended December 31, 2010 and 2009.

	Year Ended December 31, 2010	2009
Net Assets	$2,432,666	$ 1,970,523
Program Receipts	2,381,231	1,958,989
General Receipts	2,171,106	2,310,757
Disbursements	4,090,194	4,405,544
Change in Net Assets	462,143	(135,798)

For the two years disclosed in the audit, the change in Net Assets is primarily due to the General Fund. This fund had net assets of $1,029,929 in 2009 as compared to $1,211,214 in 2010. The FEMA/SEMA fund also had an increase in net assets of $291,481 for the year ended December 31, 2010. Most of this increase in net assets can be attributed to unexpended grant funds. General receipts did not fluctuate much between 2010 and 2009. Program receipts increased in 2010 due to the county receiving grant funds for the bridge construction project as well as FEMA grant funds for storm cleanup. Disbursements decreased between 2010 and 2009 due to the Special Road and Bridge fund and the bridge project that was in process during 2009. There was an increase of $92,321 in disbursements in this fund between the two years.

Financial Analysis of the County's Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

As of December 31, 2010, the county's governmental funds reported combined ending fund balances of $2,432,666, an increase of $462,143 over the prior years fund balance of $1,970,523. The unreserved portion of fund balance was $1,211,214 for 2010 and $1,029,929 for the year ended 2009. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed.

The General Fund is the chief operating fund of the County. At the end of the fiscal year 2010, unreserved fund balance of the General Fund was $1,211,214 and the unreserved fund balance of the General Fund for fiscal year 2009 was $1,029,929. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures.

The unreserved fund balance of the General Fund increased by $181,285 for fiscal year 2010 as compared to an increase of $111,246 for fiscal year 2009.

County Revenue Fund Budgeting Highlights

The County's budget is prepared according to Missouri law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the county's General Fund.

The original and final budgeted revenues for the general fund were $1,012,172 for 2010 and $1,463,144 for 2009. The original and final budgeted expenditures were $1,099 844 for 2010 and $1,601,752 for 2009.

The County did not make any budget amendments to various funds.

Economic Factors and Next Year's Budgets

The county sales taxes and property taxes have increased slightly in the past two years, which is a positive sign for revenue growth.

The County's General Fund has increased $292,531 over the two year period that was audited. This is encouraging due to the current economic times. The increased costs for fuel, materials, equipment, utilities, and operating expenditures continues to be a source of concern as well as the general state of the economy.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, creditors, and investors with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the County Clerk, P.O. Box 525, Bethany, Missouri 64424, (660) 425-6424.

Note 1: Summary of Significant Accounting Policies

The financial statements of Harrison County, Missouri (the County) have been prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The County has adopted the reporting model as required by GASB Statement 34, for the presentation of information in the government-wide financial statements and the major fund statements. The more significant of the County's accounting policies are described below.

A. Reporting Entity

In evaluating the County as a reporting entity, management has addressed all potential component units (traditionally separate reporting entities) for which the County may be financially accountable and, as such, should be included within the County's financial statements. The County (the primary government) is financially accountable if it appoints a voting majority of the organization's government board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefit or to impose specific financial burden on the County. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such at exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Based on the application of the above criteria, the county has no component units.

B. Basis of Presentation

Government-wide Statements

The Statement of Net Assets and the Statement of Activities present financial information about the County's governmental activities. These statements include the financial activities of the primary government in its entirety. Eliminations have been made to minimize the double-counting of internal transactions. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-like activities are financed wholly or partially by fees charged to external parties for goods or services. For the years ended December 31, 2010 and 2009, the county had only governmental activities.

Note 1: Summary of Significant Accounting Policies (Continued)

The Government-Wide Statement of Net Assets presents the financial condition of the county's governmental activities at year-end. The Government-Wide Statement of Activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) intergovernmental receipts that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenue. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing or draws from the general receipts of the county.

Fund Financial Statements

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The county uses funds to segregate transactions related to certain functions or activities in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the county primary government at this detailed level. The fund financial statements focus on major funds. Each major fund is presented in a separate column, and nonmajor funds are aggregated and presented in a single column. Major funds include (a) the county's primary operating fund, (b) any fund for which total cash, receipts or disbursements of an individual fund are at least 10% of the corresponding element total for all funds of that type, and © any other fund that county officials believe is particularly important to financial statement users.

The accompanying financial statements are structured into one category of funds - governmental. Governmental funds are those through which most governmental functions are typically financed. Reporting for such funds focuses on the sources, uses, and balances of current resources. The county's major governmental funds are as follows:

General Fund - The General Fund is used to account for all revenues and expenditures applicable to the general operations of county government that are not properly accounted for in another fund. All general operating revenues that are not restricted or designated as to their use by outside sources are recorded in the General Fund. Revenues are derived primarily from taxes and intergovernmental revenues.

Special Revenue Funds - The Special Revenue Funds are used to account for the proceeds of specific revenue that are legally restricted to expenditure for specified purposes. The Special Road and Bridge Fund, Harrison County Lake Fund, 911 Fund and ½ Cent Law Enforcement Sales Tax Fund are all considered Special Revenue Funds.

The county's nonmajor governmental funds are also special revenue funds.

Note 1: Summary of Significant Accounting Policies (Continued)

Fiduciary funds account for assets held by the county as a trustee or an agent for individuals, private organizations, other governments, or other funds. Fiduciary fund reporting focuses on net assets and changes in net assets; fiduciary assets are reported in a separate Statement of Fiduciary Net Assets because the county cannot use those assets to finance its operations. The county's fiduciary funds consist of agency funds, which report assets held in a purely custodial capacity and do not involve measurement of results of operations.

The agency funds include the County Collector's Fund, School Fines Fund, Intangible Tax Fund and County Employees Retirement Fund. These funds are all included in the accompanying Statement of Fiduciary Net Assets.

C. Basis of Accounting

Basis of accounting refers to when transactions are recorded in the financial records and reported in the financial statements. The government-wide and fund financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. Consequently, certain assets and their related revenues (such as accounts receivable and revenues billed but not yet collected for goods and services provided) and certain liabilities and their related expenditures (such as accounts payable and expenditures for goods and services received but not yet paid for) are not recorded in these financial statements. Generally accepted accounting principles for state and local governments require revenues to be recognized when they are earned or when they become available and measurable and expenditures or expenses to be recognized when the related liabilities are incurred.

Equity classifications: On the Government-Wide Statement of Net Assets, equity is classified as net assets and displayed in two components: restricted and unrestricted. Net assets are reported as restricted when limitations are imposed on their use through either the enabling legislation adopted by the County Commission or external restrictions imposed by creditors, grantors, or the laws and regulations of other governments. All other net assets are reported as unrestricted. The county applies restricted resources first when a disbursement is made for which both restricted and unrestricted net assets are available.

In the fund financial statements, equity is classified as fund balance and also may be displayed in two components: reserved and unreserved. Fund balance is reported as reserved to indicate that a portion of the fund balance is not available for appropriation or is legally segregated for a specific future use. When such restrictions do not exist, fund balance is reported as unreserved.

D. Vacation, Personal and Sick Leave

Vacation time, personal time is considered as expenditures in the year paid. Vacation time is awarded based on years of service and must be used in its entirety prior to the employee's next anniversary date. The county does not have personal days, but comp time can be earned by working overtime.

Note 1: Summary of Significant Accounting Policies (Continued)

E. Budgets and Budgetary Accounting

The County follows the following procedures in establishing the budgetary data reflected in the financial statements:

1) In accordance with Chapter 50, (Sections 50.525 through 50.745, RSMo 2000), the County adopts a budget for various County funds.

2) Prior to December 31, each department, office, institution, commission, or court of the County submits to the budget officer its requirements for expenditures and its estimated revenues for the next budget year. These figures are presented with corresponding figures for the last completed year and an estimate of the current year.

3) The budget officer holds public hearings prior to presentation of the budget document to the County Commission no later than January 15th of each year.

4) A public hearing is held not earlier than 10 days after the budget document is made available to the public and with at least 5 days notice of the hearing.

5) Amendments to the budget are made by the County Commission as required to allow for appropriation of increased revenues and adjustments between line items within the budget. No budget amendments were made for 2010 and 2009. Please see budgetary comparison schedules in required supplementary information for further details.

The County's policy is to prepare the annual operating budget on a cash basis.

F. Prior Period Adjustments

In the prior year, the County was required to include the Circuit Clerk Interest Fund, the Law Library Fund and the Passport Fund in the County's financial statements. For the two years ended December 31, 2010, the County is no longer required to include these funds in the financial statements. The omission of these funds caused the beginning fund balance to be adjusted by $24,274.

G. Inventories and Capital Assets

Inventories include office equipment, road and vehicle maintenance supplies, and fuel. Capital assets consist of land, buildings, furniture, equipment, vehicles, and infrastructure such as roads and bridges. Both inventories and capital assets are recorded as disbursements when they are purchased or constructed.

Note 1: Summary of Significant Accounting Policies (Continued)

H. Long-Term Debt

Consistent with the cash basis of accounting, long-term debt is not reported in the government-wide or fund financial statements. Proceeds from debt issuances are reported when received, and payments of principle and interest are reported when disbursements are made.

I. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J. Risk of Loss

The County protects itself from risk of loss by purchasing commercial insurance for property damage and liability risks. The County does not self insure its risks.

Note 2: Stewardship, Compliance and Accountability

Compliance with Finance Related Legal and Contractual Provisions

The County incurred no material violations of finance related legal and contractual provisions.

Excess of Expenditures Over Appropriations in Individual Funds

For the year ended December 31, 2010, the County had an excess of expenditures over appropriations in the Post Commission Training Fund, Prosecuting Attorney Bad Check Fund, Harrison County Lake Fund, Victims of Domestic Violence Fund, Over-Surplus Fund and Senior Citizens Tax Fund. For the year ended December 31, 2009, the County had an excess of expenditures over appropriations in the Sheriff Training Fund, Prosecuting Attorney Training Fund, Harrison County Lake Fund, Victims of Domestic Violence Fund and LEPC Fund.

Net Assets/Fund Balance Deficit

The County had no funds with a deficit fund balance for the two years ended December 31, 2010.

Note 3: Cash and Investments

Deposits - At December 31, 2010 and 2009, the carrying amount of the County's deposits was $2,540,783 and $2,098,039 respectively. The bank balance for the year ended December 31, 2010 and 2009 was $2,425,838 and $1,967,136 respectively. Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The County's deposit policy for custodial credit risk requires compliance with the provisions of state law. County policy further requires that all securities that serve as collateral against the deposits of a depository institution must be held in safekeeping at a non-affiliated custodial facility. Of the bank balance, $250,000 was covered by federal depository insurance and $2,290,783 was covered by collateral held by the County's safekeeping agent in the County's name at December 31, 2010 and $1,848,039 for the year ended December 31, 2009.

The Senior Citizens Tax Fund deposits at December 31, 2010 and 2009, and the County's Collector's deposits at December 31, 2010 and 2009, were not exposed to custodial credit risk because they were entirely covered by federal depositary insurance, by collateral securities held by the county's or board's custodial bank in the county's or board's name.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Missouri; bonds of any city having a population of not less than two thousand, county, school district, or special road district of the State of Missouri; bonds of any state, tax anticipation notes issued by any first class county, or a surety bond having an aggregate value at least equal to the amount of the deposits

Investments - The county may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements maturing and becoming payable within ninety days secured by U.S. Treasury obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law.

Interest Rate Risk - Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The County has no formal investment policy regarding interest rate risk.

Investment Credit Risk - The County has no investment policy that limits its investment choices other than the limitation of state law as follows:

a. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.

b. Certificates of deposit or savings accounts that are either insured or secured with acceptable collateral with in state financial institutions, and fully insured certificates of deposit or savings accounts in out-of-state financial institutions.

Concentration of Credit Risk - The County places no limit on the amount it may invest in any one issuer. For the two years ended December 31, 2010, the County had no concentration of credit risk.

Note 4: Taxes

Property taxes attach as an enforceable lien on property as of January 1 each year. Taxes are levied on November 1st and payable by December 31st of each year. Taxes paid after December 31 are subject to penalties. The county bills and collects its own property taxes and also taxes for most other local governments (except some cities). The assessed valuation of the tangible taxable property for the calendar years 2010 and 2009 for purposes of County taxation was as follows:

	2010	2009
Real Estate	$ 61,708,350	$ 64,115,520
Personal Property	25,401,670	25,830,550
Railroad and Utilities	8,660,994	8,020,412
Total	$ 95,771,014	$ 97,966,482

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

The tax levy per $100 of the assessed valuation of tangible taxable property for the calendar years 2010 and 2009 for purposes of County taxation was:

	2010	2009
General Revenue Fund	$ .3773	$ .3773
Total	$ .3773	$ .3773

Note 5: Commitments and Contingencies

The county is a party to various legal proceedings. At the date of these financial statements, the County cannot estimate its liability, if any, from losses that may result from certain proceedings. In the opinion of management and the County attorneys, the potential adverse impact of these proceedings would not be material to the combined financial statements of the County.

The County has several federal and state grants for specific purposes that are subject to review and audit by grantor agencies. Such audits could result in reimbursements to the grantor agency for expenditures disallowed under the terms of the grant. County management is not aware of any potential losses from such disallowance and believes that reimbursements, if any, would not be material.

Note 6: County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

A. Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than (1,000) one thousand hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994. The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

B. Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit by calculating using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement at age fifty-five with reduced benefit is allowed for vested employees.

Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, Missouri 65102-2271, or by calling 1-573-632-9203.

Note 6: County Employees' Retirement Fund (CERF) (Concluded)

C. Funding Policy

In accordance with State Statutes, the Plan is funded through various fees collected by counties and remitted to the CERF. Eligible employees hired before February 2002 have an option to contribute 2% of their annual salary, while employees hired after February 2002 are required to contribute 6% of their annual salary in order to participate in the CERF. During 2010 and 2009, the County collected and remitted to CERF, employee contributions of approximately $94,792 and $94,102 respectively, for the years then ended.

FEDERAL COMPLIANCE SECTION

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the County Commission of
Harrison County, Missouri
Bethany, Missouri

I have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Harrison County, Missouri as of and for the two years ended December 31, 2010, which collectively comprise of the County's basic financial statements and have issued my report thereon dated August 31, 2011. In my report, the county prepares its financial statements on a prescribed basis of accounting that demonstrates compliance with the cash basis and budget laws of the State of Missouri, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the County's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing an opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Basic Financial Statements Performed in Accordance with Government Auditing Standards (Concluded)

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information of the Board of Commissioners, management, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Original Signed by Auditor

Kevin G. Hudson, C.P.A.
Certified Public Accountant
August 31, 2011

Independent Auditors' Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

To the County Commissioners
Harrison County, Missouri
Bethany, Missouri

Compliance

I have audited the compliance of the Harrison County, Missouri with the types of compliance requirements described in the OMB Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the two years ended December 31, 2010. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County's management. My responsibility is to express an opinion on the County's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. *Those standards and OMB* Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on the County's compliance with those requirements.

In my opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the two years ended December 31, 2010.

Internal Control Over Compliance

The management of the County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance*, is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above. However, I identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2010-1 that I consider to be a significant deficiency in internal control over compliance.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Harrison County, Missouri's response to the finding identified in my audit is described in the accompanying schedule of findings and questioned costs. I did not audit Harrison County, Missouri's response and, accordingly, I express no opinion on the response.

This report is intended solely for the information and use of the Board of Commissioners, management, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

The accompanying Notes to the Supplementary Schedule are an integral part of this schedule

Harrison County, Missouri
Notes to the Supplementary Schedule
For the Years Ended December 31, 2010 and 2009

Note 1: Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA number is not available.

This schedule includes all federal awards administered by Harrison County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of cash awards.

C. Basis of Accounting

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Note 2: Subrecipients

The county provided a Community Development Block Grant to the Public Water Supply District No.2 of Harrison County in the amount of $500,000 during the year ended December 31, 2010.

Harrison County, Missouri
Schedule of Findings and Questioned Costs
Years Ended December 31, 2010 and 2009

Section I - Summary of Auditors' Results

Financial Statements

Type of auditor's report issued	Unqualified
Internal control over financial reporting:	
Material weakness(es) identified	_Yes X No
Significant deficiencies identified not considered to be material weaknesses?	_Yes X None Reported
Noncompliance material to financial statements noted	_Yes X No

Federal Awards

Internal control over major programs:	
Material weakness(es) identified?	_Yes X No

20.205	Highway Planning and Construction
97.067	Homeland Security Grant Program
14.228	Community Development Block Grant/States Program

Dollar threshold used to distinguish between Type A and Type B programs:	$ 300,000
Auditee qualified as low-risk auditee	_Yes X No

Harrison County, Missouri
Schedule of Findings and Questioned Costs
Years Ended December 31, 2010 and 2009

Section II - Financial Statement Findings

This section contains no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Section III - Federal Award Findings and Questioned Costs

Finding No. 2010-1 Incorrect Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Housing and Urban Development
Pass-through Grantor: Missouri Department of Economic Development
Federal CFDA Number: 14.228
Program Title: Community Development Block Grant/States Program
Award Year: 2010
Questioned Costs: None

Condition: As a recipient of federal grant funds, the County is required to comply with Office of Management and Budget (OMB) Circular A-133. Subpart C, Section 300(A) of the Circular requires the recipient of federal funds to accurately report the amount of federal funds expended each year on a Schedule of Expenditures of Federal Awards (SEFA). The SEFA for the year ended December 31, 2010 was inaccurate in that the County failed to include expenditures incurred for the Community Development Block Grant. This grant was passed through the County to the Public Water Supply District No.2 of Harrison County. This resulted in federal expenditures being understated by $500,000 for 2010. The SEFA included in this report has been adjusted to correct this condition.

Recommendation: I recommend that the County Clerk ensure that all federal programs are included in the SEFA.

County's Response - The SEFA will be reviewed and all programs and appropriate expenditures will be recorded.

Harrison County, Missouri
Follow-Up on Prior Audit Findings for an Audit of Financial
Statements Performed in Accordance with *Government Auditing Standards*

In accordance with *Government Auditing Standards,* this section reports the auditor's follow-up on action taken by Harrison County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008. There were no prior audit findings that *Government Auditing Standards* requires to have follow up action taken by Harrison County, Missouri for the two years ended December 31, 2008.

Harrison County, Missouri
Summary Schedule of Prior Audit Findings In Accordance with OMB Circular A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133, requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

The prior audit report issued for the two years ended December 31, 2008, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

City of Pacific
Municipal Division

October 2011

Report No. 2011-84

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Twentieth Judicial Circuit, City of Pacific Municipal Division

Controls and Procedures	The municipal division needs to improve its internal controls and procedures. An independent comparison of receipt slips issued to deposits is not performed, deposits are not made timely, and the police department does not transmit bond monies to the municipal division promptly, all of which make it difficult to ensure transactions are accounted for properly and assets are protected. The municipal division does not account for the numerical sequence of receipt slips and does not follow up on outstanding checks. The municipal division does not ensure insufficient funds checks are collected and posted to the defendant's case file as amounts still owed.
Bond Liabilities	The municipal division does not adequately reconcile the bond account to the bond liabilities list. The bond account is short $357 due to five instances over the past 8 years where a defendant was refunded too much money. Also, 41 bonds (totaling $8,977) have been held for more than a year, and four of these date back more than 10 years.
Ticket Accountability	Neither the municipal division nor the police department account for the numerical sequence of tickets issued, so there is no assurance all tickets have been properly submitted to the municipal division for processing.

In the areas audited, the overall performance of this entity was **Fair**.*

American Recovery and Reinvestment Act 2009 (Federal Stimulus)	The Twentieth Judicial Circuit, City of Pacific Municipal Division, did not receive any federal stimulus monies during the audited time period.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

2. Bond Liabilities 7
3. Ticket Accountability 8

Organization and Statistical Information 9

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge
Twentieth Judicial Circuit
and
Municipal Judge
Pacific, Missouri

We have audited certain operations of the City of Pacific Municipal Division of the Twentieth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2011. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, and (2) noncompliance with legal provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Pacific Municipal Division of the Twentieth Judicial Circuit.

A petition audit of the City of Pacific, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Alice M. Fast, CPA, CGFM, CIA
Audit Manager:	Debra S. Lewis, CPA
In-Charge Auditor:	Chris Vetter, CPA
	Carl Zilch, Jr., CIA
Audit Staff:	Jay Dowell, MBA

1. Controls and Procedures

Improvements are needed with the municipal division's internal controls and procedures.

1.1 Segregation of duties

Although the municipal division has established some procedures to segregate duties, no one independent of the receipt process performs a comparison of receipts slips issued to amounts deposited. As a result, there is less assurance all transactions are accounted for properly and assets are adequately safeguarded. The City Administrator receives, reviews, and signs the bank statements, and the City Clerk reviews monthly bank reconciliations to ensure the reconciled balance agrees to the book balance.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, an independent review of the work performed by the Court Clerk is necessary.

1.2 Deposits/transmittals

Fines and court costs collected by the municipal division are not deposited timely and bond monies collected by the police department are not transmitted to the municipal division in a timely manner. As a result, there is less assurance monies received are accounted for properly and adequately safeguarded.

Our review of deposits in February 2011, identified several instances when receipts were deposited several weeks after monies were collected. For example, receipts collected from February 4 through February 11, 2011, totaling $2,324, were not deposited until February 25, 2011, and receipts collected from February 14 through February 17, 2011, totaling $6,275, were not deposited until March 2, 2011. Also, only three transmittals of bonds, totaling $10,937, were made from the police department to the municipal division in March 2011. The police department normally collects bond monies on a daily basis.

To adequately safeguard receipts and reduce the risk of loss or misuse of funds, all monies should be transmitted and deposited in a timely manner.

1.3 Numerical sequence of receipt slips

The municipal division does not account for the numerical sequence of manual receipt slips issued, and as a result, there is less assurance all monies received have been accounted for properly. In addition, the municipal division does not indicate the computer system receipt number on the manual receipt to indicate it has been posted to the system.

A receipt slip is generated when payment is posted to the municipal division's computer system; however, municipal division personnel issue manual receipt slips when the Court Clerk is unavailable, the ticket has not been received from the police department and posted to the computer

system, or a dropped charge fee is received. The manual receipt slips are posted to the computer system at a later date. Our review of manual receipt slips issued noted several receipt slip numbers and some blocks of sequential receipt slips were skipped in the sequence used. The municipal division could not locate the skipped receipt slips to determine if the receipt slips had been issued or were unused.

Without accounting for the numerical sequence of manual receipt numbers issued, the municipal division cannot ensure all monies are properly recorded and deposited. In addition, documenting the computer receipt number on the manual receipts would provide assurance all monies have been posted to the computer system.

1.4 Outstanding checks

Follow up on outstanding checks has not been performed for the bond account or the fines and court costs account. In addition, the outstanding check lists of both accounts for older checks only include a calculator tape of the amount of the checks without corresponding check numbers or dates issued. As a result, the municipal division may not be able to efficiently and effectively follow-up on outstanding checks to ensure all monies are appropriately disbursed. At March 31, 2011, 41 checks, totaling $2,162, in the bond account and 19 checks, totaling $875, in the fines and court cost account had been outstanding for over a year.

Follow up on outstanding checks is necessary to ensure monies are appropriately disbursed to the payee or as otherwise provided by state law. In addition, to ensure an effective and efficient follow up can be performed outstanding check lists should include all necessary information such as the amount and the corresponding check number.

1.5 Non-sufficient funds checks

The municipal division does not have adequate procedures in place to ensure non-sufficient funds (NSF) checks are collected, adjustments are made to the distribution of fines and court costs, and NSF checks are posted to the defendant's computerized case file to reflect amounts still owed. As a result, the court may be unaware of action which should be taken regarding these cases, such as issuing warrants. In addition, the fines and costs account is short by $588, which is the total overpaid to the city and state for the NSF checks. The court has been able to cover this shortage with the $500 startup money in the account.

The municipal division does not post the NSF checks to the computer system to indicate the defendant's check was returned and payment is still due from the defendant or adjust the checkbook balance. In addition, adjustments are not made to deduct NSF check amounts from monthly disbursements of fines and costs to the city and state. Restitution for NSF checks may not be received until several months after the receipt was initially collected and, in some instances, restitution may never be received.

The fines and court cost account book balance is overstated and has to be adjusted each month for the same NSF checks in order to reconcile the book balance to the bank balance. On the March 31, 2011, bank reconciliation, the book balance was reduced for seven NSF checks which date back to April 2009. Warrants had not been issued for some of the NSF checks noted on the reconciliations.

Without adequate procedures for the collection and recording of NSF checks, the municipal division cannot ensure amounts due from defendants are properly tracked in the computer system.

Recommendations

The City of Pacific Municipal Division:

1.1 Ensure a periodic independent review of the municipal division's records is performed and documented. Any unusual items or discrepancies should be investigated.

1.2 Ensure all municipal division receipts and bond monies are transmitted and deposited timely.

1.3 Establish procedures to account for the numerical sequence of manual receipt slips issued and ensure manual receipt slips are used in numerical sequence. In addition, the computer generated receipt number should be noted on the manual receipt slips.

1.4 Old outstanding checks should be voided and reissued to payees who can be readily located. In addition, outstanding check lists should include all necessary information including amounts, check numbers, and dates.

1.5 Establish a policy for the collection of NSF checks and ensure accounting records accurately document the status of cases involving bad checks.

Auditee's Response

The Municipal Judge and Court Administrators provided the following written responses:

1.1 The Municipal Judge has confirmed that the Municipal City Clerk and treasurer (as Deputy Court Clerk) perform these duties as a review of the court clerk. This has now been confirmed in writing to these individuals to further document these duties. In addition, the City Administrator reviews and signs all bank statements monthly before filing.

1.2 The City agrees that the procedure needs supplementation so that all deposits are made on a more strict timely basis. The Court

Clerk has been instructed to make such timely deposits to conform to this requirement, and the City Clerk has been instructed in writing to review this to ensure that this supplemented policy is maintained.

1.3 The Municipal Division now uses computer generated receipts and fully addresses this Auditor comment.

1.4 The Court Clerk has been instructed to follow proper procedures in disposing of unclaimed funds in both the Bond Account and the Fine and Costs Account.

1.5 The Court Clerk has been instructed to make sure all NSF checks are posted, charges are issued, and/or warrants obtained to insure proper reconciliations are made.

2. Bond Liabilities

The municipal division has not adequately followed up on reconciling items between the bond account and the bond liabilities list. In addition, the division has not properly followed up on old bonds remaining on the bond liabilities list. As a result, there is a $357 shortage in the bond account and some monies have not been disposed of properly. At March 31, 2011, the reconciled balance of the bond account was $24,954, while bond liabilities totaled $25,311. The bond liabilities list shows five adjustments totaling $357 dating back as far as April 2002 and most recently as of April 2010. The adjustments are for errors made by the municipal division in which defendants were refunded more than the remaining bond amount. In addition, as of March 31, 2011, 41 cash bonds, totaling $8,977, have been held by the municipal division in excess of a year. Four bonds held at March 31, 2011 totaling $750, dated back to 1999.

Procedures should be established to prevent overpayment of bond monies to defendants and identified errors should be corrected timely. To properly monitor bonds and ensure monies are appropriately disbursed as provided by state law, procedures should be established to routinely investigate bonds remaining on the liabilities list over a specified period of time. Section 479.210, RSMo, authorizes bonds to be forfeited and paid over to the city treasury if the defendant failed to appear in court. If the bond is to be refunded but the payee cannot be located, Section 447.595, RSMo, requires bonds remaining unclaimed for a year after disposition of the case be turned over to the state Unclaimed Property Section.

Recommendation

The City of Pacific Municipal Division develop procedures to prevent overpayment of bond monies and investigate and dispose of old bonds in accordance with state law. In addition, the municipal division should investigate the old bond overpayments shown as reconciling items and attempt to collect the amounts overpaid.

Auditee's Response

The Municipal Judge and Court Administrators provided the following written response:

The Municipal Division shall conduct an investigation into this Auditor Comment and establish additional or different proper procedures in handling bond funds if so warranted.

3. Ticket Accountability

The municipal division and police department do not account for the numerical sequence of tickets issued. As a result, there is no assurance all tickets have been submitted to the municipal division for processing. The police department and municipal division personnel post tickets issued to the computer system; however, neither the municipal division nor the police department ensure the numerical sequence of all tickets issued is accounted for properly.

Without a proper accounting for the numerical sequence and ultimate disposition of tickets issued, the municipal division and the police department cannot be assured all tickets issued were properly submitted for processing.

Recommendation

The City of Pacific Municipal Division work with the police department to ensure adequate records are maintained to account for the numerical sequence and ultimate disposition of all tickets issued.

Auditee's Response

The Municipal Judge and Court Administrators provided the following written response:

The Municipal Division has accountability for tickets that have been submitted for prosecution through the Pacific Municipal Court. All tickets submitted for prosecution to other Courts have accountability through the Pacific Police Department. Tickets that were not maintained in the Municipal Court, were maintained pursuant to required procedures with the Circuit Court because prosecuted instead under state law, and with the Chief of Police. Please see Model Traffic Code R.S.Mo. 300.575 (Chief of Police to maintain such tickets). In addition, the Court Clerk and Police Clerk regularly communicate regarding the status of and placement of the tickets. However, as an additional review, the Police Department has determined it will also at least annually deliver the complete list of tickets to the Court Clerk for an additional cross-check of all ticket numbers.

Twentieth Judicial Circuit
City of Pacific Municipal Division
Organization and Statistical Information

The City of Pacific Municipal Division is in the Twentieth Judicial Circuit, which consists of Franklin, Gasconade, and Osage Counties. The Honorable Gael Wood serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and costs are collected at times other than during court and transmitted to the city treasury.

Personnel

At June 30, 2011, the municipal division employees were as follows:

Title	Name
Municipal Judge	Ronald F. Reed, Sr.
Court Administrator	Nina Adams
Court Administrator	Mary Wideman

Financial and Caseload Information

	Year Ended June 30, 2011
Receipts	$207,927
Number of cases filed	1,707

American Recovery and Reinvestment Act 2009 (Federal Stimulus)

The City of Pacific Municipal Division did not receive any federal stimulus monies during the year ended June 30, 2011.

Thomas A. Schweich

Missouri State Auditor

City of North Kansas City

October 2011

Report No. 2011-83

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of North Kansas City

Financial Condition	The financial condition of the General Fund has declined significantly, with the fund balance falling from almost $7 million to $2.8 million from fiscal year 2008 to fiscal year 2010 and is expected to decrease further during 2011. The city is taking steps to balance expenditures and revenues and is transferring monies from the Gaming Fund to supplement the General Fund.
LiNKCity	Operational costs of the city's fiber optic data network (LiNKCity) have significantly exceeded operational revenues, and the city's investment of $13.5 million for the LiNKCity network may not be an effective use of city resources. A business performance plan said the original plan outlined, "expectations and assumptions that are neither realistic nor attainable." The city should evaluate whether it makes sense to continue investing public funds in the system.
Disbursements	The city pays more overtime than required by law because it counts nonworking (leave) hours when determining overtime. Overtime paid in fiscal year 2010 totaled $432,500. In fiscal year 2010, the city paid over $56,000 in vehicle allowances for 24 city officials and employees. The City Council voted in July 2011 to stop paying vehicle allowances for elected officials, but it is still making such payments for 11 city employees.

In the areas audited, the overall performance of this entity was **Good**.*

American Recovery and Reinvestment Act 2009 (Federal Stimulus)	The City of North Kansas City was awarded $138,517 and received $125,752 through the Edward Byrne Memorial Justice Assistance Grant Program. It spent $18,619 for law enforcement equipment, and passed through $107,133 to Clay County and the cities of Gladstone, Excelsior Springs, and Liberty.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

1. Financial Condition 4
2. LiNKCity 6
3. Disbursements 7

Organization and Statistical Information 10

THOMAS A. SCHWEICH
Missouri State Auditor

To the Honorable Mayor
and
Members of the City Council
City of North Kansas City, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of North Kansas City. We have audited certain operations of the city in fulfillment of our duties. The city engaged McGladrey & Pullen LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended September 30, 2010. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended September 30, 2010. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of North Kansas City.

An additional report, No. 2011-33, *Seventh Judicial Circuit, City of North Kansas City, Municipal Division*, was issued in July 2011.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Alice M. Fast, CPA, CGFM, CIA
Audit Manager:	Robert Showers, CPA
In-Charge Auditor:	Robert L. McArthur II
	Lori Bryant
Audit Staff:	Robert Graham

City of North Kansas City
Management Advisory Report
State Auditor's Findings

1. Financial Condition

The financial condition of the General Fund has declined significantly during the last 4 years. The following table presents General Fund activity and balances for the years ended September 30:

General Fund		Budgeted (1) 2011	Actual (2) 2010	2009	2008
Beginning fund balance	$	2,802,843	4,891,167	6,959,808	7,472,841
Revenues		12,039,300	12,640,781	12,838,649	14,236,525
Expenditures		(14,283,152)	(14,729,105)	(14,907,290)	(14,749,558)
Ending fund balance	$	558,991	2,802,843	4,891,167	6,959,808

(1) Source: City budget documents. Budgeted receipts for 2011 do not include the $2.3 million transfer budgeted from the Gaming Fund.
(2) Source: Audited financial statements

General Fund expenditures have significantly exceeded revenues for four consecutive fiscal years (from 2007 through 2010) and are budgeted to do so in fiscal year 2011. The City Council has tasked the new City Administrator to balance the General Fund budget by the year ended September 30, 2013. The City Administrator and the Finance Manager met with the City Council in June 2011 to formally present options to address the General Fund budget. Since approximately 88 percent of General Fund expenditures are wage-related, the Council approved one of the City Administrator's recommendations to implement a voluntary retirement and resignation incentive program and to reduce the portion of premiums paid by the city for group medical insurance for retirees. The Council also recently voted to eliminate vehicle allowances for elected officials (see MAR finding number 3).

Another change made to improve the financial condition of the General Fund was to transfer monies from the Gaming Fund to the General Fund to make up for lost property tax revenues. When the local casino was built in 1995, the City Council voted to voluntarily stop assessing the General Fund tax levy on personal property. This resulted in approximately $300,000 less in property taxes for the General Fund annually from 1995 to 2010, or a total of approximately $5 million. In July 2011, the Council voted to reinstitute the property tax levy. In addition, to make up for a portion of the revenues lost and to balance the General Fund budget, the City Council recently approved the transfer of $5.9 million from the Gaming Fund to the General Fund over a 3 year period, starting with a $2.3 million transfer during the year ended September 30, 2011. Although Gaming Fund revenues are unrestricted and may be used for any purpose, the City Council has indicated it does not wish to depend on Gaming Fund revenues to balance the General Fund budget.

In addition, the city has historically paid for residential trash pickup from the General Fund without billing residents for the service. This service costs

the city approximately $500,000 per year. For the year ended September 30, 2011, the City Council approved continuing the payment of trash expenses, but voted to move the costs to the Gaming Fund.

Also, some disbursements do not appear to be necessary uses of city funds. For example, the city spent $15,060 on an employee appreciation day at Worlds of Fun, and $3,200 on holiday turkeys for employees. Public funds should be spent only on items which are necessary and beneficial to the city. City residents have placed a fiduciary trust in their public officials to spend city funds in a prudent and necessary manner.

It is essential that the City Council continue to address the General Fund financial condition, both in the immediate and long-term future. By evaluating fund revenues and disbursements, and maximizing revenues to the extent possible the council can ensure the fund is on a more secure footing going forward.

Recommendation

The City Council continue to closely monitor the city's financial condition and take the necessary steps to improve the financial condition of the General Fund.

Auditee's Response

The City Council provided the following written response:

As stated in the audit findings, the Council and staff are very much aware of the declining financial condition of the General Fund. Also stated in the report, transfers from the Gaming Fund have been used to maintain a balanced budget starting in fiscal 2010-11. These transfers are set to stop in 2013. Missouri State Statues place very few restrictions on gaming revenues and this is an allowable use for those funds.

The Council does not wish to depend on the gaming revenues to balance the General Fund budget in the future and has taken many recent actions to reduce and eventually eliminate the General Funds reliance on gaming revenues. The fiscal year 2011-12 budget, passed on September 13, 2011, reduced the General Fund structural operating imbalance to $374,112 down from $2,243,852 in the prior year's approved budget. The fiscal 2011-12 short-fall does not include the planned $2 million transfer from the Gaming Fund. The second and third transfers of gaming money will continue as approved by the City Council in 2010 in order to improve the unappropriated General Fund balance in case of an emergency.

Besides the budget balancing steps mentioned in the findings, the Council recently approved increasing a variety of service fees, increasing the administrative fees charged by the General Fund to special revenue and enterprise funds and added fees to those same funds for services provided by Public Works' divisions.

The voluntary retirement and resignation incentive program mentioned in the findings, not only reduced staffing, but also allowed for a reorganization of the Public Works Department to more efficiently meet the needs of the community.

The finding states that $18,260, or 0.07 percent, of the City's total operating budget was spent to recognize the efforts of City employees in fiscal 2009-10. It also goes on to state that such an expenditure "does not appear to be necessary". The City believes such a small investment in our employees during a time when raises are not an option, cost of living increases have been eliminated and benefits have been reduced in some cases is "a prudent and necessary" expenditure to maintain morale and no matter how small of a gesture show appreciation for the work that they do for this community.

The City Council of North Kansas City values its employees and deems it necessary to recognize their contributions when no other means of recognition is available.

2. LiNKCity

Operational costs of the city's fiber optic data network (LiNKCity) have significantly exceeded operational revenues, and the city's investment of $13.5 million[1] for the LiNKCity network may not be an effective use of city resources.

While initial plans were for LiNKCity's revenues to cover its operational costs, the system had a combined operating loss of $971,783 in fiscal years 2009 and 2010, and is expecting an additional operating loss of approximately $450,000 in fiscal year 2011. The initial investment and operational shortfall have been paid from the Gaming Fund. Total Gaming Fund transfers of approximately $1.5 million were made to cover LiNKCity activity during the 2 fiscal years ended September 30, 2010, with an additional transfer of $542,300 in fiscal year 2011. According to a business performance evaluation paid for by the city, the reason for the operating deficit of the LiNKCity system is "a result of the original plan outlining expectations and assumptions that are neither realistic nor attainable". The evaluation also states that technology upgrades are also necessary, requiring additional investment by the city.

The LiNKCity network is the first municipally owned and operated fiber optic system in the state of Missouri, and competes with existing broadband and cable data service providers. According to city documents, the purpose of the network is to provide economic development, educational and employment opportunities, and advanced health care. However, with city

[1] The city's initial investment was approximately $10.5 million, with an additional $3 million investment going towards operations.

residents already having alternative service provider options, the necessity of the system is questionable.

It is the City Council's duty to ensure city investments such as LiNKCity are an effective use of city resources. More evaluation is needed to determine if additional investment into the system is warranted.

Recommendation

The City Council continue to evaluate whether continued involvement in LiNKCity is in the best interest of the city.

Auditee's Response

The City Council provided the following written response:

The City Council has concerns about the feasibility of an on-going subsidy of LiNKCity and directed staff in late 2010 to identify ways to reduce the current operating deficit to whatever extent possible.

The actual operating shortfall for fiscal 2010-11 is expected to be $451,149. The subsidy to LiNKCity is in the form of a transfer from the Gaming Fund. The Gaming Fund transfer subsidy is budgeted at $430,000 in fiscal 2011-12. This amount includes a $265,000 operational subsidy and $165,000 for capital expenditures.

It is true that the residents had an alternative service provider prior to LiNKCity but many of the City's businesses did not have a high speed internet option. The existing provider would not offer service south of Armour Road, thus placing businesses that located or wanted to locate within the City at a distinct disadvantage when attempting to operate a 21st century business and compete in a global economy where dial up is no longer acceptable technology.

To begin the process of generating additional revenue, the City Council approved a Dark Fiber Lease program in the summer of 2011. This new program has generated a lot of interest in our system and has yielded a number of new leases and additional income for LiNKCity. LiNKCity has also taken a more focused approach in targeting multi-dwelling units as large scale customers that will yield greater revenue and profit for each dollar invested.

3. Disbursements

Our review identified issues with overtime calculations and vehicle allowances.

3.1 Overtime calculations

The city overtime policy results in potentially unnecessary overtime costs. Current city policy considers nonworking time, such as vacation, sick leave, and compensatory time taken, as hours worked when calculating employee overtime. This practice is not required by the Fair Labor Standards Act of 1938 (FLSA) and as a result, the city is paying more overtime to employees

than required. For example, we noted an instance in which an employee worked 8.33 hours for the week and claimed 35.03 nonworking hours (personal and vacation) for a weekly total of 43.36 hours. The city calculated overtime based on the total hours recorded on the timesheet rather than actual hours worked; and as a result, paid the employee time and one half for 3.36 hours. During the year ended September 30, 2010, the city paid approximately $432,500 in overtime. Of the total paid, 48 percent was to the Fire Department and 31 percent to the Police Department, both of which are paid from the General Fund.

3.2 Vehicle allowances

Vehicle allowance payments by the city appear excessive. Vehicle allowance payments totaling approximately $27,300 were paid to 13 elected officials and an additional $29,200 was paid to 11 city employees during the year ended September 30, 2010. Vehicle allowance payments ranged from $650 annually to the City Treasurer to $4,200 to the Parks and Recreation Director. The city began paying a $2,400 annual vehicle allowance to the Economic Development Manager in October 2010, despite the fact that he was paid only $538 in actual mileage reimbursement in the previous year. In July 2011, the City Council voted to stop paying vehicle allowances to elected officials effective August 2011. However, the payments are still paid from the General Fund to the 11 city employees.

While vehicle allowances are reported as taxable income, reimbursing officials and employees for actual vehicle use ensures the city is neither overpaying for vehicle use or underpaying the employee for unreimbursed use.

Recommendation

The City Council:

3.1 Consider revising the current overtime policy to ensure employee overtime and compensatory time calculations do not include nonworking time such as leave and compensatory time used.

3.2 Reimburse city employees for actual vehicle use.

Auditee's Response

The City Council provided the following written response:

3.1 Due to the current environment, such action would take time if a focus were placed upon its implementation. Implementation of this recommendation may or may not be pursued depending upon a variety of factors.

3.2 As reported in the findings, City Council voted to stop receiving car allowances as of August 1, 2011.

Many city employees receiving a car allowance use personal vehicles daily for travel among the City's 11 locations, to obtain goods or attend meetings not available within the city limits. Tracking, recording and reimbursing on a trip by trip basis would administratively cost more than the allowances.

Most of the employees receiving car allowances receive them as a part of their compensation package set out by contract with the City. The compensation is treated the same as salary compensation as it is taxed, etc. The execution of such a recommendation would take time if a focus were placed upon its implementation and potentially cost the City both in productivity as well as financially.

City of North Kansas City
Organization and Statistical Information

The City of North Kansas City is located in Clay County. The city was incorporated in 1912 and is currently a third-class city. The city employed 196 full-time employees and 119 part-time or seasonal employees on September 30, 2010.

City operations include fire services, law enforcement services, utilities (water/sewer and communications), and recreational facilities (parks, community center, etc.).

Mayor and City Council

The city government consists of a mayor and eight-member city council. The members are elected for 2-year terms. The mayor is elected for a 4-year term, presides over the city council, and votes only in the case of a tie. The Mayor and City Council members, at September 30, 2010, are identified below. The Mayor is paid $600 per month, plus $3,249 in annual travel allowances. City Council members are paid $200 per month, plus annual travel allowances of $2,599. The compensation of these officials is established by ordinance.

William Biggerstaff, Mayor
James Martino, First Ward Councilmember
Jerry Barham, First Ward Councilmember
David A. Silvers, Second Ward Councilmember
Bill Sanders, Second Ward Councilmember
Chris Hertling, Third Ward Councilmember
Amy Rutledge, Third Ward Councilmember
Bettie Miller, Fourth Ward Councilmember
Fred Steffen, Fourth Ward Councilmember

Other Elected Officials

Name and Title	Compensation Paid for the Year Ended September 30, 2010
J.W. Brewer, City Collector	$9,204
Ron Ball, City Treasurer	3,650

This compensation included a $2,599 annual travel allowance for the City Collector and a $650 annual travel allowance for the City Treasurer.

American Recover and Reinvestment Act of 2009 (Federal Stimulus)

The City was awarded $138,517 and received $125,752 in American Recovery and Reinvestment Act funding as part of the Edward Byrne Memorial Justice Assistance Grant Program through the United States Department of Justice during the year ended September 30, 2010. According to city documentation, the city spent $18,619 for law enforcement equipment. In addition, the City of North Kansas City, serving as the fiscal agent for this award, passed through $107,133 to Clay County, and the Cities of Gladstone, Excelsior Springs, and Liberty.

October 2011

Report No. 2011-82

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Kansas City 33 School District (KCSD)

Service Contracts	The KCSD did not always competitively bid or effectively monitor contracts, and cost benefit analyses were not performed to determine how to best provide some services. Some contracts had not been signed, and some contract amendments were not in writing.
Disbursements	During the 3 years ended June 30, 2010, the KCSD spent nearly $2 million on student incentives and over $2 million on food and meals purchased while not on travel status, but it does not maintain adequate documentation to support the disbursements. The KCSD should also review the Superintendent's $800 per month car allowance.
Capital Assets and Surplus Property	The KCSD does not maintain a complete list of, and has not regularly disposed of, surplus property. The district spends over $2 million a year for utilities and insurance on the 38 closed schools, but has recently hired an employee to coordinate, manage and oversee the repurposing of the closed schools. Property movement procedures are not followed, making it difficult to track capital assets and ensure they are not misappropriated. Also, the KCSD was paying to lease 11 copiers that were not in use.
Board Procedures	The KCSD did not always comply with the Sunshine Law. Open meeting minutes did not always document the vote to close meetings and the reason for closing, and it appears closed meetings were not limited to the topics allowed by law. Also, board members did not always abstain from voting when a conflict of interest existed.
Personnel Issues	The KCSD does not adequately identify related employees. The KCSD paid excessive amounts of overtime, and although a new policy requiring pre-approval for overtime has helped reduce overtime costs, it is not always enforced.
Accounting Controls	The KCSD lacked adequate controls over student activity funds, which allowed the former principal of Lincoln College Preparatory Academy to make unauthorized disbursements and unauthorized cash withdrawals totaling approximately $58,000 in 2009. The KCSD should perform timely bank account reconciliations to detect errors or theft promptly.
Textbook Procedures	The KCSD should establish formal written policies and procedures to account for all textbooks purchased and ensure students are held accountable for lost or stolen textbooks.
Transportation Costs	The KCSD has not performed an analysis of the potential cost savings of increasing their walk-zone from the current 1.5 miles. State law only requires the district provide free transportation for students living at least 3.5 miles from school. In addition, the transportation contractor hired by the district indicated cost savings could be realized by returning to the three-tier bell schedule, rather than the two-tier bell schedule recently adopted.

Financial Condition

The KCSD reduced expenditures to stabilize the financial condition, which should continue to be monitored.

In the areas audited, the overall performance of this entity was **Fair**.*

American Recovery and Reinvestment Act 2009 (Federal Stimulus)

The KCSD was awarded the following Federal Stimulus funding:

$8,598,741 Title I Grant to Local Education Agencies: $4,136,291 received and $4,768,621 expended during the year ended June 30, 2010 (FY2010) for salaries and benefits for 83 supplemental teachers, paraprofessionals, instructional coaches, after school tutoring, and student targeted instructional materials and technology.

$79,554 Title I, Part D Grant to Local Education Agencies: $4,962 received and $2,003 expended during FY2010 for two teachers, a paraprofessional, and classroom supplies.

$5,785,160 Special Education Grant to States: $2,538,232 received and $4,573,042 expended in FY2010 for salaries and benefits for 19 classroom positions, 1 part-time nurse and 1 administrator; professional development; and assistive technologies and computer equipment, supplies, and instructional materials.

$178,094 Early Childhood Special Education Grant: $6,320 received and $33,408 expended during FY2010 for specialized educational services.

$17,572,996 State Fiscal Stabilization Fund - Education State Grants: $16,435,592 received and expended during FY2010 for salary and benefits for 262 staff members, a stipend for certified staff voluntarily participating in professional development, and bus transportation of students for a portion of a month.

$239,940 Education Technology State Grant: $209,364 received and $179,308 expended during FY2010 for salaries and benefits for three resource teachers.

$216,371 Head Start Grant: $0 received and $18,657 expended during FY2010 for playground equipment, classroom furniture, and supplies.

$109,066 Education for Homeless Children and Youth Grant to Local Education Agencies: $0 received and expended during FY2010.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

To the Board of Education
Kansas City 33 School District

The State Auditor conducted an audit of the Kansas City 33 School District under authority granted in Section 29.205, RSMo. We have audited certain operations of the district in fulfillment of our duties. The district engaged McGladrey & Pullen, LLP, Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended June 30, 2010. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2010. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.

2. Evaluate the district's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Kansas City 33 School District.

Audit Staff:	Richard Mosha, MBA

Management Advisory Report
State Auditor's Findings
Kansas City 33 School District

1. Service Contracts

Under prior administrations, the district issued some contracts for services without soliciting requests for proposals from vendors. Some contracts provided little or no monitoring criteria to allow for the evaluation of the services provided, and some services were provided without a formal written contract. The current administration canceled or re-negotiated numerous contracts during the past year that were either unnecessary or provided services that could be performed in-house by district staff. The district spent approximately $80 million during the year ended June 30, 2010, on contracts with vendors to provide a variety of services. We reviewed contracts totaling approximately $19.5 million.

1.1 Requests for proposals

The district has awarded numerous service contracts in the past several years without soliciting proposals from other service providers or clearly documenting why proposals were not sought. The district had not performed cost analyses to determine the most cost beneficial method of providing some services. The following are examples of service contracts in effect during the year ended June 30, 2010, for which the district did not solicit competitive requests for proposals and/or did not perform a cost analysis to determine if the service could have been provided in-house more efficiently:

- The company which operates the before and after school program, was paid $5.5 million during fiscal year 2010 and proposals were not solicited for these services. The contract was renegotiated for the 2011 school year, and while services were reduced, the payment is anticipated to be $1.6 million.

- The district's outside legal counsel was paid $1.8 million during fiscal year 2010 and has served the district for the past 20 years without the district seeking proposals from other firms. The district restructured the legal department and now performs more of this work internally. The district anticipates $1.2 million in payments to this firm for fiscal year 2011.

- A company providing both a reading curriculum and professional reading curriculum development was paid $613,577 during fiscal year 2010 and proposals were not sought. Both contracts were terminated at June 30, 2010.

- The company which manages and operates the district transportation department was paid $506,124 during fiscal year 2010. The contract was renegotiated for $485,050 for fiscal year 2011. Proposals were not sought for this service and a cost analysis has not been conducted.

- The company which managed the Human Resources Department from August 2007 to September 2009 was paid $892,906, including $138,848 in fiscal year 2010. The new administration canceled this

contract in September 2009, and these services are now performed by the district.

- The district paid a contractor $1,149,162 between January 2006 and December 2009 to install computers. It is unclear from meeting minutes why this vendor was selected. Proposals for these services were not solicited, nor did the board attempt to determine whether these services could be provided in-house during this contract period. The new administration canceled this contract and these services are now provided by the district IT department.

- The district contracted with two different vendors to provide food service from 2007 to 2010. Losses from food service operations exceeded $2 million each year during that time period. Prior to 2007, food service was provided by the district and based on data provided by the district, losses during the 2 fiscal years prior to contracting out these services were under $500,000 each year. Although a formal cost analysis was not performed, the new administration determined it would be more efficient and less costly to provide these services in house and for fiscal year 2011, the district expects the food service to make a small profit.

Soliciting proposals for services is a good business practice, helps provide a range of possible choices, and allows the district to make better-informed decisions to ensure necessary services are obtained from the best qualified provider taking expertise, experience, and cost into consideration. Contracts for services which could be provided more economically are a drain on resources of the district. Continued examination of contracts by the district administration will help ensure district funds are spent wisely and in the best interests of the students and taxpayers.

1.2 Monitoring

The district did not always include monitoring criteria and/or monitor service contracts effectively. Some contracts had monitoring criteria which were vague or non-existent.

- The contract with the organization that operated the K-12 African Centered Education (ACE) Program during fiscal year 2010 and 2009 was for $1.2 million per year and contained minimal performance criteria. The ACE contractor was required to submit quarterly financial reports to the board which were to include detailed statements of all revenues received from the district and all other sources and direct expenditures rendered to or on behalf of students. The contactor did not submit these reports. In addition, the contractor did not submit detailed invoices as required in the contract.

- The $1.2 million contract for alternative education during fiscal year 2009 stated the program would be measured by comparing levels and trends of student attendance and achievement before and after, and in some cases during, program intervention. District administration stated this was not done.

- The $40,000 contract for student violence and gang prevention services for fiscal year 2009 and the transportation management services contract for $500,000 per year during fiscal year 2010 and 2009 contained no performance assurances or measures. These programs and services have not been formally evaluated to ensure the programs are effective and the services contracted for are provided.

- The contract for Human Resources Department management, totaling over $850,000 between August 2007 and September 2009, contained some performance criteria and measures; however, the district did not formally evaluate the contractors' performance monthly as required by the contract.

- As indicated above, losses on food service operations exceeded $2 million each year from 2007 to 2010. The district did not monitor the food service management contractor to ensure the department was operated efficiently and effectively. Accounting personnel for the district indicated the contractor failed to hold students accountable for unpaid meals.

Considering the amount the district spends on service contracts, clearly stating performance measures and monitoring performance closely will help the district ensure limited resources are spent wisely by holding the contractor accountable for quality and reliable services.

1.3 Written contracts

Some service contractors were allowed to operate without a signed contract. In addition, the board approved additional payments on several contracts without formally amending the contracts.

- The former board President failed to sign agreements with the contractors hired to provide computer installation and setup services and violence and gang prevention services.

- The district had a 7 month contract (December 1, 2007 to June 30, 2008) with the African Centered Education (ACE) Program for $524,685 to operate the center. In October 2008, this contract was extended for the year ended June 30, 2009, and the contract amount was increased to $1,197,036, but the contract was not formally amended by the board. On May 26, 2010, the board renewed the

contract for the year ended June 30, 2010, at the same cost as the prior year and again the contract was not formally renewed.

- During fiscal years 2009 and 2010, payments to the contractor for asbestos remediation and environmental cleanup services exceeded the contract amount by $925,345. The original $100,000 contract was for the period June 2008 through July 2009. An additional $540,000 was approved by the board in July 2008 due to an unforeseen emergency and an additional $77,080 was approved by the board in December 2008; however, the contract was not amended for these additional payments. In May 2009, the board approved an additional $988,941 for services needed at one school and a separate agreement was signed. In addition, in May 2010, the board approved a payment of $308,265 in excess of the amount contracted for the same services at a different school without formally amending the contract.

- The district contracts for elevator repairs and maintenance. In June 2010, the board approved an additional $167,121 in excess of the contract amount of $175,000. The board did not amend the contract.

- Payments to the former food service management contractor exceeded the contract amount of $5,219,250 by $923,694 or 17.7 percent during fiscal year 2009 and $1,216,702 or 23.3 percent during fiscal year 2010. Accounting personnel indicated the overpayments were, at least in part, the result of the district underestimating the number of meals to be provided to students. The contract was amended twice, but the amendments were not sufficient to cover the full cost of the service.

The failure of the district to obtain signed contracts prior to authorizing contractors to perform services exposes the district to unnecessary risks. If these contractors fail to perform the duties required in the contracts, the district may not be able to enforce the requirements of the agreements.

Further, any changes to an original contract should be properly documented in a formal written contract amendment to ensure all parties are aware of their responsibilities and to prevent misunderstandings.

Recommendations

The Kansas City School Board:

1.1 Periodically solicit proposals for all services and ensure adequate documentation is maintained to support the evaluation and selection process. In addition, the district should continue to examine the need for certain service contracts and take appropriate action as necessary.

1.2 Ensure service contracts include appropriate criteria which provide a means to monitor contractor performance and ensure each contract is monitored properly.

1.3 Ensure contract agreements are signed by all necessary parties prior to the effective date. In addition, any changes should be properly documented in formal written contract amendments.

Auditee's Response

The Kansas City School Board provided the following written responses:

1.1 Procurement procedures require all construction projects over $15,000, and all other contracts over $25,000 to be formally bid. For contracts under these thresholds, procedures require three formal bids on company letterhead. If the District is able to utilize an existing contract bid by another governmental entity such as the city of Kansas City, or the state of Missouri the bid process may be waived. If the vendor's service is determined to be "sole source", the contract is exempt from bid requirements.

1.2 In 2010 the district implemented a procedure requiring the larger term and supply multi-year contact vendors to attend quarterly meetings with the procurement department's contract compliance staff, the accounts payable manager, the department head or designee for whom the contract is assigned, and when needed, a member of the District's legal staff.

Small vendor contracts are monitored by the department being serviced by the vendor, with support by the procurement contract compliance staff when requested.

The procurement department requires the department utilizing the vendor's services to submit a vendor annual evaluation. If the evaluation is not completed, the contract will not be renewed.

1.3 The District's legal and procurement staff monitor the signature pages for contracts to ensure that the superintendent and board president both sign all contracts. Contract language has been modified so that the contact does not go into effect until all signatures are received.

2. Disbursements

The district spent almost $2 million on student incentives between fiscal years 2008 and 2010, with few controls in place to ensure the awards and incentives were actually given to students. A policy has not been adopted to establish controls over non-travel food. In addition, Superintendent Covington's car allowance appeared excessive.

2.1 Incentives

The district does not maintain documentation to support the distribution of student incentives purchased by teachers and school administrators. In addition, the total amount expended on student incentives appears excessive.

Student incentives reviewed included awards such as trophies, plaques, medals, and certificates; gift cards to restaurants, movies, and shopping malls; tickets to baseball games and amusement parks; t-shirts; and electronics such as DVD players and iPods. Students are given these incentives for academic and athletic achievements, and most of the incentives we reviewed were given at the end of the school year. The district expended funds for student incentives during fiscal years 2008 through 2010 as follows:

Fiscal Year		Amount
2008	$	929,154
2009		707,686
2010		187,360

Incentives were reduced in 2009 due to the elimination of procurement cards (the majority of incentives were purchased by teachers and school administrators with procurement cards) and by requiring the use of purchase orders for all purchases. Incentives were further reduced in 2010 through budget cuts (student incentives were cut 70 percent).

For future incentives, maintaining adequate records to support the distribution will provide assurance that all gifts and awards are distributed to students and used for the intended purposes.

2.2 Food and meals

The district does not have a formal policy regarding the purchase of food and meals while not on travel status and adequate documentation was not usually available to support these purchases. The amounts spent by the district on food and meals, excluding child nutrition and employee meal costs while on travel status, were as follows:

Fiscal Year		Amount
2008	$	924,367
2009		778,605
2010		330,497

The amount expended on food and meals was reduced in 2010 as a result of two policy changes. Internal controls were improved through the elimination of procurement cards (the majority of food and meals were purchased with these cards) and by requiring the use of purchase orders for all purchases. Food and meals were further reduced in 2010 through budget cuts (food and meals were cut 50 percent). We identified the following

concerns when reviewing food and meal charges made by board members and district employees.

- Between July 2008 and June 2010, board members and former Superintendent Coleman purchased food totaling $3,707 with district procurement cards. While some of these purchases were for catering for meetings at the Board of Education office, the majority were for meetings held at restaurants in Kansas City. For example, one board member charged $103 to a procurement card on April 18, 2009, and another charged $70 to a card on March 2, 2010. Detailed receipts were included with the procurement card logs, but there was nothing to indicate who attended and the purpose of the meetings.

- District employees purchased food and meals for staff meetings; staff appreciation events; retirement parties; staff trainings; and student field trips, award ceremonies, banquets, dances, graduation ceremonies, and performances. For most purchases reviewed, the names of those in attendance were not documented and, in some instances, the purpose was not documented. For example, $938 was paid to a vendor in May 2009 for a staff meeting lunch; however, those in attendance were not documented.

Without detailed supporting documentation, including the purpose of the event and the attendees, the district cannot determine if the expenditures were reasonable and necessary uses of public funds. The district should develop a comprehensive policy establishing guidelines for food purchases, including a requirement that the purpose of all food and meal purchases be sufficiently documented to ensure public funds are spent only when necessary for the operation of the district.

2.3 Superintendent car allowance

The $800 monthly car allowance included in Superintendent Covington's contract did not appear reasonable, especially considering the district owns a car available for administrative staff to use, including the Superintendent's use. The payment was intended to cover the Superintendent's in-district travel costs. The mileage rate allowed by the Internal Revenue Service for business travel during 2010 was 50 cents per mile, down from 55 cents in 2009. At 50 cents per mile, the Superintendent would have to travel an average of 1,600 business-related miles per month to earn $800 in reimbursement.

The Superintendent's car allowance appeared unreasonable and did not appear to be an efficient use of district funds. The car allowance should be based on a reasonable estimate of miles driven in-district monthly.

Recommendations

The Kansas City School Board:

2.1 Ensure adequate documentation is maintained for the distribution of student incentives.

2.2 Develop a comprehensive policy regarding food purchases. This policy should establish specific guidelines regarding proper and allowable expenditures, along with documentation requirements including the purpose of meetings and individuals in attendance.

2.3 Set the Superintendent's car allowance at a more reasonable level.

Auditee's Response

The Kansas City School Board provided the following written responses:

2.1 Under current guidelines, student incentive programs, awarding items of nominal value, are handled primarily by the school, paid with local school fund-raisers and donations.

2.2 Purchase of food, unless there is a demonstrated need or requirement is discouraged. Certain grants require the district to meet family involvement and participation standards, and recommend food be provided as an encouragement to attend. On a limited basis, professional development activities, funded by state and federal grants allow for the purchase of food. District procedures now require the meeting agenda and attendee sign-in sheets be submitted to the Business office to document the need for the food purchased.

2.3 The travel allowance for Dr. Covington was negotiated with the Board of Directors when he was hired in 2009. The vehicle was purchased for the use of administrators for travel both within the district and out of town. The superintendent does not use the vehicle for his exclusive use.

3. Capital Assets and Surplus Property

An excessive amount of surplus property is kept in storage and is not adequately tracked. The district maintains 38 closed schools, and significant costs are incurred to maintain these schools. Controls and procedures over the annual inventory process for district-wide capital assets need to be improved, and leases for assets should be reviewed more closely.

3.1 Surplus property

The district currently maintains excessive amounts of surplus property and does not maintain a list of surplus property not capitalized, such as lunch tables, student desks, and chairs. A former school building is used as a storage facility by the district. Many rooms at the school contain classroom and office furniture and computer equipment, most of which is obsolete. The property is stored in an unorganized manner, and it is difficult to tell exactly what is available for use.

In February 2011, the district disposed of 19 vehicles and surplus food service equipment through online auctions, and the proceeds from these sales totaled $15,390. Prior to that, the district had not had a surplus property sale since 2005. In addition, while the district recently disposed of some obsolete computer equipment, there is still a significant amount of this equipment on hand. The current administration indicated this is an area it plans to address as soon as time allows.

By maintaining a complete and accurate inventory of surplus property and making all schools aware of surplus property items available, the district helps ensure any school in need of such property can have access to it and purchases of equipment already on hand can be avoided. Any unused or obsolete equipment should be disposed of properly to generate revenues and/or clear out storage space.

3.2 Unused buildings

The district maintains a large number of unused buildings and paid a significant amount for utilities for these closed schools during the last fiscal year. According to district officials, approximately $2.2 million was paid for utilities and insurance at the closed schools during the year ended June 30, 2011. At June 30, 2010, the district had 38 closed schools with a total net book value of approximately $49 million, and seven vacant lots. Twenty-one buildings were closed in 2010 (one was reopened); nine were closed in 2009; and nine were closed prior to 2009.

The district has recently increased its efforts to sell most of the properties, but must deal with significant constraints. The buildings are owned by the Kansas City Missouri School District (KCMSD) Building Corporation, a not for profit entity, and any sales must be approved by the KCMSD Building Corporation. In addition, some of the buildings must be sold to a not for profit entity, as required in the bond indenture documents.

According to district officials, 8 closed buildings are being retained for future district use and the district is currently evaluating the other 30 closed buildings to determine their potential for alternative uses. In addition, the district hired an individual in January 2011, who will be responsible for the coordination, management, and oversight of the repurposing of the closed schools.

By allowing many of these buildings to remain unused and to deteriorate, the district will not receive maximum value for the properties and will pay significant amounts for utilities and insurance in buildings that are not being used to educate students.

3.3 Inventory

Property movement procedures are not followed. As a result, the capital asset list is inaccurate and a large number of assets cannot be accounted for each year during the annual inventory. In addition, the annual inventory is not completed in a timely manner.

Equipment, furniture, and vehicles were valued at $31.1 million at June 30, 2010. The annual physical inventory for fiscal year 2010 was performed at 58 district buildings, included 56,600 items, and took 8 months to complete. The district contracted with a vendor at a cost of $24,000 to perform physical inventories at 36 locations to speed up the inventory process, and the contractor almost always completed the inventories of each location within 2 months. The remaining 22 locations were inventoried by property custodians including teachers, administrators, custodians, etc. who were paid $500 each ($11,000 total) and the inventories at each location took about 5 months to complete.

Our review of fiscal year 2009 and 2010 inventory records revealed a large numbers of assets at various locations could not be located during the inventory process. The results of the 2010 inventory indicated 4,420 items (8 percent), valued at $2.6 million, were not located. In 2009, 54,244 items were inventoried at 54 locations, and the results indicated 4,649 items (9 percent), valued at $2.7 million, were not located. The Asset Manager indicated that after a school's annual inventory is completed the Principal and the Property Custodian must complete an Asset Validation form to verify the assets were not located at that building. No other documentation was available to indicate the misplaced items were investigated. The majority of the misplaced items listed on the Asset Validation forms are laptop computers, other computers, cameras, and other electronic equipment.

The Asset Manager indicated one reason the asset list is not accurate is that procedures in place for property movement are not followed. Property transfer forms, which notify the Asset Manager of property movement, are not always accurate or complete or are not sent to him in a timely manner. We discussed the missing items with the Asset Manager who indicted these items were most likely moved to the district's storage facility, and no property movement form was completed or submitted to him as required. However, we found no documentation to indicate that any of the misplaced items were later located at the district's storage location. In addition, the district has not developed procedures to determine if misplaced items from the annual inventory at a certain location were moved to another location (other than the storage facility) without completion of a property transfer form. During our test of property at the district's storage facility, four of five items tested were not on the district's inventory list at that location, and had apparently been moved there without notifying the Asset Manager. Instead, the property items were still listed at the schools where they had been previously located.

District assets represent a considerable investment and should be adequately safeguarded from loss or theft. The district should consider conducting more frequent inventories of sensitive items which are highly susceptible to loss or theft or have a high level of desirability for personal use. Any items not located should be investigated immediately. Failure to do so reduces the

possibility the items will be located. Without documentation of property changes and movements, the capital asset records are likely to be inaccurate.

3.4 Leased copiers

Leased assets are not controlled and accounted for properly. The district had a contract to lease 282 digital copiers at an estimated total cost of $2.75 million over 4 years ($9,750 per copier). The contract expired on June 30, 2011.

Accounting personnel indicated copiers are inventoried prior to awarding a new contract and replaced based on usage needs. We obtained a list of the leased copiers and their original locations from the Board Services office. Fourteen copiers were listed as being located at five closed schools. At our request, the district attempted to locate these 14 copiers. The Purchasing Manager found that three of the copiers had been moved to another building, two were still at a closed school, and nine were moved to storage. Eleven copiers in total were not in use and the district continued to incur expenditures for these copiers.

To eliminate unnecessary expenditures, leased copier contracts should be monitored and contracts for unused copiers canceled.

Recommendations

The Kansas City School Board:

3.1 Maintain an inventory of surplus property and make a list of surplus property available to the schools. Any unusable items should be disposed of properly.

3.2 Continue efforts to identify alternative uses for surplus real estate properties and sell the properties which cannot be utilized for another purpose.

3.3 Ensure the annual physical inventory is performed in a timely manner, and missing items are promptly investigated and compared to lists of assets located at locations other than the one listed in the inventory system. Appropriate controls should be implemented to safeguard assets highly susceptible to loss or theft. In addition, the board should ensure property movement forms are complete, accurate, and submitted in a timely manner.

3.4 Conduct periodic inventories of leased copiers and consider amending the copier lease to allow for the return of unused copiers or relocate them to another building where they may be utilized.

Auditee's Response

The Kansas City School Board provided the following written responses:

3.1 In June 2010, the district closed 30 buildings, and in the ensuing months has been cleaning out the closed buildings, transferring property to open schools, and auctioning off surplus property the

district no longer needs. The Fixed Assets, Purchasing, Information Technology, and Facilities Departments have jointly worked to audit the contents of each closed building. Remaining items determined to be re-utilized in the schools have been inventoried, made available for school administrators to review, and are moved into their schools.

An inventory company was hired to work with the Property Manager to validate all items moved from closed to open schools. All items were scanned when leaving a closed school and rescanned at their final destination. The receiving school verified the items they received. A detailed listing of items moved was provided to the Property Manager to update the database. To date, the process has resulted in 100% accountability of moved items, with nothing stolen or lost.

The district has contracted with the City of Kansas City, Missouri to inventory and auction off assets that were jointly determined by the district and the City's Surplus Property Manager to have a resale value. The City moves the assets to their secured warehouse where the items are available for the public to preview. Upon sale of asset, the City provides the Property Manager a bill of sale, checks and summary of items sold. The district to date has received approximately $50,000 for these items.

3.2 *The Board of Directors established an Office for Repurposing in January 2011. The board funded a repurposer and staff to oversee the transformation of the 38 closed buildings resulting from several years of school closures. The plan is to involve the community in decisions for the most effective use of the buildings for either education or non-education use. The repurposer has proposals for the Board of Directors to either lease or sell the remaining closed sites, unless the buildings have been moth-balled for future district use. The goal is to not only prevent neighborhood blight caused by closed buildings, but also generate revenues from the lease and or sale of buildings. This will enable the District to save significant dollars currently paid for utilities and insurance for these buildings.*

3.3 *To ensure inventories are completed timely, all inventories, taken after July 1, 2011, will be performed by the third party vendor. The inventories are scheduled in the buildings from the beginning of October through the end of April. Each high school takes three to four days and an elementary school two days. Two days after the vendor completes the inventory, the fixed asset manager issues a report to the principal/site administrator, providing the results of the inventory. Depending on the size of the building, the principal/administrator is given fourteen to twenty one days to*

investigate unlocated items and report the result back to the fixed asset manager.

The district tags and tracks approximately 56,000 items ranging from small electronics to curriculum tools to cafeteria equipment. These items are located in 58 school and administrative sites. Annually every site is inventoried to account for each item. Each inventory item is tracked by building and room location.

In 2008, the Board of Directors voted to re-align grade configuration in the school buildings, moving from an elementary, middle and high school format to K-8, 9-12 configurations. As the results of this change, approximately 40% of all inventoried items were moved to a new room in a building or from one building to another or deemed surplus and moved into storage for future disposition.

In May, 2010 the Board of Directors voted to right-size the district by closing 30 schools at the end of school year 2010 and change the grade configuration from a Pre-K, K to 8 and 9 to 12, to a Pre-K to 6, and 7 to 12 configuration. As soon as the 2010 school year ended, the district had a few short months to prepare the remaining open buildings to handle the increased enrollment from students transferring from the closed buildings. Massive amounts of property were moved from the closed schools to open schools. Elementary schools now needed desks, books and equipment for three and four year old students as well as middle school students. As the FY11 school year opened, inventoried items were moved between classrooms to address student needs. The massive amount of movement of property during the short time did not allow for a comprehensive and orderly inventory of property movement. Rather than engage in a special inventory, the regular annual inventory process was used to update the movement of property. Because every site is not done at once, an item moved from one site to another, would be classified as unlocated at the original site until the receiving site where it was moved was inventoried.

Beginning in early 2010, to improve the safekeeping of mobile electronic devices, the district began utilizing various technologies tracking and monitoring options. The district utilizes an asset recovery service whereby software is loaded on every district computer. When the computer connects to the internet, the IP address where the computer is located is recorded. Reports are generated daily notifying the Property Manager of computer locations. Email alerts are sent to the Property Manger when the computer is used somewhere other than authorized IP addresses, or if the computer is modified or its' configuration changed.

If a computer is reported missing, the tracking technology allows the software administrator to send a message to the computer when it logs into the web, and freeze the device. Stolen property is reported to the police, and the asset recovery software vendor guarantees recovery of the property or compensation if not recovered.

Before devices are issued to employees, they are required to sign paperwork making them personally responsible for the custody of the property. Procedures will be put in place beginning July 1, 2011, which will require periodic visual verification by the school administration of items susceptible to loss or theft.

3.4 *In conjunction with the closing of school buildings, and realigning of grade configurations in the remaining sites, in August, 2010 the district conducted an evaluation of district wide copier needs. The number of copiers has been reduced from 282 to 125, as of July, 2011.*

4. Board Procedures

Violations of the Sunshine Law were identified, including the failure to publicly announce and document the vote and reasons for closing a meeting, and failing to demonstrate how some issues discussed in closed meetings were allowable under the Sunshine Law. In addition, a board member did not abstain from approving a contract where a conflict existed.

4.1 Sunshine Law

The district did not always adhere to the requirements of the Sunshine Law when conducting closed meetings. The board typically holds a closed session meeting before each public meeting. During our review of the closed session minutes, we noted the following concerns:

- While a vote is taken on the issue of closing the meeting and reasons are cited for the closure, this vote is taken in the closed meeting and documented in the closed minutes; the votes and reasons for the closure are not announced publicly and documented in the open session minutes, as required by state law.

- The motion to go into closed session typically cites legal, personnel, and real estate matters as the topics to be discussed. However, we noted that not all of these topics are discussed at each closed session.

- Minutes were not always sufficient to demonstrate how some issues discussed in closed meetings were allowable under the Sunshine Law. We noted issues such as discussions of compliance concerns related to the Head Start program, discussion of possible staff reductions due to budget reductions, numerous staff contract renewals where specific work performance was not documented,

purchase of a car, and approval of service contracts to install boilers at two schools.

The Sunshine Law, Chapter 610, RSMo, states the specific reasons governmental bodies are allowed to close a public meeting and states the vote to close a meeting, and the specific reasons for closing the meeting, are to be announced publicly at an open meeting and entered into the minutes. Citing potential issues that may be discussed in a closed meeting appears to circumvent the intent of the law. In addition, Section 610.022, RSMo, states that meetings shall only be closed for the specific reasons announced to justify the closed vote or meeting.

4.2 Conflict of interest

The contract to operate the African Centered Education (ACE) Program and the contract with the Mid America Regional Council (MARC) for the subaward of Head Start grant funding may represent conflicts of interest as former board members failed to submit a statement of interest or abstain from voting on all matters concerning the contracts.

Former board member Marilyn Simmons was employed by a company owned by the ACE board president. In addition, former board member Cokethea Hill was employed by the MARC.

The Board's current policy which was adopted in June 2010 requires members to annually disclose their involvement with organizations or with vendors, staff, or students and any other association that might be reasonably seen as representing a conflict of interest. Further, while the prior conflict of interest policy did not prohibit a member from voting on motions for the district to do business with the entities that employ the board member, it did require the member to submit a statement of interest if the member had a substantial personal or private interest in a decision before the board. A substantial interest was defined as existing when the member, his or her spouse, or dependent children, either singularly or collectively, directly or indirectly owned ten percent or more of any business entity; owned an interest having a value of $10,000 or more in any business entity; or received a salary, gratuity, or other compensation or remuneration of $5,000 or more from any individual, partnership, organization or association within a calendar year. The former board members failed to submit statements of interest as required prior to voting on the contracts.

To reduce the appearance of a conflict of interest, related parties should abstain from voting.

Recommendations

The Kansas City School Board:

4.1 Ensure the vote and reasons for closing a meeting are announced publicly and documented in the open meeting minutes and potential topics are not listed unless the board actually plans to vote on or

discuss those issues. In addition, the board should ensure items discussed in closed meetings are allowable topics under state law.

4.2 Avoid the appearance of conflicts of interest.

Auditee's Response

The Kansas City School Board provided the following written response:

4.1 The District consistently strives to strictly adhere to the narrow construction of the Open Meeting Law. We will provide more detail of the proceedings in the Closed Meeting minutes to support and reflect those efforts.

4.2 On June 23, 2010 the Board of Directors adopted a Conflict of Interest and Disclosure policy. The policy establishes a process for self management, enforcement and administration of the policy. Annually board members will complete a Conflict Disclosure form identifying any relationships, positions, or circumstances in which he/she is involved that could contribute to a conflict of interest or the appearance of a conflict of interest.

5. Personnel Issues

The district has not established an adequate method to identify related employees. Overtime paid appears excessive, and no controls were in place until recently to help monitor the amount of overtime employees were working.

5.1 Related parties

The district has not established an adequate method to identify related employees. The board policy manual states the Superintendent shall not allow the district to operate without sufficient written rules, expectations, and processes, whether written or not, that fail to avoid conflict of interest or subject staff to wrongful conditions, including nepotism and preferential treatment based on personal or unprofessional reasons. The district does not require new employees to identify all current district employees they are related to. In addition, the district does not maintain a record of related parties.

The lack of a formal policy and the absence of data on related employees increases the likelihood of weakened internal controls and a lack of independent evaluation of employee performance.

5.2 Overtime

Prior to fiscal year 2010, overtime was not monitored. The district does not have a policy limiting the amount of overtime an employee is allowed to work. In addition, while pre-approval of overtime is now required, we noted several instances where pre-approval was not obtained. As a result, the amount of overtime paid to employees was excessive.

Fiscal Year		Amount
2008	$	2,945,367
2009		2,535,671
2010		1,031,717

We noted numerous employees received significant amounts of overtime compared to their normal salary. One custodial foreman received overtime payments totaling over $56,000 and $30,000 during fiscal years 2009 and 2010, respectively; his normal salary is $41,509.

The new administration began monitoring overtime and approved a new overtime policy in fiscal year 2010, and as a result, reduced overtime by more than 64 percent. The new policy requires all overtime to be pre-approved by the employee's supervisor, department head, and the Chief Financial Officer. While overtime was reduced, we noted the pre-approval of overtime by the various required supervisors was not always obtained.

Security officers and custodians account for more than 50 percent of all overtime expenses. Cost analyses or studies to determine whether hiring additional employees would be more cost effective than paying significant amounts of overtime to existing staff have not been performed. Some changes have already been made by the new administration in both departments. Lead positions were eliminated; thereby reducing the ability of these employees to receive more overtime than others as a result of their supervisory position. The district is currently in the process of determining additional cost saving measures for these departments including outsourcing the services.

The district should limit the amount of overtime an employee is allowed to work to ensure payroll is used as efficiently as possible. An analysis of overtime would help to determine causes of overtime and identify ways to reduce these costs. Policies regarding pre-approval of overtime should be followed to ensure overtime is necessary and all supervisors are aware of the amount of overtime incurred by employees.

Recommendations

The Kansas City School Board:

5.1 Establish procedures to update related party information, verify information with each employee periodically, and ensure individuals are not working in conflicting employment capacities.

5.2 Perform a cost analysis to determine whether hiring additional employees would be more cost-effective than paying significant amounts of overtime to existing staff. In addition, the board should ensure overtime is pre-approved in accordance with policy.

Auditee's Response

The Kansas City School Board provided the following written responses:

5.1 Every employee will be required annually, to complete a questionnaire disclosing relationships with other employees, or board members.

5.2 The overtime policy put into place with this administration has resulted in a reduction in overtime costs from $2.8 million in FY09, to $1.1 million in FY10, and projected to be less than $550,000 in FY11. Budget holders have been asked to evaluate the use of overtime, and part time positions have been established where applicable to reduce overtime costs.

6. Accounting Controls

Due to inadequate controls over student activity funds, the district did not detect unauthorized disbursements totaling $58,000 made by the former Principal of Lincoln College Preparatory Academy. In addition, district bank accounts are not reconciled on a timely basis.

6.1 Unauthorized disbursements

Internal controls over student activity funds and procedures for monitoring disbursements and withdrawals from these accounts by internal audit, especially during summer months, are inadequate. As a result, the former Principal at Lincoln College Preparatory Academy, Jamia Dock, made unauthorized disbursements and unauthorized cash withdrawals from student activity funds.

The Student Activity Policy requires the treasurer (any school employee) at each school to deposit all monies received for student activities and disburse the monies for appropriate expenses upon the submission of an invoice or other adequate documentation. Two signatures are required for all disbursements. Further, the policy requires each treasurer to submit activity reports including copies of all invoices and bank reconciliations to internal audit by the 15th of every month; however, June, July, and August are not required to be submitted until September 15th. The May 2009 report submitted by the Lincoln College Preparatory Academy Treasurer on June 15, 2009, indicated a balance of $40,741. The majority of the inappropriate disbursements occurred between June and August 2009 and may have been caught in a more timely manner if monthly reports had been submitted during those months.

In August 2009, the district was contacted by its depository bank and informed that the student activity account balance for Lincoln College Preparatory Academy was negative. In addition, the former Treasurer of the student activity account informed the district about an inappropriate alteration of a deposit slip by Ms. Dock. While the former Principal was the second signature on the account, deposits were supposed to be made by the Treasurer. The district hired an auditing firm to perform a forensic investigation of the account. The auditing firm identified $58,849 in either unauthorized transactions or un-deposited receipts by the former Principal.

Between July 2008 and June 2009, 56 checks totaling $28,526 were issued from the student activity fund to the former Principal and vendor receipts were not located to support 45 of those payments or $23,226. The district was able to recover $33,744 from the bank.

In addition, the former Principal initiated and signed 39 withdrawals via bank counter checks at various bank branches between June and August 2009, after the student activity account check book had been turned in to the district office for the summer. The total amount of the counter checks was $47,729, of which $33,196 were for cash and $14,533 were for 17 cashier checks. Adequate supporting documentation was submitted by the former Principal for 15 of the cashier checks; however, no supporting documentation was submitted to internal audit for the $33,196 in cash and two cashier checks, totaling $1,262, as required by policy.

Also, the auditing firm noted four deposits slips totaling $1,774 of which $1,165 was not deposited. These deposits were prepared by the former Treasurer and given to the former Principal for deposit.

The district terminated Ms. Dock in September 2009, and contacted both the Kansas City, Missouri, Police Department and the county Prosecuting Attorney. Charges were filed against her in March 2011. Ms. Dock was hired as the Principal of the ACE Upper Campus (a district contractor) for the 2010-2011 school year.

Since the identification of the unauthorized transactions, the district has improved internal controls over student activity fees at six high schools and six elementary schools with the hiring of bookkeepers and the installation of standardized software to record receipts and disbursements for the 2011 school year and will implement those measurers at all schools for the 2012 school year. In addition, the district revised the written policy and procedures over student activity funds during fiscal year 2011.

Timely monthly reports, including bank reconciliations, are important to ensure bank activity and accounting records are in agreement and to detect and correct errors in a timely manner. In addition, to ensure the validity and propriety of disbursements, adequate supporting documentation should be obtained for all goods and services.

6.2 Bank reconciliations

The district checking account was not reconciled on a timely basis. During our discussion with the accounting manager in May 2010, we were told a bank reconciliation of the checking account had not been attempted since October 2009. We reviewed the October 2009 bank reconciliation and noted an unreconciled difference of $1,180. As of March 2011, the checking account has been reconciled through February 2010 with no un-reconciled difference. Accounting personnel indicated bank reconciliations were not completed in a timely manner due to multiple staffing changes that required reassignment of job responsibilities and training on the reconciliation

process. The Chief Financial Officer indicated the bank reconciliation process would be complete by the end of fiscal year 2011.

Timely bank reconciliations are important to ensure bank activity and accounting records are in agreement and to detect and correct errors in a timely manner. Lengthy delays in reconciling bank accounts could result in significant errors or discrepancies going undetected for an extended period of time.

Recommendations

The Kansas City School Board:

6.1 Continue to work with law enforcement officials regarding criminal prosecution for the missing funds. In addition, the board should ensure student activity accounts are reconciled on a timely basis and adequate supporting documentation is submitted before payments are made.

6.2 Ensure bank accounts are reconciled on a timely basis.

Auditee's Response

The Kansas City School Board provided the following written responses:

6.1 In July, 2010 the district hired bookkeepers for all high schools and the largest elementary schools. In June, 2011 additional bookkeepers were hired to staff the remaining elementary schools. During FY11, the internal audit department conducted site visits throughout the year to review student activity reconciliations and record keeping. Throughout the year, the bookkeepers work closely with the Accounting Manager and ongoing training is conducted to reinforce processes and procedures. A student activity software system was purchased in June, 2010, and utilized at each school staffed with a bookkeeper. The software allows the Accounting Manager to remotely monitor reconciliations.

During school year 2009-2010 a decision was made to expand the scope of the FY10 district annual financial audit to include audits of the student activity accounts. The results of that audit were incorporated into the ongoing training of bookkeepers, principals, and support staff in the schools.

6.2 As part of the downsizing needed to bring fiscal stability to the organization, the district made a number of staffing reductions and realignments of duties within the Business division. A permanent staff assignment of the bank reconciliation duties was made in June, 2010 and the reconciliations are now reconciled timely.

7. Textbook Procedures

The district does not adequately account for all textbooks purchased. Annual textbook inventories are not documented and students are not held accountable for lost or stolen textbooks. In fiscal year 2010, textbook expenditures totaled approximately $4.4 million.

Administration at each school building is responsible for storing, inventorying, and ordering (through the district textbook coordinator) books; distributing books to staff and students; and maintaining textbook documentation in a database. However, no formal textbook policies and procedures have been developed. As a result, annual inventories are not documented.

According to the student handbook, any book, equipment, or material loaned to a student will be charged to the student at replacement cost if it is not properly returned or it is destroyed or mutilated. In addition, each student and parent/guardian is required to sign a textbook receipt acknowledgement form. However, district personnel indicated this policy was new in the 2009-2010 school year and is not enforced district wide.

Recommendation

The Kansas City School Board establish uniform written policies and procedures which clearly document the duties and responsibilities of the district textbook coordinator and the administration at each school. In addition, the board should develop procedures to ensure students are charged for unreturned, destroyed, or mutilated textbooks in accordance with the student handbook.

Auditee's Response

The Kansas City School Board provided the following written response:

The district is in the process of replacing the student record system software with one that allows for the inventory and assignment of textbooks to individual students. This should allow for increased accountability of the student, and will allow administration to track how well the local school administration enforces procedures outlined in the student handbook.

8. Transportation Costs

Despite its declining financial condition, the district has not adopted certain cost saving measures in its transportation department. During the school year 2009-2010, the district spent approximately $15.1 million on pupil transportation and expects to expend $14.3 million in fiscal year 2011.

The district currently has a 1.5 mile walk-zone and provides free transportation to students living at least 1.5 miles from a school. Per Section 167.231.1, RSMo, the district is only required to provide free transportation to students living more than 3.5 miles from school. An analysis of potential costs savings of increasing the walk zone has not been performed.

In addition, the district chose to reduce the number of bell times from three to two for the 2010-2011 school year due to the elimination of middle schools. Elementary schools now serve pre-kindergarten through sixth grade and high schools serve grades 7 through 12. In a memo to the Chief Operating Officer in April 2010, the contracted transportation management company recommended maintaining a three-tier bell time structure, because moving to a two-tier bell time would require an additional 50 to 100 buses and increase transportation costs between $1 million and $4 million. Rather than follow the recommendation of the transportation management contractor, the district increased the bus load counts and implemented other measures to keep the transportation budget for fiscal year 2011 from increasing. Had the district kept the three-tier bell time structure and implemented other cost saving measures, significant cost savings may have been realized.

In light of the current financial condition of the district, the district should evaluate the potential cost savings of a three-tier transportation schedule and increased walk-zone to reduce transportation costs further.

Recommendation

The Kansas City School Board evaluate a three-tier transportation schedule and increased walk-zone for potential cost savings.

Auditee's Response

The Kansas City School Board provided the following written response:

The Kansas City, Mo School District, after right-sizing, has two grade configurations for its schools: K-6 for Elementary and 7-12 for the High Schools. With this configuration, the District does not require a 3 tier bus schedule. The distance for walkers to the schools is less than the required 3.5 mile distance.

The District looks for every opportunity to find costs savings in transportation operations. However, Board of Directors and the District administration believe the safety and attendance of our children, not the cost of transportation, is our primary concern, and will determine the transportation schedule and ridership based on that priority. This district puts a high priority on improving attendance and reducing dropouts. Extending walk-zones is not a strategy that supports those efforts.

9. Financial Condition

As a result of the reductions made to expenditures in the general operating funds during the 2 year ended June 30, 2011, the district's financial condition has stabilized. As discussed in our previous audit report, No. 2010-109, *Kansas City 33 School District Financial Condition and Projections*, expenditures exceeded revenues (excluding other financing sources) in the operating funds for the years ended June 30, 2008, 2009, and 2010. As a result, the fund balance of the undesignated operating funds decreased from approximately $74.3 million at July 1, 2006, to $56.9 million at June 30, 2010. The fund balance is projected to be approximately $57.7 million at June 30, 2011.

As detailed in our prior report, the declining financial condition resulted from several factors, including but not limited to, decreased funding from the state, declining student population, declining property valuations, and increased enrollment in charter schools in the Kansas City area. As discussed in this report, there are several areas in which expenditures could have been reduced sooner to help improve the district's financial condition.

The following table depicts actual fiscal year 2010 financial information per the financial statements, as well as 2011 and 2012 budget information:

Operating Funds	2010 Actual	2011 Budget	2012 Budget
Beginning Balance	$ 57,260,601	56,958,379	54,121,196
Revenues	284,841,558	258,072,165	220,905,818
Expenditures	269,916,955	260,600,342	223,420,021
Other financing sources (uses)	(15,226,825)	3,227,033	2,746,400
Ending Balance	$ 56,958,379	57,657,235	54,353,393

The $9.3 million net reduction from 2010 actual expenditures to 2011 budgeted expenditures has resulted from numerous actions taken by district management including closing schools, canceling and/or renegotiating $30 million in district contracts, and the elimination of 900 full-time equivalent positions.

The district has projected revenues in 2012 of approximately $220.9 million, a decrease of about $37.1 million from 2011. The district is expecting a decrease of $3.5 million in local taxes, $13.6 million in state funding cuts, and $19.7 million in federal funding cuts (including ARRA funding of $18.9 million). In order to balance the budget, the district is planning to cut $17.1 million from the district's operating funds and $1 million in child nutrition services. The reductions will be achieved through various cost saving measures including eliminating approximately 346 positions, cutting 10 percent from most departments, and canceling and/or renegotiating more contracts.

Recommendation

The Kansas City School Board continue to monitor the district's financial condition and take appropriate action as necessary.

Auditee's Response

The Kansas City School Board provided the following written response:

The district's FY11amended budget projects an ending fund balance of $58.4 million, an increase of $1.44 million or 2.5% over FY10. On May 18, 2011, the board of directors adopted the FY12 expenditure budget funded with current year revenues, not requiring use of fund balance. This was accomplished by reducing full time equivalent positions by 345.97 and

reducing expenditures by $37.18 million when compared to the FY11 budget.

Kansas City 33 School District
Organization and Statistical Information

The Kansas City 33 School District is located within the corporate limits of Kansas City, Missouri.

The district operates 7 high schools (grades 7 through 12), a vocational school, an early childhood center, and 27 elementary/middle schools (grades Pre-Kindergarten through 6). Enrollment was 17,524 for the 2010-2011 school year. The district employed approximately 3,010 full- and part-time employees at June 30, 2010.

At June 30, 2010, the Kansas City 33 School District was classified under the Missouri School Improvement Program (MSIP) as "Provisionally Accredited" by the Missouri Department of Elementary and Secondary Education. A provisionally accredited district has not met enough of the MSIP standards and indicators to be accredited.

School Board

An elected board acts as the policy-making body for the district's operations. The board's nine members serve 4-year terms without compensation. Members of the board at June 30, 2010, were:

Airick L. West, President
Derek Richey, Vice President
Arthur A Benson, Member
Kyleen Carroll, Member
Joseph Jackson, Member
Duane B. Kelly, Member
Crispin Rea, Jr., Member
Marilyn Y. Simmons, Member
Ray Wilson, Member

Superintendent

The district's superintendent at June 30, 2010, was Dr. John W. Covington and his annual compensation was $280,483 which consists of a base salary of $250,000; supplemental insurance (life, disability, and other) of $15,000; car allowance of $9,600; and the value of health, dental, and vision benefits which totaled $5,883 in fiscal year 2010. The superintendent's compensation is established by the board.

American Recovery and Reinvestment Act of 2009 (Federal Stimulus)

According to district personnel, the district was awarded the following American Recovery and Reinvestment Act of 2009 funding:

A Title I Grant to Local Education Agencies was awarded by the U.S. Department of Education to the state of Missouri Department of Elementary and Secondary Education (DESE). Through this grant, the DESE awarded the district $8,598,741 of which, $4,136,291 was received during the year ended June 30, 2010. The district expended $4,768,621 during the year ended June 30, 2010, to assist with salaries and fringe benefits for 83 supplemental teachers, paraprofessionals, instructional coaches, after school tutoring, and student targeted instructional materials and technology.

A Title I, Part D Grant to Local Education Agencies was awarded by the U.S. Department of Education to the DESE. Through this grant, the state of Missouri DESE awarded the district $79,554 of which, $4,962 was received during the year ended June 30, 2010. The district expended $2,003 during the year ended June 30, 2010, for two teachers, a paraprofessional, and classroom supplies.

Special Education Grants to States were awarded by the U.S. Department of Education to the DESE and $5,785,160 was awarded to the district of which, $2,538,232 was received during the year ended June 30, 2010. The district expended $4,573,042 during the year ended June 30, 2010, to pay for salaries and fringe benefits for 19 full time certified and classified classroom positions, a part-time nurse, and an administrator; professional development; and assistive technologies and computer equipment, supplies, and instructional materials.

An Early Childhood Special Education Grant was awarded by the U.S. Department of Education to the DESE and $178,094 was awarded to the district of which, $6,320 was received and $33,408 was expended during the year ended June 30, 2010, for contracted specialized educational services.

State Fiscal Stabilization Fund (SFSF) - Education State Grants were awarded by the U.S. Department of Education to the DESE and $17,572,996 was awarded to the district. The district received and expended $16,435,592 during the year ended June 30, 2010, for 262 certified staff salary and fringe benefits, a stipend for certified staff voluntarily participating in professional development, and transportation of students to and from school by bus for a portion of a month.

An Education Technology State Grant was awarded to the DESE by the U.S. Department of Education and $239,940 was awarded to the district. The district received $209,364 and expended $179,308 for salaries and fringe benefits for three resource teachers to provide education technology support to teachers and administrators.

A Head Start Grant was awarded by the U.S. Department of Health and Human Services to the Mid America Regional Council and $216,371 was awarded to the district of which no monies were received and $18,657 was expended during the year ended June 30, 2010, for playground equipment, classroom furniture, and supplies.

An Education for Homeless Children and Youth Grant to Local Education Agencies was awarded by the U.S. Department of Education to the DESE. Through this grant, the DESE awarded the district $109,066. The district did not receive or expend any of these funds during the year ended June 30, 2010.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Dade County, Missouri

The Office of the State Auditor, in cooperation with Dade County, has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Davis, Lynn & Moots, P.C., Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

Dade County Commission
Dade County
Greenfield, Missouri

We have audited the accompanying financial statements of Dade County, Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note A, these financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the Unites States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the Unites States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Dade County, Missouri, as of December 31, 2010 and 2009, or the changes in financial position for the years then ended.

Dade County Commission
Dade County
Greenfield, Missouri

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the cash and investment balances of the governmental and agency funds of Dade County, Missouri, as of and for the year ended December 31, 2010 and 2009, and the receipts, disbursements and budgetary results of the governmental funds for the years ended, on the basis of accounting described in Note A.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 10, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Dade County, Missouri, ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, County Clerk, Recorder, Coroner, Collector, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note A, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

The County's operations include tax assessments and collections, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Dade County, Missouri, which consists of all funds, organizations, agencies, departments, and offices that comprise the County's legal entity.

Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statements of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following funds are used by the County:

Governmental Funds – Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds (agency funds) are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, or other governmental units. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector and other officeholders.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting

The financial statements are prepared on the regulatory basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measureable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County adopts a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Adjustments made during the year were not significant and are reflected in the budget information in the financial statements. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.
8. Budgets are prepared and adopted on the cash basis of accounting.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

9. Although adoption of a formal budget is required by law, the County did not adopt a formal budget for the following funds:
   a. Sheriff Revolving Fund
   b. Tax Maintenance Fund
   c. Election Services Fund
10. Section 50.740, RSMo, prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for several funds of the County.

Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements. State statutes require that County deposits be fully collateralized in the name of the County. As of December 31, 2010 and 2009, all bank balances on deposit are entirely insured or collateralized with securities.

NOTE B – INVESTMENTS

The County's investments at December 31, 2009, are as follows:

Investment Type	Maturity	Amount
Certificate of Deposit	2/3/2010	$ 172,188
Certificate of Deposit	3/12/2010	212,081
Certificate of Deposit	10/28/2010	78,045
		$ 462,314

NOTE B – INVESTMENTS (continued)

The County's investments at December 31, 2010, are as follows:

Investment Type	Maturity	Amount
Certificate of Deposit	3/3/2011	$ 176,188
Certificate of Deposit	3/12/2011	216,503
Certificate of Deposit	2/4/2012	115,764
		$ 508,455

Certificates of Deposit

Certificates of deposit are classified as investments but are considered deposits for custodial risk determination. State statutes require that the County's deposits be collateralized in the name of the County by the trust department of a bank that does not hold the collateralized deposits. As of December 31, 2010 and 2009, all certificates of deposit are entirely insured or collateralized with securities.

The County does not have a policy on interest rate risk.

NOTE C – CLAIMS, JUDGMENTS AND CONTINGENCIES

Federal and State Grants

The County participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Disbursements financed by grants are subject to audit by the appropriate grantor government. If disbursements are disallowed due to noncompliance with grant program regulations, the County may be required to reimburse the grantor government. As of December 31, 2010 and 2009, significant amounts of grant disbursements have not been audited by grantor governments, but the County believes that disallowed disbursements, if any, based on subsequent audits will not have a material effect on any of the individual government funds or the overall financial position of the County.

NOTE D – PENSION PLAN – CERF

STATE OF MISSOURI COUNTY EMPLOYEES' RETIREMENT FUND

Plan Description

Dade County participates in the County Employees' Retirement Fund (CERF), a cost-sharing multiple-employer pension plan. CERF is a defined benefit pension plan which provides retirement and death benefits to plan members and beneficiaries. CERF was created and is governed by state statute, RSMo. 50.1000 to 50.1300. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401a and it is tax exempt.

The County Employees' Retirement Fund issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to CERF, Boone County National Bank, P.O. Box 577, Columbia, MO 65202 or by calling 1-800-357-8557.

Funding Policy

Dade County's full-time employees hired before February 25, 2002, are required by state statute to contribute 0% of annual payroll to the pension plan. Dade County's full-time employees hired after February 25, 2002, are required by state statute to contribute 4% of annual covered payroll to the pension plan. The County is required by state statute to remit the fees collected under RSMo. Sections 52.290, 150.150, 137.280, 137.345 and Chapters 59 and 54, RSMo, plus interest. The required contributions have been made.

NOTE E – ASSESSED VALUATION, TAX LEVY AND LEGAL DEBT MARGIN

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1, and are payable by December 31.

NOTE E – ASSESSED VALUATION, TAX LEVY AND LEGAL DEBT MARGIN (continued)

The 2010 and 2009 assessed valuation of the tangible taxable property (excluding railroad and utilities) and the tax levies per $100 assessed valuation of that property were as follows:

	2010	2009
ASSESSED VALUATION		
Real estate	$ 61,649,410	$ 61,253,460
Personal property	34,739,700	33,920,831
	$ 96,389,110	$ 95,174,291
TAX LEVY		
General Fund	$ .1400	$ .1305

The legal debt margin at December 31, 2010 and December 31, 2009, is computed as follows:

	2010	2009
Constitutional debt limit	$ 9,638,911	$ 9,517,429
General obligation bonds payable	-	-
LEGAL DEBT MARGIN	$ 9,638,911	$ 9,517,429

Under Article VI, Section 26(b) and (c), Missouri Constitution, the County, by a vote of its qualified electors voting therein, may incur an indebtedness for any purpose authorized by law of the County or by any general law of the State of Missouri. The borrowings authorized by this section shall not exceed ten percent of the value of the taxable tangible property in the County.

NOTE F – RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has transferred its risk by obtaining coverage from commercial insurance companies. In addition, it has effectively managed risk through various employee education and prevention programs. There has been no significant reduction in insurance coverage from the previous year.

NOTE G – LONG-TERM DEBT

In 2009, the County entered into a Promissory Note to purchase real property in the amount of $32,500. The note bears interest at 4% with principal and interest payments made monthly in the amount of $329.

In 2010, the County entered into a two year lease purchase agreement with Kansas State Bank to finance the purchase of two Ford Explorers at a cost of $36,366. The lease bears interest at 4.35% with principal and interest payments made annually.

The debt service requirements to amortize the principal of the note and lease outstanding at December 31, 2010, are listed in the table below:

Year Ended December 31,	Real Property Lease	Ford Explorers Lease	Total Lease Payments
2011	$ 3,949	$ 18,587	$ 22,536
2012	3,949	-	3,949
2013	3,949	-	3,949
2014	3,949	-	3,949
2015	3,949	-	3,949
2016	3,949	-	3,949
2017	3,949	-	3,949
2018	3,949	-	3,949
2019	655	-	655
	32,247	18,587	50,834
Portion Representing Interest	(4,776)	(808)	(5,584)
Minimum Future Lease/Loan Payments	$ 27,471	$ 17,779	$ 45,250

NOTE G – LONG-TERM DEBT

The following is the changes in long-term debt for the years ended December 31, 2010 and 2009:

	Balance December 31, 2008	Additions	Retirements	Balance December 31, 2009	Additions	Retirements	Balance December 31, 2010
Capital Lease Obiligations							
Real Property	$ -	$ 32,500	$ 2,241	$ 30,259	$ -	$ 2,788	$ 27,471
2008 Ford Explorers	-	-	-	-	36,366	18,587	17,779
	$ -	$ -	$ -	$ 30,259	$ 36,366	$ 21,375	$ 45,250

NOTE H – INTERFUND TRANSFERS

Interfund transfers for the years ended December 31, 2010 and 2009, consisted of the following:

	Transfers In (Out)	
	2010	2009
General Fund	$ (286,000)	$ (239,067)
Special Road and Bridge Fund	(17,000)	(10,000)
Assessment Fund	41,000	33,595
Law Enforcement Fund	262,000	225,472
Tax Maintenance Fund	-	(10,000)
	$ -	$ -

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statue or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE I – RESTATEMENT OF BEGINNING CASH BALANCES

Beginning cash balances have been restated to remove court accounts and special election account no longer considered special revenue funds. Cash balance has also been restated to remove 911 Emergency Services board, which is considered a separate political subdivision. The restatement is as follows:

Ending Cash Balance, as previously stated, December 31, 2008	$	836,042
Law Library		(4,674)
Circuit Clerk Interest		(13,469)
Special Election		(172)
Cash Balance, as restated, January 1, 2009	$	817,727

NOTE J – CHANGE IN REPORTING ENTITY

The E-911 fund included within the report is affected by Missouri House Bill 1492 that revised the State statutes regarding emergency service boards. This Board is currently defined as a political subdivision of the state. Therefore, they will not subsequently be included in the scope of the County for reporting purposes. The change was effective as of August 28, 2010. In accordance with this consideration, the emergency service board should not be included as part of the Dade County reporting entity subsequent to December 31, 2010.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

County Commission
Dade County
Greenfield, Missouri

We have audited the financial statements of Dade County, Missouri as of and for the years ended December 31, 2010 and 2009, and have issued our report thereon dated June 10, 2011. Our opinion was modified because the County prepares its financial statements using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements of Dade County, Missouri, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

County Commission
Dade County
Greenfield, Missouri

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider deficiencies 10-1 and 10-2 described in the accompanying schedule of findings and responses to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of Dade County, Missouri, are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We also noted certain other matters that we reported to management of Dade County, Missouri, in a separate letter dated June 10, 2011.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the County Commission and management, and is not intended to be and should not be used by anyone other than these specified parties.

Davis, Lynn & Moots, PC

DAVIS, LYNN & MOOTS, P.C.
June 10, 2011

Financial Statement Findings

10-1 Segregation of Duties

Condition: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Criteria: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: We realize that because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our professional standards require that we bring this lack of segregation of duties to your attention in this report.

Response: The limited number of available personnel prohibits segregation of incompatible duties.

10-2 Investment Activity

Condition: Certificates of deposit are being held for various funds which are not included in the County's accounting software.

Criteria: The County should include all cash and investment accounts held with banking institutions in the County's accounting software.

Effect: Incomplete financial data is displayed monthly.

Recommendation: The County should account for all investment activity with its banking institutions in the County's software.

Response: The County will include investment activity held with its banking institutions for its various funds within the accounting software.

Dade County Commission
Dade County
Greenfield, Missouri

In planning and performing our audit of the basic financial statements of Dade County, Missouri for the years ended December 31, 2010 and 2009, we considered the County's internal control to determine our auditing procedures for the purpose of expressing an opinion on the basic financial statements and not to provide assurance on the internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed in the Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*, we identified deficiencies in internal control over financial reporting that we consider to be material weaknesses.

In addition to the material weaknesses discussed in the Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*, we became aware of additional matters to bring to your attention. The following paragraphs summarize our comments and suggestions regarding these matters.

1. Special Revenue Funds of the County

   The County currently maintains a Sheriff's Revolving Fund, Election Services Fund, and a Tax Maintenance Fund for the benefit of the various offices of the County. Although the monies are to be used for the benefit of the various offices, these monies represent County funds. Therefore the same policies of the County regarding budgeting, receipts, and disbursements should be followed for these funds as with other funds of the County.

   We Recommend:

   The County require these funds to be deposited with the County treasurer in their respective funds. Expenditures from these funds should be budgeted and the approval process for expenditures out of these funds should follow the same procedures as with other County expenditures.

2. Budgetary Compliance

The County was not in compliance with the budgetary statute, Chapter 50, RSMo, in the current year as a actual disbursements exceeded budgeted disbursements in the Law Enforcement Fund. The County was not in compliance with the budgetary statute, Chapter 50, RSMo, in 2009 as actual disbursements exceeded budgeted disbursements in the Road and Bridge Fund, Assessment Fund , the Law Enforcement Fund, the Law Enforcement Training Fund, and the Prosecuting Attorney Bad Check Fund. The budgetary statute prohibits actual disbursements exceeding budgeted disbursements.

We Recommend:

The County review expenditures during the year and amend the budget as necessary to ensure compliance with the budgetary statute (Chapter 50, RSMo)

3. Bank Reconciliations

Although bank reconciliations were performed for some bank accounts of the County, not all bank accounts were reconciled on a monthly basis to ensure all receipts, disbursements and reconciling items had been properly recorded in the County's financial records.

We Recommend:

The County perform monthly bank reconciliations on all of its accounts. A bank reconciliation is one of the most important internal control features that can be performed by County personnel. Reconciliations must be performed on a monthly basis. These reconciliations ensure that all accounting functions have been properly accomplished and that there are no errors or irregularities in the financial reports and statements. Bank reconciliations are performed by obtaining bank statement data from all banking institutions, adding to these statements any deposits that have been included on the County's financial statements that are not on the bank's statements, and deducting any County disbursements that have not cleared the bank as of the statement date. This amount is then compared to the County's financial statements to ensure that both sources agree. This procedure ensures that all County receipts have been properly deposited into the County's bank accounts and that all disbursement checks have been accounted for and properly recorded in the County's financial statements.

4. Sheriff Fees

During the current year, the Sheriff's Department did not keep a detailed accounting for fees received, and consequently, monthly recordings into the County's software for fee revenue was not recorded until December. Upon further analytical examination, the fee revenue could not be explained as to its dollar variance between years. A detailed classification of revenue received monthly is crucial to the Department's accurate presentation of financial data.

We Recommend:

The Sheriff's Department keep a detailed accounting of fees received and submit this information monthly to the Clerk's Office to ensure accurate and complete financial data.

We will review the status of these comments during our next audit engagement. We will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters or to assist you in implementing the recommendations.

We appreciate this opportunity to serve as Dade County's independent auditor and the courtesies and assistance extended to us by the County's employees.

County Commission
Dade County
Greenfield, Missouri

We have audited the basic financial statements of Dade County, Missouri for the years ended December 31, 2009 and 2010, and have issued our report thereon dated June 10, 2011. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated February 24, 2011, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our engagement letter dated February 24, 2011.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Primary Government of Dade County, Missouri are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2009 or 2010.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. Material misstatements detected as a result of audit procedures were corrected by management for the following:

- Unrecorded Cash and Investment Activity

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 10, 2011.

Management Consultations with Other Independent Accountants

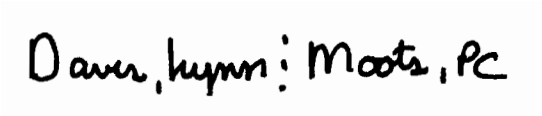
In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This report is intended solely for the use of the County Commission and management of the Primary Government of Dade County, Missouri and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,



DAVIS, LYNN & MOOTS, P.C.

INDEPENDENT AUDITORS' REPORT

Dallas County Commission
Dallas County
Buffalo, Missouri

We have audited the accompanying financial statements of Dallas County, Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

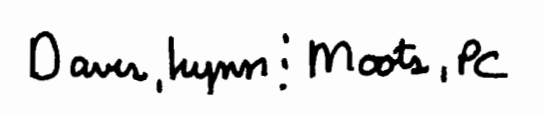
As described in Note A, these financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the Unites States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the Unites States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Dallas County, Missouri, as of December 31, 2010 and 2009, or the changes in financial position for the years then ended.

Dallas County Commission
Dallas County
Buffalo, Missouri

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the cash balances of the governmental and agency funds of Dallas County, Missouri, as of and for the years ended December 31, 2010 and 2009, and the receipts, disbursements and budgetary results of the governmental funds for the years ended, on the basis of accounting described in Note A.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 29, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.



DAVIS, LYNN & MOOTS, P.C.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Dallas County, Missouri, ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, County Clerk, Recorder, Coroner, Collector, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note A, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

The County's operations include tax assessments and collections, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Dallas County, Missouri, which consists of all funds, organizations, agencies, departments, and offices that comprise the County's legal entity.

Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statements of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following funds are used by the County:

Governmental Funds – Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds (agency funds) are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, or other governmental units. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector and other officeholders.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting

The financial statements are prepared on the regulatory basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measureable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County adopts a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Adjustments made during the year were not significant and are reflected in the budget information in the financial statements. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Section 50.740 RSMo, prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for several funds of the County.

Cash

The County pools cash resources of various funds in the County Treasurer's office in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. Some County offices also hold cash in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

NOTE B – CASH

The County maintains a cash pool that is available for use by all funds. Each fund's portion of this pool is displayed as "Cash". In addition, cash is separately held by several of the County's funds. State statutes require that County deposits be fully collateralized in the name of the County. As of December 31, 2010 and 2009, all bank balances were entirely insured or collateralized with securities.

NOTE C – CLAIMS, JUDGMENTS AND CONTINGENCIES

Federal and State Grants

The County participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Disbursements financed by grants are subject to audit by the appropriate grantor government. If disbursements are disallowed due to noncompliance with grant program regulations, the County may be required to reimburse the grantor government. As of December 31, 2010 and 2009, significant amounts of grant disbursements have not been audited by grantor governments, but the County believes that disallowed disbursements, if any, based on subsequent audits will not have a material effect on any of the individual government funds or the overall financial position of the County.

NOTE C – CLAIMS, JUDGMENTS AND CONTINGENCIES (continued)

Legal Matters

There are a number of claims and/or lawsuits to which the County is a party as a result of certain injuries and various other matters and complaints arising in the ordinary course of County activities. The County's management and legal counsel anticipate that the potential claims, if any, against the County, resulting from such litigation would not have a material effect on the financial position of the County.

NOTE D – PENSION PLAN – CERF

STATE OF MISSOURI COUNTY EMPLOYEES' RETIREMENT FUND

Plan Description

Dallas County participates in the County Employees' Retirement Fund (CERF), a cost-sharing multiple-employer pension plan. CERF is a defined benefit pension plan which provides retirement and death benefits to plan members and beneficiaries. CERF was created and is governed by state statute, RSMo. 50.1000 to 50.1300. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401a and it is tax exempt.

The County Employees' Retirement Fund issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to CERF, Boone County National Bank, P.O. Box 577, Columbia, MO 65202 or by calling 1-800-357-8557.

Funding Policy

Dallas County's full-time employees hired before February 25, 2002, are required by state statute to contribute 0% of annual payroll to the pension plan. Dallas County's full-time employees hired after February 25, 2002, are required by state statute to contribute 4% of annual covered payroll to the pension plan. The County is required by state statute to remit the fees collected under RSMo. Sections 52.290, 150.150, 137.280, 137.345 and Chapters 59 and 54, RSMo, plus interest. The required contributions have been made.

NOTE E – ASSESSED VALUATION, TAX LEVY AND LEGAL DEBT MARGIN

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1, and are payable by December 31.

The 2010 and 2009 assessed valuation of the tangible taxable property (excluding railroad and utilities) and the tax levies per $100 assessed valuation of that property were as follows:

ASSESSED VALUATION	2010	2009
Real estate	$ 115,098,182	$ 113,614,330
Personal property	32,548,348	34,669,243
	$ 147,646,530	$ 148,283,573
TAX LEVY		
General Revenue Fund	$ .1692	$ .1660
Special Road and Bridge Fund	.2643	.2611
	$ .4335	$ .4271

The legal debt margin at December 31, 2010 and December 31, 2009, is computed as follows:

	2010	2009
Constitutional debt limit	$ 14,764,653	$ 14,828,357
General obligation bonds payable	-	-
LEGAL DEBT MARGIN	$ 14,764,653	$ 14,828,357

Under Article VI, Section 26(b) and (c), Missouri Constitution, the County, by a vote of its qualified electors voting therein, may incur an indebtedness for any purpose authorized by law of the County or by any general law of the State of Missouri. The borrowings authorized by this section shall not exceed ten percent of the value of the taxable tangible property in the County.

NOTE F – RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has transferred its risk by obtaining coverage from commercial insurance companies. In addition, it has effectively managed risk through various employee education and prevention programs. There has been no significant reduction in insurance coverage from the previous year.

NOTE G – INTERFUND TRANSFERS

Interfund transfers for the years ended December 31, 2010 and 2009, consisted of the following:

	Transfers In (Out)	
	2010	2009
General Fund	$ (233,601)	$ (207,800)
Special Road and Bridge Fund	(36,171)	(15,000)
Assessment Fund	108,272	98,000
Prosecuting Attorney Training Fund	(3,100)	-
Law Enforcement Sales Tax Fund	170,000	140,800
Bad Check Fund	(16,000)	(15,000)
Road and Bridge Capital Improvement Fund	(16,500)	(15,000)
Jury Fund	7,100	14,000
Tax Maintenance Fund	(20,000)	-
Special Election Fund	40,000	-
	$ -	$ -

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statue or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE H – LONG-TERM LIABILITIES

Compensated Absences

Compensated absences payable consists of unused vacation time and accumulated comp time for employees and totaled $38,590 as of December 31, 2009, and $33,722 as of December 31, 2010 for the County, and $7,474 as of December 31, 2009, and $9,477 as of December 31, 2010 for the E 911 Board.

NOTE I – RELATED PARTY TRANSACTIONS

During the years ended December 31, 2010 and 2009, the County purchased concrete from Morgans Concrete Co, Inc. Morgans Concrete Co, Inc. is owned by a brother of the County's presiding commissioner during that time period. In 2010 and 2009, the County paid Morgans Concrete Co, Inc. invoices totaling $11,200 and $31,778, respectively.

NOTE J – COMMITMENT

At December 31, 2010, the E 911 Board was committed to CenturyLink, Inc. for the payment of invoices billed to E 911 totaling $29,092.

NOTE K – RESTATEMENT OF BEGINNING CASH BALANCES

Beginning cash balances have been restated to remove court accounts and the Law Enforcement Supplemental Salaries Fund, which are no longer considered special revenue funds. Cash balances have also been restated to remove Emergency 911 board, which is considered a separate political subdivision. The restatement is as follows:

Ending Cash Balance, as previously stated, December 31, 2008	$	970,817
Circuit Clerk Interest		(8,624)
Law Library		(13,792)
Associate Circuit Court Interest		(7,301)
Law Enforcement Supplemental Salaries Fund		(710)
Cash Balance, as restated, January 1, 2009	$	940,390

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

County Commission
Dallas County
Buffalo, Missouri

We have audited the financial statements of Dallas County, Missouri as of and for the years ended December 31, 2010 and 2009, and have issued our report thereon dated April 29, 2011. Our opinion was modified because the County prepares its financial statements using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements of Dallas County, Missouri, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

County Commission
Dallas County
Buffalo, Missouri

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. They are identified as items 10-1 and 10-2.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of Dallas County, Missouri, are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We also noted certain other matters that we reported to management of Dallas County, Missouri, in a separate letter dated April 29, 2011.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the County's responses and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the County Commission and management, and is not intended to be and should not be used by anyone other than these specified parties.

Davis, Lynn & Moots, PC

DAVIS, LYNN & MOOTS, P.C.
April 29, 2011

Financial Statement Findings

10-1 Segregation of Duties

Condition: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Criteria: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: We realize that because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our professional standards require that we bring this lack of segregation of duties to your attention in this report.

Response: The limited number of available personnel prohibits segregation of incompatible duties.

10-2 Reconciliation of Interfund Transfers

Condition: Some transfers between funds were recorded as revenues in the funds receiving the transfer and as expenses in the funds making the transfer. Transfers between funds are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Criteria: Transfers between funds should be recorded in separate transfer accounts instead of being recorded in revenue and expense accounts.

Effect: Expenses and revenues are overstated as a result of transfers being recorded in revenue and expense accounts.

Recommendation: Transfer accounts should be established and used when funds are transferred among funds. In addition, at year-end, the County Clerk should perform a reconciliation to ensure that the total of transfers in and transfers out equals zero.

Response: The County will implement procedures to properly record interfund transfers.

Dallas County Commission
Dallas County
Buffalo, Missouri

In planning and performing our audit of the basic financial statements of Dallas County, Missouri for the years ended December 31, 2010 and 2009, we considered the County's internal control to determine our auditing procedures for the purpose of expressing an opinion on the basic financial statements and not to provide assurance on the internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed in the Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*, we identified deficiencies in internal control over financial reporting that we consider to be material weaknesses.

In addition to the material weaknesses discussed in the Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*, we became aware of additional matters to bring to your attention. The following paragraphs summarize our comments and suggestions regarding these matters.

1. Budgetary Compliance

   The County was not in compliance with the budgetary statute, Chapter 50 RSMo, in 2009, as actual expenditures exceeded budgeted expenditures in the Bad Check Fund and the Law Enforcement Civil Fees Fund. The County was also not in compliance in 2010, as actual expenditures exceeded budgeted expenditures in the Assessment Fund, Law Enforcement Sales Tax Fund, Bad Check Fund, Jury Fund, and Sheriff's Revolving Fund. The budgetary statute prohibits actual expenditures exceeding budgeted expenditures for any fund maintained by the County.

   We Recommend:

   The County review expenditures during the year and amend the budget as necessary to avoid expending more than the budgeted amount to ensure compliance with the budgetary statute (Chapter 50, RSMo).

2. Bank Depository Agreements

As a custodian of public monies, we believe the County should review certain elements of depository agreements with the County's banking institutions to ensure proper controls are in place regarding the deposits. The County has a responsibility for the safety of County monies and the depository agreements are often not reviewed and updated appropriately.

We Recommend:

a. The County determine that the depository agreement with the banking institution has instructions regarding when a check is valid and may be honored by the institution. If more than one signature is required on checks, then the depository agreement should reflect that requirement.

b. The County determine that the depository agreement specify the persons authorized to make wire transfers and to whom they may be made. This is necessary to prevent unauthorized wire transfers of County funds.

c. The County determine that the depository agreement has procedures for opening new accounts in order to prevent unauthorized accounts from being opened under the County's name.

3. Approved Vendor List

During our audit we noted that the County does not have policies and procedures in place to require purchases only from approved vendors. Maintenance of an approved vendor list is an excellent procedure to have in place to prevent fraudulent disbursements to fictitious vendors.

We Recommend:

The County develop policies and procedures in order to have an approved vendor list for purchases made by the County.

4. Disbursement Procedures

Currently the County does not require two signatures on checks from some of the County's bank accounts. Coupled with the lack of segregation of duties, this creates an environment in which the County's assets could be misappropriated and the misappropriation would not be discovered in a timely manner.

We Recommend:

The County institute a policy requiring two signatures on all checks for all County disbursements, including all Special Revenue Fund disbursements.

5. General Revenue Fund Cash Balance

During our audit we noted that the General Revenue Fund cash balance has been declining for the past several years. As of December 31, 2010, the General Revenue Fund cash balance was $85,559. Cash balances in the General Revenue Fund for the years ending 2007, 2008, and 2009, were $307,697, $195,220, and $164,618, respectively. From the end of 2007 to the end of 2010, the cash balance has declined $222,138. At December 31, 2010, the General Revenue Fund cash balance as a percentage of 2010 disbursements is equal to 6.5%.

We Recommend:

The County closely monitor the General Revenue Fund cash balance, and take necessary steps to ensure the General Revenue Fund has adequate cash reserves as determined by the County.

We will review the status of these comments during our next audit engagement. We will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters or to assist you in implementing the recommendations.

We appreciate this opportunity to serve as Dallas County's independent auditor and the courtesies and assistance extended to us by the County's employees.

County Commission
Dallas County
Buffalo, Missouri

We have audited the basic financial statements of Dallas County, Missouri for the years ended December 31, 2010 and 2009, and have issued our report thereon dated April 29, 2011. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated February 24, 2011, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our engagement letter dated February 24, 2011.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Primary Government of Dallas County, Missouri are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2009 or 2010.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. Material misstatements detected as a result of audit procedures were corrected by management for the following:

- Interfund transfer activity

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated April 29, 2011.

Management Consultations with Other Independent Accountants

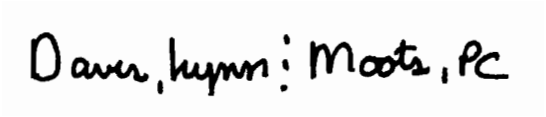
In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This report is intended solely for the use of the County Commission and management of the Primary Government of Dallas County, Missouri and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,



DAVIS, LYNN & MOOTS, P.C.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Howard County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Howard County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Casey-Beard-Boehmer PC, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Howard County, Missouri

We have audited the accompanying financial statements of Howard County, Missouri, as of and for the years ended December 31, 2010 and 2009, as listed in the table of contents. These financial statements are the responsibility of Howard County, Missouri's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As described more fully in Note 1, Howard County, Missouri, prepares its financial statements using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America. The effect on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Howard County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the receipts, disbursements, and changes in cash of the funds of Howard County, Missouri, as of December 31, 2010 and 2009, and comparisons of such information with the corresponding budgeted information for the years then ended on the basis of accounting described in Note 1.

MEMBER
•
American Institute of Certified Public Accountants
•
Missouri Society of Certified Public Accountants
•

In accordance with *Government Auditing Standards*, we have also issued our report dated September 1, 2011 on our consideration of Howard County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the county's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of Howard County, Missouri. The Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole on the basis of accounting described in Note 1.

This report is intended solely for the information and use of management, County Commission and other boards, others within the entity, the Missouri State Auditor's Office, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

As discussed further in Note 1.C., these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

1. A. REPORTING ENTITY

The county's operations include tax assessments and collections, state/county courts administration, county recorder, public safety, economic development, road and bridge maintenance, public welfare, and social and human services. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, other boards, or elected county officials.

The financial statements referred to above include the primary government of Howard County, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the county's legal entity. This would include the local health department and Sheltered Services Board through December 31, 2010, and the 911 Board through August 31, 2010. Effective August 28, 2010, Missouri state law provided that the 911 Board would be considered a separate governing body.

1. B. BASIS OF PRESENTATION

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The county's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The county's expendable financial resources are accounted for through governmental funds.

Fiduciary (Agency) Funds - Certain county officials, particularly the County Collector, Treasurer, Recorder, Sheriff, and Public Administrator collect and hold monies in a trustee capacity as an agent for individuals, taxing units, or other governments. These assets, which are held for the benefit of external parties, are held in fiduciary (agency) funds which are custodial in nature, and are not reported on the accompanying financial statements.

1. C. BASIS OF ACCOUNTING

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

1. D. BUDGETS AND BUDGETARY ACCOUNTING

The county follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the county's policy is to adopt a budget for each governmental fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONTINUED)

1. D. BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

2. Prior to January, each elected officer or department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. The General Revenue Fund had a deficit budgeted cash balance in 2010 in the amount of $1,387, while no other funds had a deficit budgeted cash balance for 2010 and 2009.

5. A public hearing is conducted to obtain public comment on the budget documents. Prior to approval by the County Commission and other boards, the budget documents are available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission, the Sheltered Services Board or the 911 Board.

7. Subsequent to its formal approval of the budget, the County Commission, Sheltered Services board and 911 board have the authority to make necessary adjustments to the budget by formal vote. Budgeted amounts are as originally adopted, or as amended by the County Commission, Sheltered Services Board and 911 board during the year. The County Commission amended budgets for the following funds:

Fund	Years Ended December 31,
General Revenue	2010 and 2009
Special Road and Bridge	2010 and 2009
Assessment	2010
Prosecuting Attorney Bad Check	2010 and 2009
Civil Defense	2010
Election Services	2010 and 2009
Keller Building	2010 and 2009
Law Enforcement Training	2010
Prosecutor's Supplemental	2010 and 2009
Law Enforcement Sales Tax	2010 and 2009
Road and Bridge Disaster	2009
Tax Maintenance	2009

8. Budgets are prepared and adopted on the cash basis of accounting by the County Commission, Sheltered Services Board and 911 Board.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONTINUED)

1. D. BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

9. Adoption of a formal budget is required by state statute. However, the county did not include formal budgets for the MFH Infrastructure Grant Fund or the Howard County Insurance Fund for the year ended December 31, 2009 for which expenditures were made to close out these funds.

1. E. USE OF ESTIMATES

The preparation of financial statements in conformity with the cash basis of accounting used by the County requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

1. F. PROPERTY TAXES

Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as on January 1. Taxes are levied in September and payable by December 31. Taxes paid after December 31 are delinquent and subject to penalties. The county bills and collects its own property taxes and also taxes for most other local governments in the county.

The assessed valuation of the tangible property for the calendar year 2010 and 2009 for purposes of local taxation was:

	2010	2009
Real Estate	$ 71,001,510	$ 69,996,610
Personal Property	22,848,507	22,745,433
Railroad and Utilities	13,811,385	13,217,989
Total Assessed Valuation	$ 107,661,402	$ 105,960,032

The county-wide levy per $100 of the assessed valuation of tangible property for the calendar year 2010 and 2009 for purposes of local taxation was:

	2010	2009
General Revenue Fund	$ .2732	$ .2773
Special Road and Bridge Fund *	$ .2710	$ .2890
Sheltered Services Board Fund	$ .1000	$ .1000

* The county retains all tax proceeds from areas not within special road districts. The county has two road districts that receive four-fifths of the tax collections from property within these districts, and the Special Road and Bridge Fund retains one-fifth. The road districts also have an additional levy approved by the voters.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONTINUED)

1. G. CASH DEPOSITS AND INVESTMENTS

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less; however, nonnegotiable certificates of deposit with original maturity of greater than ninety days is considered as cash equivalents. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

1. H. INTERFUND ACTIVITY

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Transfers between funds of the primary government for the years ended December 31, 2010 and 2009 were as follows:

	Year Ended December 31, 2010	
	Transfers In	Transfers Out
FUNDS:		
General Fund	$ 16,943	$ 88,745
Civil Defense Fund	11,882	-
Prosecuting Attorney Bad Check Fund	2,500	-
Howard County Economic Development Fund	-	1,000
Election Services Fund	-	4,493

Jail Sales Tax Fund	-	11,375
Law Enforcement Sales Tax Fund	76,531	-
Totals	$ 279,926	$ 281,986

A transfer for $2,060 ordered by the County Commission in December 2008 between the Special Road and Bridge Fund to the Road and Bridge Disaster Fund was not recorded as the transfer out by the Treasurer until January 2009 making total transfers not to be in balance for 2009 and 2008.

1. I. PUBLISHED FINANCIAL STATEMENTS

Under Section 50.800 and 50.810, RSMo 2000, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund. For the year ended December 31, 2009, the published financial statements did not include the 911 Board Fund or the Sheltered Services Board Fund.

NOTE 2. CASH AND INVESTMENTS

Section 110.270, RSMo 2000, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo 2000, requires political subdivisions with existing authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchases of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

The county has determined through experience that checking accounts, savings accounts, negotiable order withdrawal (NOW) accounts, money market accounts, and certificates of deposits are appropriate types of accounts or instruments for its needs. The county maintains a cash and

NOTE 2. CASH AND INVESTMENTS (CONTINUED)

temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is included on the financial statements as "Cash" under each fund's caption.

Disclosures are provided below regarding the risk of potential loss of cash deposits. For the purpose of the disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

Deposits
Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amounts of the county's deposits were $894,857 and $933,667, respectively, and the bank balances for all accounts at the depository bank were $1,070,511 and $1,034,450 respectively. All bank balances at the depository bank at December 31, 2010 and December 31, 2009 were covered by $250,000 of federal depository insurance and $820,511 and $784,450, respectively, were covered by collateral held at the Federal Reserve Bank and the county's safekeeping bank agent in the county's name or by its agent in the county's name.

The County's Sheltered Services Board's deposits at December 31, 2010 and 2009, and the 911 Board's deposits at August 31, 2010 and December 31, 2009, were not exposed to custodial credit risk because they were entirely covered by federal depositary insurance or by collateral securities held by the boards' custodial bank in the county's or boards' name.

NOTE 3. COUNTY EMPLOYEES' RETIREMENT PLANS

The following information is presented in accordance with the Governmental Accounting Standards Board Statement 27 (GASB 27), "Accounting for Pensions by State and Local Governmental Employees":

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Howard County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section RSMo 70.600-70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt. The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334.

2) Pension Benefits

Upon termination of employment, any member who is vested is entitled to either an unreduced benefit annuity, payable at age sixty (police and fire fighters, age fifty-five), or a reduced benefit annuity, payable at age fifty-five (police and fire fighters, age fifty). Any member with less than five years of credited service will be refunded accumulated plan contributions.

NOTE 3. COUNTY EMPLOYEES' RETIREMENT PLANS (CONTINUED)

3) Funding Policy

Howard County's full-time employees do not contribute to the pension plan since the plan is non-contributory with the employees' part paid by the county. The county is required to contribute at an actuarially determined rate; the current rate at December 31, 2010 is 1.3% (general) and 1.7% (police) of annual covered payroll. The County Commission determines the contribution requirements of plan members. The contribution provisions of the county are established by state statute.

4) Annual Pension Cost

For 2010 and 2009, total payments to LAGERS were $4,404 and $15,069, respectively.

B. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the state of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two or a reduced benefit annuity at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

NOTE 3. COUNTY EMPLOYEES' RETIREMENT PLANS (CONTINUED)

3) Funding Policy

Participation in the plan is required for part-time employees that work over 1,000 hours in a calendar year. Enrollment in the plan occurs at the next open enrollment date, in either January or June. For part-time eligible employees hired before February 25, 2002, a pre-tax contribution of 2% is required. For employees hired on or after February 25, 2002, a pre-tax contribution of 4% is required for full-time employees and for part-time employees a contribution of 6% is required. During 2010 and 2009, the county collected and remitted CERF employee contributions of approximately $87,365 and $84,397, respectively, for the years then ended.

NOTE 4. COMPENSATED ABSENCES AND POST-EMPLOYMENT BENEFITS

Vacation time is accrued for every full-time employee in the county and accrues at different rates up to a maximum of twenty-one days per year. An employee may carry five annual vacation leave days over to the following year. All vacation earned in one year must be taken off the following year. Compensation for unused vacation is at the discretion of the County Commission. The county provides full-time county employees with up to one day of sick leave time per month and may accumulate to an unlimited amount of days. Sick leave is not paid upon termination of employment with the county. Vacation and personal leave amounts are reported as disbursements when they are paid.

The county does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). Under the COBRA the county provides health care benefits to eligible former employees and their dependents. The premiums are paid by the former employees. The county incurs no cost for these benefits.

NOTE 5. CLAIMS, COMMITMENTS, AND CONTINGENCIES

Federal and State Assisted Programs

The county has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

NOTE 6. RISK MANAGEMENT

The county carries commercial insurance for various risks of loss to which it is exposed, including risks related to torts; theft of, damage to, or destruction of assets; natural disasters; errors and omissions; injuries to employees; and employees' health and life. County management believes such coverage is sufficient to preclude any significant uninsured losses to the county. Settled claims have not exceeded this insurance coverage in any of the past three years.

The county is a member of the Missouri Association of Counties Self-Insurance Workers' Compensation and Insurance Fund. The county purchases workers' compensation insurance through this fund, a non-profit corporation established to provide insurance coverage to Missouri Counties. The fund is self-insured up to $2,000,000 per occurrence and reinsured up to the statutory limit through excess insurance.

NOTE 7. LEASE PURCHASE AGREEMENTS

A. The County Commission entered into an agreement on March 28, 2003 for the lease-purchase of the Howard County Law Enforcement Center. Certificates of participation totaling $1,725,000 were issued by a local bank on behalf of the county and the proceeds of those certificates were used to construct the center, which was completed in June 2004. The lease is scheduled to be paid off in the year 2012. The remaining principal and interest due on the lease at December 31, 2010 and 2009, totaled $430,000 and $635,000, respectively.

The annual debt service requirements for the Howard County Law Enforcement Center, including principal and interest at December 31, 2010 are as follows:

Year Ended December 31,	Principal	Interest
2011	$ 210,000	$ 13,325
2012	220,000	4,510
Totals	$ 430,000	$ 17,835

B. The County Commission entered into an agreement on June 7, 2007 for the lease-purchase of two motor graders. The total lease for the two graders is for 60 months with the first four payments of $18,037 annually and a final payment of $208,000 due in 2011.

C. The County Commission entered into an agreement on September 13, 2007 for the lease-purchase of a motor grader. The total lease for the grader is for 60 months with the first payment of $50,000 in 2007, four payments of $10,206 annually and a final payment of $104,000 due in 2011.

D. The County Commission entered into an agreement on June 15, 2010 for the lease-purchase of an excavator. The total lease for the grader is for 60 months with five annual payments of $23,173.

NOTE 8. EQUIPMENT RENTAL

The Prosecuting Attorney entered into an agreement on December 29, 2010 for a 48 month lease of a copy machine with a monthly payment of $112.

NOTE 9. LONG-TERM DEBT

The County had the following debt outstanding at December 31, 2010 and 2009:

A. The county entered into two energy efficiency loan agreements with the Missouri Department of Natural Resources (DNR) to finance major repairs at the courthouse and the Keller Building. In July 2008, DNR issued a 16-year loan in the amount of $49,336 with a 4.1% interest rate. The county has long-term debt outstanding for this note at December 31, 2010 and 2009, of $43,205 and $46,209, respectively.

The annual debt service requirements for the DNR Energy Efficient Loan, including principal and interest at December 31, 2010 are as follows:

NOTE 9. LONG-TERM DEBT (CONTINUED)

Year Ended December 31,		Principal		Interest
2011	$	3,129	$	1,740
2012		3,259		1,610
2013		3,394		1,475
2014		3,535		1,334
2015		3,681		1,188
2016-2022		26,207		3,710
Totals	$	43,205	$	11,057

B. In August 2010, the DNR authorized a 6 1/2-year loan up to $60,000, with a 0 percent interest rate, for Keller building repairs. The county has long-term debt outstanding for this note at December 31, 2010 of $43,841. As of December 31, 2010, no payments are due on this loan.

NOTE 10. SUBSEQUENT EVENTS

The 1/2-cent jail capital improvement sales tax expires on December 31, 2011. In April 2011, the voters of Howard County approved an additional 1/8-cent sales tax for 911 services.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

HOWARD COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. PURPOSE OF SCHEDULE AND REPORTING ENTITY

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Howard County, Missouri.

B. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards is presented in accordance with OMB Circular A-133, which defines federal financial assistance as assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for service rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts the non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors. Because Howard County expended no noncash awards for the years ended December 31, 2010 and 2009, the schedule includes expenditures of cash awards only.

C. BASIS OF ACCOUNTING

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

D. MATCHING REQUIREMENTS

Certain Federal programs require that the county contribute non-federal funds (matching funds) to support the federally-funded programs. The county has complied with the matching requirements. The expenditure of non-federal matching funds is not included on the schedule.

NOTE 2. SUBRECIPIENTS

The county provided no federal awards to subrecipients during the years ended December 31, 2010 and 2009.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission
and Officeholders
of Howard County, Missouri

We have audited the financial statements of Howard County, Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise Howard County's basic financial statements and have issued our report thereon dated September 1, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Howard County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Howard County's control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Howard County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting (10-01 and 10-02).

MEMBER

•
Missouri Society of Certified Public Accountants
•

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Howard County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and which are described in the accompanying schedule of findings and questioned costs as items 10-01 and 10-02.

Howard County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Howard County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, County Commission and other boards, others within the entity, the Missouri State Auditor's Office, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECTAND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission
and Officeholders
of Howard County, Missouri

Compliance

We have audited Howard County, Missouri's compliance, with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the county's major federal program for the years ended December 31, 2010 and 2009. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Howard County, Missouri, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the years ended December 31, 2010 and 2009.

Internal Control Over Compliance

Management of Howard County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Howard County, Missouri's internal control over compliance with requirements that could have a direct and material effect on a major federal program to

MEMBER
•
American Institute of Certified Public Accountants
•
Missouri Society of Certified Public Accountants
•

determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Howard County, Missouri's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs that we consider to be a deficiency in internal control over compliance (10-03).

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We did not identify any deficiencies in internal control over compliance that we consider to be significant deficiencies.

Howard County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Howard County, Missouri's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of management, County Commission and other boards, others within the entity, the Missouri State Auditor's Office, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

SECTION I – SUMMARY OF AUDITOR'S RESULTS

Financial Statements

Type of auditors' report issued:	Unqualified	
Internal control over financial reporting:		
Material weakness(es) identified?	____ yes	X no
Significant deficiency(ies) identified?	X yes	____ none reported
Noncompliance material to financial statements noted?	____ yes	X no

Federal Awards

Internal control over major programs:		
Material weakness(es) identified?	____ yes	X no
Significant deficiency(ies) identified?	____ yes	X none reported
Type of auditors' report issued on compliance for major programs:	Unqualified	
Any audit findings disclosed that are required to be reported in accordance with Section .510(a) of OMB Circular A-133?	X yes	____ no

Identification of major programs:

CFDA Number	Program Title
20.205	Highway Planning and Construction

Dollar threshold used to distinguish between Type A and Type B programs:	$300,000	
Auditee qualified as a low-risk auditee?	____ yes	X no

SECTION II – FINANCIAL STATEMENT FINDINGS

This section includes the audit findings that *Government Auditing Standards* require to be reported for an audit of financial statements.

10-01 Budgetary Controls not in Compliance with State Law

Condition: We noted the following issues with the county's budgeting process during our audit:

A. The County Commission approved budget amendments for several county funds in December 2010. The amended document presented by the county for audit purposes for the General Revenue Fund for 2010 noted that the revised budgeted revenues and expenditures left a negative budgeted cash balance of $1,387 as shown in the financial statements presented for the county. There was no amended cash reconciliation page included with the revised budget to show what the budgeted cash balance would be. We also noted upon discussion with the State Auditor's Office that the December 2010 budget amendments had not been filed with the office as required by state law.

Upon discussion with the County Clerk, the official indicated that there would have been an error in the amended revenue amount since sales taxes had increased more than expected and should have been increased so there would not have been a negative budgeted cash balance. The County Commission should provide an amended reconciliation on each budget amendment to ensure that the budgeted cash balance does not show as a negative amount on the budget document.

B. The county reported inaccurate loan balances in the 2010 and 2011 budgets as follows:

Loan	Budget	Amount Reported	Actual Amount
Law Enforcement Center	2010	$ 610,000	$ 635,000
DNR Natural Resources Loan	2011	42,210	43,205

In addition, lease-purchase agreements entered into by the county were not included on the budget document and the Sheltered Services Board tax levy for each year was not properly shown since the tax levy is a county-wide levy.

Criteria: Section 50.622 RSMo, requires that the same procedures should be followed for amending the budget as were required for the adoption of the annual budget. Section 50.540 RSMo states the estimated ending fund balance cannot be a deficit balance. The Missouri State Auditor's Office budgetary guidelines require long-term debt including lease-purchase agreements and certificates of participation along with all county-wide levies to be reported in the budget.

Cause: County officials did not consider the importance of preparing proper amended budgets and reporting accurate long-term debt and other information on the budget documents.

Effect: The County Commission and the County Clerk did not follow state law and budgetary guidelines on the preparation of budget documents.

Recommendation:

A. The County Commission and County Clerk ensure the amended budgets do not indicate a negative budgeted cash balance and are filed properly with the state.

B. The County Commission and County Clerk ensure all loan balances, lease-purchase agreements, and all county-wide levies are presented accurately on the budget document.

Response:

A. The County Commission and the County Clerk agree with the recommendation and will ensure the amended budgets do not indicate a negative budgeted cash balance and are properly filed with the state.

B. The County Commission and County Clerk agree with the recommendation and will ensure all loan balances, lease-purchase agreements, and all county-wide levies are presented accurately on the budget document.

10-02 Untimely Deposit by County Treasurer

Condition: The County Treasurer delayed depositing a court ordered transfer on December 5, 2008 until January 1, 2009 causing the transfers between funds to be out of balance by $2,060 in 2009 as shown on the county's financial statements.

Criteria: Strong internal controls over financial statements require that deposits be made timely to ensure the county's funds are accurate and in balance.

Cause: The County Treasurer's office did not deposit a court order transfer timely.

Effect: The transfers between funds are not in balance on the financial statements filed.

Recommendation:

The County Treasurer should make all deposits timely to safeguard county assets and assure the financial information is in balance on the formal budget.

The County Treasurer provided the following response:

Response: In error, I failed to transfer $2,060 in the month of December 2008 as directed by the County Commission. I did so in January 2009 when the error of transfer was discovered. I will make sure all deposits and transfers are done in a timely manner to safeguard county assets and assure the financial information is in balance on the formal budget.

SECTION III – FEDERAL AWARD FINDING

10-03 Schedule of Expenditures of Federal Awards

Federal Grantor:	U.S. Department of Agriculture, U.S. Department of Housing and Urban Development, U.S. Department of Justice, and U.S. Department of Health and Human Services
Pass-Through Grantor:	Various
Federal CFDA Number:	Various
Program Title:	Various
Pass-Through Entity Identifying Number:	N/A
Award Year:	2010 and 2009
Questioned Costs:	N/A

Condition: The county does not have adequate procedures in place to report accurate grant information on the Schedule of Expenditures of Federal Awards (SEFA), and as a result, the county's SEFA contained some errors and omissions of information required by the federal government.

Criteria: Section .310(b) of Circular A-133, Audit of States, Local Governments, and Non-profit Organizations, requires the county to prepare a SEFA for the period covered by the county's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

Effect: Several grants did not have a corresponding CFDA number and pass-through entity identifying numbers on the SEFA, and several program titles reported were not correctly stated. ARRA grants especially were not specifically identified as now required by the federal government.

Recommendation:

Compilation of the SEFA requires consulting county financial records and requesting information from other departments and/or officials. The county should take steps to ensure all departments and/or officials properly track federal awards to ensure all federal awards with the appropriate CFDA numbers and grant titles are properly reported on the SEFA.

Response: *The County Commission and the County Clerk agree with the recommendation and will ensure all departments and/or officials properly track federal awards to ensure all federal awards with the appropriate CFDA numbers and grant titles are properly reported on the SEFA.*

FOLLOW- UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

HOWARD COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Because Howard County, Missouri, did not obtain an audit of its financial statements for the two years ended December 31, 2008, this section does not report the status of any prior audit findings.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Pulaski County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Pulaski County, and issues a separate report on that audit. In addition, in cooperation with the county, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Pulaski County, Missouri

We have audited the accompanying financial statements of Pulaski County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Pulaski County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Pulaski County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Pulaski County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards,* we also have issued our report dated May 20, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

(Original Signed by Auditor)

McBride, Lock & Associates

Exhibit B-23

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Pulaski County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, County Clerk, Circuit Clerk-Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, Treasurer and Collector.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Pulaski County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, offices that are considered by the Missouri State Auditor's Office to comprise the County's legal entity.

Certain elected County officials, particularly the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the LEPC Chemical Preparedness fund in 2010.

9. Section 50.740 RSMo. prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2010	2009
LEPC Chemical Preparedness	X	N/A
Vest Grant	X	N/A
Sheriff's Special Equipment	X	N/A
Law Library	N/A	X
Tourism Tax	N/A	X
White Oaks NID	X	N/A
HAVA	X	N/A
Senate Bill 40 Board	N/A	X

Because a budget was not adopted for the fund listed in Note 1.D.8, expenditures in that respective fund exceeded budgetary authority to the extent that a budget was not adopted.

Additionally, the County budgeted expenditures to exceed estimated revenues and available fund balance resulting in a negative fund balance for the following funds:

	2010	2009
Special Road & Bridge Fund	N/A	X
Sheriff's Revolving Fund	N/A	X
Inmate Security Fund	N/A	X
Drug Court Fund	N/A	X

The County's expenditures exceeded its revenues and fund balances available for expenditures in the White Oaks NID and the Department of Justice Jailer Grant in 2010. The resulting negative cash balances represent implicit borrowings from the other pooled funds. The County expects these borrowings to be repaid from monies received in the next fiscal year.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation were:

	2010	2009
Real Estate	$ 339,604,480	$ 324,105,730
Personal Property	58,960,485	57,395,841
Railroad and Utilities	15,244,038	15,332,235

During 2010 and 2009, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property for the calendar years 2010 and 2009, for purposes of County taxation, as follows:

	2010	2009
Special Road and Bridge	$ 0.1889	$ 0.1774
Senate Bill 40 Board (Sheltered Workshop)	0.0686	0.0686
Senior Citizens	0.0428	0.0428

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amounts of the County's deposits $3,555,889 and $3,516,671, respectively, and the bank balances were $3,906,929 and $4,409,779, respectively. Of the

bank balances, $1,335,451 and $1,105,871 at December 31, 2010 and December 31, 2009, respectively, were covered by federal depository insurance and the remainder was covered by collateral and held at the Federal Reserve Bank or the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2010 and 2009, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue, Special Road and Bridge, Senior Citizens and Senate Bill 40. Tax collections on deposit amounted to $11,816,204 and $10,344,857 at December 31, 2010 and 2009, respectively. The County Collector's deposits were covered by federal depository insurance of $250,000 as of December 31, 2010 and 2009 and the remainder was fully collateralized by pledged securities.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age sixty. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF employee contributions of approximately $244,237 and $238,722 respectively, for the years then ended.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees with up to 24 days of sick time to accrue at one day per complete calendar month of employment. Upon termination, the employee will not be compensated for any unused sick time. Vacation time will accrue at the rate of one day per month with a maximum carryover at the employee’s anniversary date of five days. Compensatory time accrues at a rate of one and one half time actual hours worked based on federal wage and hour regulations.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Lawsuit Filed

A lawsuit has been filed by a former Prosecuting Attorney seeking $43,715 in unpaid salary. The lawsuit alleges that applicable state statutes require that a full-time prosecutor is entitled to the same pay as an associate circuit judge.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had the following debt outstanding at December 31, 2009:

A. $130,000 in 1996 Series Highway H NID GO Bonds, dated August 1, 1996, due in annual installments of $30,000 through March 1, 2012; $35,000 due March 1, 2013; and $40,000 due March 1, 2014. Interest is paid at 5.4% through March 1, 2012 and 6.4% therefore through March 1, 2014.

B. $19,000 in 1999C Series Eagle Point NID Bonds, dated June 17, 1999, due in annual installments of $4,000 through June 1, 2011 and $5,000 thereafter through June 1, 2014.

C. $19,000 in 1999A Series Country Hills NID Bonds, dated June 17, 1999, due in annual installments of $4,000 through June 1, 2011 and $5,000 thereafter through June 1, 2014.

D. $38,000 Limited GO White Oak Neighborhood Improvement District Bonds, dated December 27, 2000, due in annual installments of $6,000 through February 1, 2013; $7,000 thereafter through February 1, 2015 and $8,000 at February 1, 2016.

E. $100,000 loan from Courthouse Sales fund to General Revenue fund on December 31, 2008 due in one year, with interest at the same rate the County receives from the bank on its deposits.

F. $19,130 loan from Missouri Department of Transportation toward financing of a building purchased August 10, 2009, due in full June 11, 2011.

8. CHANGE IN REPORTING ENTITY

The County has changed its definition of the reporting entity, as of January 1, 2009 to exclude the Circuit Clerk Court Maintenance, Circuit Clerk Court Operation, Passport Fees, Time Payment Fees, and Family Court Justice funds. The effect of this change in reporting entity is a net decrease to the cash balances of the governmental funds as previously reported at December 31, 2008 by the amount representing cash balances of the Circuit Clerk Court Maintenance, Circuit Clerk Court Operation, Passport Fees, Time Payment Fees, and Family Court Justice funds.

The E-911 fund included within the report is affected by Missouri House Bill 1492 that revised the State statutes regarding emergency service boards. This Board is currently defined as a political subdivision of the state. Therefore, they will not subsequently be included in the scope of the County for reporting purposes. The change was effective as of August 28, 2010. In accordance with this consideration, the emergency service board should not be included as part of the Pulaski County reporting entity subsequent to December 31, 2010.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2010 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through May 20, 2011, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Pulaski County, Missouri

We have audited the accompanying financial statements of Pulaski County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated May 20, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Pulaski County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pulaski County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Pulaski County, Missouri's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and recommendations, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and recommendations as item 1 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and recommendations as items 2 through 5 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pulaski County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matter that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and recommendations as items 6 and 7.

We also noted certain matters that we reported to management of Pulaski County, Missouri, in the findings and recommendations section as items 8 and 9.

Pulaski County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. We did not audit Pulaski County, Missouri's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

(Original Signed by Auditor)

McBride, Lock & Associates
May 20, 2011

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL AND ITEM OF NONCOMPLIANCE

1. Treasurer's Settlement and Bank Reconciliations

Condition: Bank reconciliations and Treasurer's settlements had not been completed since July 2009. The last reconciliation was completed by the Treasurer who resigned in September 2009. A Governor-appointed Treasurer served the remaining term of office through December 31, 2010.

Bank reconciliations and Treasurer's settlements are essential to ensure integrity of reported fund and cash balances. The absence of bank reconciliations and Treasurer's settlements adversely affects the County's ability to detect or correct errors or misstatements. In addition, annual Treasurer's settlements are required by Chapter 54.290, RSMo.

Cash balances reported herein are based on the County Clerk's records. Verification that the aggregate of cash balances reported were on hand in the Treasurer's accounts could not be made.

Recommendation: We recommend the County complete bank reconciliations each month going forward and going back as necessary to reconcile the aggregate of reported cash balances to cash shown on bank statements.

County's Response: As the newly elected Treasurer, I, Sue Rapone, have begun reconciliation on the banking for my term starting January 2011. I am also in the process of working back through the time period of the Treasurer's settlement for the January 2011 to completing June 2011 time period. In doing so I will also go back to produce the two settlements not done by the interim Treasurer.

Cash Balance not able to be verified due to using the same receipt line for both receipting and dispersing, also done prior to my term has been corrected by myself to receipting in receipt lines and dispersing through expenditure lines.

Auditor's Evaluation: The stated corrective action is responsive to the concerns expressed in the finding.

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2. Courthouse Sales Fund Expenditures

Condition: The Courthouse Sales Fund was used for expenditures not authorized by the ballot presented to and approved by the voters. Expenditures that were made but not identified as eligible expenditures on the ballot included utilities, janitor salaries and benefits, routine maintenance, supplies and other such expenses. The Official Ballot in the Special Election of August 4, 1987 presented the following question:

"Shall the County of Pulaski impose a countywide sales tax at the rate of one-half of one percent for a period of ten years from the date on which such tax is first imposed for the purpose of funding the acquisition, construction, reconstruction, improvement, extension, repair, renovation, remodeling and furnishing of buildings and facilities located on the Courthouse Square in the City of Waynesville, Missouri, to be used by the County?"

Of the $512,394 of costs charged to the Courthouse Sales Fund during 2009 and 2010, $323,245 of costs were not consistent with the categories included on the ballot.

Recommendation: We recommend the County Commission implement monitoring procedures to ensure that restricted funds are used only for authorized purposes and repay to the fund any unauthorized inappropriate charges.

County's Response: The Commission requested a legal opinion from the Prosecuting Attorney and acted in accordance with his guidance to address this concern. The Commission adopted two ordinances based upon that guidance. The first created a new fund called the Courthouse Maintenance and Repair Fund that clearly states the specific purposes for use of that fund. In addition, this ordinance reinstated the Facilities Advisory Board, which is a board of citizens, appointed by the Commission, to oversee and make recommendations as to the Courthouse and the use of this fund to the Commission. It is the Commission's hope that this board, along with the standard budgetary process, will provide a transparent oversight to the use of this fund. The second ordinance declared that the old Courthouse Sales Fund had completed its purpose (which was the construction of the current courthouse), terminated the fund, and transferred the remainder of the fund into the newly created Courthouse Maintenance and Repair Fund. The Commission intends to make a yearly payment from the General Revenue fund into the new Courthouse Maintenance and Repair Fund to reimburse the fund for the expenditures of the past Commissions.

Auditor's Evaluation: It is not certain whether ordinances can have the impact of overriding the purposes stated in the ballot language for which taxes are collected. The reimbursement of amounts into the Courthouse Maintenance and Repair Fund alleviates the principal concern expressed in the finding.

3. Sheriff's Office Internal Controls

Condition: There is not an adequate separation of duties in the Sheriff's Office in the receipts handling functions. The same person receives monies, makes deposits, records transactions, reconciles bank statements and prepares checks for signature. Effective control over cash necessitates the separation of the cash handling function from the accounting and bank reconciliation functions. One person performing multiple duties creates a high internal control risk for the County and hinders the ability of the County to prevent or detect errors and irregularities. .

Recommendation: We recommend the cash handling duties in the Sheriff's Office be separated to the extent practicable from the duties of reconciling bank statements and recording transactions. If such functions are not separated the individual processes and records should be closely and thoroughly reviewed by an independent party.

County's Response: With only two employees in the office there are a limited number of things we can do to separate duties. At this time we are in the middle of another audit by the Missouri State Auditor's Office and one of their employees raised this same problem with me on 7-6-2011 for discussion. We plan to adopt the State Auditor's suggestions for segregations of duties. The Pulaski County Sheriff's office will do whatever we need to do to safeguard the money entrusted to our office.

Auditor's Evaluation: In circumstances involving limited personnel, the officeholder can resolve internal control deficiencies through oversight and/or actual performance of the duty.

4. Law Library Internal Controls

Condition: There is not an adequate separation of duties in the receipts, disbursement and accounting functions for this fund and bank reconciliations have not been performed. The same person maintains accounting records, makes deposits, approves disbursements, writes checks, and receives bank statements. Effective control over cash necessitates the separation of the cash handling function from the accounting and bank reconciliation functions. One person performing multiple duties can create a high internal control risk for the County and hinders the ability of the County to prevent or detect errors and irregularities.

Recommendation: We recommend the cash handling, accounting and disbursement functions be separated to the extent practicable. If not practicable, the Prosecuting Attorney should consider moving custodial and accounting functions for this fund to the County Treasurer.

County's Response: The same procedure utilized by the Prosecutor's Office in regards to bad check and restitution collection will be utilized with in regards to the law library account. Specifically, the bad check and restitution clerk will deposit all income and all outgoing checks will have to be signed by two attorneys in the prosecutor's office. In addition, a monthly report will be forwarded to the clerk and treasurer.

Auditor's Evaluation: The stated action is responsive to the concern expressed in the finding.

5. **Accounting for Transfers**

Condition: The financial statements of the County as presented in the annual budget document present transfers between funds. However, we noted that some transfers were identified as expenditures and revenues within the funds. Additionally, there were costs representing reimbursements that were recorded as transfers. The financial statements included in this report have been adjusted so that transfers in and out between funds are equal as of December 31, 2010 and 2009.

Recommendation: In order to ensure that transfers are properly reported and are in balance (transfers to other funds are balanced by transfers from other funds), we recommend the transfers be clearly identified as transfers and presented in the budget within the Transfer category. Other types of transactions should not be presented in the Transfers category.

County Response: Transfers out will be labeled as such and not as expenditures.

Auditor's Evaluation: The stated action is responsive to the concern expressed in the finding.

ITEMS OF NONCOMPLIANCE

6. Competitive Bidding Procedures

Condition: Competitive bids were not always solicited for goods and services procured by the County. Our review included 16 purchases which required competitive bids. County Clerk files contained no bid documentation for five of these items. Examples of items purchased without competitive bids included: constructed concrete slab; rifles and other equipment for the Sheriff; camera units for the Sheriff; and software licenses. These items cost $64,682.

Section 50.660, RSMo, requires the advertisement for bids for any purchase of $6,000 or more, from any one person, firm, or corporations during any period of 90 days. Competitive bidding helps to assure the County receives fair value for goods and services procured and ensures all interested parties are given an equal opportunity to participate in County business.

Recommendation: We recommend the County Commission solicit bids for all purchases in accordance with state law and maintain adequate documentation of all bids obtained and the justifications for awards.

County's Response: We plan to follow recommendation.

Auditor's Evaluation: The stated action is responsive to the concern expressed in the finding

7. Budgetary Controls

Condition: We noted two issues with the County's budgeting process during 2010 and 2009, as follows:

a) Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the LEPC Chemical Preparedness fund in 2010. Chapter 50, RSMo, requires the preparation and filing of annual budgets for all funds to present a complete financial plan for the ensuing year.

b) Actual expenditures exceeded budgeted expenditures for the following funds in 2010 and 2009 by more than an inconsequential amount:

	2010	2009
LEPC Chemical Preparedness	X	N/A
Vest Grant	X	N/A
Sheriff's Special Equipment	X	N/A
Law Library	N/A	X
Tourism Tax	N/A	X
White Oaks NID	X	N/A
HAVA	X	N/A
Senate Bill 40 Board	N/A	X

State statutes prohibit the County from approving expenditures in excess of the budgeted amount for any County fund. This requirement ensures that expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting. Amounts in excess of budgeted amounts for Commission-controlled funds for the years ended December 31, 2010 and 2009 were $7,991 and $47,816 respectively.

Recommendation: We recommend the County ensure compliance with State Statutes by refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance current year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

County Response: We plan to follow recommendation.

Auditor's Evaluation: The stated action is responsive to the concern expressed in the finding.

OTHER MATTERS

In planning and performing our audit of the financial statements of Pulaski County, Missouri (the County) as of and for the years ended December 31, 2010 and 2009, in accordance with generally accepted government auditing standards, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

However, during our audit we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. Our comments and suggestions regarding those matters are summarized below. We previously reported on the County's internal control in our report dated May 20, 2011. (A separate report dated May 20, 2011 contains our report on significant deficiencies in the County's internal control). This document does not affect our report dated May 20, 2011.

8. Poor Financial Condition

Condition: The poor financial condition of the General Revenue Fund, which was reported in the prior two audits, has not been adequately addressed and has further deteriorated. The County has not repaid $100,000 of funds borrowed during Fiscal Year 2008 in order to keep the fund solvent that year. As noted in the finding 2, the County used approximately $325,000 of the Courthouse Sales Fund monies during 2009 and 2010 in lieu of General Revenue primarily to cover budget shortfalls. The Courthouse Sales Fund has been used to subsidize General Revenue in excess of an estimated $500,000 over the past four years.

The County has indicated that they have limited options because of an already high sales tax rate in many County jurisdictions and that an additional property tax is likely not a viable option.

Recommendation: We recommend the County Commission develop contingency plans that specify actions that will be taken in the event the financial condition fails to improve or further deteriorates. The County must develop and implement a specific plan to deal with the problem and if additional revenue sources are not available, reduce expenditures as necessary.

County's Response: The county's revenue problems are a result of a low sales tax rate and an inability to levy taxes on a significant portion of the county's property due to it being Federal property. However, the County continues to experience both growth in population and a growth in sales tax revenue. The Commission has adopted a fiscally conservative approach this year and plans to continue that approach in future budgeting, which should aid in keeping the county within budget. The Commission continues to explore the possibility of placing a law enforcement sales tax question on the ballot in conjunction with a reduction in personal property or property tax as a sales tax would deliver more revenue and affect local residents less. The Commission has already identified several areas that could be reduced in the event of a decrease in future revenue.

Auditor's Evaluation: The stated action is responsive to the concern expressed in the finding.

9. Vacation Leave Policies

Condition: The County's Personnel Policies Manual does not reflect the vacation leave policy adopted and followed by the Sheriff's office since 2001. In addition, the County's policy manual has not been updated to reflect changes approved by the County Commission in 2003 for employees of the Sheriff's office regarding accumulation of compensatory time. A clear written policy regarding leave time is essential for effective payroll and personnel administration. This was noted in the prior audit.

Recommendation: We recommend that the County update their Personnel Policies manual to include the policies covering employees in the Sheriff's department regarding vacation leave.

County's Response: We are currently in the process of updating our personnel policy to include this item.

Auditor's Evaluation: The stated action is responsive to the concern expressed in the finding.

PULASKI COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Pulaski County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008 and 2007.

1. Time Sheets and accumulated leave balance of the Sherriff's office employees are not submitted to the payroll clerk for use in payroll processing.

   Status - Resolved.

2. The Senate Bill 40 Board purchased equipment items without taking possession. Items were then reportedly given to a contractor organization with no documentation of delivery.

   Status - Resolved.

3. The work order process for administering road maintenance projects needed improvement. Instances were noted in which verbal orders were given that changed existing written work orders.

   Status – Resolved

4. Administrative and accounting controls over cash receipts in the Prosecuting Attorney's office were inadequate.

   Status - Resolved

5. Procedures were not established to resolve old outstanding checks and deposit the monies into the State's Unclaimed Fees Fund, as required by Statute.

   Status - Resolved.

6. The poor financial condition of the General Revenue Fund has not been adequately addressed and has further deteriorated.

   Status – Not resolved. See Finding and Recommendation number 8.

7. Various County employees who handle monies were not bonded.

   Status - Resolved.

8. County personnel policies do not reflect the vacation leave practices adopted by the Sherriff's office.

   Status – Not resolved. See Finding and Recommendation number 9.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Crawford County, Missouri

The Office of the State Auditor, in cooperation with Crawford County, has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, Certified Public Accountants, is attached.

Thomas A. Schweich

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Crawford County, Missouri

We have audited the accompanying financial statements of Crawford County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Crawford County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Crawford County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Crawford County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards,* we also have issued our report dated May 31, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

(Original Signed by Auditor)

McBride, Lock & Associates

The accompanying Notes to the Financial Statements are an integral part of these statements.

Exhibit B-15

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Crawford County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, County Clerk, Circuit Clerk-Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, Treasurer and Collector.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Crawford County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, offices that are considered by the Missouri State Auditor's Office to comprise the County's legal entity. The financial statements also include the E-911 Board which is a separate legal entity within the County that is required by the Missouri State Auditor's Office to be included in the County's reporting entity for financial reporting purposes. The Senate Bill 40 Board is audited and separately reported on by other independent auditors and is not presented in the accompanying financial statements. Request for copies of those financial statements should be directed to the Senate Bill 40 Board.

Certain elected County officials, particularly the County Collector, Treasurer, Circuit Clerk, and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are

financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the following funds.

Fund	2010	2009
National Forest Fund	X	X
Office of Justice Programs Recovery Act Grant	N/A	X
Scenic Railway Fund	X	N/A

9. Section 50.740 RSMo. Prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2010	2009
General Revenue Fund	N/A	X
Children's Trust Fund	N/A	X
E-911 Communications	X	X
Criminal Costs Fund	X	X
Senior Citizens Services	X	X
Records Preservation Fund	X	N/A
Law Enforcement Training Fund	X	X
Prosecuting Attorney Tax Collection Fund	X	X
Inmate Security Fund	X	N/A
Election Services Fund	N/A	X
County Jail Project Fund	X	X
Recorder's Technology Fund	X	N/A
Law Enforcement Restitution Fund	N/A	X
National Forest Fund	X	X
Global Imaging System Fund	N/A	X
Office of Justice Programs Recovery Act Grant	X	X
Scenic Railway Fund	X	X

Because a budget was not adopted for the funds listed in Note 1.D.8, expenditures in those respective funds exceeded budgetary authority to the extent that a budget was not adopted.

Additionally, the County budgeted expenditures to exceed estimated revenues and available fund balance resulting in a negative budgeted fund balance for the Tax Maintenance Fund in 2010.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation were:

	2010	2009
Real Estate	$ 222,284,389	$ 217,285,670
Personal Property	68,429,637	66,302,004

During 2010 and 2009, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property for the calendar years 2010 and 2009, for purposes of County taxation, as follows:

	2010	2009
General Revenue	$ 0.1051	$ 0.0991
Special Road and Bridge	0.1881	0.1881
Senior Citizens	0.0427	0.0427
SB 40	0.0854	0.0854

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Also included in the Cash and Investments caption are investments owned by the Aggregate Cemetery Trust Fund.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amounts of the County's deposits were $2,072,918 and $2,326,106, respectively, and the bank balances were $2,483,650 and $2,702,015, respectively. Of the bank balances, $584,588 and $646,248 for December 31, 2010 and December 31, 2009, respectively, were covered by federal depository insurance and the remainder were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2010 and 2009, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue, Special Road and Bridge, Senior Citizens Services and Senate Bill 40. Tax Collections on deposit amounted to $7,081,286 and $7,145,550 at December 31, 2010 and 2009, respectively. The County Collector's deposits were covered by federal depository insurance of $250,000 as of December 31, 2010 and 2009 and the remainder were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age sixty. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF employee contributions of approximately $199,341 and $200,532, respectively, for the years then ended.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees with up to 60 days of sick/personal time -- to accrue at one half day per complete calendar month of employment. Upon termination, the employee will not be compensated for any unused sick time.

Vacation time is accrued for every full-time employee, and accrues at the rate of one week per year after one year of service, two weeks per year after two years of service, three weeks per year after ten years of service, and four weeks per year after fifteen years of service. There is a maximum carryover of five days to the next calendar year. Upon termination, the employee will be compensated for any unused vacation time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT –

The County had the following debt outstanding at December 31, 2010:

A. $2,975,000 in 2001 Series Jail Project, Insured Leasehold Revenue Bonds due in annual installments of $210,000 beginning in 2011 increasing incrementally to $340,000 at maturity on November 1, 2021. Interest is paid semiannually at 4.10% beginning in 2011 increasing incrementally to 5.00% until maturity on November 1, 2021. The schedule of remaining principal and interest is presented below:

Payment Date	Principal Due	Interest Rate	Interest Due	Total Due
May 1, 2011	$ -	4.10%	$ 70,756	$ 70,756
November 1, 2011	210,000	4.10%	70,756	280,756

May 1, 2014	-	5.25%	10,894	10,894
November 1, 2014	35,000	5.25%	10,894	45,894
May 1, 2015	-	5.25%	9,975	9,975
November 1, 2015	40,000	5.25%	9,975	49,975
May 1, 2016	-	5.25%	8,925	8,925
November 1, 2016	40,000	5.25%	8,925	48,925
May 1, 2017	-	5.25%	7,875	7,875
November 1, 2017	45,000	5.25%	7,875	52,875
May 1, 2018	-	5.25%	6,694	6,694
November 1, 2018	45,000	5.25%	6,694	51,694
May 1, 2019	-	5.25%	5,513	5,513
November 1, 2019	50,000	5.25%	5,513	55,513
May 1, 2020	-	5.25%	4,200	4,200
November 1, 2020	50,000	5.25%	4,200	54,200
May 1, 2021	-	5.25%	2,888	2,888
November 1, 2021	55,000	5.25%	2,888	57,888
May 1, 2022	-	5.25%	1,444	1,444
November 1, 2022	55,000	5.25%	1,444	56,444

8. CHANGE IN REPORTING ENTITY

The E-911 fund included within the report is affected by Missouri House Bill 1492 that revised the State statutes regarding emergency service boards. This Board is currently defined as a political subdivision of the state. Therefore, they will not subsequently be included in the scope of the County for reporting purposes. The change was effective as of August 28, 2010. In accordance with this consideration, the emergency service board should not be included as part of the Crawford County reporting entity subsequent to December 31, 2010.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2010 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through May 31, 2011, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Crawford County, Missouri

We have audited the accompanying financial statements of Crawford County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated May 31, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Crawford County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Crawford County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Crawford County, Missouri's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph in this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses, as defined above. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weakness, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and recommendations as item 1 through 4 that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Crawford County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed three instances of noncompliance or other matter that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and recommendations as items 3, 5, and 6.

We noted a certain other matter that we reported to management of Crawford County, Missouri, in the findings and recommendations section as item 7.

Crawford County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. We did not audit Crawford County, Missouri's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

(Original Signed by Auditor)

McBride, Lock & Associates
May 31, 2011

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

1. Lack of Organization

Condition: During fieldwork, we experienced difficulty in obtaining documentation that should have been readily available in both the county clerk's office and the collector's office. The County Clerk took office in January 2011 and the Collector took office in March 2011. Both respective officeholders stated that prior officeholders did not leave the office documentation in an organized manner.

Collector's Annual Settlements for the tax years within our audit scope were not able to be located during fieldwork. The County located and provided the respective Collector's Annual Settlements to the auditor two weeks subsequent to the request. To date, only the first of the three pages for the certified copy of the Collector's Annual Statement for the tax year ended February 28, 2010 has been provided. The remaining respective pages included with the Collector's Annual Settlement for the tax year ended February 28, 2010 appeared to apply to the tax year ended February 28, 2007.

Additionally, the County Clerk had difficulty locating documentation related to expenditures of federal awards reported on the Schedule of Expenditures of Federal Awards (SEFA) prepared by the County. It took approximately one and a half weeks for this information to be located.

Recommendation: We recommend the County implement policies and procedures to ensure that documentation that should be readily available be maintained and filed in an organized manner and can be provided upon request.

County's Response: The County has created and implemented new policies since January 1, 2011. These new policies and procedures should ensure better organization of documents and records. Increased communication between offices also should better allow for organization and documentation.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

2. Documentation of Pay Rates

Condition: We noted that personnel files include no documentation of approved pay rates. The last reference to approved pay rates on file is from 2006. Minutes from commission minutes noted discussion of pay rates, however, there was nothing documenting the actual approved pay rates.

Recommendation: We recommend the County implement policies and procedures regarding documentation of employee pay rates.

County's Response: The Commission has completed and updated approval for pay rates and such will be approved annually upon completion of the budget for each fiscal year.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

3. Budgetary Controls

Condition: We noted two issues with the County's budgeting process during 2010 and 2009, as follows:

a) Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the National Forest Fund (2010 and 2009), Office of Justice Programs Recovery Act Grant Fund (2009), and the Scenic Railway Fund (2010). A formal budget was not adopted for these three respective funds for the years noted. Chapter 50, RSMo, requires the preparation and filing of annual budgets for all funds to present a complete financial plan for the ensuing year.

b) Actual expenditures exceeded budgeted expenditures for the following funds in 2010 and 2009 by more than an inconsequential amount:

	2010	2009
General Revenue Fund	N/A	X
Children's Trust Fund	N/A	X
E-911 Communications	X	X
Criminal Costs Fund	X	X
Senior Citizens Services	X	X
Records Preservation Fund	X	N/A
Law Enforcement Training Fund	X	X
Prosecuting Attorney Tax Collection Fund	X	X
Inmate Security Fund	X	N/A
Election Services Fund	N/A	X
County Jail Project Fund	X	X
Recorder's Technology Fund	X	N/A
Law Enforcement Restitution Fund	N/A	X
National Forest Fund	X	X
Global Imaging System Fund	N/A	X
Office of Justice Programs Recovery Act Grant	X	X
Scenic Railway Fund	X	X

State Statutes prohibit the County from approving expenditures in excess of the budgeted amount for any County fund. This requirement ensures that expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting. This finding is similar to Prior Audit Finding 08-2 and 08-8.

Recommendation: We recommend the County ensure compliance with State Statutes by adopting a formal budget for all funds and refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance current year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

County Response: The County has created and implemented new policies since January 1, 2011. Monthly, the Commission reviews the budget, revenue, and expenses and adopts budget amendments as necessary to maintain budget variances.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

4. Tax Maintenance Fund Controls

Condition: Duties related to the Tax Maintenance Fund are not adequately separated. The County Collector performs duties related to preparing and signing checks, accounting, performing bank reconciliations, approving invoices or vouchers for payment, and preparing and approving purchase orders. An adequate separation of duties in the disbursement process is essential for an effective internal control system. Internal controls are essential to prevent and detect errors or irregularities. This finding is similar to Prior Audit Finding 08-4.

Recommendation: We recommend the County Collector establish an effective system of controls over disbursements from the Tax Maintenance Fund. If it is not practicable to provide for adequate separation of duties, the County Collector should consider transferring the fund to the County Treasurer.

County's Response: The fund was transferred to the County Treasurer on March 4, 2011. The account is reviewed monthly along with County funds. Further, the FY2011 Budget included expenses and revenues for the Tax Maintenance Fund.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

ITEMS OF NONCOMPLIANCE

5. Competitive Bidding Procedures

Condition: Evidence documenting the solicitation of competitive bids for goods and services procured by the County was not always available. Our review included sixteen purchases which required competitive bids. For six of the purchases, no bid documentation was available. For two purchases, bid documentation was available however there was no evidence that the notice for bid was advertised as required by state statute. Examples of items purchased without documentation of competitive bids include a John Deere tractor and mower for $68,207, an International dump truck for $72,660, and a communication tower for $33,500. This finding is similar to Prior Audit Finding 08-7.

Section 50.660, RSMo, requires that County obtain bids on any purchase in excess of $4,500 and that County advertise the notice for bid on any purchase in excess of $6,000 from any one person, firm, or corporation during any period of ninety days. Competitive bidding helps to assure the County receives fair value for goods and services procured and ensures all interested parties are given an equal opportunity to participate in county business.

Recommendation: We recommend the County Commission solicit bids for all purchases in accordance with state statute and maintain adequate documentation of all bids obtained and justification for awards.

County Response: The County will continue to solicit bids for all purchases in accordance with the state statue and maintain adequate documentation of all bids obtained and justification for awards.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

6. Schedule of Expenditures of Federal Awards

Condition: The County does not have adequate procedures in place to track federal expenditures for the preparation of the Schedule of Expenditures for Federal Awards (SEFA). Total expenditures were overstated by $196,774 for 2009 because receipts data was used to report expenditures on the SEFA for FEMA Disaster Grants. County records show that all expenditures related to the FEMA disaster grant for Emergency Protective Measures occurred prior to October 2008. However, FEMA receipts were not received until April 2009. Because expenditure records were not used to report this grant on the SEFA, $196,774 was reported in error for 2009, and the County had incorrectly assumed that they were subject to the Single Audit for this audit period. This finding is similar to Prior Audit Finding 08-9.

An accurate SEFA is necessary to ensure that federal financial activity is audited and reported in accordance with federal audit requirements. Failure to follow federal audit requirements could result in future reductions of federal awards. A similar finding was also reported in the prior audit.

Recommendation: We recommend the County Commission ensure that the Schedule of Expenditures for Federal Awards is prepared accurately and completely as dictated by federal audit requirements.

County Response: The County will continue to ensure that the Schedule of Expenditures for Federal Awards is prepared accurately and completely as dictated by federal audit requirements.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

OTHER MATTERS

In planning and performing our audit of the financial statements of Crawford County, Missouri (the County) as of and for the years ended December 31, 2010 and 2009, in accordance with general accepted government auditing standards, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

However, during our audit, we became aware of certain matters that are an opportunity for strengthening internal controls and operating efficiency. Our comment and suggestion regarding these matters are summarized below. We previously reported on the County's internal control in our report dated May 31, 2011. This document does not affect our report dated May 31, 2011.

7. Accounting for Transfers

Condition: The financial statements of the County as presented in the annual budget document present transfers between funds. However, we noted that some transfers were identified as expenditures and revenues within the funds. Additionally, there were costs identified as reimbursements that were shown as transfers. The financial statements included in this report have been adjusted so that transfers in and out between funds are equal as of December 31, 2010 and 2009. This finding is similar to Prior Audit Finding 08-10.

Recommendation: In order to ensure that transfers are properly reported and are in balance (transfers to other funds equal transfers from other funds), we recommend the transfers be clearly identified as transfers and presented in the budget within the Transfer category. Other types of transactions should not be presented in the Transfers Category.

County Response: The County will continue to ensure that the transfers are properly reported and are in balance. Further, the County will continue to ensure the transfers are clearly identified as transfers and presented in the budget within the Transfer category.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

CRAWFORD COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Crawford County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008 and 2007.

08-1. The prior County Treasurer did not routinely post deposits to the accounting records. The controls in place prior to January 1, 2007 were inadequate and allowed for the delay in deposits of over $400,000. The semi-annual report for the period through December 31, 2006 which would define the beginning balances, was not complete.

Status - Resolved.

08-2. The County Commission did not adequately monitor expenditures in relation to budgeted amounts. As a result, actual disbursements exceeded budgeted amounts for numerous funds. For 2008, expenditures exceeded budgeted amounts for 13 funds and 2007 expenditures exceeded budgeted amounts for 8 funds.

Status - Not Resolved. See Finding No. 3.

08-3. The County Clerk does not maintain an account book with the County Collector and no evidence was available to indicate that procedures were performed by the County Clerk or the County Commission to verify the County Collector's monthly or annual settlements.

Status – Resolved.

08-4. Duties related to the Tax Maintenance Fund are not adequately separated. The County Collector performs duties related to preparing and signing checks, accounting, performing bank reconciliations, approving invoices or vouchers for payment and preparing and approving purchase orders.

Status – Not Resolved. See Finding No. 4.

08-5. Accounting records and budget documents maintained by the E-911 Board contained several apparent errors and inconsistencies.

Status – Resolved.

08-6. Adequate documentation to explain and validate expenditures was not always obtained and reviewed by the County Commission.

Status – Resolved.

08-7. Competitive bids were not always solicited for goods and services procured by the County. Of the 23 purchases we reviewed which required competitive bids, County Clerk files contained no bid documentation for twelve of these items.

Status – Not Resolved. See Finding No. 5.

08-8. Formal budgets were not prepared for the Scenic Railway Fund in 2007 and the Global Imaging Fund and Family Access Fund in 2008. The County Clerk indicated that requests were made for these budgets from responsible officials but no budget was provided.

Status – Not Resolved. See Finding No. 3.

08-9. The County does not have adequate procedures in place to track federal awards for preparation of the SEFA. Total expenditures were understated by $196,774 for 2008 because the county reported receipts instead of expenditures on the SEFA for the FEMA Disaster Grants.

Status – Not Resolved. See Finding No. 6.

08-10. Transfers-in and transfers-out amounts as presented in the budgets were significantly out of balance. Transfers-out exceeded transfers-in by $186,580 and $488,017 for 2007 and 2008 respectively.

Status – Not Resolved. See Finding No. 7.

08-11. The daughter of one officeholder is also that officeholder's Deputy. This close relationship can create a conflict of interest situation.

Status – Resolved.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Madison County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Madison County, and issues a separate report on that audit. In addition, in cooperation with the county, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Madison, Missouri

We have audited the accompanying financial statements of the County of Madison ("County"), Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described more fully in Note I, the financial statements were prepared using accounting practices prescribed or permitted by Missouri State Law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the County of Madison, Missouri, as of December 31, 2010 and 2009, and the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investment balances of the governmental and agency funds of the County of Madison, Missouri, as of December 31, 2010 and 2009, and the receipts, disbursements and budgetary results of the governmental funds for the years then ended, on the basis of accounting described in Note I.

As discussed in Note XIII, the Schedule of Expenditures and Federal Awards (SEFA), until corrected did not include the expenditures related to the Community Development Block Grant ($508,490.67) as of July 19, 2011. Accordingly, an adjustment has been made to the SEFA as of January 5, 2012, to correct the error.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

As described in Note X, the County of Madison has converted from a modified cash (GASB 34) basis of accounting to the regulatory basis of accounting which differs from accounting principles generally accepted in the United States of America, as of and for the years ended December 31, 2010 and December 31, 2009.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 19, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming an opinion on the financial statements, taken as a whole that are referred to in the first paragraph. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profits Organizations,* and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole, that were prepared on the basis of accounting described in Note I.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Madison, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1818 by an Act of the Missouri Territory. In addition to the three board members, there are eleven elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Surveyor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Madison County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri State Law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances– All Governmental Funds, a Comparative Statement of Receipts and Disbursements and Changes in Cash and Investment Balances– Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other agency operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning the following January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures. During our audit we noted that the County was noncompliant with Missouri budgetary state statute Chapter 50 RSMo.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation was:

	2010	2009
Real Estate	$ 78,868,240	$ 78,554,180
Personal Property	25,072,910	25,237,326
Railroad and Utilities	7,500,000	7,447,931
	$ 111,441,150	$ 111,239,437

During 2010 and 2009, the County Commission approved a $1.3389 and $1.3325 tax levy respectively per $100 of assessed valuation of tangible taxable property for the calendar year 2010 and 2009, for purpose of County taxation, as follows:

	2010	2009
General Revenue Fund	$ 0.1666	$ 0.1628
Road and Bridge Fund	0.2863	0.2855
County Health Department	0.0987	0.0984
County Library	0.0987	0.0984
County Hospital	0.1943	0.1937
County Workshop (SB40)	0.1943	0.1937
County Ambulance District	0.3000	0.3000
	$ 1.3389	$ 1.3325

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

F. Cash Deposits and Investments (concluded)

Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

H. Reserved Fund Balance

Reserved fund balance represents the portion of fund balance that is not available for appropriation or is legally restricted for a specific purpose. Fund balance is unrestricted at December 31, 2010 and 2009.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amount of the County's deposits was $1,288,234.33 and $1,456,948.43, and the bank balance was respectively $5,166,105.27 and $5,296,751.25. As of December 31, 2010, and 2009, 100% of the County's investments were guaranteed by the U. S. Government.

II. DEPOSITS AND INVESTMENTS (continued)

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2010, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursments and Changes in Cash and Investment Balances	
Deposits	$ 1,107,940.87
Investments	180,293.46
Total Deposits and Investments as of December 31, 2010	$ 1,288,234.33

The carrying values of deposits and investments at December 31, 2009, are as follows:

Statement of Receipts, Disbursments and Changes in Cash and Investment Balances	
Deposits	$ 1,279,844.08
Investments	177,104.35
Total Deposits and Investments as of December 31, 2009	$ 1,456,948.43

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2010 and 2009.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

II. DEPOSITS AND INVESTMENTS (concluded)

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ended December 31, 2010 and 2009.

III. LEASES – CAPITAL

The County entered into a capital lease for the purchase of a durapatcher as of May 17, 2010, for the Road and Bridge Department. The purchase was for $59,000 with annual payments of $14,679 over a five year period. The interest rate was calculated to 8.628%.

The County entered into a capital lease for the purchase of a two Freightliner Trucks, a GMC truck and a Sterling Truck as of December 22, 2008, for the Road and Bridge Department. The purchase was for $256,028.77 with 16 quarterly payments of $19,059. The interest rate was calculated to 9.411%.

The County entered into a capital lease for the purchase of a John Deere tractor as of March 17, 2009, for the Road and Bridge Department. The purchase was for $47,255.85 with annual payments of $11,749 over a five year period. The interest rate was calculated to 9.409%.

All of the above leases were consolidated as of December 2, 2010, into a capital lease for $261,114. The debt will be paid back over 36 months at $23,749 beginning February 15, 2011.

III. LEASES – CAPITAL (concluded)

2010

	Balance at December 31, 2009	Amount Borrowed	Amount Repaid	Balance at December 31, 2010	Interest Paid During Year

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2010 and 2009 are as follows:

	2010		2009	
FUNDS	TRANSFERS IN	TRANSFERS OUT	TRANSFERS IN	TRANSFERS OUT
General	$ -	$ 101,000.00	$ -	$ 80,016.00
Road and Bridge	-	-	3,628.00	-
Assessment	40,000.00	-	40,000.00	-
911	120,000.00	-	100,000.00	-
MCLEST	-	60,000.00	-	63,612.00
PA Bad Check	1,000.00	-	-	-
	$ 161,000.00	$ 161,000.00	$ 143,628.00	$ 143,628.00

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

A. Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer of employee whose performance requires the actual performance of duties during not less than (1,000) one thousand hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994. The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement at age fifty-five with reduced benefit is allowed for the law enforcement, all other departments in the county the age is sixty.

Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, 2121 Schotthill Road, Jefferson City, MO 65102, or by calling 1-573-632-9203.

C. Funding Policy

In accordance with State Statutes, the Plan is funded through various fees collected by counties and remitted to the CERF. Eligible employees hired before February 2002 have an option to contribute 2% of their annual salary, while employees hired after February 2002 are required to contribute 4% of their annual salary in order to participate in the CERF. During 2010 and 2009, the Primary Government collected and remitted to CERF, employee contributions of approximately $51,131.76 and $51,936.52, respectively, for the years then ended.

VI. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $2,431 and $2,057, respectively, for the years ended December 31, 2010 and 2009.

VII. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not currently involved in pending litigation at December 31, 2010.

B. Compensated Absences

The County provides employees with up to thirty days of paid vacation per year based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused vacation leave. Vacation days not used by the end of the year they are earned are forfeited. The County will not make payments in lieu of vacation leave. Although employees accrue unused hours the County was unable to determine their outstanding liability.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.700 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. ACCOUNTING CHANGE

For the years ended December 31, 2010 and December 31, 2009, the County has elected to change its accounting method from a modified cash basis to the regulatory basis of accounting. This basis recognizes assets, liabilities, fund balance, receipts, and disbursements when they result from cash transactions with a provision for investments and settlements pending (if applicable). The regulatory basis differs from the accounting principles generally accepted in the United States of America and is described in Note I of the notes to the financial statements.

XI. SUBSEQUENT EVENTS

No subsequent events were noted for disclosure.

XII. PRIOR PERIOD ERROR CORRECTION

As per Attorney General Opinion No. 7-83: Section 29.230.1, RSMo 1969, was to authorize the State Auditor to audit the accounts of “court clerks" only in third and fourth class counties.

Since the issuance of the 1977 opinion, certain changes have been wrought by the adoption of C.C.S.S.J.R. 24, 1976 Mo. Laws 819 (adopted August 3, 1976; effective January 2, 1979), sometimes known as the “Judicial Article Amendment", and the Court Reform and Revision Act of 1978, H.B. 1634, 1978 Mo. Laws. 696. These changes have made the circuit courts agencies of the State of Missouri. Accounts of the circuit courts and all divisions of the circuit courts in the custody of officers or employees of the circuit courts, e.g., circuit and division clerks, are subject to audit pursuant to Article IV, Section 13, Missouri Constitution, and Section 29.200, RSMo 1978.

Due to the County Courts being considered as separate from the County Government, these funds are no longer included as funds of the County, therefore the Juvenile Assessment, Time Payment and Circuit Clerk Interest Funds are no longer included as part of the County’s financial statements with December 31, 2008, balances of $2,397.68, 8,877.67 and $4,368.95 respectively.

XIII. CORRECTION TO REPORT SUBSEQUENT TO ISSUANCE

Subsequent to the issuance of the audit report of Madison County, dated July 19, 2011, the County was made aware that certain funds received and passed through to local municipalities were considered to be from Federal sources. Prior to correction, these amounts had not been included in the County’s Schedule of Expenditures and Federal Awards (SEFA). The SEFA has been corrected by including expenditures of the Community Development Block Grant which was passed through to the Cherokee Pass Volunteer Fire Department and the Madison County Sheltered Workshop in the amounts of $285,750 and $222,740.67.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission
The County of Madison, Missouri

We have audited the financial statements of the County of Madison ("County"), Missouri as of and for the years ended December 31, 2010 and 2009, and have issued our report thereon dated July 19, 2011. The financial statements were prepared using accounting practices prescribed or permitted by Missouri State Law, which differ from accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting; FS 09/10-01, FS 09/10-02, FS 09/10-03, FS 09/10-04 , FS 09/10-05, SA 09/10-01 and SA 09/10-02. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County in a separate letter dated July 19, 2011.

The County's responses to the findings identified in our audit are described in the accompany schedule of findings and questioned costs. We did not audit the County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the County Commission, County Officeholders, Missouri State Auditor, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Independent Auditor's Report

To The County Commission
The County of Madison
Fredericktown, Missouri

Compliance

We have audited the County of Madison's, (the County) compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and December 31, 2009. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and December 31, 2009.

Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as items SA09/10-01 and SA09/10-02. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the County's responses and accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the County Commission, County Officeholders, Missouri State Auditor, others within the entity, other auditing agencies, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

	Total Expenditures of Federal Awards		$ 146,770.14	$ 2,014,540.79

NOTE 1 – BASIS OF PRESENTATION

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Madison County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

The schedule is presented on the regulatory basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUBRECIPIENTS

The County provided federal awards to the following subrecipients during the years ended December 31, 2010 and 2009:

Subrecipient	Program	CFDA #	2010	2009
Madison County Sheltered Work Shop	Community Development Block Grant	14.228	$ -	$ 222,740.67
Cherokee Pass Volunteer Fire Department	Community Development Block Grant	14.228	-	285,750.00
Total			$ -	$ 508,490.67

NOTE 3 – NON MAJOR PROGRAM TEST

Per Revised Statutes of Missouri, § 513.653. Peace officers using federal forfeiture system, audit of federal seizure proceeds – copies provided to whom. – Law enforcement agencies involved in using the federal forfeiture system under federal law shall be required at the end of their respective fiscal year to acquire an independent audit of the federal seizures and the proceeds received therefrom and provide this audit to their respective governing body. A copy of such audit shall be provided to the state auditor's office. This audit shall be paid for out of the proceeds of such federal forfeitures.

The federal forfeiture seizure program is tested during the current year, but not considered to be a major program.

THE COUNTY OF MADISON
FREDERICKTOWN, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2010 AND 2009

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unqualified Regulatory Basis

2. Internal control over financial reporting:

a. Any material weakness(es) identified? 2010 ___ Yes X No

2009 ___ Yes X No

b. Any significant deficiencies identified that are not considered to be material weaknesses? 2010 X Yes ___ None Reported

2009 X Yes ___ None Reported

3. Any noncompliance material to financial statements noted? 2010 ___ Yes X No

2009 ___ Yes X No

B. Federal Awards

1. Internal control over major programs:

Any material weakness(es) identified? 2010 ___ Yes X No

2009 ___ Yes X No

2. Any significant deficiencies identified that are not considered to be material weaknesses? 2010 X Yes ___ None Reported

2009 X Yes ___ None Reported

3. Type of auditor's report issued on compliance for major programs: 2010 - Unqualified

2009 - Unqualified

4. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*? 2010 X Yes ___ No

2009 X Yes ___ No

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

5. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2009	20.205	Highway Planning and Construction
2009	97.036	Disaster Grant – Public Assistance Grant (Presidentially Declared Disasters)
2009	14.228	Community Development Block Grant

6. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

7. Auditee qualified as low-risk auditee? 2010 ___ Yes X No

2009 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

FS 09/10-01 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs the County informed us that internal control documentation had not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County follows procedures set forth by the Missouri State Statutes. At this time no formal document is required.

II. FINANCIAL STATEMENT FINDINGS (continued)

FS 09/10-02 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The County follows procedures as set forth by the Missouri State Statutes. Furthermore, the County carries applicable liability insurance as well as office holders being bonded to help protect the County against fraudulent acts.

II. FINANCIAL STATEMENT FINDINGS (continued)

FS 9/10-03 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Prosecuting Attorney and Sheriff's Commissary accounts.

Condition: During our audit, we discovered that bank reconciliations were not prepared on a timely basis.

Context: This deficiency became apparent through our testing of the Prosecuting Attorney and Commissary cash accounts and the related reconciliations.

Effect: Not preparing timely bank reconciliations does not allow timely adjustments to the County's cash accounts.

Cause: Management has not prepared bank reconciliations on a timely basis.

Recommendation: We recommend that the Prosecuting Attorney and Sheriff Office Staff prepare monthly bank reconciliations and adjustments to the cash accounts.

Views of Responsible Officials and Planned Corrective Actions: The County will consider the auditor's recommendation.

FS 09/10-04 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Recorder's office.

Condition: We noted negative cash balances in the Recorder's office according to reconciliations.

Context: This deficiency became apparent through our testing of the Recorder's cash accounts and the related reconciliations.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the County Recorder prepare monthly bank reconciliations and adjustments to the cash accounts.

II. FINANCIAL STATEMENT FINDINGS (concluded)

Views of Responsible Officials and Planned Corrective Actions: The County will consider the auditor's recommendation.

FS 09/10-05 Criteria: Deposits must be made in a timely manner.

Condition: During our audit, we became aware through testing that the Prosecuting Attorney's office has failed to perform deposits in a timely manner.

Context: This deficiency became apparent through our testing of the Prosecuting Attorney's cash accounts and the related reconciliations.

Effect: The actual balances of the Prosecuting Attorney's accounts may be incorrect and distributions for restitution and bad checks may not be made in a timely manner.

Cause: The Prosecuting Attorney's office staff was not performing deposits in a timely manner.

Recommendation: We recommend that the Prosecuting Attorney's office prepare deposits in a timely manner.

Views of Responsible Officials and Planned Corrective Actions: The County will consider the auditor's recommendation.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

The following findings, recommendations, and questioned costs are the results of the single audit of Madison County, Missouri for fiscal years ended December 31, 2010 and 2009. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (continued)

A. Category of Internal Control Weakness (concluded)

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement*.

2. Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (continued)

C. Federal Award Findings and Questioned Costs

SA 09/10-01	Federal Grantor:	U.S. Department of Homeland Security
Other Information	Pass-Through Grantor:	State Emergency Management Agency
Significant Deficiency	Federal CFDA Number:	97.036
	Program Title:	Disaster Grant - Public Assistance Grant (Presidentially Declared Disasters)
	Federal Grantor:	U.S. Department of Housing and Urban Development
	Pass-Through Grantor:	Missouri State Department of Economic Development
	Federal CFDA Number:	14.228
	Program Title:	Community Development Block Grant

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information for the Disaster Grant – Public Assistance Grant (Presidentially Declared Disasters).

Also the amount that should have been reported for the Community Development Block Grant had been excluded from the SEFA.

Questioned Costs: Not applicable

Context: During the audit of federal programs we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (concluded)

B. Federal Award Findings and Questioned Costs (concluded)

Recommendation (concluded): The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's Office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correct.

SA 09/10-02	Federal Grantor:	U.S. Department of Justice
Other Information	Pass-Through Grantor:	N/A
Significant Deficiency	Federal CFDA Number:	16.XXX
	Program Title:	Equitable Sharing of Seized and Forfeited Property

Information on the federal program: The County was not compliant with the requirements of the Seized and Forfeited Property Program.

Criteria: Entities that receive funding from the Equitable Sharing of Seized and Forfeited Property program must comply with the program guidelines set forth through the Guide to Equitable Sharing for State and Local Law Enforcement Agencies.

Condition: Through correspondence with the County Sheriff's Office we became aware that the spending and reporting guidelines of the Equitable Sharing of Seized and Forfeited Property were not being met.

Questioned Costs: Not applicable

Context: We discovered the above issues during the audit of this program.

Effect: The County is non-compliant with the guidelines of this program. This may cause the County to be ineligible to participate in this program for future years.

Cause: The County had these funds segregated for several years and was not aware of the spending time frames and continued reporting requirements set forth by the Department of Justice.

Recommendation: The County should contact the Department of Justice for how to proceed due to the funds should have been spent in prior years.

Views of responsible officials and planned corrective actions: The County will ensure that the requirements of this program are met for future years.

THE COUNTY OF MADISON
FREDERICKTOWN, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2010 AND 2009

I. FOLLOW-UP PRIOR YEAR FINDINGS

07/08-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 112, Communicating Internal Control Related Matters in an Audit, which is effective for periods ending on or after December 15, 2006, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 112 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Due to the short time frame for the implementation of the new SAS requirements, management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Auditor's Evaluation: The County has implemented appropriate corrective action in the current year being audited.

07/08-02 Criteria: Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters in an Audit*, which is effective for periods ending on or after December 15, 2006, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Effect: The new SAS 112 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

I. FOLLOW-UP PRIOR YEAR AUDIT FINDINGS (continued)

07/08-02 Cause: Due to the short time frame for the implementation of the new SAS requirements, the County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Auditor's Evaluation: The County has not implemented appropriate corrective action in the current year being audited. See financial statement finding 09/10-01.

07/08-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Auditor's Evaluation: The County has not implemented appropriate corrective action in the current year being audited. See financial statement finding 09/10-2.

07/08-04 Criteria: The County did not prepare budgets for the Madison County Re-Development Fund for the year ended December 31, 2007.

Condition: The state requires budgets for each of the County's funds.

1. FOLLOW-UP PRIOR YEAR AUDIT FINDINGS (concluded)

07/08-04 Effect: The County did not properly budget all funds.

Cause: Management did not create a budget for the Madison County Re-development Fund.

Recommendation: We recommend that the county budgets all funds, including the Madison County Re-development Fund.

Auditor's Evaluation: The County has implemented appropriate corrective action in the current year being audited.

II. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS – PRIOR YEAR

There were no prior year findings related to federal awards.

Daniel Jones
& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

To the Board of Commissioners
County of Madison

In planning and performing our audit of the financial statements of the County of Madison (County) as of and for the years ended December 31, 2010 and 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency, is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other material and significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Changes Impacting Governmental Organizations
III. Information Required by Professional Standards

County of Madison's management has provided written responses to the comments in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Officeholders, Missouri State Auditor and others within the County, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

FS 09/10-01

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs the County informed us that internal control documentation had not been prepared.

Effect: The new SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County follows procedures set forth by the Missouri State Statutes. At this time no formal document is required.

FS 09/10-02

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

Management's Response: The County follows procedures as set forth by the Missouri State Statutes. Furthermore, the County carries applicable liability insurance as well as office holders being bonded to help protect the County against fraudulent acts.

FS 9/10-03

Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Prosecuting Attorney's office.

Condition: During our audit, we discovered that bank reconciliations were not prepared on a timely basis.

Context: This deficiency became apparent through our testing of the Prosecuting Attorney's cash accounts and the related reconciliations.

Effect: Not preparing timely bank reconciliations does not allow timely adjustments to the County's cash accounts.

Cause: Management has not prepared bank reconciliations on a timely basis.

Recommendation: We recommend that the Prosecuting Attorney prepare monthly bank reconciliations and adjustments to the cash accounts.

Management Response: The County will consider the auditor's recommendation.

FS 09/10-04

Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Recorder's office.

Condition: We noted negative cash balances in the Recorder's office according to reconciliations.

Context: This deficiency became apparent through our testing of the Recorder's cash accounts and the related reconciliations.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the County Recorder prepare monthly bank reconciliations and adjustments to the cash accounts.

Management Response: The County will consider the auditor's recommendation.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

FS 09/10-05 Criteria: Deposits must be made in a timely manner.

Condition: During our audit, we became aware through testing that the Prosecuting Attorney's office has failed to perform deposits in a timely manner.

Context: This deficiency became apparent through our testing of the Prosecuting Attorney's cash accounts and the related reconciliations.

Effect: The actual balances of the Prosecuting Attorney's accounts may be incorrect and distributions for restitution and bad checks may not be made in a timely manner.

Cause: The Prosecuting Attorney's office staff was not performing deposits in a timely manner.

Recommendation: We recommend that the Prosecuting Attorney's office prepare deposits in a timely manner.

Views of Responsible Officials and Planned Corrective Actions: The County will consider the auditor's recommendation.

SA 09/10-01	Federal Grantor:	U.S. Department of Homeland Security
Other Information	Pass-Through Grantor:	State Emergency Management Agency
Significant Deficiency	Federal CFDA Number:	97.036
	Program Title:	Disaster Grant - Public Assistance Grant (Presidentially Declared Disasters)
	Federal Grantor:	U.S. Department of Housing and Urban Development
	Pass-Through Grantor:	Missouri State Department of Economic Development
	Federal CFDA Number:	14.228
	Program Title:	Community Development Block Grant

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information for the Disaster Grant – Public Assistance Grant (Presidentially Declared Disasters).

Also the amount that should have been reported for the Community Development Block Grant had been excluded from the SEFA.

Questioned Costs: Not applicable

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

Context: During the audit of federal programs we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements.

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's Office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correct.

SA 09/10-02	Federal Grantor:	U.S. Department of Justice
Other Information	Pass-Through Grantor:	N/A
Significant Deficiency	Federal CFDA Number:	16.XXX
	Program Title:	Equitable Sharing of Seized and Forfeited Property

Information on the federal program: The County was not compliant with the requirements of the Seized and Forfeited Property Program.

Criteria: Entities that receive funding from the Equitable Sharing of Seized and Forfeited Property program must comply with the program guidelines set forth through the Guide to Equitable Sharing for State and Local Law Enforcement Agencies.

Condition: Through correspondence with the County Sheriff's Office we became aware that the spending and reporting guidelines of the Equitable Sharing of Seized and Forfeited Property were not being met.

Questioned Costs: Not applicable

Context: We discovered the above issues during the audit of this program.

Effect: The County is non-compliant with the guidelines of this program. This may cause the County to be ineligible to participate in this program for future years.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

Cause: The County had these funds segregated for several years and was not aware of the spending time frames and continued reporting requirements set forth by the Department of Justice.

Recommendation: The County should contact the Department of Justice for how to proceed due to the funds should have been spent in prior years.

Views of responsible officials and planned corrective actions: The County will ensure that the requirements of this program are met for future years.

II. CHANGES IMPACTING GOVERNMENTAL ORGANIZATIONS

Governments frequently establish governmental audit requirements for entities to undergo an audit of their compliance with applicable compliance requirements. To address such governmental audit requirements, the Auditing Standards Board has issued Statement on Auditing Standards (SAS) No. 117, *Compliance Audits,* which supersedes SAS No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistanc*e. SAS No. 117 was primarily developed in response to the results of a federal study on the quality of audits performed under Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* (also referred to as single audits), which showed that improvements were needed in many areas.

SAS No. 117 establishes standards and provides guidance on performing and reporting (in accordance with GAAS, *Government Auditing Standards*, and a governmental audit requirement that requires an auditor to express an opinion on compliance) on an audit of an entity's compliance with applicable compliance requirements of a governmental audit requirement. Examples of such engagements include single audits and audits performed under the U.S. Department of Housing and Urban Development (HUD) *Consolidated Audit Guide for Audits of HUD Programs.*

SAS No. 117 updates SAS No. 74 to reflect changes in the compliance audit environment and incorporates the risk assessment standards. It requires the auditor to adapt and apply the AU sections of AICPA *Professional Standards* to a compliance audit and provides guidance on how to do so. It identifies the AU sections that are not applicable to a compliance audit, defines terms related to compliance audits and used in the SAS, and identifies the elements to be included in an auditor's report on a compliance audit. The SAS is effective for compliance audits for fiscal periods ending on or after June 15, 2010 with earlier application permitted.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated March 28, 2011, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with the regulatory basis of accounting. Our audit of the financial statements does not relieve you or management of your responsibilities.

In planning and performing our audit, we considered County of Madison's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (continued)

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on July 19, 2011.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County of Madison are described in Note I to the financial statements. As described in Note X for the years ended December 31, 2010, and December 31, 2009, the County has elected to change its accounting method from a modified cash basis to the regulatory basis of accounting. This basis recognizes assets, liabilities, fund balance, receipts, and disbursements when they result from cash transactions with a provision for investments and settlements pending (if applicable). The regulatory basis differs from the accounting principles generally accepted in the United States of America and is described in Note I of the Notes to the financial statements. The new method of accounting presentation was implemented to conform with Missouri State Law. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The disclosures in the financial statements are neutral, consistent and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 19, 2011.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

During our testing we noted late fees on credit card statements. This was not considered to be a significant deficiency or a material weakness, but we consider it to be necessary to communicate to management.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Butler County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Butler County, and issues a separate report on that audit. In addition, in cooperation with the county, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Butler, Missouri

We have audited the accompanying financial statements of the County of Butler ("County"), Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described more fully in Note I, these financial statements were prepared using accounting practices prescribed or permitted by Missouri Law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the County of Butler, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investment balances of the governmental and agency funds of the County of Butler, Missouri, as of December 31, 2010 and 2009, and the receipts, disbursements and budgetary results of the governmental funds for the years then ended, on the basis of accounting described in Note I.

As described in Note X, the County of Butler has converted from a modified cash (GASB 34) basis of accounting to the regulatory basis of accounting which differs from accounting principles generally accepted in the United States of America, as of and for the years ended December 31, 2010 and December 31, 2009.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 29, 2011 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming an opinion on the financial statements, taken as a whole that are referred to in the first paragraph. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profits Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole, that were prepared on the basis of accounting described in Note I.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Butler, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1849 by an Act of the Missouri Territory. In addition to the three Commissioners, there are nine elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk and ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Butler County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning the following January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation was:

	2010	2009
Real Estate	$ 371,977,918	$ 394,523,697
Personal Property	118,498,177	113,596,647
Railroad and Utilities	25,850,896	23,772,694
	$ 516,326,991	$ 531,893,038

During 2010 and 2009, the County Commission approved a $.1337 and $.1337, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2010 and 2009, for purposes of County taxation, as follows:

	2010	2009
General Revenue Fund	$ .0995	$ .0995
Special Road and Bridge Fund	.0342	.0342
	1.337	1.337

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on a weighted average of cash balance. Cash equivalents include any instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County’s funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amount of the County's deposits was $6,049,868.94 and $6,103,081.82, and the bank balance was $6,211,548.18 and $6,320,534.24, respectively. As of December 31, 2010 and 2009, 100% of the County’s investments were guaranteed by the U.S. Government.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2010, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	6,049,868.94
Investments		-
Total Deposits & Investments as of December 31, 2010	$	6,049,868.94

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits and investments at December 31, 2009, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	6,103,081.82
Investments		-
Total Deposits & Investments as of December 31, 2009	$	6,103,081.82

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2010 & 2009.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the year end December 31, 2010 & 2009.

III. LONG-TERM DEBT

On December 1, 1998 Butler County issued Leasehold Revenue Refunding Bonds for $6,095,000 for the Butler County Jail project. Interest rate ranges from 3.25% to 4.50% payable in annual installments ranging from $350,000 to $540,000 and maturing on December 1, 2013.

2010

DEBT	BALANCE AT 12/31/2009	AMOUNT BORROWED	AMOUNT REPAID	BALANCE AT 12/31/2010	INTEREST PAID DURING YEAR

	$ 13,800.00	$ 13,800.00

IV. INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2010 and 2009 are as follows:

	2010		2009	
	Transfers In	Transfers Out	Transfers In	Transfers Out
MAJOR FUNDS				
General Fund	$ -	$ 521,951.19	$ -	$ 450,000.00
Law Enforcement Complex	685,451.19	-	637,500.00	-
Law Enforcement Training	1,500.00	-	-	-
Sheriff Civil Fund	-	40,000.00	-	75,000.00
Sheriff Revolving	-	25,000.00	-	12,500.00
Butler County 911	-	100,000.00	-	100,000.00
TOTAL	**$ 686,951.19**	**$ 686,951.19**	**$ 637,500.00**	**$ 637,500.00**

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

A. Plan Description

The Retirement Fund is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires actual performance of duties not less than 1,000 hours per calendar year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000 could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (Concluded)

B. Pension Benefits

All benefits vest after 8 years of creditable service. Employees who retire on or after 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional Joint and survivor annuity and 10-year certain life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost of living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, 2121 Schotthill Road, Jefferson City, MO 65101, or by calling 1-573-632-9203.

C. Funding Policy

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of Missouri Legislature. During 2010 and 2009, the Primary Government collected and remitted to CERF, employee contributions of approximately for $73,298.13 and $67,729.04, respectively, for the years then ended.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

A. Plan Description

Butler County participates in the Missouri Local Government Employees Retirement System (LAGERS) an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, section RSMO. 70.600 - 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

A. Plan Description (Concluded)

The plan is qualified under the Internal Revenue Code Section 401a and it is tax exempt. The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

B. Funding Policy

Butler County's full time employees do not contribute to the pension plan. The political subdivision is required to contribute at an actuarially determined rate; the current rates for 2010 are 20.6% (general), 13.3% (police), and 19.2% (road), for 2009 they are 19.6% (general), 12.3% (police), and 18.2% (road) of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO)

The subdivision's annual pension cost and net pension obligation for 2010 were as follows:

Annual required contribution	$	668,026
Interest on net pension obligation		-
Adjustment on annual required contribution		-
Annual Pension Cost		668,026
Actual contributions		660,678
Increase (decrease) in NPO		7,348
NPO beginning of year		-
NPO end of year	$	7,348

For 2010, the annual required contribution (ARC) was determined as part of the February 29, 2008 and February 28, 2009 annual actuarial valuations using the entry age actuarial cost method. For 2009, the the political subdivision's annual pension cost of $655,525 was equal to the required and actual contributions. The required contribution was determined as part of the February 28, 2007 and /or February 29, 2008 annual actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 7.5 percent per year, compounded annually, (b) projected salary increases of 4.0 percent per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0 percent to 6.0 percent per year, depending on age, attributable to seniority/merit, (d) pre-retirement mortality based on RP 2000 Combined Healthy Table set back 0 years for men and 0 years for women and (e) post-retirement mortality based on the 1971 Group Annuity Mortality Table projected to 2000 set back 1 year for men and 7 years for women. The actuarial value of

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO) (Concluded)

assets was determined using the techniques that smooth the effects of short-term volatility in the market value of the investments over a five year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis for each year. The amortization period for 2010 was as follows: as of February 29, 2008 was 15 years for General division, 15 years for the Police division and 15 years for Roads division. The amortization period as of February 28, 2009 was 22 years for the General division, 30 years for the Police division and 23 years for the Roads division. The amortization period for 2009 was as follows: the amortization period at February 28, 2009 was 15 years.

Three Year Trend Information

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage Of APC Contributed	Net Pension Obligation
6/30/2008	$ 628,732	100%	$ 0
6/30/2009	655,525	100%	0
6/30/2010	668,026	98.9%	7,348

REQUIRED SUPPLEMENTARY INFORMATION
Schedule of Funding Progress

Actuarial Valuation Date	(a) Actuarial Value of Assets	(b) Entry Age Actuarial Accrued Liability	(b-a) Unfunded Accrued Liability (UAL)	(a/b) Funded Ratio	(c) Annual Covered Payroll	[(b-a)/c] UAL as a Percentage of Covered Payroll
2/29/2008	$5,927,689	$ 8,315,447	$ 2,387,758	71%	$ 3,658,047	65%
2/28/2009	4,889,222	8,525,211	3,635,989	57%	3,613,264	101%
2/28/2010	5,491,452	8,995,678	3,504,226	61%	3,717,139	94%

Note: The above assets and actuarial accrued liability do not include the assets and present value of benefits associated with the Benefit Reserve Fund and Casualty Reserve Fund. The actuarial assumptions were changed in conjunction with the February 28, 2006 annual actuarial valuations. For a complete description of the actuarial assumptions used in the annual valuations, please contract the LAGERS office in Jefferson City.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $7,752 and $7,752, respectively, for the years ended December 31, 2010 and 2009.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is involved in a pending lawsuit at December 31, 2010. No provision has been made in the financial statements for any loss that might arise in the event of an unfavorable outcome of these matters. County management believes that such litigation and claims will ultimately be resolved without material financial liability if any to the County.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue one sick day per month. The County allows employees to carry forward six days a year to a maximum of thirty days. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Rural Services Self-Insured Workers' Trust Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. ACCOUNTING CHANGE

For the years ended December 31, 2010 and December 31, 2009, the County has elected to change its accounting method from a modified cash basis to the regulatory basis of accounting. This basis recognizes assets, liabilities, fund balance, receipts, and disbursements when they result from cash transactions with a provision for investments and settlements pending (if applicable). The regulatory basis differs from the accounting principles generally accepted in the United States of America and is described in Note I of the notes to the financial statements.

XI. RESTATEMENT OF FUND BALANCE

For the years ended December 31, 2009 and December 31, 2010 we are restating the beginning fund balance as of December 31, 2008 for the following itemized reasons.

12/31/08 Fund Balance from Audit Report	$	5,871,182.37
General Fund adjustment for overpayment of Prior Period Deductions		(106.67)
Circuit JIS Fund - Removed since Circuit Court is not part of the County Funds		(41,027.69)
Law Library Fund - Moved to an Agency Fund		(24,674.23)
Sheriff Commissary Fund - Moved to an Agency Fund		(1,299.98)
CDBG Grant Fund - Moved from an Agency fund to a County Fund		61.62
12/31/08 Revised Fund Balance	$	5,804,135.42

XII. SUBSEQUENT EVENTS

As of the date of the audit report, there are no subsequent events to report.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2010, expenditures exceeded those budgeted for the following: Law Enforcement Training Fund, PAT Fund, CDBG Grant Fund, and the DRA Fund.

B. For the year ended December 31, 2009, expenditures exceeded those budgeted for the following: PAD Fund, CDBG Grant Fund, Care of Handicapped Fund, Butler County 911 Fund and the Sheriff Civil Fund.

C. For the year ended December 31, 2010, the DRA fund was not budgeted. It began to be budgeted starting in the 2011 budget.

D. For the years ended December 31, 2010 and December 31, 2009 the CDBG Grant Fund was not budgeted. It began to be budgeted starting in the 2011 budget.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission
The County of Butler, Missouri

We have audited the financial statements of the County of Butler ("County"), Missouri, as of and for the years ended December 31, 2010 and 2009, and have issued our report thereon dated August 29, 2011. The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting. (FS 10/09-01, FS 10/09-02, FS 10/09-03, FS 10/09-04, FS 10/09-05, FS 10/09-06 and FS 10/09-07) A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County in a separate letter dated August 29, 2011.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the County Commission, County Officeholders, Missouri State Auditor, the Federal awarding agencies and pass-through entities and is not to be and should not be used by anyone other than those specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Independent Auditor's Report

To The County Commission
The County of Butler
Poplar Bluff, Missouri

Compliance

We have audited the County of Butler's ("County") compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2010 and December 31, 2009. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and December 31, 2009. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items SA10/09-02 and SA10/09-03.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiencies as described in the accompanying schedule of findings and questioned costs as item SA 10/09-01. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Management's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit management's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, the County Commission, County Officeholders, Missouri State Auditor, others within the entity, other auditing agencies, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Total Expenditures of Federal Awards			**$ 1,983,285.59**	**$ 1,290,846.54**

NOTE 1 – BASIS OF PRESENTATION

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Butler County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

The schedule is presented on the regulatory basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUBRECIPIENTS

The County provided federal awards to the following subrecipients during the years ended December 31, 2010 and 2009:

Subrecipient	Program	CFDA #	2010	2009
East Carter School District	Dept. of Agriculture-PILT	10.665	$ 29,251.72	$ 38,589.69
Greenville School District	Dept. of Agriculture-PILT	10.665	4,878.65	6,495.74
Doniphan School District	Dept. of Agriculture-PILT	10.665	2,862.40	3,811.55
Twin Rivers School District	Dept. of Agriculture-PILT	10.665	16,934.14	22,547.19
Poplar Bluff R-2 School District	Dept. of Agriculture-PILT	10.665	62,441.31	83,138.28
Total			$ 116,368.22	$ 154,582.45

2. Type of auditor's report issued on compliance for major programs:

2010 - Unqualified – Regulatory Basis

2009 - Unqualified – Regulatory Basis

3. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*?

2010	_X_ Yes	___ No	
2009	_X_ Yes	___ No	

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2010/2009	10.665	Department of AG – PILT (Payment in Lieu of Taxes)
2010/2009	20.205	Department of Transportation – Highway Planning and Construction
2010/2009	14.228	Department of Housing and Urban Development - Community Development Block Grant
2010/2009	93.563	Department of Health & Human Services - Child Support Services
2010/2009	97.036	Department of Homeland Security - Presidentially Declared Disasters

5. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

6. Auditee qualified as low-risk auditee? 2010 ___ Yes X No

2009 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

10/09-01

Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which is effective for periods ending on or after December 15, 2009, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency. SAS No. 115 supersedes SAS No. 112.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Context: During discussions with management, we noted that we will be assisting the County with the preparation of their audited financial statements and footnotes.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 115 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

II. FINANCIAL STATEMENT FINDINGS (continued)

10/09-01 Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual Financial Statement. The County will pursue remedy for SAS 115 compliance if it is determined that it is required for a county of this size.

10/09-02 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual Financial Statement. Each official has their own internal controls within their office.

10/09-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

II. FINANCIAL STATEMENT FINDINGS (continued)

10/09-03 Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The Commission will encourage all elected officials to review and document antifraud risk assessments.

10/09-04 Criteria: Account balances should be properly and timely reconciled on a monthly basis in the Prosecuting Attorney's office for 2010 and 2009.

Condition: During our audit, we noted that the reconciliations of the prosecuting attorney's accounts are not being properly reconciled on a monthly basis due to the software being used and its report format setup for 2010 and 2009.

Context: Bank statement reconciliations are not being properly prepared due to the software report format being used.

Effect: Lack of proper reconciliation and monitoring of accounts may lead to errors that may not be found in a timely manner.

Cause: The Prosecuting Attorney's account reconciliation is not being properly prepared.

Recommendation: We recommend that the Prosecuting Attorney's office properly reconcile its accounts on a monthly basis and monitor the reconciliations to be sure they are being properly prepared. These reconciliations will ensure meaningful and accurate financial statements.

Views of responsible officials and planned corrective actions: The Prosecuting Attorney's office is currently working with Dennis Jones and Associates Bad Check Prosecution System Software to correct the reconciliation reports.

II. FINANCIAL STATEMENT FINDINGS (continued)

10/09-05 Criteria: The Sheriff's office December 2010 reconciliation should include all checks written up to and including December 31, 2010.

Condition: During our audit, we noted that the Sheriff's account reconciliation did not include eight checks that were written in December 2010.

Context: The bank reconciliation did not include eight checks written in December 2010.

Effect: Book balances in the Sheriff's office were overstated by $1,245.50.

Cause: The Sheriff's December 2010 bank reconciliation did not include eight checks that were written in December 2010.

Recommendation: Preparation of complete and accurate bank reconciliations is a key to maintaining adequate control over both cash receipts and disbursements. We recommend that the reconciliations be reviewed for accuracy and completeness by an individual not involved in the bank reconciliation preparation.

Views of responsible officials and planned corrective actions: Procedures will be reviewed to implement monitoring of bank reconciliations on a monthly basis.

10/09-06 Criteria: The Recorder's office should prepare complete and accurate bank reconciliations.

Condition: During our audit, we noted that the Recorder's bank reconciliations are not being prepared completely and accurately for 2010 and 2009.

Context: The bank reconciliations are not being prepared completely and accurately and have unknown discrepancies.

Effect: Incomplete and inaccurate bank reconciliations can lead to cash balances being over/under stated.

Cause: The Recorder's office December 2010 and 2009 bank reconciliations have unknown discrepancies.

Recommendation: Preparation of complete and accurate bank reconciliations is a key to maintaining adequate control over both cash receipts and disbursements. We recommend that procedures be implemented to prepare complete and accurate bank reconciliations and that the reconciliations be reviewed for accuracy and completeness by an individual not involved in the bank reconciliation preparation.

Views of responsible officials and planned corrective actions: The Recorder's Office has implemented a new procedure to have one person review the electronic funds transfers on a daily basis now instead of monthly.

II. FINANCIAL STATEMENT FINDINGS (concluded)

10/09-07

Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the Recorder's, Collector's, and Treasurer's office.

Context: During the audit, we noted that the Recorder, Collector, Treasurer, and Deputy Treasurer are allowed to write, approve, sign and reconcile expenditures to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding department.

Recommendation: These areas should be reviewed periodically and consideration given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: We will review periodically the size and budget constraints limiting the number of personnel within each of the departments . We will continue to utilize the other internal controls, such as administrative oversight, to minimize the lack of sufficient segregation of duties.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2010 & 2009

The following findings, recommendations, and questioned costs are the results of the single audit of Butler County, Missouri for the fiscal years ended December 31, 2010 and 2009. Each finding is referenced with a two-digit number representing the fiscal years audited, an “SA” to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2010 & 2009 (continued)

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement.*

2. Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2010 & 2009 (continued)

C. Federal Award Findings and Questioned Costs

SA10/09-01 All Programs except CFDA numbers 14.257 and 90.401.

Significant Deficiency

Information on the federal programs: The schedule of expenditures of federal awards contained errors.
Criteria: Section .310(b) of Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, requires the County to prepare a SEFA for the period covered by the County's financial statements.
Condition: The County did not comply with OMB Circular A-133 section .310(b).
Questioned Costs: Not applicable.
Context: During our audit of the schedule of expenditures of federal awards, we noted numerous errors in the amounts reported on the schedule.
Effect: Without an accurate and complete SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.
Cause: The County did not implement prior year corrective action plans.
Recommendation: We recommend that County officials receive training in preparing the schedule of expenditures of federal awards.
Views of responsible officials and planned corrective actions: The County Clerk will work with all agencies receiving federal money to prepare an accurate schedule of expenditures of federal awards.

SA10/09-02 Highway Planning and Construction – CFDA No. 20.205

Significant Deficiency

Information on the federal programs: Required contracting procedures were not followed.
Criteria: OMB Circular A-133 Compliance Supplement and 41 CFR 105-71.135 prohibit entities from contracting with parties that are on the prohibited list.
Condition: The County does not have procedures in place to ensure that it complies with OMB Circular A-133 and 41 CFR 105-71.135 by not contracting with prohibited parties in administering federal funds.
Questioned Costs: Not applicable.
Context: During our audit of the schedule of expenditures of federal awards, we noted that the County did not check the Excluded Parties List System maintained by the General Services Administration to verify that parties it contracted with were not on the prohibited list.
Effect: As a result of not following required contracting procedures, there is an increased risk of federal funds being spent in violation of grant requirements.
Cause: The County did not perform required contracting procedures nor implement prior year corrective action plans.
Recommendation: We recommend that the County implement procedures to ensure that parties they contract with are not on the prohibited list.
Views of responsible officials and planned corrective actions: The County will work on implementing the required procedures to meet this compliance requirement.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2010 & 2009 (concluded)

C. Federal Award Findings and Questioned Costs (concluded)

SA10/09-03 Highway Planning and Construction – CFDA No. 20.205
Payment in Lieu of Taxes (Dept. of Agriculture) – CFDA No. 10.665

Significant Deficiency

Information on the federal programs: Noncompliance with Single Audit Requirements in control over expenditures.

Criteria: The County is required to properly maintain separate expense accounts to account for federal expenditures.

Condition: The County did not properly maintain separate expense accounts to account for federal expenditures to prepare the schedule of expenditures of federal awards.

Questioned Costs: Not applicable.

Context: During our audit of the schedule of expenditures of federal awards, we noted that the County did not properly maintain separate expense accounts to account for federal expenditures.

Effect: As a result of not following required compliance controls over expenditures, the schedule of expenditures contained errors.

Cause: The County did not implement prior year corrective action plans.

Recommendation: We recommend that the County implement procedures to track all federal expenditures in the general ledger system by adding a grant code at the end of the account code.

Views of responsible officials and planned corrective actions: The County will work on implementing the required procedures to meet this compliance requirement.

THE COUNTY OF BUTLER
POPLAR BLUFF, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2010 AND 2009

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 07/08-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 112, Communicating Internal Control Related Matters in an Audit, which is effective for periods ending on or after December 15, 2006, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as FS 10/09-01.

FS 07/08-02 Criteria: Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters in an Audit*, which is effective for period ending on or after December 15, 2006, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as FS 10/09-02.

FS 07/08-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as FS 10/09-03.

II. PRIOR YEAR FEDERAL AWARD FINDINGS

SA 07/08-01 The schedule of expenditures of federal awards contained errors.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as SA10/09-01.

SA 07/08-02 Weakness in control over expenditures in compliance with Single Audit Requirements.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as SA10/09-03.

SA 07/08-03 Documentation was not provided to support major program expenditures and internal control procedures.

Status: It appears this finding has been resolved in the current year.

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

To the County Commissioners
Butler County, Missouri

In planning and performing our audit of the financial statements of the County of Butler ("County") as of and for the years ended December 31, 2010 and 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore there can be no assurance that all such deficiencies have been identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in the County's internal control listed below to be significant deficiencies.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Changes Impacting Governmental Entities
III. Information Required by Professional Standards

Butler County's management has provided written responses to the comments in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of management, County Commissioners, and others within the County, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

10/09-01

Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which is effective for periods ending on or after December 15, 2009, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency. SAS No. 115 supersedes SAS No. 112.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Context: During discussions with management, we noted that we will be assisting the County with the preparation of their audited financial statements and footnotes.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 115 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual Financial Statement. The County will pursue remedy for SAS 115 compliance if it is determined that it is required for a county of this size.

10/09-02

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual Financial Statement. Each official has their own internal controls within their office.

10/09-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The Commission will encourage all elected officials to review and document antifraud risk assessments.

10/09-04 Criteria: Account balances should be properly and timely reconciled on a monthly basis in the Prosecuting Attorney's office for 2010 and 2009.

Condition: During our audit, we noted that the reconciliations of the prosecuting attorney's accounts are not being properly reconciled on a monthly basis due to the software being used and its report format setup for 2010 and 2009.

Context: Bank statement reconciliations are not being properly prepared due to the software report format being used.

Effect: Lack of proper reconciliation and monitoring of accounts may lead to errors that may not be found in a timely manner.

Cause: The Prosecuting Attorney's account reconciliation is not being properly prepared.

Recommendation: We recommend that the Prosecuting Attorney's office properly reconcile its accounts on a monthly basis and monitor the reconciliations to be sure they are being properly prepared. These reconciliations will ensure meaningful and accurate financial statements.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

Views of responsible officials and planned corrective actions: The Prosecuting Attorney's office is currently working with Dennis Jones and Associates Bad Check Prosecution System Software to correct the reconciliation reports.

10/09-05 Criteria: The Sheriff's office December 2010 reconciliation should include all checks written up to and including December 31, 2010.

Condition: During our audit, we noted that the Sheriff's account reconciliation did not include eight checks that were written in December 2010.

Context: The bank reconciliation did not include eight checks written in December 2010.

Effect: Book balances in the Sheriff's office were overstated by $1,245.50.

Cause: The Sheriff's December 2010 bank reconciliation did not include eight checks that were written in December 2010.

Recommendation: Preparation of complete and accurate bank reconciliations is a key to maintaining adequate control over both cash receipts and disbursements. We recommend that the reconciliations be reviewed for accuracy and completeness by an individual not involved in the bank reconciliation preparation.

Views of responsible officials and planned corrective actions: Procedures will be reviewed to implement monitoring of bank reconciliations on a monthly basis.

10/09-06 Criteria: The Recorder's office should prepare complete and accurate bank reconciliations.

Condition: During our audit, we noted that the Recorder's bank reconciliations are not being prepared completely and accurately for 2010 and 2009.

Context: The bank reconciliations are not being prepared completely and accurately and have unknown discrepancies.

Effect: Incomplete and inaccurate bank reconciliations can lead to cash balances being over/under stated.

Cause: The Recorder's office December 2010 and 2009 bank reconciliations have unknown discrepancies.

Recommendation: Preparation of complete and accurate bank reconciliations is a key to maintaining adequate control over both cash receipts and disbursements. We recommend that procedures be implemented to prepare complete and accurate bank reconciliations and that the reconciliations be reviewed for accuracy and completeness by an individual not involved in the bank reconciliation preparation.

Views of responsible officials and planned corrective actions: The Recorder's Office has implemented a new procedure to have one person review the electronic funds transfers on a daily basis now instead of monthly.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

10/09-07 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the Recorder's, Collector's, and Treasurer's office.

Context: During the audit, we noted that the Recorder, Collector, Treasurer, and Deputy Treasurer are allowed to write, approve, sign and reconcile expenditures to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding department.

Recommendation: These areas should be reviewed periodically and consideration given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: We will review periodically the size and budget constraints limiting the number of personnel within each of the departments . We will continue to utilize the other internal controls, such as administrative oversight, to minimize the lack of sufficient segregation of duties.

FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2010 & 2009

The following findings, recommendations, and questioned costs are the results of the single audit of Butler County, Missouri for the fiscal year ended December 31, 2010 and 2009. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement*.

2. Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

C. Federal Award Findings and Questioned Costs

SA10/09-01 All Programs except CFDA numbers 14.257 and 90.401.

Significant Deficiency

Information on the federal programs: The schedule of expenditures of federal awards contained errors.
Criteria: Section .310(b) of Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, requires the County to prepare a SEFA for the period covered by the County's financial statements.
Condition: The County did not comply with OMB Circular A-133 section .310(b).
Questioned Costs: Not applicable.
Context: During our audit of the schedule of expenditures of federal awards, we noted numerous errors in the amounts reported on the schedule.
Effect: Without an accurate and complete SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.
Cause: The County did not implement prior year corrective action plans.
Recommendation: We recommend that County officials receive training in preparing the schedule of expenditures of federal awards.
Views of responsible officials and planned corrective actions: The County Clerk will work with all agencies receiving federal money to prepare an accurate schedule of expenditures of federal awards.

SA10/09-02 Highway Planning and Construction – CFDA No. 20.205

Significant Deficiency

Information on the federal programs: Required contracting procedures were not followed.
Criteria: OMB Circular A-133 Compliance Supplement and 41 CFR 105-71.135 prohibit entities from contracting with parties that are on the prohibited list.
Condition: The County does not have procedures in place to ensure that it complies with OMB Circular A-133 and 41 CFR 105-71.135 by not contracting with prohibited parties in administering federal funds.
Questioned Costs: Not applicable.
Context: During our audit of the schedule of expenditures of federal awards, we noted that the County did not check the Excluded Parties List System maintained by the General Services Administration to verify that parties it contracted with were not on the prohibited list.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

Effect: As a result of not following required contracting procedures, there is an increased risk of federal funds being spent in violation of grant requirements.
Cause: The County did not perform required contracting procedures nor implement prior year corrective action plans.
Recommendation: We recommend that the County implement procedures to ensure that parties they contract with are not on the prohibited list.
Views of responsible officials and planned corrective actions: The County will work on implementing the required procedures to meet this compliance requirement.

SA10/09-03

Highway Planning and Construction – CFDA No. 20.205
Payment in Lieu of Taxes (Dept. of Agriculture) – CFDA No. 10.665

Significant Deficiency

Information on the federal programs: Noncompliance with Single Audit Requirements in control over expenditures.
Criteria: The County is required to properly maintain separate expense accounts to account for federal expenditures.
Condition: The County did not properly maintain separate expense accounts to account for federal expenditures to prepare the schedule of expenditures of federal awards.
Questioned Costs: Not applicable.
Context: During our audit of the schedule of expenditures of federal awards, we noted that the County did not properly maintain separate expense accounts to account for federal expenditures.
Effect: As a result of not following required compliance controls over expenditures, the schedule of expenditures contained errors.
Cause: The County did not implement prior year corrective action plans.
Recommendation: We recommend that the County implement procedures to track all federal expenditures in the general ledger system by adding a grant code at the end of the account code.
Views of responsible officials and planned corrective actions: The County will work on implementing the required procedures to meet this compliance requirement.

II. CHANGES IMPACTING GOVERNMENTAL ENTITIES

a. SAS 115, *Communicating Internal Control Related Matters Identified in an Audit*, is effective for periods ending on or after December 15, 2009 and supersedes SAS No. 112. This standard defines the terms *deficiency in internal control*, *significant deficiency*, and *material weakness*. It provides guidance on evaluating the severity of deficiencies in internal control identified in an audit of financial statements.

b. SAS 117, *Compliance Audits*, which supersedes SAS No. 74, is effective for compliance audits for periods ending on or after June 15, 2010. This SAS identifies the AU sections that are not applicable to a compliance audit, defines terms related to compliance audits and used in the SAS, and identifies the elements to be included in an auditor's report on a compliance audit. It reflects changes in the compliance audit environment and incorporates the risk assessment standards.

c. SAS 118, *Other Information in Documents Containing Audited Financial Statements*, is effective for audits of financial statements for periods beginning on or after December 15, 2010. This section addresses the auditor's responsibility in relation to other information in documents containing audited financial statements and the auditor's report thereon.

II. CHANGES IMPACTING GOVERNMENTAL ENTITIES (Concluded)

d. SAS 119, *Supplementary Information in Relation to the Financial Statements as a Whole*, is effective for audits of financial statements for periods beginning on or after December 15, 2010. This section addresses the auditor's responsibility when engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *OMB Circular A-133*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated February 28, 2011. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. The County adopted the regulatory basis of accounting to report its financial statements for the years ended December 31, 2010 and 2009. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 29, 2011.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Barry County, Missouri

The Office of the State Auditor, in cooperation with Barry County, has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Barry, Missouri

We have audited the accompanying financial statements of the County of Barry ("County"), Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described more fully in Note I, these financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the County of Barry, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investment balances of the governmental and agency funds of the County of Barry, Missouri, as of December 31, 2010 and 2009, and the receipts, disbursements and budgetary results of the governmental funds for the years then ended, on the basis of accounting described in Note I.

As described in Note XI, the County of Barry has converted from a modified cash (GASB 34) basis of accounting to the regulatory basis of accounting which differs from accounting principles generally accepted in the United States of America, as of and for the years ended December 31, 2010 and December 31, 2009.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 7, 2011 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming an opinion on the financial statements, taken as a whole that are referred to in the first paragraph. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profits Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is not fairly stated in all material respects in relation to the financial statements taken as a whole, that were prepared on the basis of accounting described in Note I.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Barry, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1835 by an Act of the Missouri Territory. In addition to the three Commissioners, there are six elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Sheriff, and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Barry County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning the following January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation was:

	2010	2009
Real Estate	$ 310,486,577	$ 304,936,717
Personal Property	116,501,935	119,888,521
Railroad and Utilities	15,378,760	14,378,846
	$ 442,367,272	$ 439,204,084

During 2010 and 2009, the County Commission approved a $0.1200 and $0.1200, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2010 and 2009, for purposes of County taxation, as follows:

	2010	2009
General Revenue Fund	$ 0.0000	$ 0.0000
Senior Services	0.0500	0.0500
Developmentally Disabled	0.0700	0.0700
	$ 0.1200	$ 0.1200

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amount of the County's deposits was $2,395,654.26 and $2,296,363.35, and the bank balance was $16,647,014.10 and $14,151,738.38, respectively. As of December 31, 2010 and 2009, 100% of the County's investments were guaranteed by the U.S. Government.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2010, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	1,653,914.87
Investments		741,739.39
Total Deposits & Investments as of December 31, 2010	$	2,395,654.26

The carrying values of deposits and investments at December 31, 2009, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	1,586,741.45
Investments		709,621.90
Total Deposits & Investments as of December 31, 2009	$	2,296,363.35

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2010 and 2009.

II. DEPOSITS AND INVESTMENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2010 and 2009.

III. LONG-TERM DEBT

The County has $178,000 Barry County, Missouri General Obligation bonds Series 2002 (Shell Knob Senior Corporation Project Neighborhood Improvement District) dated May 1, 2002. Principal and interest payments are due annually on April 1, with an annual interest rate of 5.875%.

NID AMORTIZATION FOR 2009

YEARS ENDING DECEMBER 31,	PRINCIPAL	INTEREST	TOTAL
2010	$ 7,000.00	$ 8,107.50	$ 15,107.50

Additions		-
Payments		(7,000.00)
Balance – December 31, 2009	$	138,000.00

NID AMORTIZATION FOR 2010

YEARS ENDING DECEMBER 31,	PRINCIPAL	INTEREST	TOTAL
2011	$ 8,000.00	$ 7,696.25	$ 15,696.25
2012	8,000.00	7,226.25	15,226.25
2013	9,000.00	6,756.25	15,756.25
2014	9,000.00	6,227.50	15,227.50
2015	10,000.00	5,698.75	15,698.75
2016-2020	58,000.00	19,152.50	77,152.50
2021-2022	29,000.00	2,585.00	31,585.00
	$ 131,000.00	$ 55,342.50	$ 186,342.50

Balance – December 31, 2009	$	138,000.00
Additions		-
Payments		(7,000.00)
Balance – December 31, 2010	$	131,000.00

On October 27, 2008, the County entered into a promissory note with Security Bank of Southwest Missouri for a total principal amount of $200,000. However, the County only withdrew $83,000 for items related to the County Jail. The interest rate is 4.00% and matures on December 31, 2008. On February 2, 2009, the County Commission approved to extend the $200,000 loan, even though it still carries the $83,000 balance, until December 31, 2009 at an interest rate of 3.25%. On December 31, 2009, the County renewed the one year promissory note at a rate of 3.25%.

LOAN AMORTIZATION FOR 2009

YEARS ENDING DECEMBER 31,	PRINCIPAL	INTEREST	TOTAL
2010	$ 117,000.00	$ 4,022.56	$ 121,022.56
	$ 117,000.00	$ 4,022.56	$ 121,022.56

III. LONG-TERM DEBT (concluded)

Balance – December 31, 2008	$	83,000.00
Additions		34,000.00
Payments		-
Balance – December 31, 2009	$	117,000.00

LOAN AMORTIZATION FOR 2010

YEARS ENDING DECEMBER 31,	PRINCIPAL	INTEREST	TOTAL
2011	$ 119,202.56	$ 936.59	$ 120,139.15
	$ 119,202.56	$ 936.59	$ 120,139.15

Balance – December 31, 2009	$	117,000.00
Additions		55,000.00
Payments		(52,797.44)
Balance – December 31, 2010	$	119,202.56

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2010 and 2009 are as follows:

	2010		2009	
	Transfers In	Transfers Out	Transfers In	Transfers Out
MAJOR FUNDS				
General Fund	$ -	$ -	$ 20,250.67	$ -
Emerg. Road and Bridge Fund	-	-	-	20,250.67
TOTAL	$ -	$ -	$ 20,250.67	$ 20,250.67

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000 could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, in addition to the prior contributions requirements, participating county employees hired on or after February 25, 2002 are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions (concluded)

During 2010 and 2009, the County collected and remitted to CERF, employee contributions of approximately $80,490.53 and $77,416.20, respectively, for the years then ended.

VI. OTHER RETIREMENT PLAN

Barry County does not participate in the Missouri Local Government Employees' Retirement System. Contributions to a voluntary plan are paid by a voluntary deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. These contributions are then remitted to Great West who administers the 401a Plan. Employee contributions were $12,220.46 and $12.914.70 for the years ended December 31, 2010 and 2009, respectively.

VII. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $7,752 and $7,752, respectively, for the years ended December 31, 2010 and 2009.

IX. CLAIMS, COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is involved in pending litigation at December 31, 2010.

B. Compensated Absences

The County provides employees with one week of vacation after the first year, two weeks after two years and three weeks after seven years. Vacation days are lost if not used. Sick leave is accrued ½ day per month with a maximum total number of 30 days. If an employee leaves or is terminated, the employee is reimbursed for half of the unused sick time that has been accrued. These have not been subjected to auditing procedures.

IX. CLAIMS, COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.700 RSMo 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

XI. ACCOUNTING CHANGE

For the years ended December 31, 2010 and December 31, 2009, the County has elected to change its accounting method from a modified cash basis to the regulatory basis of accounting. This basis recognizes assets, liabilities, fund balance, receipts, and disbursements when they result from cash transactions with a provision for investments and settlements pending (if applicable). The regulatory basis differs from the accounting principles generally accepted in the United States of America and is described in Note I of the notes to the financial statements.

XII. SUBSEQUENT EVENTS

There are no subsequent events to report as of the date of the audit report.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2010, funds were deficit budgeted for the following: law enforcement training fund, PAT fund, special law enforcement fund and POST fund.

B. For the year ended December 31, 2009, funds were deficit budgeted for the following: PA delinquent tax fund.

C. For the year ended December 31, 2010, there was no budget for the Law Enforcement Restitution fund.

D. For the year ended December 31, 2010, expenses exceeded those budgeted for the Senior Citizens' Service Board and LEPC fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission
The County of Barry, Missouri

We have audited the financial statements of the County of Barry ("County"), Missouri, as of and for the years ended December 31, 2010 and 2009, and have issued our report thereon dated September 7, 2011. The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting. (FS 10/09-01, FS 10/09-02, FS 10/09-03, FS 10/09-04, FS 10/09-05 and SA 10/09-01) A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County in a separate letter dated September 7, 2011.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the County Commission, County Officeholders, Missouri State Auditor, the Federal awarding agencies and pass-through entities and is not to be and should not be used by anyone other than those specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Independent Auditor's Report

To The County Commission
The County of Barry
Cassville, Missouri

Compliance

We have audited the County of Barry's ("County") compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2010 and December 31, 2009. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

As described in item SA 10/09-01 in the accompanying schedule of findings and questioned costs, Barry County did not comply with requirements regarding reporting requirements that are applicable to its ARRA JAG Program and the overall preparation of the schedule of expenditures of federal awards. Compliance with such requirements is necessary, in our opinion, for the County to comply with the requirements applicable to that program and preparation of the schedule of expenditures of federal awards.

In our opinion, except for the noncompliance described in the preceding paragraph, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and December 31, 2009.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as item SA 10/09-01. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Management's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit management's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of management, the County Commission, County Officeholders, Missouri State Auditor, others within the entity, other auditing agencies, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Total Federal Expenditures			$ 742,441.15	$ 873,985.37

NOTE 1 – BASIS OF PRESENTATION

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Barry County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

The schedule is presented on the regulatory basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUBRECIPIENTS

The County did not provide federal awards to any subrecipients during the years ended December 31, 2010 and 2009.

THE COUNTY OF BARRY
CASSVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2010 AND 2009

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unqualified - Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified?	2010 ___ Yes	X No	
	2009 ___ Yes	X No	
b. Significant deficiencies identified?	2010 X Yes	___ None Reported	
	2009 X Yes	___ None Reported	

3. Noncompliance material to financial statements noted?

2010 ___ Yes	X No	
2009 ___ Yes	X No	

B. Federal Awards

1. Internal control over major programs:

a. Material weakness(es) identified?	2010 ___ Yes	X No	
	2009 ___ Yes	X No	
b. Significant deficiencies identified?	2010 X Yes	___ None Reported	
	2009 X Yes	___ None Reported	

2. Type of auditor's report issued on compliance for major programs:

2010 - Qualified – Regulatory Basis

2009 - Qualified – Regulatory Basis

3. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*?

2010 X Yes	___ No	
2009 X Yes	___ No	

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2010/2009	16.738	Department of Justice – Edward Byrne Memorial Formula Grant Program
2010/2009	16.803	Department of Justice – ARRA – Edward Byrne Memorial Justice Asst. Grant
2010/2009	20.205	Department of Transportation – Highway Planning and Construction

5. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

6. Auditee qualified as low-risk auditee? 2010 ___ Yes X No

2009 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

10/09-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which is effective for periods ending on or after December 15, 2009, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency. SAS No. 115 supersedes SAS No. 112.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Context: During discussions with management, we noted that we will be assisting the County with the preparation of their audited financial statements and footnotes.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 115 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual financial statements. The County will pursue remedy for SAS 115 compliance if it is determined that it is required for a county of this size.

II. FINANCIAL STATEMENT FINDINGS (continued)

10/09-02 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual financial statements. Each official has their own internal controls within their office.

10/09-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

II. FINANCIAL STATEMENT FINDINGS (continued)

10/09-03 Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The Commission will encourage all elected officials to review and document antifraud risk assessments.

10/09-04 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit:* An amendment to SAS No. 55

Condition: Lack of segregation of duties in the Recorder's Office.

Context: During our audit, we noted a single employee has the ability to initiate, record, reconcile and monitor a single transaction.

Effect: A single employee has the ability to initiate, record, reconcile and monitor a single transaction. Lack of segregation of duties and monitoring means that errors or other problems, such as theft of cash, might not be recognized and resolved on a timely basis.

Cause: Lack of staff.

Recommendation: Hire another employee to segregate duties or find other ways to monitor transactions of employees.

Views of responsible officials and planned corrective actions: We will review the cost versus benefit of adding additional staff to alleviate the segregation of duties issue. Monitoring employee work will be implemented immediately.

10/09-05 Criteria: Monthly reconciliation of bank accounts.

Condition: Bank account reconciliations are not being properly prepared in the Recorder's Office, Collector's Office and the Drug Task Force Office.

Context: During our audit, we noted that the reconciliations of the Recorder's accounts are not being properly reconciled on a monthly basis due to including checks written in the following month of the month being reconciled for 2009 and 2010, the Collector's escrow account for 2010 and the JAG account for 2010.

Effect: Lack of proper reconciliation and monitoring of accounts may lead to errors that may not be found in a timely manner.

Cause: The Recorder's, Collector's and Drug Task Force account reconciliations are not being properly prepared.

II. FINANCIAL STATEMENT FINDINGS (concluded)

10/09-05 Recommendation: We recommend that these offices properly reconcile their accounts on a monthly basis and monitor the reconciliations to be sure they are being properly prepared. These reconciliations will ensure meaningful and accurate financial statements.

Views of responsible officials and planned corrective actions: We agree with the finding and will implement the recommendation immediately.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2010 & 2009

The following findings, recommendations, and questioned costs are the results of the single audit of Barry County, Missouri for the fiscal years ended December 31, 2010 and 2009. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement*.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2010 & 2009 (concluded)

2. Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

C. Federal Award Findings and Questioned Costs

SA10/09-01 All Programs

Significant Deficiency

Information on the federal programs: The schedule of expenditures of federal awards contained errors.

Criteria: Section .310(b) of Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, requires the County to prepare a SEFA for the period covered by the County's financial statements.

Condition: The County did not comply with OMB Circular A-133 section .310(b).

Questioned Costs: Not applicable.

Context: During our audit of the schedule of expenditures of federal awards, we noted numerous errors in the amounts reported on the schedule. Amounts reported were not supported by the documentation provided. Some of these errors were due to using revenues instead of expenditures while others were just errors.

Effect: Without an accurate and complete SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

Cause: The County did not implement prior year corrective action plans.

Recommendation: We recommend that County officials receive training in preparing the schedule of expenditures of federal awards.

Views of responsible officials and planned corrective actions: The County Clerk will work with all agencies receiving federal money to prepare an accurate schedule of expenditures of federal awards.

THE COUNTY OF BARRY
CASSVILLE, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2010 AND 2009

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 07/08-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 112, Communicating Internal Control Related Matters in an Audit, which is effective for periods ending on or after December 15, 2006, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as FS 10/09-01.

FS 07/08-02 Criteria: Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters in an Audit*, which is effective for periods ending on or after December 15, 2006, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as FS 10/09-02.

FS 07/08-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as FS 10/09-03.

FS 07/08-04 Criteria: Lack of segregation of duties in the Sheriff's office.

Status: It appears no corrective action plan was implemented in 2009 but was resolved in the 2010 year.

FS 07/08-05 Criteria: Bank accounts are not timely reconciled on a monthly basis in the Sheriff and Collector's offices.

Status: It appears this finding has been resolved in the current audit year.

FS 07/08-06 Criteria: Misappropriation of assets in the Sheriff's Department.

Status: It appears this finding has been resolved in the current audit year.

II. PRIOR YEAR FEDERAL AWARD FINDINGS

SA 07/08-01 The schedule of expenditures of federal awards contained errors.

Status: It appears no corrective action plan has been implemented, therefore, this finding has been re-issued in the current year as SA10/09-01.

Daniel Jones

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

To the County Commissioners
Barry County, Missouri

In planning and performing our audit of the financial statements of the County of Barry ("County") as of and for the years ended December 31, 2010 and 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore there can be no assurance that all such deficiencies have been identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in the County's internal control listed below to be significant deficiencies.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Changes Impacting Governmental Organizations
III. Information Required by Professional Standards

Barry County's management has provided written responses to the comments in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of management, County Commissioners, and others within the County, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

10/09-01

Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which is effective for periods ending on or after December 15, 2009, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency. SAS No. 115 supersedes SAS No. 112.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Context: During discussions with management, we noted that we will be assisting the County with the preparation of their audited financial statements and footnotes.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 115 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual financial statements. The County will pursue remedy for SAS 115 compliance if it is determined that it is required for a county of this size.

10/09-02

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT(Continued)

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual financial statements. Each official has their own internal controls within their office.

10/09-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The Commission will encourage all elected officials to review and document antifraud risk assessments.

10/09-04 Criteria: Segregation of duties.

Condition: Lack of segregation of duties in the Recorder's Office.

Context: During our audit, we noted a single employee has the ability to initiate, record, reconcile and monitor a single transaction.

Effect: A single employee has the ability to initiate, record, reconcile and monitor a single transaction. Lack of segregation of duties and monitoring means that errors or other problems, such as theft of cash, might not be recognized and resolved on a timely basis.

Cause: Lack of staff.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT(Continued)

Recommendation: Hire another employee to segregate duties or find other ways to monitor transactions of employees.

Views of responsible officials and planned corrective actions: We will review the cost versus benefit of adding additional staff to alleviate the segregation of duties issue. Monitoring employee work will be implemented immediately.

10/09-05 Criteria: Monthly reconciliation of bank accounts.

Condition: Bank account reconciliations are not being properly prepared in the Recorder's Office, Collector's Office and the Drug Task Force Office.

Context: During our audit, we noted that the reconciliations of the Recorder's accounts are not being properly reconciled on a monthly basis due to including checks written in the following month of the month being reconciled for 2009 and 2010, the Collector's escrow account for 2010 and the JAG account for 2010.

Effect: Lack of proper reconciliation and monitoring of accounts may lead to errors that may not be found in a timely manner.

Cause: The Recorder's, Collector's and Drug Task Force account reconciliations are not being properly prepared.

Recommendation: We recommend that these offices properly reconcile its accounts on a monthly basis and monitor the reconciliations to be sure they are being properly prepared. These reconciliations will ensure meaningful and accurate financial statements.

Views of responsible officials and planned corrective actions: We agree with the finding and will implement the recommendation immediately.

SA 10/09-01 Criteria: Section .310(b) of Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, requires the County to prepare a SEFA for the period covered by the County's financial statements.

Condition: The County did not comply with OMB Circular A-133 section .310(b).

Questioned Costs: Not applicable.

Context: During our audit of the schedule of expenditures of federal awards, we noted numerous errors in the amounts reported on the schedule. Amounts reported were not supported by the documentation provided. Some of these errors were due to using revenues instead of expenditures while others were just errors.

Effect: Without an accurate and complete SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

Cause: The County did not implement prior year corrective action plans.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT(Concluded)

Recommendation: We recommend that County officials receive training in preparing the schedule of expenditures of federal awards.

Views of responsible officials and planned corrective actions: The County Clerk will work with all agencies receiving federal money to prepare an accurate schedule of expenditures of federal awards.

II. CHANGES IMPACTING GOVERNMENTAL ORGANIZATIONS

a. SAS 115, *Communicating Internal Control Related Matters Identified in an Audit*, is effective for periods ending on or after December 15, 2009 and supersedes SAS No. 112. This standard defines the terms *deficiency in internal control*, *significant deficiency*, and *material weakness*. It provides guidance on evaluating the severity of deficiencies in internal control identified in an audit of financial statements.

b. SAS 117, *Compliance Audits*, which supersedes SAS No. 74, is effective for compliance audits for periods ending on or after June 15, 2010. This SAS identifies the AU sections that are not applicable to a compliance audit, defines terms related to compliance audits and used in the SAS, and identifies the elements to be included in an auditor's report on a compliance audit. It reflects changes in the compliance audit environment and incorporates the risk assessment standards.

c. SAS 118, *Other Information in Documents Containing Audited Financial Statements*, is effective for audits of financial statements for periods beginning on or after December 15, 2010. This section addresses the auditor's responsibility in relation to other information in documents containing audited financial statements and the auditor's report thereon.

d. SAS 119, *Supplementary Information in Relation to the Financial Statements as a Whole*, is effective for audits of financial statements for periods beginning on or after December 15, 2010. This section addresses the auditor's responsibility when engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *OMB Circular A-133*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 1, 2011. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. The County adopted the regulatory basis of accounting to report its financial statements for the years ended December 31, 2010 and 2009. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 7, 2011.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Marion County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Marion County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Nichols, Stopp, & VanHoy, LLC, Certified Public Accountants, is attached.

Independent Auditor's Report

To the County Commission and
Officeholders of Marion County, Missouri

We have audited the accompanying financial statements of Marion County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Marion County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Marion County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Marion County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with Government Auditing Standards, we also have issued our report dated July 8, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain

provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

Our audits were performed for the purpose of forming opinions on the financial statements as a whole. The schedule of expenditures of federal awards is presented for the purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Summary of Significant Accounting Policies

Organized in 1826, the county of Marion was named after Francis Marion of the Revolution. Marion County is a county-organized, third-class county and is part of the Tenth Judicial Circuit. The county seat is Palmyra. Marion County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, an ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Marion County, Missouri.

Marion County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Marion County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered by the Missouri State Auditor's Office to comprise Marion County's legal entity.

Certain elected County officials, such as the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

The Marion County 911 Board and the Marion County SB40 Board, although funds of the county with separately appointed or elected boards, are separately audited by independent certified public accountants, and, therefore, not included in the audit report. For copies of the audited financial statements, please contact the Marion County 911 Board at (573) 221-1121 and the Marion County SB40 Board at (573) 248-1077.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Marion County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Marion County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Marion County adopts a budget for each governmental fund.

On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning the following January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

During our audit we noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The Law Enforcement Training Fund, Sheriff's Fund, Sheriff's Revolving Fund, Law Enforcement Restitution Fund, PA Delinquent Tax Fund, Local Emergency Planning Council Fund, Recorder's Technology Fund, Election HAVA Fund, and Collectors Tax Maintenance Fund all had expenses exceeding their budget.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Note 1 - Summary of Significant Accounting Policies (continued)

Budget and Budgetary Accounting (concluded)

Prior to February 1, the budget is legally enacted by a vote of the County.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

Budgets are prepared and adopted on the cash basis of accounting.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within Marion County's boundaries for the calendar year 2010 and 2009, for the purposes of taxation was:

	2010	2009
Real Estate	240,558,750	227,396,240
Personal Property	90,004,480	96,977,160
Railroad and Utilities	18,764,082	16,770,959
	349,327,312	$ 341,146,368

The tax levy respectively per $100 assessed valuation of tangible taxable property for the calendar year 2010 and 2009, for the purpose of County taxation, as follows:

	2010	2009
General Revenue Fund	$ 0.1057	$ 0.1138
Road and Bridge	0.3393	0.3341
	$ 0.4450	$ 0.4479

The County also receives sales tax collected by the State and remitted based on the County’s sales tax rate to the total sales tax collected in the County.

Note 1 - Summary of Significant Accounting Policies (concluded)

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Marion County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Marion County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the Balance Sheet Governmental Funds arising from cash transactions as "Cash and Equivalents" under each fund's caption.

Deposits - Missouri statues require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amount of Marion County's deposits was $673,580.94 and $963,777.02 and the bank balance was $966,808.83 and $1,432,204.03 respectively. As of December 31, 2010, 100% of Marion County's investments were guaranteed by the U.S. Government.

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2010, as follows:

Deposits	673,580.94
Investments	-
Restricted Cash	-
Total Deposits & Investments as of December 31, 2010	673,580.94

Note 2 - Deposits and Investments (concluded)

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2009, as follows:

Deposits	963,777.02
Investments	-
Restricted Cash	-
Total Deposits & Investments as of December 31, 2009	963,777.02

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Marion County's investment policy does not include custodial credit risk requirements. Marion County's deposits were not exposed to custodial credit risk for the years ended December 31, 2010, and 2009.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Marion County or its agent but not in the government's name. Marion County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of Marion County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Marion County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by Marion County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). Marion County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. Marion County's deposits were not exposed to concentration of investment credit risk for the years ended in December 31, 2010 and 2009.

Note 3 - Long-Term Debt

Certificates of Participation consist of:

The 2009 Series - $2,200,000 original principal lease Certificates of Participation, due in varying annual principal installments ranging from $470,000 to $280,000 through December 1, 2014. Interest rate is variable from 1.75% to 2.75%. Principal payment are made annually on June 1, and interest is paid semi-annually.

The 2006 Series - $584,000 original principal lease Certificates of Participation, due in varying annual principal installments ranging from $29,000 to $50,000 through June 1, 2021. Interest rate is variable from 4.00% to 4.70%. Principal payment are made annually on June 1, and interest is paid semi-annually.

The 2004 Series - $4,395,000 original principal lease Certificates of Participation, due in varying annual principal installments ranging from $340,000 to $505,000 through December 1, 2014. Interest rate is variable from 2.25% to 4.10%. Principal payment are made annually on December 1, and interest is paid semi-annually. The 2004 series was refunded by the 2009 series on December 1, 2009.

The following are details of the Certificates of Participation transactions for the years ended December 31, 2010 and 2009:

Total	$ 835,678.14	$ 835,678.14	$ 645,715.95	$ 645,715.95

Note 5 - Local Government Employees Retirement System (LAGERS)

Marion County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statue, section RSMo. 70.600- 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly.

The plan is qualified under the Internal Revenue Code Section 401a and it is tax exempt. The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO, 65102 or by calling 1-800-447-4334.

Funding Status

Marion County's full time employees do not contribute to the pension plan. The political subdivision is required to contribute at an actuarially determined rate; the current rates for 2010 are 12.9% (general) and 9.1% (police), for 2009 they are 11.9% (general) and 8.1% (police) of the annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

Annual Pension Cost (APC) and Net Pension Obligation (NPO)

For 2010, the political subdivision's annual pension cost of $378,586 was equal to the annual required contributions and the remaining net pension obligation. The 2010 required contribution was determined as part of the February 29, 2008 and/or February 28,2009 annual actuarial valuation using the entry age actuarial cost method. For 2009, the political subdivision's annual pension cost of $468,191 was equal to the required and actual contributions. The required contribution was determined as part of the February 28, 2007 and/or February 29, 2008 annual actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included: (a) a rate of return on the investment of present and future assets of 7.5% per year, compounded annually, (b) projected salary increases of 4.0% per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0% to 6.0% per year, depending on age and division, attributable to seniority/merit, (d) pre-retirement morality based on the RP-2000 Combined Healthy Table set back 0 years for men and 0 years for women, and (e) post-retirement mortality based on the 1971 Group Annuity Mortality table projected to 2000 set back 1 year for men and 7 years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis for 2009 and 2010. The amortization period of February 29, 2008 was 15 years for the General division and 15 years for the Police division. The amortization period of February 28, 2009, was 30 years for the General division and 9 years for the Police division.

Note 6 - County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees. The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than (1000) one thousand hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government.

It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Section 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994. The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

Pension Benefits:

Beginning January 1, 1997, employees attaining the age of sixty-two may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar amount, targeted replacement ratio formula, and the prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death. Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement at age fifty-five with reduced benefit is allowed for the police department, all other departments in the county the age is sixty. Any member with less than eight years creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions. The County Employee's Retirement Fund issues audited financial statements.

Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P. O. Box 2271, Jefferson City, MO, 65102-2271, or by calling 1-573-632-9203.

Funding Policy

In accordance with State Statutes, the Plan is funded through various fees collected by counties and remitted to the CERF. Eligible employees hired before February 2002 have an option to contribute 2% of their annual salary, while employees hired after February 2002 are required to contribute 6% of their annual salary in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF. Of the 6% contribution, 4% is contributed by the County and the remaining 2% is covered through employee contributions to LAGERS.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statue Chapter 56.807 RSMo, Marion County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. Marion County has contributed $7,106 and $13,379, respectively, for the years ended December 31, 2010 and 2009.

Note 8 - Post-Employment Benefits

Marion County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Marion County.

Note 9 - Claims, Commitments and Contingencies

Litigation

Marion County is not involved in any pending litigations as of December 31, 2010.

Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is not reimbursed for unused vacation and overtime, if applicable. Sick time is paid for at the rate of 50% for any unused sick pay up to 120 hours. These have not been subjected to auditing procedures.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuance to state statue (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and its reinsured up to the statutory limit through excess insurance.

Note 11 - Prior Period Adjustments

January 1, 2009 cash has been restated to include the Sheriffs Fund and the PA Delinquent Tax Fund.

The County of Marion
Palmyra, Missouri
Schedule of State Findings
December 31, 2010 & 2009

Schedule of State Findings

During our audit we noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The Law Enforcement Training Fund, Sheriff's Fund, Sheriff's Revolving Fund, Law Enforcement Restitution Fund, PA Delinquent Tax Fund, Local Emergency Planning Council Fund, Recorder's Technology Fund, Election HAVA Fund, and Collectors Tax Maintenance Fund all had expenses exceeding their budget.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Marion County, Missouri

We have audited the accompanying financial statements of Marion County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated July 8, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Marion County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Marion County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Marion County, Missouri's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting: FS 10/09-1, FS 10/09-2, and FS 10/09-3. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Marion County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying schedule of findings and questioned costs FS 10/09-4.

Marion County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Marion County, Missouri's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, County Commission, County Officeholders, others within the entity, Missouri State Auditor's Office, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and
Officeholders of Marion County, Missouri

Compliance

We have audited Marion County, Missouri's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of Marion County, Missouri's major federal programs for the year ended December 31, 2010 and 2009. Marion County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Marion County, Missouri's management. Our responsibility is to express an opinion on Marion County, Missouri's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Marion County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Marion County, Missouri's compliance with those requirements.

In our opinion, Marion County, Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009.

Internal Control Over Compliance

Management of Marion County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Marion County, Missouri's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Marion County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as items SA 10/09-1 and 10/09-2. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Marion County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Marion County, Missouri's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, County Commission, County Officeholders, others within the entity, Missouri State Auditor's Office, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

The County of Marion
Palmyra, Missouri
Notes to Schedule of Expenditures of Federal Awards
December 31, 2010 & 2009

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA number is not available.

This schedule includes all federal awards administered by Marion County, Missouri.

Basis of Presentation

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Basis of Accounting

The Accompanying schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements.

Note 2 - Subrecipients

The county provided one federal award to a subrecipient during the year ended December 31, 2009. A non-profit organization expended $6,289 of Emergency Shelter Grants Program monies that were passed through Marion County, Missouri.

	2009	____ Yes	_X_ No

Section 2 - Financial Statement Findings

FS 10/09-01 Condition: During the current year, it was necessary for the auditors of the County to assist with the preparation of the external financial statements and the notes to financial statements.

Effect: If the management of the County does not have the ability to prepare the external financial statements and the notes to the financial statements without the assistance of the auditors, management may be unable to review and take responsibility of the financial statements and notes.

Cause: Management of the County does not possess the technical accounting skills to prepare the external financial statements without the assistance of the auditors.

Recommendation: We recommend the County either provide training to current management, hire additional staff who possess the accounting skills needed to prepare and review the external financial statements, or contract with an outside accountant to prepare and review the external financial statements.

Management's Response: Marion County has prepared the 2010 and 2009 financial statements in compliance with Missouri Revised Statute 50.815.

FS 10/09-02 Condition: Documentation of the County's internal controls has not been prepared.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management has not prepared documentation of internal control.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: Marion County will take the recommendation under advisement.

FS 10/09-03 Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate audit risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

FS 10/09-03 Cont. Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: Marion County will take the recommendation under advisement.

FS 10/09-04 Condition: During our audit, we noted several funds with actual expenditures that exceeded the budgeted expenditures.

Effect: Missouri Statues requires Counties to prepare an annual budget and expenditures are not to exceed the budget. Due to exceeding budget in certain funds the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County has already established the procedure to amend the budget effective January 1, 2011 as needed to the State Auditor's Office.

The County of Marion
Palmyra, Missouri
Schedule of Findings and Questioned Costs
December 31, 2010 & 2009

Section 3 - Federal Award Findings and Questioned Costs for the Fiscal Years Ended December 31, 2010 and 2009

The following findings, recommendations, and questioned costs are the results of the single audit of Marion County, Missouri for fiscal years ended December 31, 2010 and 2009. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance

Category of Internal Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

Significant Deficiency: A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affect the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more that inconsequential will not be prevented or detected by the entity's internal control.

Material Weakness: A material weakness in internal control over compliance is a significant deficiency or combination of significant deficiencies that result in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations with appear:

Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement.*

Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

Federal Award Findings and Questioned Costs

Finding Number	Type of Finding/Questioned Costs	Findings and Recommendations
SA 10/09-1	Other Information: Significant Deficiency	**Findings:** The Schedule of Expenditures of Federal Awards contained errors. Controls were not in place to ensure that the schedule of expenditures of Federal Awards (SEFA) was prepared in accordance with federal requirements. The OMB Circular A-133 requires that the SEFA provide total federal awards expended for each individual federal program. It states that the determination of when an award is expended should be based on when the activity related to the award occurs, such as when the expenditures takes place.

The County of Marion
Palmyra, Missouri
Schedule of Findings and Questioned Costs
December 31, 2010 & 2009

Finding Number	Type of Finding/Questioned Costs	Findings and Recommendations
SA 10/09-1 cont.	Other Information: Significant Deficiency	The Schedule of Expenditures of Federal Awards (SEFA) was prepared with various errors. These errors are described below: Expenditures listed on the SEFA schedule submitted to the State Auditor's Office were incorrect. Expenditures listed on the SEFA did not agree to the general ledger. **Recommendation:** The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's Office. **Management's Response:** Marion County will take the recommendation under advisement.
SA 10/09-2	Other Information: Significant Deficiency	**Findings:** Documentation of internal control over compliance with single audit requirements has not been documented. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively. **Recommendation:** We recommend that the County develop the required internal control documentation over compliance with single audit requirements. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively. **Management's Response:** Marion County will take the recommendation under advisement.

The County of Marion
Palmyra, Missouri
Follow-Up on Prior Audit Findings for an Audit of Financial
Statements Performed in Accordance with Government Auditing Standards

In accordance with Government Auditing Standards, this section reports the auditor's follow-up on action taken by Marion County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008.

FS 08/07-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under the Statement on Auditing Standards (SAS) No. 112, Communicating Internal Control Related Matters in an Audit, which is effective for periods ending on or after December 15, 2006, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 112 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Due to the short time frame for the implementation of the new SAS requirements, management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Status: Unchanged.

FS 08/07-02 Criteria: Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters in an Audit,* which is effective for the period ending on or after December 15, 2006, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Effect: The new SAS 112 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Due to the short time frame for the implementation of the new SAS requirements, the County did not prepare financial statements.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Status: Unchanged.

FS 08/07-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate audit risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Status: Unchanged

The County of Marion
Palmyra, Missouri
Summary Schedule of Prior Audit Findings In Accordance with OMB Circular A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133, requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Finding Number	Type of Finding/Questioned Costs	Findings and Recommendations
SA 08/07-1	Other Information: Significant Deficiency	**Findings:** Weakness in control over expenditures in compliance with single audit requirements. To prepare the Schedule of Expenditures of Federal Awards (SEFA) report, the County used Revenues instead of expenditures. Because the program is reimbursement in nature, revenues equal expenditures. **Recommendation:** The County should track all federal expenditures in the general ledger system by adding a grant code at the end of the account code. **Status:** The County has resolved this issue and now uses expenditures to prepare the Schedule of Expenditures of Federal Awards.
SA 08/07-2	Other Information: Significant Deficiency	**Findings:** The Schedule of Expenditures of Federal Awards contained errors. Controls were not in place to ensure that the schedule of expenditures of Federal Awards (SEFA) was prepared in accordance with federal requirements. The OMB Circular A-133 requires that the SEFA provide total federal awards expended for each individual federal program. It states that the determination of when an award is expended should be based on when the activity related to the award occurs, such as when the expenditures takes place. The Schedule of Expenditures of Federal Awards (SEFA) was prepared with various errors. These errors are described below: The SEFA schedule contained several incorrect CFDA numbers of federal programs. Expenditures listed on the SEFA schedule submitted to the State Auditor's Office were incorrect. Revenue was used to prepare the SEFA instead of Expenditures. Actual Expenditures were not agreed to the general ledger.

SA 08/07-2 (Cont.)	Other Information: Significant Deficiency	**Recommendation:** The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's Office. **Status:** The County has resolved part of this issue and now uses the correct CFDA number, however, some expenditures were still incorrect on the Schedule of Expenditures of Federal Awards.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Warren County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Warren County, and issues a separate report on that audit. In addition, in cooperation with the county, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Warren County, Missouri

We have audited the accompanying financial statements of Warren County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Warren County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Warren County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Warren County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards,* we also have issued our report dated June 10, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Warren County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

(Original Signed by Auditor)

Exhibit B-13

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Warren County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, County Clerk, Circuit Clerk-Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, Treasurer and Collector.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Warren County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, offices that are considered by the Missouri State Auditor's Office to comprise the County's legal entity. The financial statements also include the Senate Bill 40 Board which is a separate legal entity within the County that is required by the Missouri State Auditor's Office to be included in the County's reporting entity for financial reporting purposes. The E-911 Board is audited and separately reported on by o ther independent auditors and the related fund is not presented in the financial statements.

Certain elected County officials, particularly the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed beginning available fund balance plus estimated revenues for the year.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Adoption of a formal budget is required by law. Although a budget was found in the County Clerk's file, the County did not adopt or publish a formal budget in either 2009 or 2010 for the Domestic Violence Fund.

9. Section 50.740 RSMo. prohibits expenditures in excess of the approved budgets. Actual expenditures did not exceed budgeted amounts for any funds during 2009 or 2010.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation were:

	2010	2009
Real Estate	$ 406,880,410	$ 401,796,430
Personal Property	77,820,591	85,340,636
Railroad and Utilities	34,002,144	33,980,774

During 2010 and 2009, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property for the calendar years 2010 and 2009, for purposes of County taxation, as follows:

	2010	2009
General Revenue	0.1339	0.1235
Special Road and Bridge	0.1727	0.1704
Senate Bill 40	0.1600	0.1600

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amounts of the County's deposits were $10,625,973 and $10,279,453, respectively, and the bank balances were $10,890,037 and $10,951,826 respectively. Of the bank balances, $697,366 and $645,856 for December 31, 2010 and December 31, 2009, respectively, were covered by federal depository insurance and $10,192,671and $10,305,970, respectively, were covered by collateral held by the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2010 and 2009, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue, Special Road and Bridge, and Senate Bill 40 funds. These collections, all of which were fully collateralized amounted to $16,700,214 and $16,989,517 at December 31, 2009 and 2009, respectively.

3. COUNTY EMPLOYEES’ RETIREMENT PLANS

County Employees' Retirement Fund (CERF)

The County Employee’s Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

A. Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and

any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

B. Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age sixty. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

C. Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF employee contributions of approximately $371,323 and $391,513, respectively, for the years then ended.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees with up to 8 hours of sick leave with pay credit for every 208 hours worked up to a maximum of 80 hours per year. Full-time employees may accumulate sick leave with pay to a maximum of 240 hours. Upon termination, the employee will not be compensated for any unused sick time. Vacation time will accrue at the rate of one week for first year of service, two weeks after two years of service, and three weeks after ten years of service for full-time employees. Vacation must be used within one year of earning the leave or the time is forfeited.

Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. CHANGE IN REPORTING ENTITY

The County has changed its definition of the reporting entity, as of January 1, 2009, to exclude the Time Payment Fee, Circuit Clerk, Juvenile Assessment, Drug Court, Law Library and Deputy Sheriff Salary Supplemental funds. The effect of the aforementioned change in reporting entity is to decrease cash balances of the governmental funds as previously reported at December 31, 2008 by the amount representing cash balances of the excluded funds.

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2011 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through June 10, 2011, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Warren County, Missouri

We have audited the accompanying financial statements of Warren County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated June 10, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Warren County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Warren County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Warren County, Missouri's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses, as defined above. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and recommendations as items 1 and 2, that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Warren County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matter that is required to be reported under Government Auditing Standards and which is described in the accompanying schedule of findings and recommendations as item 3.

We noted a certain matter that we reported to management of Warren County, Missouri, in the findings and recommendations section as item 4.

Warren County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. We did not audit Warren County, Missouri's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

McBRIDE, LOCK & ASSOCIATES

AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and
Officeholders of Warren County, Missouri

Compliance

We have audited the compliance of Warren County, Missouri, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of its major federal program for the years ended December 31, 2010 and 2009. Warren County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of federal findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Warren County, Missouri's management. Our responsibility is to express an opinion on Warren County, Missouri's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Warren County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Warren County, Missouri's compliance with those requirements.

In our opinion, Warren County, Missouri, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of federal award findings and questioned costs as finding number 10-1.

Internal Control Over Compliance

The management of Warren County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audits, we considered Warren County, Missouri's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Warren County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as findings 10-1. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Warren County, Missouri’s response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Warren County, Missouri’s response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

WARREN COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditure of Federal Awards (the Schedule) summarizes activity of the County's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B – MATCHING REQUIREMENTS

Certain Federal programs require that the County contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE C – SUBRECEIPIENTS

The County provided federal awards from the U.S. Department of Housing and Urban Development, Homelessness Prevention and Rapid Re-Housing Program (HPRP) 14.257, to the North East Community Action Corporation (NECAC) and Saints Joachim & Ann Care Service to assist in the distribution and administration of the HPRP program. Amounts provided to NECAC and Saints Joachim & Ann Care Service during 2010 were $95,554 and $88,165, respectively.

WARREN COUNTY, MISSOURI
SCHEDULE OF FEDERAL FINDINGS AND QUESTIONED COSTS
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)
YEARS ENDED DECEMBER 31, 2010 AND 2009

SECTION I – SUMMARY OF AUDITORS' RESULTS

Financial Statements:

Type of Auditors' Report Issued:	Unqualified
Internal Control Over Financial Reporting:	
- Material weakness(es) identified?	___ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	_X_ Yes ___ None Reported
- Noncompliance material to financial statements noted?	_X_ Yes ___ No

Federal Awards:

Internal Control Over Major Programs:	
- Material weakness(es) identified?	____ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	_X_ Yes ___ None Reported
Type of Auditor's Report Issued on Compliance For Major Programs:	Unqualified
Any audit findings disclosed that are required to be Reported in accordance with section 510(A) of Circular A-133?	_X_ Yes ___ No

Identification of Major Programs:

CFDA Number(s)	Name of Federal Program or Cluster
14.228	Community Development Block Grants/States Program
14.257	Homelessness Prevention and Rapid Re-Housing Program
93.069 / 93.283	Public Health Emergency Preparedness

Dollar Threshold Used to Distinguish Between Type A and Type B Programs:	$300,000
Auditee Qualified as low-risk:	____ Yes _X_ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards:

1. Pre-numbered Receipt Slips
2. Time Sheets
3. Treasurer's Settlement

Summary of Schedule of Prior Audit Findings:

1. Pre-numbered Receipt Slips
2. Competitive Bidding Procedures
3. Retention of Invoices

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards

Finding No. 10-1. Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Health and Human Services
Pass-Through Grantor: Missouri Department of Health and Senior Services
Federal CFDA Number: 93.069; 93.268
Program Title: Public Health Emergency Preparedness
Pass Through Entity Identifying Number: AOC10380195; AOC10380065; 219001
Award Years: 2010 and 2009
Questioned Costs: None

10-1. Schedule of Expenditures of Federal Awards (SEFA)

Condition: The County did not prepare an accurate SEFA as required the Office of Management and Budget (OMB) Circular A-133. Subpart C, Section 300(A) of the Circular requires the recipient of federal funds to accurately report the amount of federal funds expended each year on a Schedule of Expenditures of Federal Awards (SEFA). The SEFAs for the years ending December 31, 2010 and 2009 were partly inaccurate in that the County reported amounts awarded to the Health Department as expenditures, and reported the expenditures irrespective of the amount of actual expenditures incurred or the fiscal year in which the expenditures were made. For example, the amount awarded under AOC10380195 of $132,029 for the period July 2009 through August 2010 was all reported in the year received – 2010. Records were maintained to identify expenditures by state contract number but not by fiscal year. Also, the $57,757 Immunization grant for 2009 was omitted from the schedule. These items have been corrected on the Schedule of Expenditures of Federal Awards.

Recommendation: We recommend that the County Clerk discuss reporting requirements with the preparers of the SEFA and closely review future SEFAs to ensure that expenditures are accurately reported in the year incurred.

County Response: The County Clerk will notify the Health Department's Administrator of the findings of the Auditing Firm and will work with the Health Department to ensure that the actual expenditures are reported for the required time period, not the amount of grant monies received. The State grant cycle does not coincide with the County's budget cycle, but the Health Department is working on addressing this matter.

Auditor's Evaluation: The County's comment is responsive to the concerns expressed in the finding.

SECTION IV – FOLLOW-UP ON PRIOR YEAR'S FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

1. Pre-numbered Receipt Slips

Condition: Receipt slips issued by the County Treasurer through a computer-generated system do not provide effective internal controls over cash receipts. The computer system software allows the Treasurer to make changes to or void previously issued receipt slips. This capability effectively negates the control benefits of the pre-numbered receipt system. This condition was noted in the prior audit.

Recommendation: We recommend that the County Treasurer ensure that the pre-numbered receipts system is modified to prohibit changes to any previously issued receipt slip. The first step to effect this should be to contact the software manufacturer and request appropriate modifications to the system.

County's Response: In regard to your recommendation on pre-numbered receipts issued by the Treasurer, your concern is that the solid software system allows the Treasurer to change or void a receipt and my response is now and has always been and will remain the policy of the Treasurer to never change or void a receipt. The only person that has access to the solid software system is the Treasurer and no other person has access to the system so the integrity of the receipts is guaranteed not by the system, but by the Treasurer. To encumber the county with costly system alterations that would not affect the security or the integrity of the receipt system will not be considered by me at this time.

Auditor's Evaluation: The Treasurer's response to the finding will not reduce the internal control weakness cited. While the Treasurer may guarantee the integrity of the receipts, this guarantee is not auditable or verifiable and will not be useful in the event that the Treasurer is absent and another party is assigned responsibility for the collection of funds and issuance of receipts.

2. Time Sheets

Condition: Time Sheets were not always signed by the employee or supervisor. Most instances noted were in the Road and Bridge Department where only the supervisor had signed the time sheet. Properly signed time sheets are essential for maintaining effective control over payroll expenditures.

Recommendation: We recommend the Commission ensure that all time sheets are signed by both the employee and supervisor.

County's Response: The County Commission realizes just how busy the Road Department is with only 10 men in the Department but will report this matter to the Road and Bridge Supervisor to ensure that all time sheets are signed before bringing them to the County Clerk's Office. The Commission can also send a department-wide memo to all elected officials and department heads to make sure that all time sheets are signed before bringing them to the County Clerk's Office.

Auditor's Evaluation: The County's comment is responsive to the recommendation.

ITEMS OF NONCOMPLIANCE

3. Treasurer's Settlement

Condition: The Treasurer's Settlement did not include all cash on deposit with the Treasurer. A Certificate of Deposit for $250,000 was not included in the Settlement at December 31, 2010. This omission resulted in a discrepancy between cash reported by the Treasurer and Clerk. Also, a $6,000 CD for the Pringle Cemetery Fund was not included on the Settlement for 2010 or 2009. In addition, balances in the Operating bank account and Payroll bank account of $7,211 and $6,258 for 2010 and 2009, respectively were not included in the Treasurer's Settlement. Most of these funds comprised unrecorded interest earned.

Recommendation: We recommend the County Treasurer ensure that all cash on-hand in bank accounts or investments is included on Treasurer Settlement reports.

County's Response: The $250,000 was a U.S. Treasury Bill held in the debt service by our bondholder. It was returned to the County when the County executed an early payoff of the 1995 bonds and I did not immediately receipt it into the County investments as I should have, but has since been resolved. The Pringle cemetery CD matured and was immediately reinvested, but this was not noted in the Treasurer's accounting system due my oversight, but this has been corrected. Concerning the unrecorded interest in the Operating and Payroll accounts, these monies will be distributed to the respective funds in July of 2011.

Auditor's Evaluation: The County's comments are responsive to the recommendation.

OTHER MATTER

In planning and performing our audit of the financial statements of Warren County, Missouri (the County) as of and for the years ended December 31, 2010 and 2009, in accordance with generally accepted government auditing standards, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

However, during our audit we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. Our comments and suggestions regarding those matters are summarized below. We previously reported on the County's internal control in our report dated June 10, 2011. (A separate report dated June 10, 2011 contains our report on significant deficiencies in the County's internal control). This document does not affect our report dated June 10, 2011.

4. Budgetary Practices

Condition: The County's budget estimates for expenditures consistently exceeded actual disbursements for the current audit period. This condition, which was also reported by the State Auditor for the 2005/2006 audit period, appears to be the result of management's philosophy of budgeting on a worse-case scenario basis rather than on best estimates of likely expenditure levels. Budgeted amounts exceeded actual expenditures by $9,459,907 for 2010 and $6,279,274 for 2009.

It appears that the County Commission's budget philosophy is partly intended to keep sufficient reserves in various funds. However, reserves are more properly reflected through a formal designation or assignment of a portion of the fund balance. Inflated expenditure budgets decrease management's ability to efficiently control expenditures.

Recommendation: We recommend the Commission budget expenditures based on expected and desired outcomes. Amounts beyond such outcomes should be identified as designated or assigned fund balance pursuant to the County Commission's fiscal management strategy, and communicated through the budget message.

County Response: The County Commission feels that our way of budgeting allows for the unexpected. We have to complement our elected officials and department heads in their ability to live within the County means and this year again tighten their belts and decrease their budgets so the County can continue to remain solvent. The process of having to amend the budget is a time consuming one and is not something that is welcomed unless we have no choice.

Our present philosophy has enabled the County to save reserves to build a new Road Shed a couple of year ago along with various buildings there to house cinders, salt, equipment, etc. and also save and manage the monies to begin the building of the new 6.5 million dollar Administration Building without going to the voters to increase taxes or to have to purchase bonds for the project. We pride ourselves on being conservative with the taxpayers' money and feel that our opinions regarding our budgetary process are justified.

Auditor's Evaluation: The response explains the position but is not responsive to the concerns expressed in the finding.

WARREN COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Warren County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008 and 2007.

1. The software system used allows the Treasurer to change or void previously issued receipt slips. This capability effectively negates the control benefits of the pre-numbered receipt system.

   Status - Not Resolved. See finding No.1.

2. Bids were not always solicited or bid documentation retained for purchases.

   Status - Resolved

3. Original invoices were not always available to support disbursements.

   Status - Resolved

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Nodaway County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Nodaway County, and issues a separate report on that audit. In addition, in cooperation with the county, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Nodaway County, Missouri

We have audited the accompanying financial statements of Nodaway County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Nodaway County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Nodaway County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Nodaway County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards,* we also have issued our report dated June 3, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Nodaway County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The accompanying Notes to the Financial Statements are an integral part of these statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nodaway County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Collector/Treasurer, County Clerk, Circuit Clerk, Coroner, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Nodaway County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, offices that are considered by the Missouri State Auditor's Office to comprise the County's legal entity.

Certain elected County officials, particularly the County Collector/Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the following funds:

Fund	2010	2009
Concealed Weapon	N/A	X

9. Section 50.740 RSMo. Prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2010	2009
General Revenue	N/A	X
Prosecuting Attorney Training	N/A	X
Police Officer Training	X	N/A
911	X	N/A
Adult Abuse	X	N/A
Senior Citizens	X	N/A
Senate Bill 40	X	X
Civil Fee	N/A	X
Administration Center	N/A	X

Also, because a budget was not adopted for that fund listed in Note 1.D.9, expenditures in that fund exceeded budgetary authority to the extent that a budget was not adopted.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation were:

	2010	2009
Real Estate	$ 197,965,330	$ 190,312,350
Personal Property	84,917,780	80,603,280
Railroad and Utilities	15,025,852	13,458,712

During 2010 and 2009, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property for the calendar years 2010 and 2009, for purposes of County taxation, as follows:

	2010	2009
General Revenue	$ 0.1600	$ 0.1600
Senior Citizens	0.0500	0.0500
Senate Bill 40	0.0500	0.0500

The property taxes collected from the General Revenue levy are recorded in the Administration Center fund.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily

cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amounts of the County's deposits were $5,307,508 and $5,346,682, respectively, and the bank balances were $17,672,671 and $18,200,901, respectively. Of the bank balances, $393,883 and $274,175 for December 31, 2010 and December 31, 2009, respectively, were covered by federal depository insurance and the remainder were covered by collateral held at the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2010 and 2009, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue, Special Road and Bridge, Senior Citizens and Senate Bill 40. Tax Collections on deposit amounted to $13,898,837 and $14,417,847 at December 31, 2010 and 2009, respectively. The County Collector’s deposits were covered by federal depository insurance of $250,000 as of December 31, 2010 and 2009, and the remainder was fully collateralized.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

The County also participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by Statute, Section RSMo 70.600 – 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the

General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax-exempt.

The LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing LAGERS, P.O. Box 1665, Jefferson City, Missouri 65201 or by calling 1-800-447-4334.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 0% or 2% of annual salary, depending on LAGERS participation, is required for eligible employees hired before February 2002, while a contribution of 4% to 6% of annual salary, depending on LAGERS participation, is required of employees hired after February 2002, in order to participate in CERF. A lesser contribution requirement applies to employees who participate in LAGERS. During 2010 and 2009, the County collected and remitted to CERF employee contributions of approximately $68,076 and $55,700, respectively, for the years then ended.

The County's full-time employees contribute 4% of gross pay to the LAGERS pension plan. The political subdivision is required by State Statute to contribute at actuarially determined rate; the rate for 2010 was 3.4% (general) and 5.6% (police) and in 2009 the rate contributed was 2.4% (general) and 3.6% (police) of annual covered payroll. During 2010 and 2009, the County contributed approximately $62,494 and $41,566 respectively, for the years then ended.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees with up to 30 days of sick time -- to accrue at one day per complete calendar month of employment. Permanent part-time employees accrue sick leave proportional to hours worked up to 30 days. Upon termination, the employee will not be compensated for any unused sick time. Vacation time is accrued for full-time regular employees after a six-month probationary period based on years of employment with the County. During the first two years, employees are eligible for two weeks vacation, three weeks during years three through eight, four weeks during years nine through twelve, and five weeks from years thirteen and on. Vacation is accrued on a monthly basis up to a maximum of six weeks and is awarded retroactively for the six-month probationary period for all employees lasting longer than six months. Upon termination, the employee is

compensated for accrued vacation time up to a maximum of six weeks.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. CHANGE IN REPORTING ENTITY

The County has changed its definition of the reporting entity, as of January 1, 2009, to separate the Concealed Weapon fund which was previously combined with the Deputy Supplemental and Revolving fund and to exclude the Circuit Court and Deputy Supplemental and Revolving funds. The effect of the aforementioned change in reporting entity is a net decrease to the cash balances of the governmental funds as previously reported at December 31, 2008 by the amount representing cash balances of the Circuit Court, Deputy Supplemental and Revolving and Concealed Weapons Funds.

8. LONG TERM DEBT

The County's long-term debt outstanding at December 31, 2010 consisted of $4,191,387 remaining on a loan from U.S. Bank, dated June 1, 2008, for the construction of the Administration Center which houses most of the elected officials' offices. The loan is scheduled to be paid in monthly installments of $29,652 over 240 months with an interest rate of 4.85% annually. The final payment is scheduled for May 1, 2028.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2010 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through June 3, 2011, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

McBRIDE, LOCK & ASSOCIATES

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Nodaway County, Missouri

We have audited the accompanying financial statements of Nodaway County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated June 3, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Nodaway County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Nodaway County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Nodaway County, Missouri's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses, as defined above. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and recommendations as items 1 and 2, that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Nodaway County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and recommendations as item 3.

We noted certain other matters that we reported to management of Nodaway County, Missouri in the findings and recommendations section as items 4 and 5.

Nodaway County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. We did not audit Nodaway County, Missouri's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CERTIFIED PUBLIC ACCOUNTANTS

AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and
Officeholders of Nodaway County, Missouri

Compliance

We have audited the compliance of Nodaway County, Missouri, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009. Nodaway County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of federal findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Nodaway County, Missouri's management. Our responsibility is to express an opinion on Nodaway County, Missouri's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Nodaway County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Nodaway County, Missouri's compliance with those requirements.

In our opinion, Nodaway County, Missouri, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of federal award findings and questioned costs as finding number 10-1.

Internal Control Over Compliance

The management of Nodaway County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audits, we considered Nodaway County, Missouri's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Nodaway County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as finding 10-1. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Nodaway County, Missouri’s response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Nodaway County, Missouri’s response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NODAWAY COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditure of Federal Awards (the Schedule) summarizes activity of the County's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B – MATCHING REQUIREMENTS

Certain Federal programs require that the County contribute non-Federal funds (matching funds) to support the federally funded programs. The County has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE C – SUBRECIPIENTS

During the years ended December 31, 2010 and 2009 the County passed through federal funds under the Community Development Block Grant program (CFDA #14.228) to subawardees in the amount of $102,118 and $525,000, respectively.

NODAWAY COUNTY, MISSOURI
SCHEDULE OF FEDERAL FINDINGS AND QUESTIONED COSTS
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)
YEARS ENDED DECEMBER 31, 2010 AND 2009

SECTION I – SUMMARY OF AUDITORS' RESULTS

Financial Statements:

Type of Auditors' Report Issued:	Unqualified
Internal Control Over Financial Reporting:	
- Material weakness(es) identified?	___ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	_X_ Yes ___ None Reported
- Noncompliance material to financial statements noted?	_X_ Yes ___ No

Federal Awards:

Internal Control Over Major Programs:	
- Material weakness(es) identified?	____ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	_X_ Yes ___ None Reported
Type of Auditor's Report Issued on Compliance For Major Programs:	Unqualified
Any audit findings disclosed that are required to be Reported in accordance with section 510(A) of Circular A-133?	_X_ Yes ____ No

Identification of Major Programs:

CFDA Number(s)	Name of Federal Program or Cluster
14.228	Community Development Block Grant/State's Program and Non-Entitlement Grants in Hawaii
20.205	Highway and Transportation – Highway Planning and Construction
97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)

Dollar Threshold Used to Distinguish Between Type A and Type B Programs:	$300,000
Auditee Qualified as low-risk:	____ Yes _X_ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards:

1. Senate Bill 40 Internal Controls
2. Sheriff's Internal Controls
3. Budgetary Practices

Summary Schedule of Prior Audit Findings:

1. Senate Bill 40 Internal Controls
2. Internal Controls Over Non-Payroll Expenditures
3. Bidding Procedures
4. Budgetary Practices
5. Bank Balances Under Collateralized
6. Long-Term Debt
7. Personnel Policy Manual

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards

Finding No. 10-1. Incorrect Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Transportation
Pass-Through Grantor: Highway and Transportation Commission
Federal CFDA Number: 20.205
Program Title: Highway Planning and Construction
Pass Through Entity Identifying Number: BRO – 074(48), BRO – 074(49), BRO – 074(50), BRO – 074(52) and BRO – 074(53)
Award Years: 2009 and 2010
Questioned Costs: None

Federal Grantor: U.S. Department of Homeland Security
Pass-Through Grantor: Department of Public Safety
Federal CFDA Number: 97.036
Program Title: Disaster Grants – Public Assistance Grants (Presidentially Declared Disasters)
Pass Through Entity Identifying Number: 2007-FEMA-1708-DR-MO, 2008-FEMA-1707-DR-MO, and 2010-FEMA-1934-DR-MO
Award Years: 2009 and 2010
Questioned Costs: None

10-1. Schedule of Expenditures of Federal Awards (SEFA)

Condition: As a recipient of federal grant funds, the County is required to comply with Office of Management and Budget (OMB) Circular A-133. Subpart C, Section 300(A) of the Circular requires the recipient of federal funds to accurately report the amount of federal funds expended each year on a Schedule of Expenditures of Federal Awards (SEFA). The SEFA's for the years ending December 31, 2009 and 2010 were inaccurate in that the County reported as expenditures the amounts received for all BRO and FEMA disaster projects. This resulted in federal expenditures being understated by $80,679 for 2009 and overstated by $25,060 for 2010. The SEFA included in this report has been adjusted to correct this condition.

Recommendation: We recommend that the County Clerk ensure that that the SEFA is prepared using actual expenditures of the current year.

County's Response: The SEFA will be reviewed and appropriate expenditures reported.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION IV – FOLLOW-UP ON PRIOR YEAR'S FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

1. Senate Bill 40 Internal Controls

Condition: The Senate Bill 40 Board appoints a Treasurer who handles all of the financial information for the Board. He has possession of the checkbook, is the only person required to sign the checks, has the bank statements sent to his residence and records all of the financial activity of the fund. Although, the Board is a small entity, better separation of duties is needed to maintain adequate internal controls. Also, the Treasurer has not been formally performing reconciliations of the monthly bank statements.

Recommendation: We recommend that other members of the Board play a role in the financial activities of the Board. This could be done by requiring another Board member to sign the checks, or by delegating the bank reconciliation process to another board member.

County's Response: The current Senate Bill 40 treasurer was contacted and informed of the recommendation. We expect full compliance.

Auditor's Evaluation: The response is appropriate to correct the concern.

2. Sheriff's Internal Controls

Condition: There is a lack of segregation of duties over the cash disbursements process in the Sheriff's office. The office manager in the Sheriff's office has control of the blank checks, is the only authorized signer on the Sheriff's checking accounts and also reconciles the bank statements. A person who has access to blank checks and the ability to write checks should not also reconcile the bank account. This is because the person reconciling the bank account may notice any unauthorized or suspicious purchases. However, if the person reconciling the bank statements is the same person who is writing the checks, this detective internal control will not be effective.

Recommendation: We recommend that the Sheriff's office improve the segregation of duties over cash disbursements. Ideally, the Sheriff would be the authorized signer on all Sheriff's office checking accounts and would review supporting documentation before signing the checks to ensure that all disbursements are for legitimate purposes.

County's Response: Thank you for pointing this out. While there were many topics that we disagreed on while the audit was being done, I believe that you are absolutely correct on this topic. There will be an immediate change.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

3. Budgetary Practices

Condition: The County spent in excess of the authorized budget for a number of funds in both 2009 and 2010. The County has a procedure in place for monitoring the budget to actual amounts for expenditures during the year. The County's expenditure warrant forms include a line item for the County Clerk's office to write in the amount remaining in the budget for the particular expense category being charged. However, tests of expenditures revealed that this line item was often left blank or was negative and the Commission still approved the expenditure.

Also, the County did not adopt a formal budget for the Concealed Weapon fund for 2009. State statutes require that a formal budget be adopted for all County funds.

Recommendation: We recommend that the County Commission not approve expenditures in excess of budgeted amounts or follow the appropriate procedures to amend the budget and ensure funds are available to finance the expenditure. We also recommend that the County adopt a formal budget for all funds.

County's Response: The County will do everything possible to make sure all officeholders do not exceed their budgeted amounts for all funds.

Auditor's Evaluation: The response is appropriate to the concern.

OTHER MATTERS

In planning and performing our audit of the financial statements of Nodaway County, Missouri (the County) as of and for the years ended December 31, 2010 and 2009, in accordance with generally accepted government auditing standards, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

However, during our audit we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. Our comments and suggestions regarding those matters are summarized below. We previously reported on the County's internal control in our report dated June 3, 2011. (A separate report dated June 3, 2011 contains our report on significant deficiencies in the County's internal control). This document does not affect our report dated June 3, 2011.

4. Recording of Interest Revenue

Condition: Interest earned on the County's Building Fund and General Revenue CDARS investments during December 2009 was not included in the value of the investments reported in the County's cash balances as of December 31, 2009 on the 2010 budget. This resulted in an understatement of cash and revenues at December 31, 2009 and an overstatement of cash and revenues at December 31, 2010 of $3,554. Interest earned during 2010 on the County's Farm Sale Certificate of Deposit investment was not recorded resulting in an understatement of interest revenue and cash of the Administration Center fund as of December 31, 2010 of $965.

Recommendation: We recommend that the County ensure that all interest revenue earned is recorded in the correct period in accordance with the cash basis of accounting.

County's Response: In the future, the Treasurer's office will hold the financial books open until the financial institutions provide the interest revenues earned amounts needed to balance the cash basis of accounting.

Auditor's Evaluation: The response is appropriate to correct the concern.

5. Recording of Accrued Payroll Expenditures

Condition: The County recognized certain payroll related items as expenditures prior to their disbursement which is not in conformity with the cash basis of accounting. The 2010 and 2011 budgets for the four funds from which personnel are paid (General Revenue, Road & Bridge, Assessment, and 911) included "Adjustments" to the reconciliation of cash balances. According to the County Clerk, these amounts represented employee benefit related items recorded by the County's payroll system as expenditures in 2009 although the amounts were not actually paid until 2010. However, the County operates on the cash basis of accounting, which means that expenditures should not be recognized until they are actually paid. The result of this condition was an overstatement of expenditures for 2009 in the above four funds totaling $26,756.

Recommendation: We recommend that the County records all expenses on the cash basis of accounting, which requires expenses to be recorded only when they are paid.

County's Response: The County Clerk will make sure all payroll expenditures are expensed in the appropriate year.

Auditor's Evaluation: The response is appropriate to correct the concern.

NODAWAY COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Nodaway County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008 and 2007.

1. There is a lack of segregation of duties over the disbursement process of the Senate Bill 40 Board. Also, the Board Treasurer does not perform formal bank reconciliations.

   Status – Repeated. See finding 1.

2. A number of requisition forms and purchase orders selected for testing were not approved by a County Commissioner and a number of warrants tested were not approved by all three Commissioners in accordance with County policy.

   Status – Resolved. The County adopted a less restrictive policy to require only two Commissioners signatures for approval of warrants.

3. The County did not perform bidding for Road & Bridge fuel in 2007 and 2008 and property insurance for the new Administration building in 2008. Also, sole source procurements were not properly documented.

   Status – Resolved.

4. Actual expenditures exceeded budgeted amounts for a number of the County's funds in both 2007 and 2008.

   Status – Repeated. See finding 3.

5. The County's bank deposits were not adequately collateralized as of December 31, 2008.

   Status – Resolved.

6. The amount of the County's outstanding long-term debt as of December 31, 2007 and 2008 was misstated on the 2008 and 2009 budgets.

   Status - Resolved.

7. The County's personnel policy manual contained a number of changes that were hand written instead of making formal changes to the policy.

   Status – Resolved. The personnel policy manual was formally updated by the County.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Holt County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Holt County, and issues a separate report on that audit. In addition, in cooperation with the county, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Holt County, Missouri

We have audited the accompanying financial statements of Holt County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Holt County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Holt County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Holt County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards,* we also have issued our report dated May 2, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Holt County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

(Original Signed by Auditor)

Exhibit B-11

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Holt County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, County Clerk, Circuit Clerk-Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, Treasurer and Collector.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Holt County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, offices that are considered by the Missouri State Auditor's Office to comprise the County's legal entity.

Certain elected County officials, particularly the County Collector, Treasurer, Circuit Clerk/Recorder and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Adoption of a formal budget is required by law. The County adopted a formal budget for all funds.

9. Section 50.740 RSMo. prohibits expenditures in excess of the approved budgets. Total actual expenditures did not exceeded total budgeted amounts in any funds.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation were:

	2010	2009
Real Estate	$ 55,353,197	$ 54,396,470
Personal Property	22,282,360	21,437,419
Railroad and Utilities	18,217,184	15,575,399

During 2009 and 2009, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property for the calendar years 2009 and 2009, for purposes of County taxation, as follows:

	2010	2009
General Revenue	$ 0.3424	$ 0.3299
Special Road and Bridge	0.4314	0.4314
Johnson Grass	0.0396	0.0396
Senior Citizens Services Fund	0.0495	0.0495

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds, other than the funds of the Aggregate Cemetery Trust Fund, are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances and the balances owned by the Aggregate Cemetery Trust Fund are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Also included in the Cash and Investments caption are investments owned by the Aggregate Cemetery Trust Fund.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amounts of the County's deposits were $1,037,085 and $1,099,149, respectively. The corresponding bank balances at December 31, 2010 and 2009, were $1,997,230 and $1,943,800, respectively. Of the bank balances, $1,964,252 and $1,938,396 for December 31, 2010 and December 31, 2009, respectively, were covered by federal depository insurance and the remainder were covered by collateral held at the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2010 and 2009, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue, Special Road and Bridge, Johnson Grass, and Senior Citizens Services Fund. Tax collections on deposit amounted to $4,313,366 and $3,922,009 at December 31, 2010 and 2009, respectively. The County Collector’s deposits were covered by federal depository insurance of $250,000 as of December 31, 2010 and 2009 and the remaining balances were collateralized at $4,063,366 and $3,672,009, respectively.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age sixty. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

The County also participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is

governed by Statute, Section RSMo 70.600 – 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax-exempt.

The LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing LAGERS, P.O. Box 1665, Jefferson City, Missouri 65201 or by calling 1-800-447-4334.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF employee contributions of approximately $15,148 and $12,971, respectively, for the years then ended.

The County's full-time employees contribute 4% of gross pay to the LAGERS pension plan. The political subdivision is required by State Statute to contribute at an actuarially determined rate; the rate for 2010 was 13.5% (general) and 8.9% (police) and in 2009 the rate contributed was 13.6% (general) and 9.2% (police) of annual covered payroll. During 2010 and 2009, the County contributed approximately $36,644 and $34,652 respectively, for the years then ended.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees and part-time employees who receive benefits with four hours of sick leave on the first day of each month, up to a maximum of 240 hours. Twenty-four hours of sick leave is accrued on January 1 of each year. Upon termination, the employee is not compensated for accrued sick time. Vacation time is accrued for every full-time employee, and accrues at the rate of one week per year for employees with one year of service; two weeks per year for employees with 2 to 19 years of service; and 3 weeks for employees with 20 or more years of service up to a maximum of 120 hours. Upon termination, the employee is compensated for accrued vacation, up to a maximum of 120 hours.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs and the refund of grant monies to the grantor agencies. Management believes that required refunds, if any, will be immaterial, and therefore no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Rural Services Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County's debt outstanding at December 31, 2010 consisted of $59,000 owed on a lease payable for the purchase of a John Deere motor grader financed by John Deere Credit. The lease bears interest at 3.95% and is scheduled to be paid in five annual payments of $13,088 due March 15th of each year. The schedule of remaining payments and interest is listed below:

Payment Date	Principal Due	Interest Due	Total Due
March 15, 2011	$ 11,516	$ 1,572	$ 13,088
March 15, 2012	11,178	1,910	13,088
March 15, 2013	11,628	1,460	13,088
March 15, 2014	12,095	993	13,088
March 15, 2015	12,583	505	13,088

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2010 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through May 2, 2011, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Holt County, Missouri

We have audited the accompanying financial statements of Holt County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated May 2, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Holt County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Holt County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Holt County, Missouri's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses, as defined above. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over financial reporting, described in the accompanying schedule of findings and recommendations as item 1 that we consider to be a significant deficiency in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Holt County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matter that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Holt County, Missouri in the findings and recommendations section as items 2 and 5.

Holt County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. We did not audit Holt County, Missouri's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

(Original Signed by Auditor)

McBride, Lock & Associates
May 2, 2011

AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and
Officeholders of Holt County, Missouri

Compliance

We have audited the compliance of Holt County, Missouri, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009. Holt County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of federal findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Holt County, Missouri's management. Our responsibility is to express an opinion on Holt County, Missouri's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Holt County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Holt County, Missouri's compliance with those requirements.

In our opinion, Holt County, Missouri, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2010 and 2009.

Internal Control Over Compliance

The management of Holt County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audits, we considered Holt County, Missouri's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Holt County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

HOLT COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditure of Federal Awards (the Schedule) summarizes activity of the County's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B – MATCHING REQUIREMENTS

Certain Federal programs require that the County contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE C – SUBRECEIPIENTS

The County provided no federal awards to sub-recipients during the years ended December 31, 2010 and 2009.

HOLT COUNTY, MISSOURI
SCHEDULE OF FEDERAL FINDINGS AND QUESTIONED COSTS
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)
YEARS ENDED DECEMBER 31, 2010 AND 2009

SECTION I – SUMMARY OF AUDITORS' RESULTS

Type of Auditors' Report Issued:	Unqualified
Internal Control Over Financial Reporting:	
- Material weakness(es) identified?	___ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	_X_ Yes ___ None Reported
- Noncompliance material to financial statements noted?	____ Yes _X_ No

Federal Awards:

Internal Control Over Major Programs:	
- Material weakness(es) identified?	____ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	____ Yes _X_ None Reported
Type of Auditor's Report Issued on Compliance For Major Programs:	Unqualified
Any audit findings disclosed that are required to be Reported in accordance with section 510(A) of Circular A-133?	___ Yes _X_ No

Identification of Major Programs:

CFDA Number(s)	Name of Federal Program or Cluster
20.205	Highway and Transportation – Highway Planning and Construction
14.228	Community Development Block Grants/State's Program and Non-Entitlement Grants in Hawaii

Dollar Threshold Used to Distinguish Between Type A and Type B Programs:	$300,000
Auditee Qualified as low-risk:	____ Yes _X_ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards:

1. Unauthorized Signer on Sheriff's Bank Account

Summary of Schedule of Prior Audit Findings:

08-1. Schedule of Expenditures of Federal Awards (SEFA)
08-2. Outstanding Checks
08-3. Expenditures
08-4. Budgetary Controls

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards:

None

SECTION IV – FOLLOW-UP ON PRIOR YEAR'S FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

08-1. Schedule of Expenditures of Federal Awards

Resolved

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCY

1. Unauthorized Signer on Sheriff's Bank Account

Condition: We noted that a former employee is still an authorized signer on the Sheriff's bank account.

Recommendation: We recommend that steps be taken to immediately remove this individual as an authorized signer on the Sheriff's bank account.

County's Response: The County Commission has reviewed this issue with Sheriff Scott Wedlock and asks that he take immediate action to remedy the situation and put policies and procedures in place to alleviate this circumstance in the future.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

OTHER MATTERS

In planning and performing our audit of the financial statements of Holt County, Missouri (the County) as of and for the years ended December 31, 2010 and 2009, in accordance with generally accepted government auditing standards, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

However, during our audit we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. Our comments and suggestions regarding those matters are summarized below. We previously reported on the County's internal control in our report dated May 2, 2011. (A separate report dated May 2, 2011 contains our report on significant deficiencies in the County's internal control). This document does not affect our report dated May 2, 2011.

2. Accounting for Transfers

Condition: The financial statements of the County as presented in the annual budget document present transfers between funds. However, we noted that some transfers were identified as expenditures and revenues within the funds. Additionally, there were costs identified as reimbursements that were shown as transfers. The financial statements included in this report have been adjusted so that transfers in and out between funds are equal as of December 31, 2010 and 2009.

Recommendation: In order to ensure that transfers are properly reported and are in balance (transfers to other funds equal to transfers from other funds), we recommend the transfers be clearly identified as transfers and presented in the budget within the Transfer category. Other types of transactions should not be presented in the Transfers Category.

County Response: The County Clerk as Chief Budget Officer notes that no funds have been misappropriated and that time-honored tradition in the County Budget Document has guided the logging of various transfers from fund to fund. An effort will be made at the onset of a new budget to log transfers in their appropriate budgetary categories.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

3. Outstanding Checks

Condition: As of December 31, 2010, the County Treasurer listed on the bank reconciliation five outstanding checks totaling $154 that were written prior to 2008, with one check going as far back as February 2005. All of these checks were for minor amounts with the largest being $80. None of these checks had been voided or the subject of a stop payment order.

Recommendation: We recommend that the County remit dollars represented by the outstanding checks that are older than three years to the State's Unclaimed Property Fund as required and submit Reports of Unclaimed Property annually, if applicable, to the Missouri State Treasurer according to RSMo 447.

County Response: The County Treasurer and County Clerk will continue to work to clear outstanding checks and will review and implement procedures for reporting those items to the State Treasurer through the Unclaimed Property Fund.

Auditor Evaluation: The stated corrective action is responsive to the recommendation.

4. Discounts Lost

Condition: When reviewing expenditures, we noted a cash disbursement to an oil company. The respective invoice offered a fifteen cent per gallon discount if the invoice was paid within ten days. The County failed to take advantage of the cash discount resulting in discounts lost of $361 on that one invoice.

Recommendation: We recommend that the County be cognizant of cash discounts offered by vendors and take advantage of them whenever possible.

County Response: The County Commission has reviewed the discount mentioned and finds that the vendor does not offer said discount for Holt County Road and Bridge purposes, and such vendor normally marks the discount as void. A few tickets were submitted to the county with the discount listed in error. The County Commission will continue to be vigilant in using discounts and rebates for items regularly purchased when made available.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

5. Check Copies

Condition: Copies of executed checks are maintained with cash disbursement documentation. There is nothing on the copy of the executed check that indicates that this copy is non-negotiable.

Recommendation: We recommend that the County implement procedures to ensure that copies of executed disbursement checks are marked as non-negotiable.

County Response: The County Clerk agrees with such finding and has made request of the check printing vendor to add a watermark to the checks that will clearly indicate when a copy has been made of such item. These watermarked-checks will be issued with the next order from said vendor.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

HOLT COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Holt County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008 and 2007.

1. The County Clerk did not prepare an accurate SEFA for the year ended December 31, 2007 as required by Office of Management and Budget (OMB) Circular A-133, Subpart C, Section 300(A).

   Status - Resolved.

2. The County Treasurer listed on the bank reconciliation thirteen outstanding checks that were written prior to 2008.

   Status - Not Resolved. See finding No.3.

3. Our expenditure testwork revealed two instances in which purchasing procedures were inconsistent with statutory requirements.

   Status - Resolved

4. The County had expenditures in excess of budgeted amounts for the Senior Citizens Fund in 2007.

   Status - Resolved

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Clark County, Missouri

The Office of the State Auditor, in cooperation with Clark County, has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Clark County, Missouri

We have audited the accompanying financial statements of Clark County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Clark County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Clark County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Clark County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards,* we also have issued our report dated June 30, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Clark County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

(Original Signed by Auditor)

McBride, Lock & Associates

Exhibit B-18

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Clark County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, County Clerk, Circuit Clerk-Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, Treasurer and Collector.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Clark County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, offices that are considered by the Missouri State Auditor's Office to comprise the County's legal entity.

Certain elected County officials, particularly the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Section 50.740 RSMo. Prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2010	2009
Special Road and Bridge Fund	X	N/A
1/2 Cent Sales Tax Jail Operation-Law Enforcement Fund	N/A	X
Community Development Block Grant Fund	X	N/A
Sheriff's Revolving Fund	N/A	X
Inmate Security Fund	X	N/A
Courthouse Sales Tax Fund	X	N/A

The County's expenditures exceeded its revenues and fund balances available for expenditure in the Special Road and Bridge Fund (2009), Prosecuting Attorney Bad Check Fund (2010), the ½ Cent Sales Tax Jail Operation-Law Enforcement Fund (2009, 2010), and the Domestic Violence Against Women Fund (2010). The resulting negative cash balances represent implicit borrowings from the other pooled funds. The County expects these borrowings to be repaid from monies received in the next fiscal year.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation were:

	2010	2009
Real Estate	$ 57,624,560	$ 56,839,820
Personal Property	20,292,849	20,312,197
Railroad & Utilities	14,166,538	13,205,532

During 2010 and 2009, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property for the calendar years 2010 and 2009, for purposes of County taxation, as follows:

	2010	2009
General Revenue	$ 0.3504	$ 0.3438
Special Road and Bridge	0.6797	0.6797

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. The cash and investment balances are detailed in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amounts of the County's deposits were $4,209,048 and $245,168, respectively, and the bank balances were $4,309,856 and $322,424, respectively. Of the bank balances, $750,000 and $250,000 for December 31, 2010 and December 31, 2009, respectively, were covered by federal depository insurance, the remainder were covered by collateral held at the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2010 and 2009, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue and Special Road and Bridge. Tax Collections on deposit amounted to $3,122,703 and $2,935,329 at December 31, 2010 and 2009, respectively. The County Collector’s deposits were covered

by federal depository insurance of $250,000 as of December 31, 2010 and 2009, and the remainder was fully collateralized.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of nine persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age sixty. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

The County also participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that

acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by Statute, Section RSMo 70.600 – 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax-exempt.

The LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing LAGERS, P.O. Box 1665, Jefferson City, Missouri 65201 or by calling 1-800-447-4334.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF employee contributions of approximately $ 26,765 and $ 26,228 for mandatory contributions and approximately $15,783 and $16,823 for optional contributions, respectively, for the years then ended.

Participation in the plan is mandatory for full-time employees with six months service. Part-time employees are not eligible to participate in the plan. Plan participants contribute 4% of eligible earnings to the plan. The County match varies year to year based a variety of actuarial factors. For 2010 and 2009, total payments to LAGERS were $41,192 and $37,464 respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

1. Compensated Absences

The County provides full time employees with up to 176 hours of sick time -- to accrue at one day per complete calendar month of employment. Upon termination, the employee will not be compensated for any unused sick time. Full time employees are allowed five days personal time per calendar year with no carryover to the next year. Vacation time is awarded after each anniversary hire date. The employee receives one week after one year, one week and one day after two years, one week and two days after three years, one week and three

days after four years, two weeks after five years, and two weeks plus one additional day per year over six years of service up to three weeks. Vacation time does not carryover to following years.

2. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. CHANGE IN REPORTING ENTITY AND BEGINNING CASH BALANCE

The County has changed its definition of the reporting entity, as of January 1, 2009, to exclude the Cemetery Trust, Sheriff’s Explorer’s, Associate Circuit Division Interest, Circuit Clerk Interest, Circuit Clerk Passport and Law Library funds and to include the Tax Maintenance Fund. The effect of the aforementioned change in reporting entity is a net increase in cash balances of the governmental funds as previously reported at December 31, 2008 by the amount representing cash balances of those funds.

8. LONG TERM DEBT

The County's long-term obligation at December 31, 2010 consisted of one outstanding open-ended capital lease. In May 2008, Clark County entered into a five-year agreement with a financial institution for a 2009 Volvo Tractor to be used by the Road and Bridge Department in conjunction with a previously acquired gravel trailer to repair the County's unpaved roads. Monthly payments of $1,122 are due through May 2013.

In 2010 the County issued Taxable General Obligation Bonds of $4 million to provide for the construction of a new county courthouse. Taxable general obligation bonds are direct obligations of the County. The County has pledged its full faith and credit. Additionally, the County has pledged to maintain and collect revenues through sales tax sufficient to pay the principal and interest on such bonds as they become due.

The County issued taxable general obligation bonds through the Build America Recovery Zone Economic Development Bonds program that provides 45% in federal subsidies on the total interest requirements. The interest is paid to the County on a semi-annual basis corresponding with the interest payment dates to the bondholders. One subsidy payment was received prior to December 31, 2010, totaling $45,505.

Taxable general obligation bonds, Series 2010, original amount was $4,000,000, due in annual installments of $125,000 to $360,000 through June of 2030. Interest payments are scheduled semi-annually from 2.30% to 6.50% (before federal subsidy). The schedule of bond payments and interest is listed below.

Payment Date	Principal Due	Coupon	Interest Due	Subsidy Payment
6/15/2011			$ 108,994	$ (49,047)
12/15/2011			108,994	(49,047)
6/15/2012	$ 125,000	2.30%	108,994	(49,047)
12/15/2012			107,556	(48,400)
6/15/2013	125,000	2.75%	107,556	(48,400)
12/15/2013			105,838	(47,627)
6/15/2014	125,000	3.25%	105,838	(47,627)
12/15/2014			103,806	(46,713)
6/15/2015	150,000	3.50%	103,806	(46,713)
12/15/2015			101,181	(45,532)
6/15/2016	150,000	4.00%	101,181	(45,532)
12/15/2016			98,181	(44,182)

12/15/2022			71,488	(32,169)
6/15/2023	220,000	5.80%	71,488	(32,169)
12/15/2023			65,108	(29,298)
6/15/2024	235,000	5.80%	65,108	(29,298)
12/15/2024			58,293	(26,232)
6/15/2025	245,000	5.80%	59,293	(26,232)
12/15/2025			51,188	(23,034)
6/15/2026	275,000	6.50%	51,188	(23,034)
12/15/2026			42,250	(19,013)
6/15/2027	290,000	6.50%	42,250	(19,012)
12/15/2027			32,825	(14,771)
6/15/2028	315,000	6.50%	32,825	(14,771)
12/15/2028			22,588	(10,164)
6/15/2029	335,000	6.50%	22,588	(10,164)
12/15/2029			11,700	(5,265)
6/15/2030	360,000	6.50%	11,700	(5,265)

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2010 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through June 30, 2011, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements, other than as described below.

On January 20, 2011, John Moon, PA, was named as lead counsel for litigation regarding funds granted to Clark County by the Department of Natural Resources (DNR). Funds received from the grant were to be used in preservation of the old county courthouse. DNR believed the County was not properly using the funds in the preservation of the old county courthouse. A negotiated agreement has been made with DNR in the amount of $20,000 in lieu of the original $57,000 grant that the County had received in 2008. An additional requirement as part of the litigation is that the new courthouse must maintain an exhibit showcasing the old courthouse.

The County accepted bids for the construction of a new courthouse, and such bids were opened June 14, 2011. Bids were given to a consultant for further research before choosing the appropriate contractor.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Clark County, Missouri

We have audited the accompanying financial statements of Clark County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated June 30, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Clark County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Clark County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Clark County, Missouri's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Clark County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and recommendations as items 1 and 2.

We noted certain matters that we reported to management of Clark County, Missouri in the findings and recommendations section as items 3 through 7.

Clark County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. We did not audit Clark County, Missouri's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and
Officeholders of Clark County, Missouri

Compliance

We have audited the compliance of Clark County, Missouri, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on its major federal program for the years ended December 31, 2010 and 2009. Clark County, Missouri's major federal program is identified in the summary of auditor's results section of the accompanying schedule of federal findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Clark County, Missouri's management. Our responsibility is to express an opinion on Clark County, Missouri's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Clark County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Clark County, Missouri's compliance with those requirements.

In our opinion, Clark County, Missouri, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal program for the years ended December 31, 2010 and 2009. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of federal award findings and questioned costs as finding number 10-1.

Internal Control Over Compliance

The management of Clark County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audits, we considered Clark County, Missouri's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Clark County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as finding 10-1. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Clark County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Clark County, Missouri's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Expenditures of Federal Awards.

CLARK COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditure of Federal Awards (the Schedule) summarizes activity of the County's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B – MATCHING REQUIREMENTS

Certain Federal programs require that the County contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE C – SUBRECEIPIENTS

The County provided no federal awards to sub-recipients during the years ended December 31, 2010 and 2009.

NOTE D – RECOVERY ACT BONDS

The County issued taxable general obligation bonds through the Build America Recovery Zone Economic Development Bonds program that provides 45% in federal subsidies on the total interest requirements. The interest is paid to the County on a semi-annual basis corresponding with the interest payment dates to the bondholders. One subsidy payment was received prior to December 31, 2010, totaling $45,505. Per OMB guidance, funds were not included in the scope of the A-133 audit.

CLARK COUNTY, MISSOURI
SCHEDULE OF FEDERAL FINDINGS AND QUESTIONED COSTS
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)
YEARS ENDED DECEMBER 31, 2010 AND 2009

SECTION I – SUMMARY OF AUDITORS' RESULTS

Financial Statements:

Type of Auditors' Report Issued:	Unqualified
Internal Control Over Financial Reporting:	
- Material weakness(es) identified?	___ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	___ Yes _X_ None Reported
- Noncompliance material to financial statements noted?	_X_ Yes ___ No

Federal Awards:

Internal Control Over Major Programs:	
- Material weakness(es) identified?	____ Yes _X_ No
- Significant deficiencies identified that are not considered to be material weaknesses?	_X_ Yes ___ None Reported
Type of Auditor's Report Issued on Compliance For Major Programs:	Unqualified
Any audit findings disclosed that are required to be Reported in accordance with section 510(A) of Circular A-133?	_X_ Yes ____ No

Identification of Major Programs:

CFDA Number(s)	Name of Federal Program or Cluster
20.205	Highway and Transportation – Highway Planning and Construction

Dollar Threshold Used to Distinguish Between Type A and Type B Programs:	$300,000
Auditee Qualified as low-risk:	____ Yes _X_ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards:

1. Absence of Investment Policy
2. Budgetary Compliance

Summary of Schedule of Prior Audit Findings:

1. Procurement Procedures
2. Absence of Investment Policy
3. Budgetary Compliance
4. Payroll and Personnel Procedures
5. Documentation in Personnel Files

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards

Finding No. 10-1. Incorrect Schedule of Expenditures of Federal Awards
Federal Grantor: U.S. Department of Transportation
Pass-Through Grantor: Highway and Transportation Commission
Federal CFDA Number: 20.205
Program Title: Highway Planning and Construction
Pass Through Entity Identifying Number: BRO – 023(22)
Award Year: 2010
Questioned Costs: None

10-1. Schedule of Expenditures of Federal Awards (SEFA)

Condition: As a recipient of federal grant funds, the County is required to comply with Office of Management and Budget (OMB) Circular A-133. Subpart C, Section 300(A) of the Circular requires the recipient of federal funds to accurately report the amount of federal funds expended each year on a Schedule of Expenditures of Federal Awards (SEFA). The SEFA for the year ending December 31, 2010 was inaccurate in that the County did not properly report expenditures for BRO-023(22). Such expenditures were reported as $4,924 when actual expenditures for BRO-023(22) were $40,997.

Recommendation: We recommend that the County Clerk strengthen review procedures to ensure that expenditures are accurately reported on the SEFA.

County Response: We agree. Greater care will be taken to ensure the accuracy for the reporting of costs.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

SECTION IV – FOLLOW-UP ON PRIOR YEAR'S FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

1. Absence of Investment Policy

Condition: The County has not adopted an investment policy as required by State Statutes. The County has no investments, however, an investment policy addresses topics such as collateralization of deposits, strategy with respect to investment of public funds, and other areas, and thus such a policy would be beneficial and also required for the County. Section 110.270, RSMo 2007, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo 2007, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation.

Recommendation: We recommend the County adopt an investment policy and review compliance with this policy at least annually. Guidelines for developing an investment policy may be found at organizations such as the Government Finance Officer's Association, which offers a publication entitled GFOA's New Model Investment Policy, and examples of investment policies for many counties may be found on the internet.

County's Response: The County will check on an investment policy.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

2. Budgetary Controls

Condition: The County Commission did not exercise adequate budgetary control over a number of funds during the audit period. During the period under audit, there were six different funds for which expenditures were approved for payment which exceed the approved budget.

	2010	2009
Special Road and Bridge Fund	X	N/A
1/2 Cent Sales Tax Jail Operation-Law Enforcement Fund	N/A	X
Community Development Block Grant Fund	X	N/A
Sheriff's Revolving Fund	N/A	X
Inmate Security Fund	X	N/A
Courthouse Sales Tax Fund	X	N/A

RSMo 50.740 prohibits expenditures in excess of approved budgets. Additionally, case law provides that strict compliance with county budget laws is required by county officials. If there are valid reasons which require excess disbursements (i.e., emergencies, unforeseen occurrences, and statutorily required obligations), amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.

Recommendation: We recommend the County ensure compliance with State Statutes by adopting a formal budget for all funds and refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance current year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

County's Response: We will try to comply.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

OTHER MATTERS

In planning and performing our audit of the financial statements of Clark County, Missouri (the County) as of and for the years ended December 31, 2010 and 2009, in accordance with general accepted government auditing standards, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the effectiveness of the County's internal control. Accordingly we do not express an opinion on the effectiveness of the County's internal control.

However, during our audit, we became aware of certain matters that are an opportunity for strengthening internal controls and operating efficiency. Our comment and suggestion regarding these matters are summarized below. We previously reported on the County's internal control in our report dated June 30, 2011. This document does not affect our report dated June 30, 2011.

3. Accounting for Transfers

Condition: The financial statements of the County as presented in the annual budget document present transfers between funds. However, we noted that some transfers were identified as expenditures and revenues within the funds. Additionally, there were costs identified as reimbursements that were shown as transfers. The financial statements included in this report have been adjusted so that transfers in and out between funds are equal as of December 31, 2010 and 2009.

Recommendation: In order to ensure that transfers are properly reported and are in balance (transfers to other funds equal transfers from other funds), we recommend the transfers be clearly identified as transfers and presented in the budget within the Transfer category. Other types of transactions should not be presented in the Transfers Category.

County's Response: We will try to comply.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

4. Old Outstanding Checks

Condition: The Treasure's bank reconciliation at December 31, 2010 included 41 checks totaling $2,968 that were outstanding one or more years. Several of these checks were included as outstanding checks on December 31, 2009 reconciliation.

Recommendation: We recommend the Treasurer properly void all stale-dated outstanding checks which will more correctly state available cash balances and facilitate the bank reconciliation process.

County's Response: We will take this under consideration.

Auditor's Evaluation: We continue to recommend all stale-dated outstanding checks be voided.

5. Documentation of 941's

Condition: There was no copy of the original IRS payroll withholding 941 form for the fourth quarter of 2010 available. However, the County Clerk represented that the related tax payments were made.

Recommendation: We recommend that the County Clerk's Office retain and file the payroll 941 forms in order to provide assurance of compliance with taxing authority requirements. The County should also ensure that appropriate tax payments were made in those instances for which no 941 is available.

County's Response: We do keep these records on file. One just happened to be misfiled.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

6. Payroll and Personnel Procedures

While performing our audit tests in the areas of payroll and personnel, we noted the following opportunities for improvement in recordkeeping.

A. Condition: Some time sheets are not signed by employees and their supervisors. Time sheets should be signed by the employee and the employee's supervisor to document their agreement as to the accuracy of reported hours worked each pay period.
Recommendation: We recommend that the County ensure that all time sheets are signed by both the employee and the employee's supervisor.

County's Response: We will comply with this as much as we can.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

B. Condition: The County has not adopted an official personnel manual which details policies and procedures for County employees. Failure to adopt an official personnel manual increases the likelihood of misunderstandings or unequal treatment of employees. It also increases the risk of financial exposure to the County by not having clearly defined and consistently applied guidelines that have been communicated uniformly to all employees.
Recommendation: We recommend that the County develop a personnel policies and procedures manual which is distributed to all County employees.

County's Response: We are looking for a good personnel manual.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

C. Condition: Centralized records of time sheets, vacation leave, sick leave or compensatory time earned, taken, or accumulated by employees of the Sheriff's Department are not maintained by the County Clerk. The Sheriff maintains these records for his department and sends the County Clerk a summary report of time worked by employees. Centralized records are needed to ensure that employees are meeting expectations of County employment, that policies are being uniformly applied, and that potential leave and/or compensatory time accruals are being centrally monitored. In addition, such records should be maintained and monitored in a central location in the event disputes arise and to ensure compliance with the Federal Fair Labor Standards Act (FLSA).
Recommendation: We recommend that the County ensure that the Clerk's office maintains centralized time sheet and leave records for all County employees.

County's Response: We will try to improve.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

7. Employee Personnel Files

Condition: The County does not keep an updated record of each employee's pay rate in their personnel file. When an employee receives a pay raise, there is no evidence in their personnel file of when and how much the raise was for nor documentation of County Commissioner approval. The County Clerk's office does, however, maintain a listing indicating current approved rates for each County employee.

Recommendation: We recommend that the County Clerk's Office maintain documentation of each employee's approved rate of compensation in their personnel file in addition to supporting documentation from the County Commission approving all employee compensation adjustments.

County's Response: We will try to comply.

Auditor's Evaluation: The stated corrective action is responsive to the recommendation.

CLARK COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Clark County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2008 and 2007.

1. The County did not consistently solicit bids and/or retain bid documentation for various purchases of goods and services. In addition, the minutes did not adequately document bid information such as justification for accepting other than the lowest bid or engaging in single source purchases.

   Status – Resolved

2. The County has not adopted an investment policy as required by State Statutes.

   Status – Not resolved. See finding No. 1.

3. The County Commission did not exercise adequate budgetary control over a number of funds during the audit period. During the period under audit, there were four different funds of which expenditures were approved for payment which exceed the approved budget.

   Status - Not Resolved. See finding No.2.

4. Centralized records of time sheets, vacation leave, sick leave or compensatory time earned, taken, or accumulated by employees of the Sheriff's Department are not maintained by County Clerk. Some time sheets are not signed by employees and their supervisors. The County has not adopted an official personnel manual which details policies and procedures for County employees.

   Status – Not Resolved. See finding No.6.

5. The County does not keep an updated record of each employee's pay rate in their personnel file. When an employee receives a pay raise, there is no evidence in their personnel file of when and how much the raise was for nor documentation of County Commissioner approval.

   Status – Not Resolved. See finding No. 7.

September 2011

Report No. 2011-68

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Monroe County

Property Tax System Controls and Procedures	As noted in our five prior audit reports, controls and procedures over the property tax system need improvement to ensure property tax monies are accounted for properly. Neither the County Commission nor the County Clerk adequately reviews property tax additions and abatements or the property tax collection activities of the County Collector. State law assigns the County Clerk the duty to make tax book corrections and to extend the current and back tax books and charge the County Collector with the amount of taxes to be collected. Instead, the County Assessor enters additions and abatements, and the County Collector prepares the current and back tax books. The County Clerk does not document any review of the tax rates entered and does not reconcile her account book with the County Collector's settlements.
Fuel Use	The county lacks adequate procedures for monitoring the use of its bulk fuel tanks.
Computer Controls	Controls over the county computer systems need to be improved to prevent unauthorized access and restore key systems in the event of a disaster. Passwords should be changed periodically, user identifications should be required to log on to computers, backups should be tested regularly, and the County Recorder and Sheriff should store backups at off-site locations.
Closed Meetings	The County Commission failed to comply with the Sunshine Law. It did not maintain minutes of several closed sessions or document the reasons for entering into three closed sessions on April 9, 2010.
Payroll Controls and Procedures	Personnel policies are not followed. The road and bridge department used sick leave time to calculate employees' compensatory (overtime) balances and allowed employees to accumulate balances in excess of the Fair Labor Standards Act limit. In addition, employees are allowed to use unearned sick leave and carry forward unused vacation time from the prior year which is not in compliance with the county leave policies. Although state law requires a meeting each odd-numbered year, the Monroe County Salary Commission has not met since 2005, and the salary schedule established may no longer comply with state law.
Public Administrator's Controls and Procedures	As noted in our prior audit, the Public Administrator did not file complete, accurate, and timely annual settlements, and the Probate Court did not adequately monitor her activities. The Public Administrator could not explain the amounts charged estates, and we found three wards were overcharged a total of $598 and one ward was undercharged $185. Estate fees were not consistently paid because the estates did not have enough funds and the amounts not paid were not tracked.
Senate Bill 40 Board	The Senate Bill 40 Board lacked adequate documentation for 90 percent of its disbursements of Targeted Case Management funds. As noted in our prior audit report, the board failed to file formal budgets with the State Auditor's office, its budgets did not meet legal requirements, and financial statements were not published.

Prosecuting Attorney's Controls and Procedures	As noted in our prior audit reports, the Prosecuting Attorney's office needs to improve its accounting controls and procedures. Accounting duties are not adequately segregated, receipt slips are not issued for monies received, money orders are not restrictively endorsed immediately, and monies are not always properly recorded on the receipt logs. We identified $658 in restitution receipts which had not been recorded on the log. Monthly bank reconciliations are not performed, and the account contains a fluctuating amount of unidentified monies. Five checks totaling $475 have been outstanding for more than a year, and restitution receipts are not always deposited and disbursed in a timely manner.
Sheriff's Controls and Procedures	Accounting duties are not adequately segregated, receipt slips are not issued for civil fees collected, and the log does not reflect the method of payment (cash, check or money order). Fuel purchases are not adequately recorded and monitored. The Sheriff's department deposited concealed weapon permit fees in the Sheriff's Civil Fees Fund, but state law requires the fees be deposited into a Sheriff Revolving Fund and restricts how they can be spent.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.* However, the audit revealed serious shortcomings with the Property Tax System Controls and Procedures.

American Recovery and Reinvestment Act 2009 (Federal Stimulus)	A $10,000 Recovery Act: Edward Byrne Memorial Justice Assistance Grant was received and spent by the Sheriff's department to purchase emergency lighting equipment for seven patrol vehicles. The Monroe County Senate Bill 40 Board received a $12,336 Medicaid Federal Medical Assistance Percentage grant.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent:	The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
Good:	The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
Fair:	The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
Poor:	The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 22

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Monroe County

We have audited certain operations of Monroe County in fulfillment of our duties under Section 29.230, RSMo. In addition, Devereux and Krauss, LLP, Certified Public Accountants, was engaged to audit the financial statements of Monroe County for the 2 years ended December 31, 2009. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2010. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Monroe County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Alice M. Fast, CPA, CGFM, CIA
Audit Manager:	Jeannette Eaves, CPA
In-Charge Auditor:	Deborah Whitis, MBA, CPA, CIA
Audit Staff:	Emily Bias
	Monique M. Williams

1. Property Tax System Controls and Procedures

As similarly noted in our five prior audit reports, controls and procedures over the property tax system need improvement. As a result of the significant control weaknesses identified, there is less assurance property tax monies have been accounted for properly. The County Collector received and distributed approximately $6.5 million and $6.7 million for the years ended February 28, 2011 and 2010, respectively.

1.1 Additions and abatements

The County Commission and County Clerk do not perform adequate or timely reviews of property tax additions and abatements, which totaled $90,548 and $90,947, respectively, for the year ended February 28, 2011. The Assessor prepares court orders for additions and abatements, enters them into the tax system, and gives the court orders to the County Commission at the end of the County Collector's fiscal year. The court orders are not signed by the County Commission and changes are made to the property tax system throughout the year without approval of the County Commission. In addition, the County Clerk does not reconcile the court orders for additions and abatements to actual changes made to the property tax system. As a result, additions and abatements, which constitute changes to the amount of taxes the County Collector is charged with collecting, are not properly monitored and errors or irregularities could go undetected.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, periodic reviews and timely approvals of court orders, along with an independent reconciliation of approved additions and abatements to corrections made to the property tax system, would help ensure changes are proper.

1.2 Review of property taxes

Neither the County Commission nor the County Clerk adequately reviews the activities of the County Collector. The County Clerk does not prepare or verify the accuracy of the current or back tax books for real and personal property. The County Collector enters the tax rates, which are obtained from the County Clerk, and extends and prints the current tax books. The County Collector also prepares the back tax books. The County Clerk indicated she reviews tax rates after entry by the County Collector, but does not maintain documentation of her reviews. Although the County Clerk maintains an account book based on data provided by the County Collector, she does not enter additions and abatements and therefore cannot adequately reconcile with the County Collector's monthly and annual settlements. In addition, the County Commission does not document its review of the County Collector's annual settlements.

Sections 137.290 and 140.050, RSMo, require the County Clerk to extend the current and back tax books and charge the County Collector with the amount of taxes to be collected. If it is not feasible for the County Clerk to

prepare the tax books, at a minimum, she should verify the accuracy of the tax books and document approval of the tax book amounts to be charged to the County Collector. Additionally, the County Commission and the County Clerk should perform a thorough review of the County Collector's settlements. Failure to do so could result in errors or irregularities going undetected.

Recommendations

1.1 The County Commission and Assessor ensure all changes made to the property tax system are supported by court orders approved by the County Commission. In addition, the County Clerk should develop procedures to adequately monitor court orders to ensure only authorized additions and abatements are posted to the property tax system.

1.2 The County Clerk prepare the current and back tax books or, at a minimum, verify the accuracy of the tax books prior to charging the County Collector with property tax amounts to be collected. Additionally, the County Commission and County Clerk should perform a thorough review of the County Collector's monthly and annual settlements.

Auditee's Response

The County Commission provided the following written responses:

1.1 The Commission has always completed a yearly review in the past. However, the more timely review has already started. The Commission reviews each court order weekly and it is signed by the Presiding Commissioner.

1.2 The Commission has always reviewed the Collector's settlements, however, we will document such review in the future.

The County Clerk provided the following written responses:

1.1 This procedure has been started. The Collector sends to me by monthly e-mail, her spreadsheet of court orders add on and court order off. The Assessor gives me a copy of each add on and court order off. They are given to the Commission and signed by the Presiding Commissioner. I then check off each one to see that the amounts are correct and mark each one with an asterisk. I then sign and date each one.

1.2 I believe I perform all of the duties as best as I can with the Collector. I do not enter the tax rates for her, but would be more than willing to do so if she approved. I do verify the accuracy of the tax books, however have not documented that verification but will

do so in the future. I review the County Collector's monthly and annual settlements and sign those documents.

2. Fuel Use

The county has not established effective monitoring procedures regarding fuel use. The road and bridge department maintains three bulk fuel tanks at the road and bridge building and another bulk fuel tank at an employee's residence. The bulk fuel tanks at the road and bridge building are metered, but the gallons dispensed are not recorded. Fuel logs are maintained in the vehicles and equipment; however, gallons used per the fuel logs are not reconciled to gallons dispensed per the meters on the tanks or to fuel purchases. Per the budget, approximately $190,000 was spent on fuel during the 2 years ended December 31, 2010, for road and bridge department vehicles and other equipment. Failure to account for fuel use could result in loss, theft, or misuse going undetected.

To ensure the reasonableness and propriety of fuel use and disbursements, gallons used per the fuel logs should be reconciled to gallons dispensed per the meter on the tank, and gallons dispensed should also be reconciled to gallons purchased.

Recommendation

The County Commission ensure road and bridge department employees reconcile the gallons dispensed per the fuel logs to gallons dispensed per the meter readings, and also reconcile gallons dispensed to gallons purchased.

Auditee's Response

The County Commission provided the following written response:

Our meters are not certified, therefore even if we reconciled, it would not come out correct with delivery trucks which are certified by the state. Tanks are always locked and electric is shut off when no one is there. Total amount of gallons run consistently over past years except for when there is a flood or extreme winter blizzards. Theft would be apparent because of the location. The tanks are adjacent to the courthouse and it would be very visible if someone stole fuel.

3. Computer Controls

Controls over the county computer systems are not sufficient to prevent unauthorized access or to restore key systems in the event of a disaster or systems failure.

3.1 User IDs and passwords

Passwords for most county computer systems are not changed on a periodic basis to ensure confidentiality. In addition, user identifications are not required to log on to computers in the Prosecuting Attorney's office and personnel in the Assessor's office share passwords.

The lack of an effective system of user identifications and passwords may allow unauthorized access and/or changes to the system. To control access, a unique user identification and password should be assigned to each user of

a system. These passwords should be kept confidential and changed periodically to help limit unauthorized access to computer files.

3.2 Backup data

Data backup procedures are not adequate. While backups are prepared by all county officials utilizing computer systems, the County Recorder and Sheriff do not store backups at off-site locations. Additionally, the Sheriff does not test backups.

Failure to store computer backup data at a secure off-site location results in the backup data being susceptible to the same damage as the data on the computer. In addition, periodic testing of backup data is necessary to help prevent loss of information and ensure all essential county information and computer systems can be recovered following a disaster or computer failure. Preparation of backup data, periodic testing to ensure it is adequate, and off-site storage would provide increased assurance county data could be recreated if necessary.

Recommendations

The County Commission:

3.1 Work with county officials to require user identifications and passwords for all employees which are confidential and periodically changed to prevent unauthorized access to county computers and data.

3.2 Work with county officials to ensure backup data is stored in a secure off-site location and tested on a regular, predefined basis.

Auditee's Response

The County Commission provided the following written response:

The County Commission does not have access to other elected officials' computer systems and feels it is the responsibility of each duly elected official to manage their office and the ID and password policy to be implemented. However, the Commission will suggest the county officials implement these recommendations.

The Prosecuting Attorney provided the following response:

3.1 User identifications and passwords were implemented after discussion with the auditors.

The Assessor provided the following written response:

3.1 All records of assessment are public records. All computers have the same information allowing everyone to work in different fields at the same time.

The Recorder provided the following response:

3.2 I will take the back-up discs to the bank once or twice a week.

The Sheriff provided the following response:

3.2 I will check into this.

4. Closed Meetings

The county failed to maintain minutes of several closed meetings held by the County Commission and failed to document the reasons for entering into three closed sessions held on April 9, 2010. Closed meeting minutes were not prepared to document the matters discussed in closed meetings held April 17, 2009, and April 27, 2009. Although closed meeting minutes were not prepared to document the matters discussed during two closed sessions held on April 5, 2010, and three closed sessions held on April 9, 2010, action taken was documented in the body of the open meeting minutes. The County Commissioners indicated it is difficult to document the closed meetings, because the County Clerk is not present during the meetings and they do not have anyone recording the discussions as they speak.

The Sunshine Law, Chapter 610, RSMo, requires minutes be kept for all closed meetings. The minutes should provide sufficient details of discussions to demonstrate compliance with statutory provisions and support important decisions.

Recommendation

The County Commission ensure minutes are prepared and retained to support all closed meetings.

Auditee's Response

The County Commission provided the following written response:

The Commission discussed with the Clerk, and all have agreed that from now forward whenever the Commission goes into closed session, we will call her into our chambers and she will take minutes. The action taken during closed session on April 5th and 9th 2010 was documented into open meeting minutes after 72 hours.

The County Clerk provided the following written response:

I agree that I do not monitor the County Commission's meetings as I should, the reason being I am a working county clerk and only have a staff of two other people. When I lost one of my full time employees, I chose to try to save county money and hired my part time person to work full time, therefore I lost a part time person of three days per week. With that said I took up the slack and I do well to get everything done that needs to be done in my office. The Commissioners and I have discussed this and in the future they agree they will call me into their chambers when they go into closed

session. Also, I would like to address that the action taken in the closed sessions held on April 5 and April 9, 2010 was documented into the open meeting minutes after 72 hours. I know this was not documented correctly, but it was documented. I might add that I send the Commission minutes to two newspapers in Monroe County and one newspaper out of the county as well as to the radio station.

5. Payroll Controls and Procedures

Payroll controls and procedures need improvement. Although there is an established written personnel manual, not all policies are followed. In addition, the salary schedule established for elected officials in 2005 does not appear to comply with state law.

5.1 Compensatory time

Compensatory (overtime) balances are allowed to accumulate in excess of the maximum allowed under the Fair Labor Standards Act of 1938 (FLSA). We identified two road and bridge department employees who were allowed to accumulate compensatory time in excess of the 240 hour maximum allowed. In addition, compensatory time related to the road and bridge department is not always earned and paid in accordance with the county's personnel policy. The road and bridge supervisor uses nonworking time (sick leave) to calculate the amount of compensatory time earned by employees. As a result of using nonworking time in the calculations of compensatory time earned, the county may be paying more compensatory time to employees than required.

The county personnel policy indicates overtime will be determined based upon "hours actually worked on the county's behalf", which complies with the FLSA. The FLSA also states covered employees may accumulate a maximum of 240 hours (480 for law enforcement personnel) of compensatory time. Hours in excess of this maximum are to be paid to or taken off by the employee in the next pay period.

Upon our request, the County Clerk's office prepared totals of accumulated compensatory hours and the potential liability those hours could create for the county. At April 25, 2011, nine road and bridge department employees had accumulated 1,156 hours of compensatory time valued at approximately $15,707.

Proper controls over the management of compensatory time require the county to ensure compliance with the personnel policy, evaluate balances for reasonableness, review the reasons for large or increasing balances, and provide solutions to prevent improper accruals and excessive balances.

A similar condition was noted in our prior audit report.

5.2 Leave policies and procedures

Sick leave and vacation leave procedures are not in compliance with the established personnel policy. The personnel policy states regular full time

employees shall earn 8 hours of sick leave for each completed calendar month. However, the Deputy County Clerk records the entire leave amount that would be earned for the year, at the beginning of each year. As a result, employees may use and be paid for unearned sick leave. In addition, the personnel policy (Article 10, page 35) indicates normally, vacation leave shall be used in its entirety each calendar year. During our review of the January 2011 payroll records, we noted employees were allowed to bring forward unused vacation leave from the prior year. The County Clerk indicated employees are always allowed to bring forward their vacation leave.

By not requiring full compliance with the county's personnel policy, the County Commission may be putting the county at risk of incurring additional liabilities beyond what is established by the policy. The county should require compliance with established policies, and periodically review policies and practices to ensure consistency.

5.3 Statutory salaries

The Monroe County Salary Commission has not held a meeting since November 21, 2005. During that meeting, the Salary Commission established salaries for officials' terms beginning in 2007, 2009, and 2011. However, some statutory provisions related to officials' salaries have been revised since 2005. For example, Senate Bill 497, which passed in 2007, revised requirements regarding base salaries of the various elected officials. The Salary Commission should have met to consider statutory changes and ensure the salary schedules established and approved in 2005 were in compliance with state law.

Section 50.333, RSMo, states the Salary Commission shall meet at least once before November thirtieth of each odd numbered year. The Salary Commission should meet as soon as possible to review salaries for compliance with current statutes and consult with the Prosecuting Attorney as appropriate.

Recommendations

5.1 The County Clerk ensure employees accrue overtime in accordance with the county's personnel policy. In addition, the County Commission should closely monitor county employees' compensatory time to limit potential county liabilities.

5.2 The County Clerk ensure vacation and sick leave is accrued and used in accordance with the personnel policy.

5.3 The County Commission ensure the Salary Commission meets at least once prior to November 30th of each odd numbered year as required by state law. In addition, the Salary Commission should review the current salary schedule and consult with legal counsel as appropriate to ensure the schedule complies with state law.

Auditee's Response

The County Commission provided the following written responses:

5.1&
5.2 *The practice of using nonworking hours has been changed and the Commission will monitor this closer in the future.*

5.3 *The Salary Commission is comprised of all elected officials excluding the Circuit Clerk, who actually calls the meeting to order. The Commission does not feel it is their sole responsibility to ensure the Salary Commission meet. The letter has been drafted that the Salary Commission will meet in October, 2011. We did not feel it was necessary to meet in 2007 and 2009 because the salaries had been set by the salary commission in 2005.*

The County Clerk provided the following written responses:

5.1 *Overtime in the courthouse has always been in accordance with the County's personnel policy. Employees must actually work 40 hours before any overtime accrues. However, in the past, road and bridge was done differently due to the fact that they sometimes had to work 7 days a week in bad weather and I agree that the personnel policy was not followed correctly. The Commission explained to the road and bridge supervisor and the road and bridge employees about correcting this issue and going forward it will be corrected. Also, the payroll manager will monitor the compensatory time the first of every year and those employees having over 240 hours will be paid for hours over 240. This has already been implemented and done since the auditors were here.*

5.2 *Due to the fact of work overload, many employees are unable to use all of their vacation time during the year and have always been allowed to carry over those days. The County Commission made an addendum to the personnel policy to be effective January 1, 2012 which states: If an employee leaves or retires they will only be paid for vacation time that they accrue in the year they leave employment.*

Full time employees earn 96 hours of sick leave a year. In the past, those hours have been entered into the computer the first of each year. Our software vendor has changed our payroll program so that we may enter 3.6923 hours per each pay period for the 26 pay periods in the year. This will be implemented January 1, 2012.

5.3 *The Salary Commission will meet in October, 2011 to review salaries for compliance with current statutes.*

6. Public Administrator's Controls and Procedures

Weaknesses involving preparation and review of annual settlements and calculating estate fees were identified. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Probate Court, and is responsible for the financial activity of eight individuals.

6.1 Annual settlements

The Public Administrator has not filed complete and accurate annual settlements in a timely manner. For each ward, the Public Administrator is required to file an annual settlement with the Probate Court which reflects a detailed list of assets held, as well as financial activity for the year. However, none of the 12 annual settlements due to be filed with the court during the period from July 28, 2009, to March 11, 2011, were filed on time. Two annual settlements were filed 2 weeks late, six were filed between 2 and 4 months late, and one was filed 7 months late. The three remaining settlements with due dates of October 14, 2010, January 13, 2011, and March 11, 2011 were not filed as of July 15, 2011.

In addition, some annual settlements prepared by the Public Administrator's office were not complete or accurate. A liability of $4,398 relating to a claim against one estate for nursing home services was not reported on the estate's settlement. Also, the total receipts of some settlements filed with the court were incorrect because the total of the receipts column included the total of assets on hand at the beginning of the settlement year. For example, total receipts of $17,723 as shown on one annual settlement included $8,465 of beginning assets.

To ensure the financial activity of the estates is accurately reported to the court, all assets, liabilities, receipts, and disbursements should be accurately reflected on the annual settlements.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file with the court an annual settlement for each ward or estate. Timely and accurate settlements are necessary for the court to properly oversee the administration of cases and reduce the possibility that errors or misuse of funds will go undetected.

A similar condition was noted in our prior audit report.

6.2 Estate fees

The Public Administrator does not provide supporting documentation for fee calculations to the Probate Court and was unable to explain how she arrived at the amounts charged to estates. We recalculated the estate fees on eight of the nine annual settlements filed with the court and noted errors in the amounts charged to four estates. Specifically, three wards were

overcharged by $203, $20, and $375, while one ward was undercharged by $185.

In addition, public administrator estate fees approved by the court were not consistently paid to the County Treasurer from the estates because the estates did not have enough money to pay the fee. For example, the Public Administrator submitted a petition for fees of $945 for one ward which was approved by the court, but only $300 was paid from the ward's account to the County Treasurer. Fees of $569 were petitioned and approved by the court for another ward, but only $300 was paid to the County Treasurer. The established estate fee is 5 percent of income; however, the Public Administrator and Probate Judge indicated the estate fee is only charged to the estate if the wards have enough money in their account to pay the fee. The amounts not paid from the estates were not tracked.

To ensure all fees are properly assessed and transmitted to the county, the Public Administrator should work with the Probate Judge to ensure fees are petitioned from the court for all applicable wards and estates on a timely basis, approved, properly monitored, and paid to the extent possible.

6.3 Court oversight

The Probate Court had not established procedures to adequately monitor the activity of cases assigned to the Public Administrator during our audit period. The former Probate Clerk did not inform the Public Administrator when annual settlements were due or follow up on delinquent settlements. In addition, there was no documentation of the former Probate Clerk's review of the annual settlements and supporting documentation filed with the court. The Probate Judge indicated that if any amounts on the settlements were questioned, additional documentation would be requested from the Public Administrator. The former Probate Clerk retired in January 2011. The Associate Circuit Clerk assumed these additional duties in February 2011, and recently began sending letters to the Public Administrator to remind her of due dates and overdue annual settlements.

Failure to adequately review and monitor the activity of cases assigned to the Public Administrator by the Probate Court increases the risk that errors or misuse of funds could go undetected.

Section 475.280, RSMo, requires the clerk to keep a docket of all conservators and the day upon which their annual settlements are required. In addition, the clerk is required to mail a notice to each conservator at least 30 days before the due date; however, failure to receive the notice does not excuse the conservator from filing the settlements as required by law.

Recommendations

6.1 The Public Administrator file complete and accurate annual settlements in a timely manner.

6.2 The Public Administrator ensure estate fees are computed correctly and prepare and maintain written documentation to support fee calculations for all annual settlements submitted to the Probate Court for approval. In addition, the Public Administrator should work with the Probate Court to fully document agreed upon lesser amounts when wards do not have sufficient funds to pay the 5 percent estate fee.

6.3 The Associate Circuit Clerk continue recent efforts to mail notices to the Public Administrator and follow up on overdue annual settlements. In addition, the Probate Judge should establish procedures to adequately monitor the activity of all cases assigned to the Public Administrator.

Auditee's Response

The Public Administrator provided the following responses:

6.1 I will try to ensure settlements are filed timely in the future.

6.2 I will ensure the calculation of fees is documented and is accurate. If funds are not available to pay the entire fee, I will determine the amount the ward can afford and will document it for the judge's review. I can determine the amount paid and not paid by reviewing the ward's file.

The Probate Judge provided the following written response:

6.3 The Probate Court/Associate Circuit Judge concurs in principle with the findings.

The court will comply with Section 475.280 RSMo. The Circuit Clerk will continue to send notices to the Public Administrator regarding due dates for annual reports and other accountings, as well as notices of overdue annual settlements. Note that these procedures were not always done through the auditor's review period, as the auditor noted. However, as also noted, consistent notice procedures were initiated prior to the beginning of the actual audit. Consequently, no additional corrective action is needed.

The court reviews and approves all Public Administrator submissions; however, it will increase its scrutiny consistent with these findings and will request additional supporting documentation for expenditures not clearly justified on their face. As a part of its review of annual settlements, the Probate Judge will specifically review all future Public Administrator's submissions to ensure the 5 percent estate fees have been properly calculated based on the

information provided. Time frame for corrective action: immediately.

7. Senate Bill 40 Board

Controls over Senate Bill 40 Board disbursements and budgetary procedures are in need of improvement. The Senate Bill 40 Board is funded through a property tax levy and a state funded Targeted Case Management program.

7.1 Disbursements

The Senate Bill 40 Board does not have adequate controls over disbursements of Targeted Case Management (TCM) funds. Of the $6,262 disbursed by the Senate Bill 40 Board during 2009 and 2010 for special requests under the TCM program, only one expenditure for $564 had adequate supporting documentation in the file. In addition, some checks are written directly to TCM clients without requiring any documentation to verify clients purchased and received goods as intended. For example, $650 was disbursed by check to a client on December 21, 2010, without supporting documentation for the purchase of an iPad. The Senate Bill 40 Board did not follow up with the client to obtain an invoice and ensure the client purchased and received the intended product. These inadequate monitoring efforts and informal payment methods do not provide adequate assurance TCM funds are used as intended.

To safeguard against possible loss or misuse of funds, the board should review and maintain adequate supporting documentation of all disbursements.

7.2 Budgets

Formal budgets were not filed with the State Auditor's office for 2009, 2010, and 2011. In addition, the budgets approved by the Senate Bill 40 Board did not include TCM funds received and disbursed and did not include other required information including beginning and projected ending cash balances or comparative statements of actual receipts and disbursements for the prior 2 years.

To be of maximum assistance as a planning tool and to adequately inform the public, budgets should include all beginning available resources and actual receipts and disbursements of the prior 2 years. Section 50.590, RSMo, requires budgets to include the amounts for the last 2 completed fiscal years to provide a comparison with the estimates for the current fiscal year, and Section 50.740, RSMo, requires budgets to be submitted to the State Auditor's office.

7.3 Financial statements

The Senate Bill 40 Board did not publish its financial statements for the years ended December 31, 2009 and 2010. Section 50.800, RSMo, provides details regarding the various information required to be provided in the county's annual published financial statements and requires that receipts, disbursements, and beginning and ending balance information be presented for all county funds. Complete published financial statements are needed to

adequately inform the citizens of the county's financial activities and show compliance with statutory requirements.

Similar conditions previously reported

Similar conditions to points 7.2 and 7.3 were noted in our prior audit report.

Recommendations

The Senate Bill 40 Board:

7.1 Ensure adequate supporting documentation for all disbursements is reviewed and maintained in the files to ensure funds are used as intended.

7.2 Ensure accurate and complete budgets are submitted to the State Auditor's office as required by state law.

7.3 Publish financial statements annually as required by state law.

Auditee's Response

The Senate Bill 40 Board Administrator provided the following written responses:

7.1 All supporting documentation will be maintained in the files for all disbursements made. This rule is already in effect. We have been given all correspondence in regards to TCM funds the clients have received and for what they purchased with our funding. This procedure started in April 2011.

7.2 Complete budgets have been prepared and will be sent by mail to the State Auditor's office. As changes are made to the budget, a new copy will be sent to the State Auditor's office. The 2011 budget was mailed to the State Auditor's office on August 16, 2011.

7.3 The 2010 financial statement was published in the local paper in July 2011 and was mailed to the State Auditor's office on August 16, 2011.

8. Prosecuting Attorney's Controls and Procedures

As similarly noted in our prior audit reports, weaknesses exist in accounting controls and procedures in the Prosecuting Attorney's office. The Prosecuting Attorney's office collects bad check restitution and related fees and court-ordered restitution. The Prosecuting Attorney only accepts receipts in the form of money orders from individuals and checks from the courts. The Prosecuting Attorney's office collected approximately $7,780 and $39,139 during the years ended December 31, 2010 and 2009, respectively.

8.1 Segregation of duties

Accounting duties are not adequately segregated. One clerk collects monies, records transactions, makes deposits, prepares disbursement checks, and reconciles bank accounts. Although the Prosecuting Attorney signs disbursement checks, she does not review the accounting records. As a result, there is little assurance all transactions are accounted for properly and accounting records are complete and accurate.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, at a minimum, periodic independent or supervisory reviews of accounting records should be performed and documented by the Prosecuting Attorney.

8.2 Receipting procedures

The Prosecuting Attorney's office does not issue receipt slips for monies received, and receipts are not always properly recorded on the bad check and restitution receipt logs. We identified six restitution receipts totaling $658 which were not recorded on the restitution receipt log during the period from June 1, 2010, through March 14, 2011. In addition, the Prosecuting Attorney's office does not restrictively endorse money orders received for fees payable to the county treasury.

The lack of proper receipting and recordkeeping procedures reduces assurance that all monies are properly handled. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, receipt slips should be issued for all monies received, receipts payable to the county treasury should be restrictively endorsed immediately upon receipt, and receipts should be recorded timely.

8.3 Bank reconciliations

Monthly bank reconciliations are not documented and unidentified amounts have accumulated in the bank account. In addition, the Prosecuting Attorney does not routinely follow up on outstanding checks. As of March 31, 2011, the bank account had five checks totaling $475 outstanding for more than a year. Although a running balance is maintained in the checkbook register, formal bank reconciliations are not performed. Upon our request, the Prosecuting Attorney prepared bank reconciliations for the months of December 2010 and December 2009. Office personnel indicated all restitution monies are disbursed to victims upon receipt and the bank account should zero out at month end, with the exception of the unidentified monies inherited from the former Prosecuting Attorney. The unidentified balance in the bank account has fluctuated over time and was $1,684 as of December 31, 2010. Our prior audit noted an unidentified balance of $1,640 at December 31, 2005.

The preparation of monthly bank reconciliations is necessary to ensure the accounting records are in balance and to identify errors in a timely manner. Follow up on outstanding checks is necessary to ensure monies are

appropriately disbursed to the payee or as otherwise provided by state law. Unidentified and unclaimed monies should be disposed of in accordance with state law.

8.4 Deposits

Restitution receipts are not always deposited and disbursed in a timely manner. Restitution monies collected from November 19 through December 21, 2010, totaling $325, were not deposited until December 28, 2010, and restitution monies collected from December 29, 2010, through February 7, 2011, totaling $836, were not deposited until February 11, 2011. These monies were not disbursed to the victims until February 14, 2011.

In addition, restitution monies are sometimes disbursed prior to deposit of the corresponding receipts. For example, the Prosecuting Attorney issued checks totaling $100 to victims on July 6, 2010, and $61 on October 19, 2010. The deposits of the corresponding receipts were not made until July 7, 2010 and October 21, 2010.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits and disbursements should be made timely and monies should not be disbursed prior to deposit.

Recommendations

The Prosecuting Attorney:

8.1 Adequately segregate accounting duties to the extent possible or ensure supervisory reviews of accounting records are performed and documented.

8.2 Ensure all monies are properly recorded on the receipt logs or official pre-numbered receipt slips are issued for all monies received. In addition, the Prosecuting Attorney should restrictively endorse all receipts payable to the county treasury immediately upon receipt.

8.3 Prepare formal bank reconciliations monthly to ensure the bank account zeroes out, and investigate and resolve any differences between the accounting records and bank reconciliations. In addition, the Prosecuting Attorney should follow up on outstanding checks. Old outstanding checks should be voided and reissued to payees who can be readily located. Unidentified and unclaimed monies should be disposed in accordance with state law.

8.4 Deposit receipts and subsequently disburse monies on a timely basis. The Prosecuting Attorney should ensure all monies are deposited prior to disbursement.

Auditee's Response

The current Prosecuting Attorney provided the following written responses:

8.1 We are currently segregating accounting duties to two separate office personnel within the scope of limited personnel we have available to us.

8.2 We have ensured all monies are properly recorded on our receipt log and numbered receipts have been given or mailed to the proper person(s) or entity. Restrictive endorsements will be made on all money orders received for the Treasurer. Receipt slips obtained from the County Treasurer have been collected at time of issuance.

8.3 Formal bank reconciliations are now being completed and reviewed by the Prosecuting Attorney. We are also currently investigating our bank reconciliation and accounting records to determine the sources of unidentified amounts. A large percentage of those monies accumulated more than 4 years ago during previous administrations and will take a number of hours to reconcile.

8.4 Restitution deposits and disbursements will occur as soon as feasibly possible. Monies are now deposited prior to disbursement.

9. Sheriff's Controls and Procedures

Accounting controls and procedures are in need of improvement. The Sheriff's department receives monies for civil and criminal fees, prisoner boarding fees, carry and conceal permits, jail phone commissions, bonds, and other miscellaneous receipts. The Sheriff's department collected approximately $40,000 and $55,700 during the years ended December 31, 2010 and 2009, respectively.

9.1 Segregation of duties

Accounting duties are not adequately segregated. The Sheriff's secretary collects monies, records transactions, makes deposits, prepares and signs disbursement checks, reconciles bank accounts, and maintains accounts receivable records. The Sheriff does not review or approve disbursements, co-sign checks, or review bank reconciliations.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, at a minimum, periodic independent or supervisory reviews of accounting records should be performed and documented by another employee or the Sheriff.

9.2 Receipting procedures

The civil fees log did not indicate the method of payment (cash, check, or money order) and receipt slips were not issued for these fees. In addition, deposit slips do not accurately reflect the composition of monies. As a result, the composition of receipts cannot be reconciled to the composition of deposits.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, official pre-numbered receipt slips should be issued immediately upon receipt, the method of payment should be documented on receipt slips, the composition of receipts should be reconciled to the composition of deposits, and all monies received should be deposited intact.

A similar condition was noted in our prior audit report.

9.3 Fuel purchases and monitoring

Records and monitoring of unleaded fuel purchases are not adequate. The Sheriff and six deputies are assigned county-owned vehicles while conducting official duties and each vehicle has a fuel card for a local gas station. Although fuel logs maintained by the 911 dispatchers indicate the date, officer, location, gallons, and mileage, the logs are not complete because some fuel purchases are not reported by the officers. For example, our review of three fuel cards used during November 2010 identified 289 gallons were invoiced to the Sheriff's department while only 250 gallons were recorded on the fuel logs. The Sheriff indicated that he only reconciles a few monthly invoices to the fuel logs each year and he does not investigate small differences since officers sometimes forget to call fuel into the dispatchers. Additionally, the Sheriff does not document his review.

Review of vehicle mileage and fuel use logs and comparison of log information to fuel purchases are necessary to prevent paying vendors for improper billing amounts and to decrease the risk of theft or misuse of fuel occurring without detection. Logs should provide sufficient details so the county can effectively monitor fuel costs.

9.4 Sheriff Revolving Fund

The Sheriff Revolving Fund was not established or budgeted as required by state law, and the fees collected for processing concealed weapon permit applications or renewals are recorded in the Sheriff's Civil Fees Fund held by the county treasury.

Because the concealed weapon permit fees are not separately identified from the civil fees, the monies may not be spent in accordance with state law. The Sheriff Revolving Fund may only be used by law enforcement agencies for the purchase of equipment, to provide training, and to make necessary expenditures to process applications for concealed weapon permit applications or renewals, where as the Sheriff's Civil Fees Fund (up to $50,000 per year) may be expended at the discretion of the Sheriff for the furtherance of the Sheriff's duties.

Section 571.101, RSMo, authorizes the Sheriff to charge non-refundable fees for processing a first time application and a renewal for a concealed weapon permit which shall be paid to the county treasury to the credit of the Sheriff Revolving Fund. By establishing the Sheriff Revolving Fund which is maintained by the county treasury and preparing a budget for the fund, the

County Commission and Sheriff will be able to more effectively monitor overall financial resources, make budgetary decisions, and ensure funds are spent in accordance with state law.

Recommendations

9.1 The Sheriff adequately segregate accounting duties to the extent possible or ensure independent or supervisory reviews of accounting records are performed and documented. In addition, disbursement checks prepared and signed by the secretary should be co-signed by the Sheriff.

9.2 The Sheriff issue official pre-numbered receipt slips for all monies received, accurately record the method of payment on each receipt slip, and reconcile the composition of receipts to the composition of deposits.

9.3 The Sheriff ensure all fuel obtained is properly recorded on the fuel logs and review the fuel logs for reasonableness. In addition, fuel use should be reconciled to fuel purchases, and any significant discrepancies should be investigated.

9.4 The County Commission and the Treasurer establish the Sheriff Revolving Fund as required by state law and ensure the appropriate fees are remitted to the county treasury from the Sheriff on a monthly basis. In addition, a budget should be prepared for this fund.

Auditee's Response

The Sheriff provided the following responses:

9.1 I have started reviewing bank reconciliations, signing checks when I'm available, and signing purchase orders.

9.2 This recommendation was implemented in June 2011.

9.3 We have changed our procedures to require odometer readings to be entered at the pump at the time of purchase. The vendor prepares detailed invoices with odometer readings for each card (vehicle). I review these invoices for reasonableness each month.

The County Commission provided the following written response:

9.4 The County Commission and the Treasurer will set up a revolving fund in January 2012 with a new B1 form for budget year 2012.

Monroe County
Organization and Statistical Information

Monroe County is a county-organized, third-class county. The county seat is Paris.

Monroe County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. The county employed 41 full-time employees and 10 part-time employees on December 31, 2010.

In addition, county operations include a Senate Bill 40 Board. The Enhanced 911 Board was dissolved effective December 1, 2006, and all emergency 911 operations run through the county's General Revenue Fund.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2011	2010
Donald Simpson, Presiding Commissioner	$	26,000
Mike Whelan, Associate Commissioner		24,000
Glenn E. Turner, Associate Commissioner		24,000
Merry Sue Meals, Recorder of Deeds		33,750
Sandra Francis, County Clerk		36,000
Nicole Volkert, Prosecuting Attorney		43,000
David Hoffman, Sheriff		41,000
Martha Cullifer, County Treasurer		33,250
James K. Reinhard, County Coroner		10,500
Marguerite Jones, Public Administrator (1)		20,888
Anita Dunkle, County Collector, year ended February 28,	36,000	
Judy Harman, County Assessor , year ended August 31,		37,000

(1) Includes $888 of compensation from a probate case for additional duties.

American Recovery and Reinvestment Act of 2009 (Federal Stimulus)

According to county personnel, the county was awarded the following American Recovery and Reinvestment Act of 2009 funding during the 2 years ended December 31, 2010:

A Recovery Act: Edward Byrne Memorial Justice Assistance Grant was awarded by the U.S. Department of Justice to the Missouri Department of Public Safety and $10,000 was passed through to Monroe County and spent during the year ended December 31, 2009, to purchase emergency lighting equipment for seven Sheriff's patrol vehicles.

For the years ended December 31, 2010 and 2009, the Monroe County Senate Bill 40 Board received $12,336 under Title V, Section 5001 of the Recovery Act which provided additional federal funding through the Medicaid Federal Medical Assistance Percentage grant. The grant was awarded by the Missouri Department of Mental Health. The payments were made for Medicaid expenditures reported between October 1, 2008, and December 31, 2010.

Thomas A. Schweich

Missouri State Auditor

Harrison County

September 2011

Report No. 2011-67

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Harrison County

Sheriff's Procedures

The Sheriff's department secretary receives, records, and disburses all monies; maintains accounting records; writes and signs checks; and prepares deposit slips and month-end bank account reconciliations. To ensure all transactions are accounted for properly and assets are protected, accounting duties must be segregated or periodic, independent supervisory reviews should be conducted.

Receipts are given for monies received for inmate, bond, and telephone cards, but the information is recorded on multiple records, and no one record is complete. The method of payment (cash, check or money order) is not always accurately recorded, and no reconciliation is performed between the various records to the total of receipts and monies deposited.

Inmate monies are held in cash in inmate lockers, and the secretary does not maintain documentation showing when and how inmate checks and money orders were cashed, making it more difficult to ensure all monies are deposited and accounted for properly. In addition, prepaid telephone cards are not properly inventoried, which increases the risk of loss, theft, or misuse of the telephone cards.

Seized Property

The Sheriff's department does not have adequate controls over seized property. The seized property log does not always contain the applicable case number or list the seized property item. We found $50 in cash which should have been returned to the owner in May 2009, and we found that $1,995 had been released without proper documentation. Also, duties are not adequately segregated; all officers have access to the seized property room, and there are no procedures to keep track of who enters the room.

911 Fund

The 911 Fund balance is projected to decline to less than $2,000, and the county has not developed long-range plans for equipment upgrades and related operations. The county has no documentation to support the amounts it transfers from the Law Enforcement Sales Tax Fund to the 911 Fund or amounts charged to other entities for dispatching services. The amounts transferred and charged should be based on a measure of activity or some comparable basis.

Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.* However, the audit revealed several shortcomings within the Sheriff's department.

American Recovery and Reinvestment Act 2009 (Federal Stimulus)

Harrison County did not receive any federal stimulus monies during the audited time period.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 11

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Harrison County

We have audited certain operations of Harrison County in fulfillment of our duties under Section 29.230, RSMo. In addition, Kevin G. Hudson, Certified Public Accountant, has been engaged to audit the financial statements of Harrison County for the 2 years ended December 31, 2010. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2010. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Harrison County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Alice M. Fast, CPA, CGFM, CIA
Audit Manager:	Randall Gordon, M.Acct., CPA, CGAP
In-Charge Auditor:	Tania Williams, MBA
Audit Staff:	Wayne Kauffman, MBA

1. Sheriff's Procedures

Accounting duties are not adequately segregated and improvements are needed in the receipting and depositing of monies for inmate, bond, and prepaid telephone card monies.

The Sheriff's department received monies for civil and criminal fees, prisoner boarding fees, carry and conceal permits, telephone card sales, bonds, and other miscellaneous receipts totaling approximately $328,000 and $221,000 for the years ended December 31, 2010 and 2009, respectively.

1.1 Segregation of duties

Accounting duties are not adequately segregated. The secretary is responsible for receiving, recording, and disbursing all monies; maintaining accounting records; writing and signing checks; preparing deposit slips; and month-end bank reconciliations. Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, at a minimum, periodic independent or supervisory reviews of accounting records should be performed and documented by another employee or the Sheriff.

1.2 Receipts

Procedures for receipting and recording inmate, bond, and telephone card monies are not sufficient to ensure all collections are accounted for properly. While receipts are recorded on several different records, no single record is complete, and the various receipt records are not compared to ensure all receipts collected are accurately recorded and deposited. Some receipts are recorded on multiple records and the records are not provided to the secretary prior to processing for deposit in the Sheriff's fees bank account. Bond receipts are recorded on unnumbered bond tickets. Inmate monies are logged into an inmate account log, and prepaid telephone card purchases are logged on a telephone card purchase record by the jailers or jail administrator. The method of payment (cash, check or money order) is not always accurately recorded, and no reconciliation is performed between the various records to the total of receipts and monies deposited. As a result, two checks totaling $6,475 were not recorded in the receipt ledger; however, one of the checks was included with the deposit made on April 1, 2010, and the other check was included with the April 23, 2010, deposit. The secretary noticed the extra receipts when reconciling the receipts ledger to deposits per the bank statement, and not when making the deposit.

Without a detailed reconciliation of all receipt records, there is no assurance inmate monies, bonds, and telephone card purchases have been handled appropriately. The lack of reconciliation between the various records makes it difficult to ensure all monies are recorded and deposited. Bond forms should be prenumbered. In addition, the method of payment should be documented, and sufficient details should be provided in the accounting records to facilitate a reconciliation of deposits to the receipt records, and to

clearly demonstrate the proper handling of monies for the different types of receipts.

1.3 Inmate monies

Inmate monies are held in cash and not deposited, and the secretary does not retain documentation showing when and how inmate checks and money orders are cashed. In addition, the composition of receipts is not reconciled to the composition of deposits.

The jail maintains records of inmate monies received and withdrawn, and available inmate balances. When monies are received for inmates, the cash is placed in the respective inmate locker. To maintain inmate monies in cash form, the jail administrator will have the inmates endorse their checks or money orders and put the checks and money orders in an envelope. Then the secretary will remove any checks and money orders from the envelope and replace with the same amount of cash. The secretary obtains the cash either by cashing the checks and money orders at the bank or cashing the checks and money orders from the telephone card or bond cash receipts on hand and later depositing the checks and money orders into the Sheriff's fee bank account. The cash is returned to the jail administrator and the cash is recorded on the inmate's account log and placed in the inmate's locker. As a result, we noted numerous deposits where the composition of receipts did not agree to the composition of the deposits. We obtained the bank backup for several deposits and were not able to determine the basis for all items deposited. As a result, the Sheriff's department is unable to ensure all monies are deposited and accounted for properly.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, the Sheriff should establish alternative procedures for maintaining inmate monies, and ensure the composition of receipts agrees to the composition of deposits.

1.4 Inventory

Inventory records are not maintained of prepaid telephone cards. When the telephone cards are received, the jail administrator makes a photocopy of the telephone cards to keep track of the telephone cards on hand; however, after the telephone card is sold, the photocopy is thrown away and the transaction is recorded on a telephone card purchase record and the inmate's record.

A detailed inventory ledger is necessary to adequately account for telephone cards. Inventory records should document the beginning number of telephone cards, cards purchased, cards sold, and the ending balance of cards. Periodic physical inventory counts should be performed and reconciled to inventory records. Loss, theft, or misuse of the telephone cards may go undetected without adequate inventory records and procedures.

Similar conditions previously reported

Similar conditions to points 1.1 and 1.2 were noted in our prior audit report.

Recommendations

The Sheriff:

1.1 Adequately segregate accounting duties to the extent possible or ensure independent or supervisory reviews of accounting records are performed and documented.

1.2 Ensure all receipts are properly recorded and reconciled to deposits. In addition, the Sheriff should ensure the method of payment is recorded on all receipt slips, prenumbered bond forms are used, and the numerical sequence of bond forms is accounted for properly.

1.3 Discontinue the practice of maintaining inmate monies on hand by cash and establish a bank account to maintain inmate monies, and ensure the composition of receipts is recorded and reconciled to the composition of deposits.

1.4 Ensure telephone card inventory records are maintained and periodically reconciled to a physical inventory.

Auditee's Response

The Sheriff provided the following responses:

1.1 Staffing in a small agency is an issue. However, we will review the receipts and disbursements on a monthly basis at the time they are paid into the county treasury.

1.2 We will ensure receipts are properly recorded and reconciled to deposits, and we will ensure the method of payment is recorded on all receipt slips, and this will be checked periodically. We will work with the Circuit Clerk and Judges regarding obtaining prenumbered bond forms and once obtained we will account for the numerical sequence.

1.3 We will consider this recommendation.

1.4 We will start maintaining a ledger to record telephone card purchases and sold, and we will also periodically perform a physical inventory of telephone cards on hand to agree to the amount on the ledger.

2. Seized Property

Adequate controls over seized property have not been established. Some seized property items and some applicable case numbers were not recorded properly on the seized property log.

The duties related to seized property are not adequately segregated. Under current procedures, each deputy is responsible for bringing in seized items and posting items to the seized property log. All officers have access to the seized property room where items are stored, and there are no procedures in place to keep track of who enters the room.

In addition, information recorded on seized property logs did not always correspond to information recorded in the database and incident reports. When property is received by the Sheriff's department, an incident report is prepared. The database used to generate the incident report automatically assigns a case number. Since the database uses the case number to identify the items, the database should correspond to the incident reports and seized property records. In April 2011, we located $50 of seized cash in the seized property room, although other items related to the case were returned to the owner in May 2009. While the cash was recorded on the seized property log; a case number was not documented. In addition, the database and incident report prepared by the arresting officer did not document the $50. As a result, the $50 cash was not returned to the owner.

Furthermore, the release of cash totaling $1,995 was not adequately documented. On June 18, 2010, the Sheriff released $5,371 of seized cash to its owner. While documentation was properly signed by the receiving person and releasing officer for $3,376, there was no documentation regarding the other $1,995 released. The owner was contacted and indicated the $1,995 had been returned.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, misuse, or theft of the stored items. In addition, the database, incident reports, and seized property logs should agree, and include information such as description, persons involved, current location, case number, date of seizure, and disposition of such property. Furthermore, adequate documentation should be maintained to support the chain of custody and release of seized property.

Recommendation

The Sheriff limit access to the seized property room and establish procedures to ensure accurate information is recorded on seized property logs and incident reports.

Auditee's Response

The Sheriff provided the following response:

This will be done.

3. 911 Fund

The county is experiencing declining 911 revenues and may need additional funding to continue the 911 service. The county does not track the number of calls handled for the various political subdivisions or the volume of emergency and nonemergency dispatching services to determine the cost associated with dispatching services.

3.1 Financial condition

The cash balance of the 911 Fund has declined in the past 2 years and the county has not developed long-range plans for equipment upgrades and related funding for the 911 operation. The 911 Fund is funded primarily by an emergency telephone tax, reimbursement for dispatching services, and transfers from the General Revenue Fund and the Law Enforcement Sales Tax Fund (LESTF). The following table reflects the ending cash balances for the last 3 years and the projected ending balance for 2011 obtained from the county's budget documents:

		December 31,			
		* 2011	2010	2009	2008
Ending Cash Balance	$	1,901	17,878	38,101	18,638

* Projected

While receipts have generally remained constant, disbursements have increased and the General Revenue Fund has subsidized the 911 Fund for the last 3 years by transferring monies generated from the local use tax levy. In addition, in 2011, there were large unexpected equipment purchases, including recorders ($9,524) and a radio system ($77,535). Not all dispatching services costs are recovered (see section 3.2). As a result of the 911 Fund's poor financial condition, the General Revenue Fund purchased the radio system.

Rapid advances in communications technology are continuing to pose major challenges to current 911 systems that will require changes in the near future such as upgrading equipment to include the capabilities to locate an individual calling from their cell phone. The County Commission indicated the cost is estimated to be over $100,000 plus software and maintenance of $22,000.

With the lack of increases in funding levels and increased costs, the 911 Fund cannot adequately set aside monies for future contingencies such as equipment upgrades or replacements. Efforts should be made to address the immediate and long-term aspects of these operations. The County Commission needs to develop a written plan to improve the financial condition of the 911 Fund.

3.2 Dispatching services

The county has not documented its basis for transferring amounts from the LESTF to the 911 Fund or for determining the amounts to charge other

entities for dispatching services. The 911 center provides emergency and non-emergency dispatch services to various political subdivisions. The county has entered into annual fee agreements with 6 out of the 10 political subdivisions that are provided dispatching services. The county transferred $30,000 and $35,000 in 2010 and 2009, respectively, from the LESTF to the 911 Fund for the Sheriff's department calls. However, the County Commissioners could not recall how the amounts charged to the LESTF and the other entities were derived. In 2008 and 2009, the 911 Director provided the County Commission with the number of calls handled for the Sheriff's department and the City of Bethany. The County Commissioners stated the majority of the call volume comes from these two entities, but the county had no documentation to show how this data was used in determining the transfer and contract amounts.

The county should base its transfer and contract amounts on a measure of actual activity or some comparable basis and document the basis. These actions are necessary to ensure the amounts charged other entities are reasonable and to ensure compliance with the restrictions on the allowable uses of the LESTF.

Similar conditions previously reported

Similar conditions were noted in our prior audit.

Recommendations

The County Commission:

3.1 Continue to closely monitor the financial condition of the 911 Fund. In addition, the County Commission should develop a written long-term plan to reduce costs, increase receipts, and determine future equipment needs.

3.2 Determine the costs associated with dispatching services and base the transfers from the LESTF to the 911 Fund, and its contracts with political subdivisions for dispatching, upon a measure of actual activity or some comparable basis. In addition, documentation of the calculation and data that supports it should be maintained.

Auditee's Response

The County Commission provided the following responses:

3.1 We will continue to monitor the financial condition. We will try to develop a plan of anticipated receipts and disbursements for the next several years based on various funding sources.

3.2 We will review the statistics of the calls handled and the expenses of the dispatching services provided, and we will perform and document a calculation to determine the amount of the transfer to

be made from the LESTF and to be charged to other political subdivisions. We will try to obtain contracts with all political subdivisions that are provided dispatching services.

Harrison County
Organization and Statistical Information

Harrison County is a township-organized, third-class county. The county seat is Bethany.

Harrison County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. The townships maintain county roads. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. The county employed 46 full-time employees and 8 part-time employees on December 31, 2010.

In addition, county operations include the Senior Citizens' Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2011	2010
Jack W. Hodge, Presiding Commissioner	$	25,760
Roger D. Gibson, Associate Commissioner		23,760
George Bowles, Associate Commissioner		23,760
C. Sherece Eivins, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Sherry Seltman, County Clerk		36,000
R. Cristine Stallings, Prosecuting Attorney		43,000
George W. Martz, Jr., Sheriff		40,000
Jeremy Eivins, County Coroner		10,000
Kimberly King, Public Administrator		36,000
Cheryl Coleman, County Collector-Treasurer, year ended March 31,	36,000	
Lila Mae Craig, County Assessor , year ended August 31,		36,000

(1) Compensation is paid by the state.

Financing Arrangements

The county entered into a lease purchase agreement with Municipal Financial Group (MFG) for the county law enforcement center. The terms of the agreement called for the county to lease the real estate to MFG, which constructed the facility, and then lease purchase the facility from MFG with lease payments equal to the amount due to retire the indebtedness. Construction of the facility was completed in 2003. The lease is scheduled to be paid off in the year 2022. The remaining principal due on the lease at

December 31, 2010, was $1,254,677. The lease is paid with proceeds from the one-half cent law enforcement sales tax which took effect on October 1, 2002.

American Recovery and Reinvestment Act of 2009 (Federal Stimulus)

Harrison County did not receive any federal stimulus monies during the 2 years ended December 31, 2010.

Enrollment and Attendance Recording and Reporting

September 2011

Report No. 2011-66

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of St. Louis Public School District, Patrick Henry Downtown Academy, Enrollment and Attendance Recording and Reporting

Background

The State Auditor's office received substantial, credible information alleging school attendance and enrollment data was being falsified at Patrick Henry Downtown Academy (Henry Elementary). Because of the severity of the allegations and the risk that evidence would be destroyed, the State Auditor sent the rapid response team to gather evidence and ensure its preservation. The team collected documentary evidence, conducted interviews, and took the sworn testimony of four school/district employees.

From the evidence collected, it appears enrollment and attendance data was being manipulated, which overstated attendance. This may have helped the school meet Adequate Yearly Progress (AYP) under the federal *No Child Left Behind Act of 2001* and possibly resulted in additional federal funding. Because of weaknesses in the school's computer system, the State Auditor's office was not able to determine who was responsible for the data manipulation, but one employee testified, under oath, that Principal Esperanza Veal instructed her to manipulate the data.

Attendance Data

The State Auditor's office conducted several different tests and found numerous discrepancies between manual attendance records (completed by teachers) and the official attendance data entered into the computerized Student Information System (SIS) by office personnel. Each time, the net effect of these discrepancies inflated attendance, which supports the testimony that attendance and enrollment data was intentionally manipulated.

Henry Elementary has shown significant unexplained increases in attendance, increasing over 12 percent from 2007 to 2010, and it had the district's highest elementary school attendance percentage (97.3 percent) in 2010. In addition, withdrawn students were not timely withdrawn in the SIS. Since teachers do not always mark withdrawn students absent on the manual attendance forms, withdrawn students could be shown as present in the SIS. Some withdrawn students were also counted in membership and enrollment counts, which affected federal funding.

Prior to 2011, the school did not record out-of-school suspensions in the SIS, therefore some students on out-of-school suspension were counted as present. Also, according to sworn testimony, during fiscal year 2010, the Principal told a front office employee to "clean up" attendance by identifying all students with five or more absences in the year and changing each of those absences to tardies in the SIS. The State Auditor's office confirmed for fiscal year 2010, there was a significant decrease in absences and a corresponding increase in tardies.

District-wide System Controls	The SIS does not adequately limit or electronically track when or by whom changes are made in the system, leaving the data subject to unauthorized or erroneous changes.
Attendance Procedures	District policy requires each teacher to enter attendance data directly into the SIS each day. At Henry Elementary, however, teachers were required to complete manual attendance forms, and a member of the office staff entered the data into the SIS. According to sworn testimony, Principal Veal directed changes be made to the data after it was entered into the SIS, without documentation to support the changes, and without teacher approval of the changes. Henry Elementary did not document late arrivals or early departures, although district policy requires they be documented to track the total minutes a student is present each day, which affects attendance percentages. District policy allows elementary students to be withdrawn by the principal or school official only in certain circumstances. For the 3 years ended June 30, 2011, we found 40 students withdrawn from Henry Elementary and re-enrolled in less than 3 weeks. A review of 11 of these students found 3 did not appear to be withdrawn for reasons allowed by district policy. One of these students was withdrawn due to an illness lasting only about 10 days, but policy only allows a student to be withdrawn due to extended illness if it is expected to last 3 weeks or longer and there is no expectation the student will recover in time to complete the semester. Withdrawing students for short-term absences inflates attendance percentages, because withdrawn students are not counted as absent during the time they are listed as withdrawn.

Because of the nature of this rapid response audit, no overall rating is provided.

American Recovery and Reinvestment Act 2009 (Federal Stimulus)	Not applicable.

THOMAS A. SCHWEICH
Missouri State Auditor

To the Special Administrative Board
and
The Board of Education
St. Louis Public School District

The State Auditor conducted an audit of certain operations of the St. Louis Public School District, Patrick Henry Downtown Academy, Enrollment and Attendance Recording and Reporting, under authority granted in Section 29.205, RSMo. Enrollment and attendance recording and reporting recently became a concern when the State Auditor received specific credible information regarding attendance data at the Patrick Henry Downtown Academy (Henry Elementary). The State Auditor evaluated the information provided and determined the concerns met the criteria for activating the Auditor's Swift Assessment Program. The objectives of our audit were to:

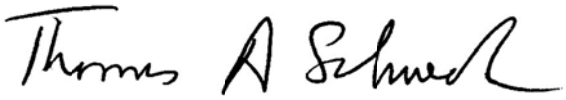
1. Evaluate the accuracy of Henry Elementary's enrollment and attendance reports.

2. Evaluate Henry Elementary's internal controls over enrollment and attendance recording and reporting.

3. Evaluate Henry Elementary's compliance with certain legal provisions concerning enrollment and attendance.

For the areas audited, we identified (1) inaccurate enrollment and attendance data, (2) deficiencies in internal controls, and (3) noncompliance with legal provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.



Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Alice M. Fast, CPA, CGFM, CIA
Audit Manager:	Susan J. Beeler, CPA, CIA
In-Charge Auditor:	Robert McArthur II
Audit Staff:	M. M. Williams

St. Louis Public School District, Patrick Henry Downtown Academy Enrollment and Attendance Recording and Reporting Introduction

Background

On April 24, 2011, the Office of the State Auditor received substantial, credible evidence alleging that misrepresentation, fraud, and/or violations of state or federal law had occurred and were occurring at Patrick Henry Downtown Academy (Henry Elementary) regarding the falsification of school attendance data. As a result, on May 2, 2011, the State Auditor activated the Auditor's Swift Assessment Program (ASAP) and served subpoenas on designated administrators and staff of the St. Louis Public School District to ensure the preservation of evidence and to compel testimony.[1]

The State Auditor's office began conducting interviews and reviewing files immediately because the end of the school year was fast approaching and many Henry Elementary employees would be out for the summer, and because immediate action was needed to prevent the possibility of additional alterations of enrollment and/or attendance records.

On May 5, 2011, the State Auditor and his staff met with the Superintendent and other district officials to discuss the school attendance issue. On May 17, 2011, attorneys of the State Auditor's office took the testimony of several Henry Elementary employees, including a district employee, a front office employee, and two teachers. This testimony was given under oath and was recorded by a court reporter. At the time of the depositions, these individuals provided notes, memorandums, communications, documents, and other materials related to student attendance, enrollment, discipline, absences, and transfers. The State Auditor's office also subpoenaed Ms. Esperansa Veal, Henry Elementary Principal, but she refused to provide testimony.

In her sworn deposition, a member of the Henry Elementary staff alleged, under oath, that Principal Esperansa Veal ordered the falsification of attendance data. The three other employees also testified that attendance data was falsified, but for reasons described later, they could not say who was responsible for the falsification.

[1] The State Auditor activates the ASAP when there is substantial, credible evidence to believe there is:

(1) Fraud, violations of state or federal law, rule or regulation, or significant misappropriation, mismanagement, or waste of public resources; or
(2) Significant risk of loss of confidence of the people in their government due to fiscal abuse or mismanagement; and
(3) The need for immediate action to preserve relevant evidence and/or prevent continued harm.

Henry Elementary

Henry Elementary is a pre-kindergarten through sixth grade elementary school located in downtown St. Louis. As of June 2011, Henry Elementary was staffed by approximately 20 teachers and had an enrollment of 274 students. Ms. Veal became principal of Henry Elementary in July 2007 (fiscal year 2008) and was placed on administrative leave on or about May 9, 2011.

Elected School Board

Members of the St. Louis Public School District elected board at June 30, 2011, were:

Katherine Wessling, President
David L. Jackson, Jr., Vice President
Chad Beffa, Secretary
Donna Jones
Rebecca Rogers
Emile Bradford-Taylor
Bill Haas

Special Administrative Board

Members of the St. Louis Public School District special administrative board at June 30, 2011, were:

Rick Sullivan, President/CEO
Melanie Adams, Vice President
Richard Gaines, Comprehensive Long Range Plan Chair

Superintendent

The district's superintendent at June 30, 2011, was Dr. Kelvin Adams.

Scope and Methodology

The scope of the audit included, but was not necessarily limited to, the 3 years ended June 30, 2011. The district engaged RubinBrown LLP, Certified Public Accountants & Business Consultants (CPAs), to audit the district's financial statements for the years ended June 30, 2009, 2010, and 2011. To minimize duplication of effort regarding enrollment and attendance recording and reporting, we reviewed the audit report and attendance- and enrollment-related working papers of the CPA firm for the 2 years ended June 30, 2010 and 2009; however, the 2011 audit was not yet completed.

Our methodology included reviewing the documents and testimony gathered as a result of the subpoenas to determine whether school attendance data had been falsified as alleged. In addition, we reviewed the district's written policies and procedures, procedures followed at Henry Elementary, enrollment and attendance records, and other pertinent documents, and interviewed various personnel of the district and Henry Elementary, as well as certain external parties. We also reviewed selected attendance data for the 3 years ended June 30, 2011.

To evaluate internal controls over Henry Elementary's enrollment and attendance recording and reporting, we reviewed district policies and procedures, as well as Henry Elementary's procedures. The St. Louis Public School District utilizes the computerized Student Information System (SIS) to track various student data, including enrollment/withdrawal dates, daily attendance, grades, disciplinary actions, etc. School-level personnel enter this data into the SIS, and district central office personnel upload certain data for the entire district quarterly to the Missouri Department of Elementary and Secondary Education (DESE).

District policies require each teacher to record student attendance in the SIS on a daily basis; however, until May 2011, most teachers at Henry Elementary manually recorded attendance on 2-week attendance sheets provided by Henry Elementary office personnel which listed each teacher's roster of students on a 2-week grid. The teachers turned these sheets into the office each day, and the School Secretary entered the attendance data into the SIS. Not until May 2011, did Henry Elementary teachers begin entering their classroom attendance directly into the SIS rather than using the manual attendance sheets. Each year, teachers at Henry Elementary also prepare a manual S-1 Attendance Record (S-1) for each student which records daily attendance, summarized by quarter and semester. The S-1s are maintained in each student's manual file in the Henry Elementary office for each year the student attends Henry Elementary. In addition, teachers manually record student absences on Report on Absence of Pupil forms (A-2 forms) for school social workers when intervention is required to improve student attendance.

To evaluate the accuracy of Henry Elementary's enrollment and attendance reports, we compared the various manual records mentioned above to the SIS to determine if absences and tardies marked on the manual records were recorded in the SIS and vice versa.

To evaluate Henry Elementary's compliance with certain legal provisions, we obtained an understanding of legal requirements related to enrollment and attendance reporting. We determined state and federal funding, as well as reporting under the federal *No Child Left Behind Act of 2001* are affected by school attendance data. This Act includes annual proficiency targets, participation rates, and attendance/graduation rates to demonstrate students are making Adequate Yearly Progress (AYP). If a school fails to meet AYP requirements for 2 consecutive years, it is placed in school improvement status and must, among other things, implement a school improvement plan, notify parents of the school improvement status, and allow students to transfer to other public or charter schools. If the school continues to fail to meet AYP requirements, additional action is required.

St. Louis Public School District, Patrick Henry Downtown Academy Enrollment and Attendance Recording and Reporting Management Advisory Report - State Auditor's Findings

1. Attendance Data

Patrick Henry Downtown Academy (Henry Elementary) attendance, enrollment, and membership data for fiscal year 2011, compiled through June 2, 2011, the end of the school year, did not appear complete or accurate and appeared to have significantly overstated actual attendance. Similar issues were noted with fiscal year 2010 and 2009 attendance data. Analysis of attendance data reported for the 4 years ended June 30, 2010, showed significant unexplained increases in attendance for Henry Elementary (see Appendix).

Schools are required to track attendance accurately. Excessive absences, late arrivals, or tardies may indicate that a student is at-risk and needs intervention, and the Missouri Department of Elementary and Secondary Education (DESE) uses attendance data to determine the appropriate amount of state and federal funds to give each district. The higher a district's attendance percentage, the more funds it receives. Absences and late arrivals reduce the amount of funding a district receives.[2] The DESE also relies, in part, upon such data to determine whether a school is complying with state and federal statutes and regulations.

Analytical analysis

An analysis of Henry Elementary attendance data for the 5 years ended June 30, 2011, showed significant unexplained fluctuations, as follows:

	2011		2010		2009		2008		2007
	Attendance		Attendance		Attendance		Attendance		Attendance
Elementary Schools	Percentage	Change	Percentage	Change	Percentage	Change	Percentage	Change	Percentage
Henry Elementary	94.6	-2.70%	97.3	3.80%	93.5	4.10%	89.4	4.20%	85.2
District Average	92.9	-0.10%	93.0	0.40%	92.6	0.30%	92.3	0.30%	92.0

In fiscal year 2010, Henry Elementary reported a 97.3 attendance percentage, enabling it to rank first among district elementary schools and meet its Adequate Yearly Progress (AYP), which is part of the *No Child Left Behind Act of 2001*.

As of the end of the 2011 school year, Henry Elementary's attendance percentage had dropped to 94.6, which is still well above the district average of 92.9 for elementary schools. Because the district did not provide us with detailed daily attendance data for fiscal year 2011, we could not determine when the daily attendance percentages began to decrease.

Between fiscal year 2007 and 2010, Henry Elementary experienced annual increases in attendance percentage of over 3 percent, or a total increase of

[2] Late is defined as arriving late by 30 minutes or more, while tardy is arriving late by less than 30 minutes and does not affect funding.

more than 12 percent from 2007 to 2010. Part of the increases during fiscal years 2008 through 2010 at Henry Elementary can be attributed to virtual students participating in courses from their homes via computer; however, virtual students represented less than 20 percent of Henry Elementary students for fiscal year 2010 and did not significantly affect overall attendance percentages. Over this same timeframe, only 2 of the approximately 40 other elementary schools in the district experienced a greater than 3 percent increase in attendance percentage for the period from 2007 to 2010 (see Appendix).

Manual records vs. SIS

We compared several different manual attendance records maintained at Henry Elementary to attendance data recorded in the computerized Student Information System (SIS) and noted numerous unexplained or undocumented discrepancies between manual records and the SIS. We noted absences and tardies marked on the manual records that were not in the SIS, as well as absences and tardies marked in the SIS that were not on the manual records. However, there were significantly more absences and tardies recorded on the manual records that were not in the SIS than there were the other way around. This fact suggests manipulation of the data to reflect better than actual attendance.

In her sworn deposition, a Henry Elementary front office employee stated, under oath, that the Principal instructed her to make changes to attendance data in the SIS. On several occasions, the Principal told her after the daily preliminary attendance report was run that specific children marked absent were actually present and to change their absences to tardies prior to finalizing the daily attendance each day. In addition, she stated the Principal often instructed her to change individual student attendance records after finalizing the daily student attendance. She indicated that she did not believe these changes were accurate or appropriate.

In order to test the accuracy of such testimony, we performed various tests using the Henry Elementary attendance data. Due to the nature of these tests, some students were included in more than one test. The following are the detailed tests we performed:

- We selected 60 Henry Elementary student manual files for the 3 years ended June 30, 2011, and noted numerous discrepancies between the manual S-1 attendance records and the SIS. The results are as follows:

	2011	2010	2009
Absences or tardies on S-1, but not in the SIS	96	100	51
Absences or tardies in the SIS, but not on S-1	53	67	27

During our interviews with Henry Elementary staff, five students were specifically identified to us as likely to have incorrect attendance data in the SIS, so we compared the manual S-1 Attendance records and the SIS for these five students also. For these five students, we noted 34 absences and tardies on S-1s that were not recorded in the SIS, and 17 absences and tardies recorded in the SIS that were not on the S-1s during fiscal year 2011.

- In a sworn deposition, a district employee indicated she and her supervisor were asked by the district Central Office in May 2011 to verify Henry Elementary student attendance for fiscal year 2011 by comparing manual attendance records (S-1s or 2-week attendance sheets) obtained from Henry Elementary teachers to data recorded in the SIS. Although they had not completed their review at the time of the deposition, they found numerous discrepancies between the manual attendance records and the SIS for the students they reviewed. We re-tested approximately 30 of the 160 students they reviewed and selected another 56 students to test which they had not reviewed. In total, for the 86 students we reviewed for fiscal year 2011, we noted 355 absences and tardies on the teacher records that were not recorded in the SIS, and 52 absences and tardies recorded in the SIS that were not on the teacher's manual records, which suggests manipulation of the data to inflate attendance percentages.

- A Henry Elementary employee also provided 53 manual Report on Absence of Pupil forms (A-2 forms) to us. These forms are used by teachers to record student absences and are subsequently forwarded to the social worker when, for example, the student has accumulated three consecutive unexcused absences and early intervention is required to improve student attendance. We compared all 53 of the A-2 forms to the SIS data. In total for fiscal year 2011, we noted 119 absences and tardies on the A-2 forms that were not recorded in the SIS, and 18 absences and tardies recorded in the SIS that were not on the A-2 forms, again suggesting the manipulation of attendance data to inflate attendance percentages.

- In a sworn deposition, a Henry Elementary teacher indicated she began to compare her manual 2-week attendance sheets for fiscal year 2011 to data recorded in the SIS after she started to note some discrepancies. The teacher indicated she was only able to complete a review of 22 of her 28 students prior to our subpoena. We verified her analysis for 5 of the 22 students she reviewed and determined her analysis was accurate. We also tested the remaining six students which she had not reviewed. For the 28 students analyzed in her class, a total of 232 absences and tardies were noted on her 2-week attendance sheets that were not recorded in the SIS, and 44 absences and tardies recorded in the SIS were not on her manual 2-week

attendance sheets. In addition, she noted 32 instances in which someone else changed absences to tardies on her 2-week attendance sheets, which may have overstated attendance.

- We selected an additional 10 of the 45 completed manual 2-week attendance sheets from fiscal year 2011 provided to us from various sources. For the 10 manual 2-week attendance sheets reviewed, attendance for approximately 130 students was tracked on these sheets for the respective 2-week period. In total, our review of these 130 students noted 54 absences and tardies on the 2-week attendance forms that were not recorded in the SIS and 10 absences and tardies recorded in the SIS that were not on the 2-week attendance forms, suggesting attendance data percentages were overstated.

  We were given only 45 manual 2-week attendance forms for fiscal year 2011 that appeared complete, and we were not given any of these forms for prior years. Henry Elementary teachers told us that normally the folders used to carry the manual forms back and forth from the office to the classrooms contained all of the manual forms for the entire year; however, sometime in the spring of 2011, someone removed the manual forms from earlier in the year and left only the most current manual forms in the folders. In May 2011, current Henry Elementary office personnel told us they did not know what happened to these forms.

- We also scanned all 2011 manual attendance records (S-1s or 2-week attendance sheets) available to us to identify students who had been recorded as absent three or more consecutive days. We noted 125 instances of three or more consecutive absences recorded in the manual records. When we compared the manual records for these students to the information entered in the SIS, we noted 176 individual absences on the manual attendance records that were not recorded in the SIS or were recorded as tardies, and 5 individual absences recorded in the SIS that were not on the manual attendance records, which suggests manipulation of the data to overstate attendance.

- In his sworn deposition, a Henry Elementary teacher told us his manual attendance records disappeared from his classroom during the school year, and were not available for us to review. This teacher said his classroom door was, "kicked out," and his attendance records were missing from his desk.

We combined the results of the above-described tests and removed any duplicate students. The combined results are as follows:

	2011	2010	2009
Students tested	214	24	16
Error rate for students tested	68%	83%	94%
Absences or tardies on manual records but not in the SIS	803	100	51
Absences or tardies in the SIS, but not on manual records	187	67	27

Due to the lack of controls, particularly the inability to track changes and who made them in the SIS (See MAR finding number 2), we cannot state with certainty who altered the Henry Elementary attendance records. But, it appears that attendance records were altered, overstating actual student attendance, and the sworn testimony we obtained suggests the Principal directed these changes.

Withdrawn students

Henry Elementary did not consistently record students as withdrawn on a timely basis, so students stayed active in the SIS longer than appropriate. Since the SIS automatically counts an enrolled student as present unless an absence is entered, if a student withdraws from school and is no longer being marked absent by the teacher but the SIS is not updated to show the student as withdrawn, the student will be counted as present in the SIS. This artificially inflates the school's attendance. Likewise, because the SIS reports did not include the attendance data for some students prior to their withdrawal dates, Henry Elementary's attendance was misstated for these days.

Based on sworn depositions taken from three Henry Elementary employees, students remained on class rosters long after they stopped attending classes. A district employee had discussions with the teachers, parents, and other schools in which the students were enrolled, and verified these students no longer attended Henry Elementary, but the SIS still listed many as enrolled. After the employee raised this issue, these students were changed to withdrawn in the SIS; however, the withdrawal dates entered for many of the students did not agree with information provided by other sources. Ultimately, more appropriate withdrawal dates were entered for many of these students, but the attendance data in the SIS from the final withdrawal date to the current date was erased. As such, we were unable to determine if Henry Elementary improperly reported any of these students as present for any days after the final withdrawal date entered into the SIS.

In addition to reviewing the provided documents and sworn testimony, we scanned Henry Elementary attendance data for withdrawn students. Our analysis of attendance data recorded through June 2, 2011, revealed 38 students in fiscal 2011, 4 students in fiscal year 2010, and 2 students in fiscal year 2009 enrolled and later withdrew, but no enrollment or

attendance data was reflected in the SIS reports. Upon further investigation, we determined that, because the students had been dropped from the SIS attendance module, their enrollment and attendance data was not shown on the SIS reports; however, we noted the withdrawal dates entered into the SIS were later than the recommended withdrawal dates, which may need to be corrected so that attendance for these students is accurately reflected in the SIS reports (see additional discussion in the enrollment/membership counts section below).

Enrollment/membership counts

Some students were included in enrollment and membership counts and then later listed in the SIS as withdrawn on a date before the counts occurred. If the students had already withdrawn by the date of the counts, they should not have been included in the counts, because this would overstate enrollment and/or membership for the count dates and could improperly increase federal funding for Henry Elementary.

In conjunction with our review of withdrawn students, we reviewed the accuracy of Henry Elementary enrollment and membership counts reported to the DESE for the 3 years ended June 30, 2011. Enrollment counts are used to determine the number of resident and nonresident students enrolled which affects the amount of federal funding a school receives, while membership counts determine, by grade, how many resident students are enrolled and in attendance at least 1 of the 10 previous school days. An enrollment count and a membership count are performed the last Wednesday of September, and another membership count is performed on the last Wednesday of January.

Enrollment and membership count discrepancies noted in fiscal year 2011 involved withdrawn students. For January 2011, we noted 11 students counted whose withdrawal dates were later backdated to dates prior to the count day. We also noted three students counted who had no enrollment or attendance reflected in the SIS reports. For September 2010, we noted five students counted whose withdrawal dates were backdated to dates prior to the count day. We also noted 34 students counted who had no enrollment or attendance recorded in the SIS reports. In addition, we noted two more students counted who appeared to have been enrolled in August and September 2010, then withdrew in September, but no attendance was reflected in the SIS reports.

In analyzing the September 2010 counts, we also noted approximately 20 students who were included in the counts and then withdrawn on September 30, 2010, the day after counts were taken. Each student appears to have been dropped from the SIS attendance module, so their enrollment or attendance was not shown on the SIS reports. District staff reattached a student to see what his attendance data would show. This student was recorded in the SIS as attending August 16, 2010, thru September 30, 2010.

Within this timeframe two absences were also recorded. This may explain why this student shows up on the September enrollment and membership counts.

Discipline incidents

Based upon sworn testimony of a district employee, Henry Elementary does not accurately record discipline incidents in the SIS. In April 2011, this employee sent an e-mail message to the School Secretary and Principal informing them the SIS attendance needed to be updated to show out-of-school suspensions. Until then, some students on out-of-school suspension were reflected in the SIS as being present. Appropriate changes were eventually made for most students for 2011, but it appears this was the first time Henry Elementary recorded out-of-school suspensions in the SIS; our analysis of the SIS data for fiscal years 2010 and 2009 showed Henry Elementary recorded no suspensions.

Out-of-school suspensions are the equivalent of an absence when calculating a student's average daily attendance percentage reported to, and used by, the DESE for funding and oversight purposes.

Attendance clean up

Absences were incorrectly changed to tardies in the SIS during fiscal year 2010, thereby overstating Henry Elementary's attendance data. In her sworn deposition, a Henry Elementary front office employee explained that during fiscal year 2010 the Principal told her to "clean up" attendance based on an e-mail message from the superintendent related to the district's "Student Attendance Review and Clean-Up Process." At the Principal's direction, she identified students with five or more absences and changed each of those absences to tardies in the SIS, although she did not believe these changes were accurate or appropriate.

To test the accuracy of this testimony, we analyzed fluctuations in absences and tardies for the 3 years ended June 30, 2011, in the table below:

	Year Ended June 30,					
	2011		2010		2009	
	Students	Days	Students	Days	Students	Days
5 or more absences	218	2,341	115	949	155	2,446
5 or more tardies	32	449	102	1,090	21	247

In fiscal year 2010, there was a significant decrease in absences and a corresponding increase in tardies, which supports the testimony that attendance records were manipulated to overstate attendance. The district's "Student Attendance Review and Clean-Up Process" is intended to review and validate attendance for all students and ensure accurate withdrawal

dates for withdrawn students; it does not instruct schools to change absences to tardies for any students with five or more absences.

Conclusion

According to sworn testimony, Henry Elementary attendance data was falsified resulting in overstated attendance. In every one of the many tests described above, the auditors discovered differences between manual attendance records and the SIS, and every time the net effect of the discrepancies was to increase attendance percentages, not decrease them. This suggests that the sworn testimony was correct and attendance data was manipulated to inflate attendance percentages.

If school attendance is not accurately recorded, at-risk students may not receive needed intervention and/or referral for additional services. In addition, attendance records may be relied upon in legal proceedings, such as cases of truancy or domestic matters, and inaccuracies in these could undermine the integrity of such proceedings.

Enrollment and attendance data also provide the DESE with basic data used to generate various state and federal payments and to determine compliance with state and federal statutes and regulations, including Adequate Yearly Progress (AYP) under the *No Child Left Behind Act of 2001*. Overstating attendance may result in the district receiving more funding than it is entitled to and/or may impair the ability of the DESE to monitor the school's performance effectively. As of the end of the school year, discrepancies discussed throughout the report had not been corrected. Schools have up to 5 years to correct attendance data in the DESE computer system. However, since DESE funding is based on the weighted average daily attendance for the previous 3 years, the changes should be made as soon as possible to ensure funding is allocated appropriately.

Recommendations

The St. Louis Public School District Special Administrative Board:

- Address discrepancies between manual records and the SIS records, including unusual fluctuations in Henry Elementary student attendance, procedures for student withdrawals, recording of out-of-school suspensions, and absences being changed to tardies.

- Determine whether any students were improperly counted in enrollment counts and/or membership counts and report any corrections to the counts.

- Investigate allegations Principal Veal directed that unverified and/or invalid changes be made to data entered in the SIS.

- Investigate allegations that records were stolen, destroyed, or altered.

- Update and correct the attendance data submitted to the DESE as appropriate.

Auditee's Response

The St. Louis Public School District Special Administrative Board provided the following written response:

It is the written policy of the St. Louis Public School District ("District") that all schools maintain accurate data relating to student attendance, enrollment, and discipline. In addition, the District has policies and procedures in place describing how and when such data should be recorded in the District's Student Information System ("SIS"). The findings of this audit regarding the manner in which attendance and enrollment data were recorded and reported at Patrick Henry Downtown Academy ("Henry") raise several important concerns that the District will address more fully below. Notwithstanding these concerns, the District is encouraged by one aspect of the audit relating to the attendance data as described in the Appendix. In general, the attendance data set forth in the Appendix is consistent with the findings of the District's May 2011 internal review of attendance and enrollment procedures utilized at multiple District school sites. Consistent with the data contained in the Appendix of this report, the District's review did not produce information suggesting that the findings set forth herein relating to Henry are indicative of a District-wide pattern of school sites failing to follow District attendance and enrollment data collection procedures and/or purposely inflating attendance figures.

In May 2011, in response to the State Auditor's announced audit of the attendance and enrollment practices at Henry, the District initiated a "Process Follow Through" review of the procedures being utilized at various school sites throughout the District concerning standardized testing, attendance, enrollment, discipline and the recording of student grades. The District provided an Executive Summary of the results of the Process Follow Through to the State Auditor's Office. The Process Follow Through involved central office staff conducting on-site visits at thirty (30) school sites and interviews of eighty-seven (87) individuals regarding the actual procedures utilized at each location (12 Elementary; 11 Middles Schools; 7 High Schools). In general, the results of the Process Follow Through indicated overall compliance with District attendance and enrollment procedures. However, consistent with some of the finding of this audit report, the Process Follow Through did assist in identifying current practices and procedures the District can update or revise that will increase the accuracy and reliability of student data collection.

The District considers the findings and conclusions of the State Auditor's Office regarding the operations at Henry significant. The Auditor's report repeatedly references sworn testimony alleging that attendance data from the Henry school site was falsified and that District procedures for recording attendance and enrollment were not followed. In addition, the audit report cites sworn deposition testimony in which individuals state they were instructed to record information they did not believe was accurate or appropriate into the SIS. The District considers the issues raised in the report to be of grave concern and fully intends to follow-up on the testimony and findings referenced herein as they relate to operations at Henry. As described more fully in the District's responses set forth in Sections 2 and 3 below, the District is implementing additional processes and procedures to increase the District's ability to detect such activity in the future.

In addition, the District will undertake the following data reconciliation actions to ensure the accuracy of the Henry data:

<u>Henry School - Data Reconciliation</u>

- *Review and update student enrollment and withdrawal data as needed for Henry School (3 years)*
- *Review and update student attendance history for all Henry School students (3 years)*

  Obtain copies of all manual enrollment and attendance documents (including S-1, A-2, manual rosters, forms from teachers, others)

  Reconcile enrollments and withdrawals

  Reconcile absences, late arrivals, early dismissals, out of school suspensions, etc.
- *Generate updated enrollment counts and attendance percentages (3 years)*
- *Provide report containing updated data; show impact/actual results of reconciliation process*
- *Submit appropriate changes/updates to DESE/MOSIS*

2. District-wide System Controls

The SIS does not adequately limit or electronically track when or by whom changes are made in the system, nor does it track the reason the changes are made. Without tracking or limiting changes in the SIS or requiring teachers to approve any changes to attendance recorded for their classroom, the data is subject to unauthorized or erroneous changes which may significantly

affect attendance reported to the DESE or school social workers for further follow up and possible student intervention.

District policies state daily student attendance is to be recorded in the SIS by each teacher. A preliminary attendance report is run each day by each school's office personnel and reviewed by school officials for accuracy before finalizing the daily attendance. If any changes need to be made to attendance before finalizing the daily attendance, or at a later date when a correction needs to be made, the changes can be made by each school's office personnel. However, the SIS does not track changes and does not require the reasons for any changes be documented. In addition, the teachers are not required to verify the attendance changes that affect the students in their classrooms or to approve final daily attendance reports.

Making legitimate changes to attendance data in the SIS is necessary if a student arrives late or leaves early. In addition, it is a necessary step in the reporting process and must be done before attendance can be certified to the DESE. However, changes should be tracked and approved to ensure their accuracy, and therefore, the accuracy and reliability of the attendance data.

Recommendation

The St. Louis Public School District Special Administrative Board implement additional controls and procedures to ensure student attendance data is accurately recorded and reported, including requiring teachers to verify any attendance changes. If changes are necessary, the board should ensure the changes are adequately documented and approved.

Auditee's Response

The St. Louis Public School District Special Administrative Board provided the following written response:

According to the audit report, the evidence and data compiled and reviewed by the Auditor's Office suggests that the testimony indicating attendance data was purposefully manipulated to inflate attendance percentages was correct. The District notes that it cannot prevent every instance of purposeful violation of District policies and procedures; however, the District is prepared to implement controls and processes that will aid in detecting and investigating anomalies in student attendance and enrollment data as soon as possible. Toward this goal, the District is:

1. *reviewing current attendance and enrollment related policies and procedures to increase accountability controls by developing a policy establishing a management approval process for making changes to the SIS that will include consequences for any person making an unauthorized change in the SIS;*

2. *reviewing and considering additional controls and procedures to improve its ability to manage employee access to the SIS, including developing mechanisms to track changes to student data;*

3. *consulting with the SIS software developers to create an automated audit trail system within SIS to automatically record the date, time, and user identification whenever data is entered or changed in the SIS;*

4. *implementing a policy requiring all users to manually record this information whenever they enter or change data in the SIS until this information can be recorded by the SIS automatically; and,*

5. *consulting with the SIS software developer to create a procedure for regularly scheduled automated backups of the SIS database to allow the District to preserve "point in time" data at regular intervals to enhance the District's ability to track changes in the SIS over a given period of time.*

In conjunction with the upgrades to the SIS described above, the District is also reviewing the efficacy of implementing a system of mandated periodic data reviews that will include quarterly student level attendance data review and certification of the data by building level administrators.

3. Attendance Procedures

Henry Elementary did not follow district procedures regarding daily student attendance, late arrival/early departure, or short-term withdrawals, which resulted in inflated attendance percentages.

3.1 Daily attendance

Changes made to attendance data in the SIS were not adequately documented or approved. At the end of each day a Henry Elementary front office employee prepared a preliminary attendance report and provided it to Principal Veal for approval before finalizing daily attendance. According to sworn testimony of the employee responsible for unlocking the main door to admit students who were tardy or late, Principal Veal directed changes to the attendance record for specific children marked absent because she said they were actually present that day, even though the employee had not admitted these children on the days in question. The employee made the changes to the attendance data as directed by the Principal.

There was no mechanism in place to verify the accuracy of such changes. Instead, changes directed by the Principal were made without asking teachers to verify any discrepancies between the SIS data and their manual records. As noted above, during our comparison of Henry Elementary manual attendance records to data recorded in the SIS, we noted numerous discrepancies for which there was no documentation or explanation (see MAR finding number 1).

Moreover, district policy requires teachers to enter daily student attendance in the SIS directly. This policy was not followed at Henry Elementary. Instead, manual 2-week attendance sheets (printed by school office personnel) were completed by most teachers and forwarded to the front office daily for entry into the SIS. When asked why attendance was not entered by the teachers, one front office employee indicated the Principal said that is how she wanted it done. Allowing teachers to enter data directly into the SIS removes one opportunity for data to be manipulated.

District attendance procedures should be followed at the school-level to help ensure the accuracy of attendance data entered into the SIS.

3.2 Late arrival/early departure

District procedures regarding the recording of late arrivals and early departures were not followed at Henry Elementary. Our analysis of Henry Elementary attendance data for the 3 years ended June 30, 2011, showed no late arrivals or early departures recorded in the SIS.

The SIS student attendance procedures indicate late arrivals or early departures are to be recorded to track the number of minutes a student is not present. This would then be reflected in the student's average daily attendance percentage reported to, and used by, the DESE for funding purposes.

In sworn depositions and subsequent interviews performed, many of the Henry Elementary teachers indicated students were either recorded as present or absent for the full day and there was nothing in between (i.e. if the student arrived late or left early, the student was credited as being present the full day). In addition, in a sworn deposition, the Henry Elementary front office employee responsible for issuing admission slips indicated they were not consistently used to document late arrivals; therefore, there would be no record showing these students were not at school the entire day.

Daily attendance for each student should be tracked by hours present to ensure attendance totals are accurate.

3.3 Short-term withdrawals

District procedures regarding the short-term withdrawal of students for illnesses were not always followed at Henry Elementary, resulting in inflated attendance percentages.

The district policy on withdrawal of students from school allows elementary students to be withdrawn by action of the principal or other school official only in the following circumstances: 1) death of the student, 2) absence of the student from school for 3 weeks or longer where after investigation the school is unable to determine the reason for the absence, 3) absence of the student from school for 3 weeks or longer due to extended illness where there is no basis for expecting the student to recover in time to complete the

semester, except where home teacher is being provided, 4) departure of the student from the city, loss of status as a resident, etc., or 5) enrollment of the student in a private school, parochial school, or public school outside the city.

Our analysis of Henry Elementary enrollment and withdrawal data for the 3 years ended June 30, 2011, showed approximately 40 students withdrawn and reenrolled less than 3 weeks apart. We selected 11 of these students to review. Eight students appeared to have been withdrawn as allowed by the district policy, either they transferred to a different school or moved out of the district. However, 3 of the 11 did not appear to be withdrawn for reasons allowed by the policy. In one example, the student was apparently withdrawn and reenrolled due to an illness lasting approximately a week and a half, which is not allowed by the district policy. As a result, this student was not recorded as absent on the days he/she was out sick, which artificially inflated the school's attendance percentage.

The district policy on withdrawal of students from school should be followed to help ensure the attendance data entered into the SIS is accurate and consistent between schools in the district.

Recommendations

The St. Louis Public School District Special Administrative Board:

3.1 Ensure all schools in the district comply with district attendance policies and procedures.

3.2 Ensure all schools in the district comply with district policies and procedures regarding late arrival and early departure.

3.3 Ensure all schools in the district comply with district policies and procedures regarding withdrawal of students.

Auditee's Response

The St. Louis Public School District Special Administrative Board provided the following written response:

The recommendations set forth in Section 3 of the report instruct the District to ensure compliance with various District policies and procedures regarding student attendance and enrollment recording and reporting. The District notes that the activities at Henry as described in this report were not in compliance with current policies and procedures. Instead, the report repeatedly concludes that the issues associated with student attendance and enrollment at Henry are likely the result of a purposeful attempt to circumvent District policies. It is impossible to create a set of policies and procedures, or a system of controls that a determined individual cannot violate; however, the District believes that providing additional training programs will facilitate earlier detection of student data anomalies.

The District is reviewing the current procedures regarding enforcement of the attendance and enrollment policies and procedures. In addition to the changes and improvements to the SIS already identified in the responses set forth in Section 2 above, the District is developing a Professional Development Plan to provide annual and on-going training regarding student attendance and enrollment data collection policies and procedures. In conjunction with the previously described improvements to the District's ability to monitor changes made in the SIS, the professional development program will also include training on identifying "red flags" or problem indicators to provide early identification of anomalies in student attendance and enrollment data. These changes, along with ensuring dissemination of the District's policies and procedures for reporting student data concerns will be part of the District's ongoing effort to ensure compliance with all student data related policies.

Pemiscot County

September 2011

Report No. 2011-65

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Pemiscot County

Financial Condition and Budgets	Several county funds are in poor financial condition, and poor budgeting practices have made the financial condition worse. As noted in our prior audit report, the financial condition of the county is weak. The General Revenue, Special Road and Bridge, and Assessment Funds continue to deteriorate and operate with negative cash balances. The county is using other funds, including restricted funds, to cover the negative balances. Despite its poor financial condition, the county gave its employees raises in 2010 totaling $68,400. The county has not transferred administrative service fees from the Capital Improvement Sales Tax Fund, does not identify and pursue all inmate and dispatching fees, and has not billed some cities for their share of assessment costs. Though noted in our prior audit, the county still approves deficit budgets for several funds, which is in violation of state law.
Property Taxes	The County Collector does not always deposit receipts timely and intact, increasing the risk of loss, theft, or misuse of funds. Neither the County Clerk nor the County Commission adequately reviews the activities of the County Collector.
Payroll	Timesheets were not available for some county employees, making it difficult to document hours worked, leave taken, and compliance with the Fair Labor Standards Act. As noted in our prior audit report, the county does not maintain centralized records of leave balances, and several employees had negative vacation and/or sick leave balances.
Capital Assets and Vehicles	As noted in previous audit reports, the county needs to improve its capital assets procedures; it does not tag, inventory, or track capital assets properly. As also noted in our prior audit report, the county does not adequately monitor vehicle and fuel use. The county does not maintain mileage and fuel use logs or reconcile fuel used to fuel purchased.
Protested Tax Distribution and Legal Fees	The county did not enter into agreements with various political subdivisions before withholding property tax payments for taxes and legal fees relating to a protested tax case. Rather than requiring the school district to return $1.17 million to a county business when a protested tax case was settled in favor of the business, the county paid $1.06 million to the business and withheld the August 2009 tax payment to the schools and directed the school to pay the remainder to the business. Likewise, the county paid the legal fees for the protested tax case and recouped a majority of the fees from the political subdivisions by withholding tax distributions on a pro rata basis.
County Treasurer Fees	The previous County Treasurer was paid almost $50,000 in the 2 years ended December 31, 2010, from drainage district funds because of a large increase in federal funds. Ordinarily, the County Treasurer would receive about $1,000 a year from drainage district funds. The county should check with legal counsel and the federal grantor agency to find out whether federal funds should be included in calculating this fee and if this fee was an allowable expense under the federal program.

Sheriff Inmate and Commissary Monies	The numerical sequence of receipt/transaction numbers used to track inmate commissary transactions is not accounted for properly. As noted in our prior audit report, detailed bank reconciliations are not regularly performed and discrepancies resolved, and month-end liabilities are not reconciled to cash balances.
Prosecuting Attorney	Bad checks fees and court-ordered restitution are not transmitted timely to the County Treasurer or victims. Over $11,000 was on hand during our cash count, and checks and money orders are not restrictively endorsed immediately, which increases the risk of loss, theft, or misuse of funds.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.*

American Recovery and Reinvestment Act 2009 (Federal Stimulus)	During the 2 years ended December 31, 2010, the county was awarded: A $328,769 Recovery Act: Edward Byrne Memorial Justice Assistance Grant Program/Grants to State and Territories, which was received and expended to retain 4 deputies and cover operational costs. The grant does not require these positions be maintained at the end of the grant period. A $107,440 Recovery Act: Homeless Prevention and Rapid Re-housing grant was paid directly to the county's sub-recipient, Delta Area Economic Opportunity Corporation, to help homeless families and those at risk of becoming homeless. A $250,000 Recovery Act: Facility Renovation and Magnetic Resonance Imaging (MRI) Project grant was paid directly to the county's sub-recipient, Pemiscot County Memorial Hospital. A $300,000 Recovery Act: Facility Renovation and MRI bond was paid directly to the county's sub-recipient, Pemiscot County Memorial Hospital.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 17

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Pemiscot County

We have audited certain operations of Pemiscot County in fulfillment of our duties under Section 29.230, RSMo. In addition, Devereux and Krauss, LLP, Certified Public Accountants, was engaged to audit the financial statements of Pemiscot County for the 2 years ended December 31, 2010. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2010. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Pemiscot County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Alice M. Fast, CPA, CGFM, CIA
Audit Manager:	Keriann Wright, MBA, CPA
In-Charge Auditor:	Julie Vollmer, CPA, CIA
Audit Staff:	Albert Borde-Koufie, MBA
	Jared Wooderson

1. Financial Condition and Budgets

Several county funds are in poor financial condition. The financial condition has also been affected by poor budgeting procedures.

1.1 Financial condition

As noted in our prior audit report, the financial condition of the county is weak. In addition, the County Commission does not adequately monitor budgets. The General Revenue, Special Road and Bridge, and Assessment Funds continue to deteriorate and are not expected to improve during the year ended December 31, 2011. Additionally, the county continues to operate some funds with negative cash balances. As a result, the county is using other county funds included in its bank account, including restricted funds, to meet general cash flow needs.

The following table reflects the ending cash balances of various funds over the last 4 years and the projected ending cash balance for 2011, as reported in the county's audited financial statements and budget documents, respectively:

	Ending Cash Balance, Year Ended December 31,				
Fund	2011 Budgeted	2010 Actual	2009 Actual	2008 Actual	2007 Actual
General Revenue	$ (698,892)	(646,294)	(298,636)	(633,633)	(519,340)
Special Road and Bridge	(158,937)	(158,038)	(128,977)	(152,186)	87,972
Assessment	(58,469)	(65,496) *	(9,310) *	57,104	47,751

*Numbers obtained from the county's budget documents

The General Revenue, Special Road and Bridge, and Assessment Funds have experienced a declining cash balance over the past several years, including negative cash balances. Additionally, the county continues to spend more than budgeted for some funds, including funds with existing negative cash balances. Furthermore, in 2010, although the county was in poor financial condition, the County Commission approved raises for county employees paid from the General Revenue and Special Road and Bridge Funds, totaling approximately $68,400.

Several other factors have also contributed to the weak financial condition of the county:

- Prior to 2011, the county appears to have subsidized the cost of boarding city inmates and city dispatching services with General Revenue Fund monies. The county was only charging a flat rate for both services without determining whether the county's costs were covered. In May 2011, the county entered into new agreements with the cities,

charging separate fees for each service. This change will result in the General Revenue Fund receiving approximately $60,000 more each year.

- Administrative service fee transfers have not been made from the Capital Improvement Sales Tax Fund to the General Revenue Fund. Section 50.515, RSMo, allows an administrative service fee to be imposed on the Capital Improvement Sales Tax Fund. The administrative service fee shall be imposed only to generate reimbursement sufficient to recoup actual disbursements made from the General Revenue Fund for related administrative services to the Capital Improvement Sales Tax Fund, and shall not exceed 5 percent of the Capital Improvement Sales Tax Fund. Five percent of 2010 Capital Improvement Sales Tax Fund actual disbursements is approximately $32,000.

- The county does not have procedures to ensure all accrued costs due from cities for boarding city inmates and dispatching fees are adequately identified and pursued. As of April 2011, the General Revenue Fund was owed $30,550 from two cities for fees from prior years.

- The county has not billed various cities for their share of assessment costs. Based upon each city's assessed valuations for current and real estate property, the county could have collected additional revenues of approximately $29,300 for the 2 years ended December 31, 2010 to be deposited in the Assessment Fund.

The County Commission and County Clerk indicated they are aware of the financial concerns with the General Revenue, Special Road and Bridge, and Assessment Funds, but have no specific plans to significantly increase receipts or reduce disbursements. Although the County Commission indicated it reviews monthly reports comparing budget and actual receipts and disbursements for all county funds, actual disbursements still exceeded budgeted disbursements for several funds, including funds with negative cash balances. Spending more than budgeted further contributes to the county's weak financial condition.

It is essential the County Commission address the situation both in the immediate and long-term future. To improve the financial condition of these funds, the County Commission should reduce spending as much as possible, evaluate controls and management practices to ensure efficient use of county resources, attempt to maximize all sources of revenue, and closely monitor budgets.

1.2 Budgetary procedures

Budgetary procedures are not adequate and contribute to the county's poor financial condition. Although noted in our prior audit report, the County Commission continues to approve deficit budgets for multiple funds, including the General Revenue, Special Road and Bridge, and Assessment Funds. The County Commission indicated the county has reduced disbursements as much as possible, but the Commission continues to approve budgeted disbursements in excess of estimated receipts, increasing the deficit balances of some funds.

Section 50.610, RSMo, and Article VI, Section 26(a), Missouri Constitution, prohibit deficit budgeting.

Recommendations

The County Commission:

1.1 Closely monitor the financial condition of the General Revenue, Special Road and Bridge, and Assessment Funds and take the necessary steps to improve the financial condition of the county. The County Commission should also perform long-term planning and ensure receipts are maximized and disbursements are closely monitored. In addition, the County Commission should also ensure budgets are adequately monitored and establish procedures to ensure disbursements are made within the constraints of the budgets.

1.2 Refrain from budgeting deficit balances.

Auditee's Response

The County Commission provided the following written responses:

1.1 We agree. We will continue to monitor the situation and try to reduce budgets next year. However, we cannot reduce the budgets once they are approved. We will ensure revenues are maximized in future years and make appropriate transfers. We will be much more conscientious and monitor budgets to keep offices from overspending.

1.2 We are anticipating positive changes and will continue to work with the county offices to align expenses with revenues.

2. Property Taxes

The County Collector's deposit procedures need improvement. In addition, the County Clerk and County Commission do not provide adequate monitoring over property tax system activities. The County Collector collected approximately $10 million and $11 million during the years ended February 28, 2011 and 2010, respectively.

2.1 Deposits

Receipts are not always deposited intact and on a timely basis. During non-peak months, daily deposits are prepared by the County Collector for

property taxes received; however, deposits are actually made less frequently and multiple deposits are generally taken to the bank at the same time. Peak months include November through February in which deposits are typically made on a daily basis. Our review noted during March 2010, a non-peak month, 30 deposits, totaling $323,993, were deposited on 8 separate days resulting in an average deposit of approximately $40,500 per trip to the bank. In addition, some monies received on March 10, 2010, and March 12, 2010, totaling $66,507, were deposited on March 12, 2010; however, the remaining funds received between March 1 and March 19, 2010, totaling $126,809, were held and not deposited until March 22, 2010.

To adequately safeguard receipts and to reduce the risk of loss, theft, or misuse of funds, all receipts should be deposited intact on a timely basis.

2.2 Account book and annual settlements

Neither the County Commission nor the County Clerk review the activities of the County Collector. While the County Clerk maintains files of tax charges, additions and abatements, and the County Collector's monthly settlements, the County Clerk does not use this information to create an account book or other record summarizing property tax transactions and changes. As a result, the County Clerk and the County Commission are unable to ensure the accuracy and completeness of the County Collector's monthly and annual settlements.

Section 51.150(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records which summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector each year are complete and accurate and could also be used by the County Clerk and County Commission to verify the County Collector's monthly and annual settlements. Such procedures are intended to establish checks and balances related to the collection of property taxes.

A similar condition was noted in our prior audit report.

Recommendations

2.1 The County Collector deposit monies intact and on a timely basis.

2.2 The County Clerk maintain a complete and accurate account book with the County Collector. In addition, the County Commission and the County Clerk should monitor property tax system activities and perform a thorough review of the County Collector's monthly and annual settlements.

Auditee's Response

The County Collector provided the following written responses:

2.1 To ensure that county funds are deposited on a timely manner, I have contacted First State Bank and Trust and made an arrangement for a courier to pick up deposits daily.

2.2 We will work with the Clerk and County Commission in order for them to develop and maintain an account book summarizing charges, additions, abatements, and monthly collections.

The County Clerk provided the following written response:

2.2 When the Collector starts providing the needed information, I will start maintaining an account book and review settlements. This will take place as soon as the Collector's new system is perfected.

The County Commission provided the following written response:

2.2 As soon as the County Clerk gets what she needs from the Collector, she will provide it to us for our review.

3. Payroll

Improvement is needed over payroll policies and procedures. During the 2 years ended December 31, 2010, the county processed payroll disbursements of approximately $3 million each year.

3.1 Timesheets

Timesheets were not available for some county employees. Two Deputy County Collectors do not prepare timesheets. The County Clerk's office pays these employees the same amount each pay period unless told otherwise. In addition, the Road and Bridge Supervisor was unable to locate timesheets and overtime records for road and bridge employees for 2010. Overtime paid out for road and bridge employees totaled approximately $102,000 in 2010.

Timesheets are necessary to document hours worked, substantiate payroll disbursements, and provide the county with a method to monitor hours worked and leave taken, and are beneficial in demonstrating compliance with county policy and requirements of the federal Fair Labor Standards Act of 1938 (FLSA).

3.2 Leave records

Centralized records of leave balances and leave used and earned are not maintained. Each official or department head is responsible for recording and accumulating employee leave balances. Our review of records maintained for some county offices noted the following issues:

- The two Deputy County Collectors do not maintain leave records. These employees indicated they informally know their leave balances.

- Some Sheriff's department employees used vacation leave in excess of their balances, resulting in negative vacation leave balances. As of December 31, 2010, three employees had negative vacation leave balances totaling 48 hours, with the largest negative balance of 32 hours for one employee. The Sheriff indicated these negative balances may be the result of employees incorrectly showing holidays as vacation leave.

- Some Sheriff's department employees used sick leave in excess of their balances, resulting in negative sick leave balances. As of December 31, 2010, four employees had negative sick leave balances totaling 533 hours, with the largest negative balance of 180 hours for one employee. The Sheriff indicated some employees donate time by working additional hours without being paid to help make up for the excess leave taken by other employees; however, this donated time is not documented and did not appear to impact the leave balances for these employees. Additionally, the county does not have a policy related to donated time.

A similar condition was noted in our prior audit report.

Without centralized leave records, the County Commission cannot ensure vacation, sick leave, and compensatory balances are accurate and in compliance with county policy, and all employees are treated equitably. Centralized leave records also aid in determining unused vacation and compensatory leave upon termination of employment, in the event disputes arise, and in demonstrating compliance with the FLSA. In addition, it is not a good practice to allow employees to have negative leave balances or handle donated time in this manner.

Recommendations

The County Commission:

3.1 Require all county employees to prepare timesheets. These timesheets should be signed by the employee, approved by the appropriate supervisor, and filed with the County Clerk.

3.2 Maintain centralized leave records for all county employees and ensure individual leave balances comply with county policy. In addition, the County Commission should consider developing a policy regarding donated leave.

Auditee's Response

The County Commission provided the following written responses:

3.1 The County Clerk's office now keeps a copy of all Road and Bridge timesheets. The County Clerk talked with the Collector's office to ensure timesheets are kept in the future.

3.2 We are working on maintaining centralized leave records in our computer system and will have it implemented in 2012. In addition, we will create a policy for donated leave.

4. Capital Assets and Vehicles

Capital asset and vehicle records are in need of improvement. At December 31, 2010, county property, excluding buildings and vehicles, was valued at approximately $3.4 million on the county insurance policy.

4.1 Capital assets

As noted in previous reports, procedures and records to account for county property are not adequate. The county does not have procedures in place to identify capital asset purchases and dispositions throughout the year. The county's only record of capital assets is the insurance carrier's list of county property, and as a result, the property records do not always include the necessary information for assets. Property is also not tagged for specific identification. In addition, the County Clerk does not request annual physical inventories be performed by the various offices.

Adequate capital asset records and procedures are necessary to ensure effective internal controls, meet statutory requirements, and provide a basis for determining proper insurance coverage. Procedures to track capital asset purchases and dispositions throughout the year and compare to physical inventory results would enhance the county's ability to account for capital assets and potentially identify unrecorded additions and dispositions, identify obsolete assets, and deter and detect theft of assets. Proper tagging of county property items and specific identification of property locations are necessary to reduce the possibility of improper personal use of county property. Section 49.093, RSMo, provides that the officer or their designee of each county department is responsible for performing annual inspections and inventories of county property used by their department and for submitting an inventory report to the County Clerk.

4.2 Vehicle and fuel use

The county has not established effective monitoring procedures regarding vehicle and fuel use. During the 2 years ended December 31, 2010, the county incurred fuel costs of approximately $505,000 for the Road and Bridge Department and approximately $81,000 for the Sheriff's office. Our review noted the following issues:

- The Road and Bridge Department does not maintain separate mileage logs for each vehicle/equipment, and the centralized logs maintained are not organized by vehicle/equipment. As a result, individual vehicle/equipment use cannot be easily reviewed and fuel use is not compared to vehicle mileage readings to help determine the reasonableness of fuel use. When fuel is dispensed, employees are required to indicate the vehicle/equipment fueled, the current mileage reading, and the amount of fuel dispensed on a centralized log maintained at each fuel tank. The Road and Bridge department had 30

vehicles and 21 pieces of equipment that use fuel as of December 31, 2010, of which 9 vehicles/equipment did not have working odometers.

- The county does not maintain adequate bulk fuel inventory records or attempt to reconcile fuel used to fuel purchased. Although the county maintains records of fuel pumped, records are not reconciled to fuel purchased.

Maintenance and review of vehicle and equipment mileage and fuel use logs and bulk fuel inventory records, and comparison of log information and inventory records to fuel purchases are necessary to ensure vehicles and equipment are properly utilized, to prevent paying vendors for improper billing amounts, and to decrease the risk of theft or misuse of fuel occurring without detection. Logs should provide sufficient details so the county can effectively monitor vehicle and equipment use and fuel costs.

Similar conditions previously reported

Similar conditions to sections 4.1 and 4.2 were noted in our prior audit report.

Recommendations

The County Commission:

4.1 And the County Clerk work with other county officials to ensure complete and accurate inventory records are maintained and annual physical inventories are conducted, and implement procedures for tracking capital asset purchases and dispositions throughout the year. In addition, all capital assets should be tagged and identified as county property.

4.2 Establish procedures to maintain adequate records to effectively monitor vehicle, equipment, and fuel use. In addition, bulk fuel inventory records should be maintained, fuel use should be reconciled to fuel purchases, and any significant discrepancies should be investigated.

Auditee's Response

The County Clerk provided the following written response:

4.1 I have the paperwork to give to the offices to start keeping inventory and will disburse this to them within a month.

The County Commission provided the following written responses:

4.1 We will ensure complete and accurate inventory is properly maintained in the future.

4.2 We now have mileage and usage logs in vehicles and will track this in Excel. We will also reconcile fuel purchases to usage.

5. Protested Tax Distribution and Legal Fees

The county did not enter into written agreements with various political subdivisions before withholding property tax payments for property taxes owed and legal fees paid relating to a protested tax case.

In 2007, the county advanced protested taxes totaling approximately $1.17 million to a school district within the county based on court order; however, in 2009, the case was settled in favor of the business and the school district was required to pay the business for the advanced taxes received. In lieu of the school district paying the business directly, the county withheld the August 2009 tax payment to the school district, totaling approximately $1.06 million, and subsequently paid the amount to the business and notified the school district of the remaining taxes owed to be paid directly by the school district. According to the county, there was an oral agreement with the school district to handle payment in this method; however, documentation was not retained and the county did not enter in to a written agreement to document the arrangement. As a result, it is not clear whether all parties agreed to this arrangement.

In addition, during the course of the protested tax case, the county incurred and paid legal fees from 2002 to 2009, totaling approximately $182,000. The majority of legal fees were allocated to the various political subdivisions, including the school district, by withholding property tax distributions to the entities based on the entities percentage of property tax receipts. The county did not enter into any written agreements with the political subdivisions over the method of recouping legal fees and it is unclear if such costs could be directly deducted from property tax payments.

In the future, the county should enter into written legal agreements when political subdivisions are impacted. Section 432.070, RSMo, requires agreements of political subdivisions to be in writing. Written agreements, signed by the parties involved, are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

Recommendation

The County Commission enter into written agreements with political subdivisions as required.

Auditee's Response

The County Commission provided the following written response:

We will do this in the future if a situation like this comes up again.

6. County Treasurer Fees

The previous County Treasurer personally received fees totaling $49,756 during the 2 years ended December 31, 2010, due to a large increase in federal funds received and disbursed by the county's drainage districts.

Pursuant to Section 246.050, RSMo, County Treasurers receive one percent of drainage district funds paid out. Although the County Treasurer received and disbursed federal grant funds through the Emergency Watershed program on behalf of the drainage districts, the fees retained appear excessive and it is not clear whether the statute applies to federal funding or whether the fees were an allowable expense of the federal program. During the 2 years ended December 31, 2010, the County Treasurer disbursed approximately $2.8 million in federal funds through 39 checks on behalf of the drainage districts. The remainder of the federal program disbursements were made by the County Clerk. Based on Section 246.050, RSMo, the County Treasurer typically receives approximately $1,000 in fees each year due to regular, non-federal, disbursement activity on behalf of the county's drainage districts.

Recommendation

The County Commission consult with the federal grantor agency and legal counsel to determine whether fees are an allowable use of federal grant funds and in line with the intent of Section 246.050, RSMo.

Auditee's Response

The County Commission provided the following written response:

We do not believe this is a problem, but we will discuss with our federal agency representative.

7. Sheriff Inmate and Commissary Monies

Records and procedures over inmate and commissary monies need improvement. The Sheriff operates a jail that holds 135 inmates. The Sheriff's office maintains inmate monies and operates a commissary for inmates to purchase various snacks and personal items. Electronic records of receipts, disbursements, and balances are maintained for each inmate. When monies are received on behalf of an inmate, the amount received is posted to the inmate's account and a receipt slip is issued. When an inmate makes a purchase from the commissary, the disbursement is posted to the inmate's account. The Sheriff's office collected inmate monies totaling approximately $102,900 and $121,900 during the years ended December 31, 2010 and 2009, respectively.

7.1 Receipts

The numerical sequence of receipt/transaction numbers in the computerized accounting system is not accounted for properly. The computer system automatically assigns a transaction number to every transaction entered into the system, including receipts posted. During our review of inmate collection reports, we noted several blocks of missing receipt/transaction numbers. Sheriff's office personnel were unable to determine why some receipt/transaction numbers were not accounted for on reports generated from the system. In addition, the method of payment (cash, check, or money order) is not always indicated in the system accurately or reconciled to the composition of deposits.

To ensure all monies received are properly recorded and deposited and reduce the risk of loss, theft, or misuse of funds, the numerical sequence of receipt/transaction numbers should be accounted for properly and the composition of receipt slips issued should be reconciled to the composition of deposits.

7.2 Bank reconciliations

Follow up procedures are not performed on reconciling items shown on detailed bank reconciliations for the inmate bank account. Although Sheriff's office personnel post checks and deposits that clear the bank to the computer system to reconcile the Sheriff's book and bank records on a monthly basis, detailed bank reconciliations, which show all reconciling items, are not generated from the computer system and follow-up procedures are not performed to resolve reconciling items. At our request, personnel generated a detailed bank reconciliation showing all individual reconciling items for the inmate bank account as of February 22, 2011. We noted 620 checks totaling $6,704 had been outstanding for at least a year with some dating back to 2004, and an $82 outstanding deposit from 2002.

Preparation and review of detailed monthly bank reconciliations and adequate follow up of reconciling items are necessary to ensure bank activity and accounting records are in agreement, detect and correct errors timely, and ensure all monies are properly recorded and/or disbursed to the payee.

7.3 Liabilities

Sheriff's office personnel have not identified month-end liabilities (inmate balances) and reconciled the liabilities to available cash balances to ensure monies in the bank account are adequate to cover amounts due to inmates. The Sheriff's office has been unable to generate a list of liabilities from the computerized accounting system to perform this reconciliation. The Sheriff has requested help from the software vendor to determine how to generate this information.

A complete and accurate list of liabilities should be prepared monthly and reconciled to the inmate bank account to ensure records are in balance and sufficient funds are available for the payment of all liabilities. The Sheriff's office personnel should investigate any differences noted and take appropriate action.

Similar conditions previously reported

Similar conditions to sections 7.2 and 7.3 were noted in our prior audit report.

Recommendations

The Sheriff:

7.1 Ensure the numerical sequence of receipt/transaction numbers is accounted for properly. The Sheriff should also ensure the method

of payment is accurately entered into the system and the composition of receipt slips is reconciled to the composition of deposits.

7.2 Establish procedures to follow-up on bank reconciling items on a timely basis.

7.3 Ensure individual inmate account balances and various liabilities are compared to the reconciled bank account balance monthly and any discrepancies are investigated.

Auditee's Response

The Sheriff provided the following written responses:

7.1 Ensuring the numerical sequence of receipt numbers will take a programming change that the programmer is working on for us. We also now show the method of payment for all receipts and agree it to the deposit.

7.2 We now run detailed bank reconciliations each month. We are also getting ready to send old outstanding checks to the State's Unclaimed Property Division and we will ensure outstanding checks and reconciling items are followed up on timely in the future.

7.3 This requires a programming change which our programmer is currently working on.

8. Prosecuting Attorney

Bad check fees and court-ordered restitution receipts are not transmitted timely to either the County Treasurer or victims. Transmittals are usually made only once per month. Our cash count of monies on hand on March 3, 2011, totaled $11,202 and was comprised of receipts collected from February 11 to March 1, 2011. Of this amount, $2,665 was due to the County Treasurer for bad check fees and $8,537 was owed to victims for bad checks and/or court-ordered restitution. Prosecuting Attorney's office personnel indicated a shortage of staff prevents them from transmitting monies more frequently. In addition, our review noted checks/money orders to be transmitted to the County Treasurer were not restrictively endorsed. According to the Prosecuting Attorney, checks/money orders are not restrictively endorsed until the transmittal is prepared. The Prosecuting Attorney's office collected bad check fees and court-ordered restitution totaling approximately $293,000 during the 2 years ended December 31, 2010.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, checks should be restrictively endorsed immediately upon receipt and transmitted in a timely manner.

A similar condition was noted in our prior audit report.

Recommendation

The Prosecuting Attorney ensure all monies are transmitted timely and county checks/money orders are restrictively endorsed immediately upon receipt.

Auditee's Response

The Prosecuting Attorney provided the following written response:

We are now stamping the money orders that are made out to the Prosecutor's Office with a "deposit only" endorsement. That is done immediately upon receipt. We are also making transmittals once per week instead of once per month.

Pemiscot County
Organization and Statistical Information

Pemiscot County is a county-organized, third-class county. The county seat is Caruthersville.

Pemiscot County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. The county employed 102 full-time employees and 1 part-time employee on December 31, 2010.

In addition, county operations include the Bootheel Drug Task Force, Law Enforcement Restitution Board, and Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2011	2010
James A. Atchinson, Presiding Commissioner	$	28,400
Wendell Hoskins, Associate Commissioner		27,400
Lee Watkins, Associate Commissioner		27,400
Pam Strawbridge, Recorder of Deeds		40,000
Pam Treece, County Clerk		40,000
Michael B. Hazel, Prosecuting Attorney (1)		27,342
Chris Wynes, Prosecuting Attorney (1)		82,025
Thomas Greenwell, Sheriff		45,000
Pat Hoskins, County Treasurer (2)		76,504
James Brimhall, County Coroner		13,000
Carol DeRousse Miller, Public Administrator		26,000
Keith Jean, County Collector (3), year ended February 28,	48,012	
Donna Champion Snider, County Assessor , year ended August 31,		41,000

(1) Michael B. Hazel resigned in March 2010. Chris Wynes was appointed by the Governor in April 2010.

(2) Includes $36,504 of fees for county drainage district distributions.

(3) Includes $8,012 of commissions earned for collecting drainage district property taxes.

Financing Arrangements

In August 1997, the county passed a 1/2-cent sales tax for the purpose of constructing a criminal justice center, and this tax expires in 2017. The Certificates of Participation which were used to construct the criminal justice center were refinanced in December 2010 in the amount of $4,145,000. The county entered into an amended lease purchase agreement with Bank of New York on December 1, 2010. The terms of the agreement call for the county to lease the justice center to the Bank of New York, then the bank leases the justice center back to the county with lease payments equal to the amount due to retire the indebtedness. The lease is scheduled to be paid off in 2018. Principal and interest are due semi-annually on March 1 and September 1. The remaining principal and interest due on the lease as of December 31, 2010, was $4,145,000 and $376,693, respectively.

The county entered into various capital leases for Road and Bridge equipment. As of December 31, 2010, the principle balance of the lease agreements totaled $389,279. Final payments for the various leases are scheduled to occur from 2010 through 2015.

American Recovery and Reinvestment Act of 2009 (Federal Stimulus)

According to county personnel, the county was awarded the following American Recovery and Reinvestment Act of 2009 funding during the 2 years ended December 31, 2010:

A $328,769 Recovery Act: Edward Byrne Memorial Justice Assistance Grant Program/Grants to States and Territories was awarded by the U.S. Department of Justice and passed through by the Missouri Department of Public Safety for the support of the Bootheel Drug Task Force, a multijurisdictional drug task force. As of December 31, 2010, $328,769 was received and expended by the county to retain four deputies and cover operational costs including travel, vehicles, and supplies. The grant does not require these positions be maintained at the end of the grant period.

A $107,440 Recovery Act: Homeless Prevention and Rapid Re-housing grant was awarded by the U.S. Department of Housing and Urban Development to the Missouri Department of Social Services (DSS) to help families and individuals who are at risk of becoming homeless and those experiencing homelessness who need temporary assistance obtaining and retaining housing. Although the county signed as the contractor for this grant, these monies were paid by the DSS directly to the county's subrecipient, Delta Area Economic Opportunity Corporation.

A $250,000 Recovery Act: Facility Renovation and Magnetic Resonance Imaging (MRI) Project grant was awarded by the U.S. Department of Agriculture (USDA). Although the county signed as the grantee for this grant, these monies were paid directly by the USDA to the county's subrecipient, Pemiscot County Memorial Hospital.

A $300,000 Recovery Act: Facility Renovation and MRI Project bond was awarded by the USDA. Although the county signed for this bond, these monies were paid directly by the USDA to the county's subrecipient, Pemiscot County Memorial Hospital.

State Auditor's Letter 2

Status of Findings

1. Sewer Project 3
2. Municipal Center 5
4. Accounting Controls and Procedures 5
5. Board of Public Works Utility Controls and Procedures 7
8. Meetings and Records 10
9. Elected Officials 11

THOMAS A. SCHWEICH
Missouri State Auditor

To the Board of Trustees
Village of Indian Point, Missouri

We have conducted follow-up work pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program on certain audit report findings contained in Report No. 2011-09 *Village of Indian Point*, issued in March 2011. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the village about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has begun to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and indicates that it will not do so.

Our methodology included working with the village prior to completion of the audit report, to develop a timeline for the implementation of corrective action related to the audit recommendations. We reviewed documents and other evidence indicating the level of implementation for each recommendation reviewed.

As part of the AFTER work conducted, we reviewed supporting documentation provided by village officials regarding their work on the recommendations in the audit report. Documentation included copies of sewer construction invoices and contracts, financial statements and records for the village and the Board of Public Works, board meeting minutes, correspondence with the village attorney, sewer customer payment reports, and discussions with village officials. This report is a summary of the results of this follow-up work, which was substantially completed during August 2011.

Thomas A. Schweich
State Auditor

Village of Indian Point
Follow-Up Report on Prior Audit Findings
Status of Findings

1. Sewer Project

The sewer project was poorly planned and system revenues were not sufficient to meet all operational costs. In addition, supporting documentation was not maintained for some sewer project disbursements.

1.1 Planning and oversight

The sewer project was poorly planned and oversight by the village Board of Trustees was inadequate.

- The Board of Public Works (BPW) did not have a clear estimate of the costs associated with pumping tanks and hauling the solid waste to a neighboring city's sewer system.
- The village did not have a long-term plan to address the costs of a holding tank installed on Map Lane.
- Financing for the installation of the sewage holding tanks was not secured until after the project started.
- Wireless meters costing $8,172 were installed during construction of the waste-water system but were not utilized by the BPW.
- Due to an error, part of the equipment for the treatment facility was placed on private property.
- The state of Missouri Department of Natural Resources (DNR) noted several deficiencies during an inspection and the village did not meet the September 30, 2010, deadline to submit a corrective action plan.
- The board did not approve all change orders as required by ordinance.

Recommendation

The Village of Indian Point Board of Trustees work with the BPW to ensure all capital improvement projects are properly planned and provide adequate oversight of the BPW. Additionally, the Board of Trustees and the BPW should work together to resolve all issues with the current sewer system.

Status

In Progress

Village officials stated they have hired a new village attorney and a new engineer, who are working toward addressing the audit report findings and working with the DNR to resolve sewer plant issues. According to village officials, the plant is undergoing weekly testing to determine whether upgrades estimated at approximately $86,000 can be avoided. The village expects the DNR to issue a final report on the sewer system in September 2011.

Village officials obtained numerous invoices and other documentation that previously could not be located. A review of these documents indicated the village paid for 49 sewage holding tanks, but the BPW has only billed residents for 46. Village officials are in the process of determining the locations of the three remaining tanks.

According to village officials, the new engineer is reviewing the use of the wireless meters and the village has implemented a written schedule for pumping residential and business tanks annually. The village is currently pumping two residential tanks and one business tank each month at a cost of $625.

Village officials indicated they intend to address the Map Lane issues after other operational issues are addressed. The village has been unable to identify the owner of the private land where the equalization tank was placed. Village officials intend for the attorney to address this issue further.

1.2 Financial condition

User fees were insufficient to meet operational costs and debt payments for the system. No formal review of sewer rates had been conducted since 2005 and revenue projections were improperly calculated. In addition, assessment and collection of costs for residential sewage tanks were inconsistent, and no ordinance existed making payment of fees mandatory. The BPW had not enforced the collection of various fees for sewer service.

Recommendation

The Village of Indian Point Board of Trustees closely monitor the financial condition of the BPW by performing a review of sewer rates, consult legal counsel regarding sewage tank charges, and adequately track amounts owed by each customer.

Status

In progress

Sewer system revenues are still not adequate to cover operational costs of the BPW and village monies continue to supplement the BPW. The village attorney advised officials to develop a new user rate ordinance; however, village officials indicated they will not calculate new rates until the DNR provides its final report to the village. Amounts owed by each customer are now properly tracked and village officials indicated they have instructed the village attorney to begin collection procedures on all delinquent accounts.

1.3 Supporting documentation

Adequate supporting documentation was not maintained for some sewer project disbursements. Further, sewer equipment warranties and contractor bonds were not maintained by the village and copies of some contracts did not contain all signatures.

Recommendation

The Village of Indian Point Board of Trustees ensure all disbursements are supported by adequate documentation and signed contracts, and performance bonds and written warranties are maintained.

Status

Implemented

Village officials have met with representatives of the sewer construction company and obtained copies of supporting documentation that could not be

located during the audit. Village officials believe they now have most documentation.

2. Municipal Center

The village did not adequately plan for the financing of the Municipal Center and as a result, the village incurred unnecessary debt and interest. The village borrowed funds more than 2 years before construction of the Municipal Center started. In addition, the village had approximately $400,000 available in village bank accounts to help fund the construction of the Municipal Center, but chose to borrow funds.

Recommendation

The Village of Indian Point Board of Trustees ensure capital improvement projects and corresponding debt issuance are properly planned to prevent unnecessary interest costs.

Status

In Progress

The village is still making regular payments on the certificates of participation (COPs) used to finance the municipal center. This process will continue since the COPs do not allow for early payoff. Village officials communicated that the financial status of the village has recently declined as sales tax revenues used to help fund COP payments are down by approximately 16 percent. Further, the balance of the village's certificates of deposit has dropped from approximately $400,000 to approximately $350,000 because sewer system revenues are insufficient to fund the BPW. Village officials indicated they are aware of the mistakes made in financing the Municipal Center and will avoid repeating the same mistakes in the future.

4. Accounting Controls and Procedures

Accounting controls and procedures utilized by the village needed improvement.

4.1 Segregation of duties

There was minimal oversight and inadequate segregation of accounting duties. The village clerk was responsible for receipting and disbursing monies, performing bank reconciliations, and preparing monthly financial reports. Bank statements were not provided to the Board for review, and there was minimal evidence the Board provided adequate supervision or review of the work performed by the village clerk.

Recommendation

The Village of Indian Point Board of Trustees segregate accounting duties to the extent possible. If proper segregation of duties cannot be achieved, an independent review of the work performed is necessary.

Status

In Progress

The village is currently in the process of establishing written accounting controls and procedures. Although the village trustees are reviewing various accounting records, no written verification of the review exists. Village officials indicated they will document future reviews of accounting records.

4.2 Receipting and depositing

Receiving and depositing procedures needed improvement.

- Monies received were not recorded and deposited in a timely manner.
- Generic rediform receipt slips, instead of official receipt slips, were issued for monies paid in person at the Municipal Center, and the numerical sequence of receipt slips was not accounted for properly.
- The method of payment was not documented on receipt records, preventing reconciliation of the composition of receipts to the composition of deposits.
- Checks were not restrictively endorsed upon receipt.

Recommendation

The Village of Indian Point Board of Trustees ensure monies are posted to the computer system and deposited in a timely manner, official prenumbered receipt slips are issued for all monies received, the numerical sequence of receipt slips is accounted for properly, the method of payment is documented, the composition of receipts is reconciled to the composition of deposits, and checks are restrictively endorsed immediately upon receipt.

Status

Implemented

The village provided a copy of a deposit schedule indicating the receipt date and deposit date of monies received. Based upon this schedule, it appears receipts are now posted to the computer system and deposited timely. The village is now issuing receipts for all monies received, tracking the composition of receipts and reconciling it to deposits, and restrictively endorsing checks immediately upon receipt. The village has not obtained official receipts slips with its name printed on each receipt slip; however, the village has purchased a stamp with its name and stamps each receipt slip.

4.3 Financial records

Village financial records were not accurate.

- The profit and loss statement for the year ended December 31, 2009, failed to include over $13,600 in disbursements, resulting in an overstatement of the cash balance.
- Some disbursements were inaccurately classified in the village accounting system.

- The treasurer's report for 2009 and 2008 financial activity did not include income totaling approximately $55,000 and $119,000, respectively.

Recommendation

The Village of Indian Point Board of Trustees ensure village financial records are accurately maintained.

Status

In Progress

According to village officials, they are currently reviewing the financial records and have found some errors. Village officials are working to correct those errors.

4.4 Bank reconciliations

Bank reconciliations were not always performed in a timely manner.

Recommendation

The Village of Indian Point Board of Trustees ensure bank reconciliations are performed timely.

Status

Implemented

Village officials provided recent bank reconciliations to document that reconciliations are now performed timely.

4.5 Record retention

Numerous village records were not maintained and had to be obtained from other sources or were not maintained in the Municipal Center.

Recommendation

The Village of Indian Point Board of Trustees ensure village records are properly retained and stored at the Municipal Center.

Status

Implemented

Village officials indicated they are now retaining records at the Municipal Center. For example, records pertaining to the construction of the Municipal Center are no longer stored at the home of a trustee.

5. Board of Public Works Utility Controls and Procedures

Significant weaknesses were identified in controls and procedures related to the utility system maintained by the BPW.

5.1 Segregation of duties

Accounting duties, such as receiving and disbursing monies and performing bank reconciliations, were performed by the BPW Clerk without adequate oversight.

Recommendation

The Village of Indian Point Board of Trustees ensure the BPW segregates accounting duties to the extent possible. If proper segregation of duties cannot be achieved, an independent review of the work performed is necessary.

Status

In Progress

The work performed by the part-time BPW clerk is reviewed; however, the review is not documented. According to village officials, a review sheet will be included in future accounting records showing what records were included for the review and the signatures of those who review them.

5.2 Controls over monies received

Improvement was needed in controls over monies received.

- Sewer monies were not recorded immediately upon receipt.
- Monies received were not deposited in a timely manner.
- Sewer receipts were not adequately secured.
- Checks and money orders were not restrictively endorsed immediately upon receipt.

Recommendation

The Village of Indian Point Board of Trustees ensure the BPW records and deposits monies timely, adequately secures monies prior to deposit, and restrictively endorses checks and money orders immediately upon receipt.

Status

Implemented

The BPW provided a copy of a deposit schedule indicating the receipt date and deposit date of monies received. Based upon this schedule, it appears receipts are now posted to the computer system and deposited timely. In addition, the village has implemented procedures to adequately secure monies and restrictively endorse checks and money orders upon receipt.

5.3 Receipt records

The BPW needed better accountability over computerized receipt numbers and customer accounts.

- The numerical sequence of computerized receipt slips was not accounted for properly.
- Receipt amounts posted to customer accounts in the utility system were not reconciled to receipt amounts posted to the accounting system.

Recommendation

The Village of Indian Point Board of Trustees ensure the BPW accounts for the numerical sequence of receipt slips, and reconciles receipt amounts posted to customer accounts to receipt amounts posted in the accounting system.

Status **Implemented**

The BPW clerk indicated she now reconciles computer entries to receipt slips and to the accounting system. Prenumbered receipt slips are now issued for all monies received.

5.4 Bank reconciliations — Reconciliations were not always performed in a timely manner.

Recommendation — The Village of Indian Point Board of Trustees ensure the BPW performs bank reconciliations timely.

Status **Implemented**

The BPW clerk provided recent bank reconciliations to document that reconciliations are now performed timely.

5.5 Adjustments — Adjustments made to customer sewer accounts were not properly authorized or adequately documented.

Recommendation — The Village of Indian Point Board of Trustees ensure the BPW requires someone independent of the sewer system review and approve all adjustments and ensure adequate documentation is maintained of such adjustments.

Status **In Progress**

Although the BPW clerk now adequately documents the date and reason for adjustments, the village trustees do not perform a documented review. Village officials indicated they will conduct a documented review in the future.

5.6 Delinquent accounts — Some village ordinances were not enforced, and the village had not established formal written policies and procedures related to delayed sewer payments.

- Penalty charges were not assessed as required by village ordinance and BPW rules and regulations.
- Sewer service was not shutoff when accounts were delinquent. According to the BPW Vice Chairwoman, businesses were allowed to delay payments during winter months and make those payments in summer months; however, this was not specified in an ordinance.

Recommendation — The Village of Indian Point Board of Trustees ensure the BPW assesses penalties and properly follows shutoff procedures in accordance with village ordinance and BPW rules and regulations.

Status

In Progress

According to village officials, penalty amounts are too high and are not currently charged, but officials will review penalty amounts concurrently with sewer rates. Village officials indicated they will not shutoff service to delinquent accounts, but have authorized the village attorney to institute collection proceedings on delinquent accounts.

8. Meetings and Records

Meeting minutes needed improvement, and the village did not comply with state law when members of the board voted by email.

8.1 Meeting minutes

Several concerns were identified regarding minutes maintained for the Board of Trustees and BPW meetings.

- Minutes for the village Board of Trustees and the BPW were not maintained in an orderly manner or in a centralized location.
- Minutes were not maintained for some open and closed meetings.
- Open meeting minutes for the village Board of Trustees did not always document the reasons for closing the meeting or the specific section of the law that allows for the closed meeting.
- There was no evidence roll call votes were taken during open meetings to close meetings of the village Board of Trustees and the BPW.
- Final copies of minutes were not available for the BPW meetings for the months of October 2009 through January 2010.
- Minutes of the Municipal Center Task Force were not filed with the village.

Recommendation

The Village of Indian Point Board of Trustees ensure Board of Trustee and BPW minutes are maintained for all meetings in an orderly manner, and the village meetings and minutes comply with state law.

Status

Implemented

The village provided documentation that minutes are now maintained for all village and BPW meetings. The village maintains minutes for open and closed meetings separately and follows proper procedure for entering closed sessions. Minutes for the Municipal Center Task Force are now maintained at the Municipal Center.

8.2 Email vote

The village did not comply with state law when board members voted by email without a quorum of members physically present during the vote.

Recommendation

The Village of Indian Point Board of Trustees comply with state law regarding email votes.

Status	**Implemented** According to village officials, no further email votes have been conducted.
9. Elected Officials	A village board member's actions resulted in nepotism, and a candidate for village trustee was not qualified to run for office.
9.1 Nepotism	According to meeting minutes in October 2009, Trustee Canaday voted to appoint his wife to the BPW and voted for her to hold the office of BPW Vice Chairwoman.
Recommendation	The Village of Indian Point Board of Trustees ensure Board members abstain from voting when a relative's appointment is involved, and consult legal counsel regarding the nepotism issue.
Status	**Implemented** Trustee Canaday resigned his position as village trustee and was later re-elected to the board. He is currently the Chairman. His wife resigned her position from the BPW.
9.2 Qualifications to hold village office	The village has not established adequate procedures to ensure all candidates for the position of trustee are qualified to run for office. During the April 2010 election, village Board Chairman Daily was listed on the ballot when his sewer fees for his business were in arrears.
Recommendation	The Village of Indian Point Board of Trustees ensure candidates for village office possess the statutory qualifications for holding office. The Board of Trustees should also consider seeking legal advice from the village attorney regarding the situation.
Status	**In Progress** The village is currently in the process of establishing an ordinance to further restrict individuals from serving on committees and in other positions if amounts owed to the village are not paid. As of August 16, 2011, Trustee Daily owes $6,879 in delinquent sewer fees. This amount does not include the amount of $573 he was billed August 1, 2011, for current charges.

Independent Auditor's Report

To the County Commission and
Officeholders of Ralls County, Missouri

We have audited the accompanying financial statements of Ralls County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Ralls County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Ralls County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Ralls County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with Government Auditing Standards, we also have issued our report dated July 8, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain

provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

Note 1 - Summary of Significant Accounting Policies

Organized in 1820, the county of Ralls was named after Daniel Ralls. Ralls County is a county-organized, third-class county and is part of the Tenth Judicial Circuit. The county seat is New London. Ralls County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, an ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Ralls County and the Ralls County 911 board.

Ralls County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Ralls County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered by the Missouri State Auditor's Office to comprise Ralls County's legal entity. The Ralls County 911 board controlled by a separate elected board is also included under the control of Ralls County.

Certain elected County officials, such as the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Ralls County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the 911 Board. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Ralls County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Ralls County adopts a budget for each governmental fund.

On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning the following January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures. During our audit we noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The Capital Improvement Fund, PA Tax Fund, CERF Fund, Sheriff's Fund, Domestic Fund, Sheriff's Revolving Fund, Use Tax Fund, Land Surplus Fund, Flood Control Fund, and the 911 Board Fund all had expenses exceeding their budget.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within Ralls County's boundaries for the calendar year 2010 and 2009, for the purposes of taxation was:

	2010	2009
Real Estate	112,215,320	105,451,421
Personal Property	68,002,750	58,331,069
Railroad and Utilities	20,539,666	19,570,032
	200,757,736	183,352,522

The tax levy per $100 of the assessed valuation of tangible taxable property for the calendar years 2010 and 2009 for the purpose of County taxation was as follows:

	2010	2009
General Revenue Fund	$ 0.2639	$ 0.2639
Road and Bridge	0.2754	0.2754

The County also receives sales tax collected by the State and remitted based on the County’s sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Ralls County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions (continued)

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Ralls County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents".

Deposits - Missouri statues require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amount of Ralls County's deposits was $2,202,928.60 and $2,000,463.72, respectively, and the bank balance was $2,280,187.00 and $2,267,807.45, respectively. At December 31, 2010 & 2009, 100% of Ralls County's deposits and investments were covered by the Federal Deposit Insurance Company (FDIC) or were collateralized.

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2010, as follows:

Deposits	1,502,928.60
Investments	700,000.00
Restricted Cash	-
Total Deposits & Investments as of December 31, 2010	$2,202,928.60

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2009, as follows:

Deposits	1,300,463.72
Investments	700,000.00
Restricted Cash	-
Total Deposits & Investments as of December 31, 2009	$2,000,463.72

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Ralls County's investment policy does not include custodial credit risk requirements. Ralls County's deposits were not exposed to custodial credit risk for the years ended December 31, 2010, and 2009.

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Ralls County or its agent but not in the government's name. Ralls County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of Ralls County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Ralls County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by Ralls County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). Ralls County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. Ralls County's deposits were not exposed to concentration of investment credit risk for the years ended in December 31, 2010 and 2009.

Note 3 - Long Term Debt

On October 1, 2004 the County issued Certificate of Participation (COP's) in the amount of $2,455,000. The maturity of the COP's is October 1, 2014 and the interest rate ranges from 2.00%-4.30%. The UMB Bank is the holder of this COP's.

Debt	Balance at 1/1/2010	Amount Borrowed	Amount Repaid	Balance at 12/31/2010	Interest Paid During Year
2004 COP's	1,495,000.00	-	230,000.00	1,265,000.00	60,450.00

Note 5 - Local Government Employees Retirement System (LAGERS)

Plan Description

Ralls County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries.

LAGERS was created and is governed by statue, section RSMo. 70.600- 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401a and it is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO, 65102 or by calling 1-800-447-4334.

Funding Status

Ralls County's full time employees do not contribute to the pension plan. The political subdivision is required to contribute at an actuarially determined rate; the current rates for 2010 are 6.4% (general), 2.2% (police) and 7.7% (911), for 2009 they are 5.4% (general), 1.2% (police) and 7.0% (911) of the annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

Annual Pension Cost (APC) and Net Pension Obligation (NPO)

For 2010, the political subdivision's annual pension cost of $67,832 for the County and $17,221 for the 911 Board was equal to the actual contributions and the remaining net pension obligation. The 2010 annual required contribution (ARC) was determined as part of the February 28, 2008 and/or February 28, 2009 annual actuarial valuation using the entry age actuarial cost method. For 2009, the political subdivision's annual pension cost of $50,037 for the County and $16,320 for the 911 Board was equal to the required and actual contributions. The 2009 required contribution was determined as part of the February 28, 2007 and/or February 28, 2008 annual actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 7.5% per year, compounded annually, (b) projected salary increases of 4.0% per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0% to 6.0% per year, depending on age and division, attributable to seniority/merit, (d) pre-retirement morality asked on the RP-2000 Combined Healthy Table set back 0 years for men and 0 years for women and (e) post-retirement mortality based on the 1971 Group Annuity Mortality table projected to 2000 set back 1 year for men and 7 years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis for 2009 and 2010. The amortization period of February 29, 2008 was 15 years for the General division and 15 years for the Police division. The amortization period of February 28, 2009, was 30 years for the General division and 9 years for the Police division.

Note 6 - County Employees Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than (1000) one thousand hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Section 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994. The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar amount, targeted replacement ratio formula, and the prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death. Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement at age fifty-five with reduced benefit is allowed for the police department, all other departments in the county the age is sixty. Any member with less than eight years creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions. The County Employee's Retirement Fund issues audited financial statements.

Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P. O. Box 2271, Jefferson City, MO, 65102-2271, or by calling 1-573-632-9203

Funding Policy

In accordance with State Statutes, the Plan is funded through various fees collected by counties and remitted to the CERF. Eligible employees hired before February 2002 have an option to contribute 2% of their annual salary, while employees hired after February 2002 are required to contribute 6% of their annual salary in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF. Of the 6% contribution, 4% is contributed by the County and the remaining 2% is covered through employee contributions to LAGERS. Employee contributions of approximately $20,441.24 and $19,538.48, respectively, were collected and remitted to CERF for the years then ended.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statue Chapter 56.807 RSMo, Ralls County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. Ralls County has contributed $2,244 and $2,244, respectively, for the years ended December 31, 2010 and 2009.

Note 8 - Post Employment Benefits

Ralls County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the Primary Government.

Note 9 - Claims, Commitments, and Contingencies

Litigation

Ralls County is not involved in any pending litigations as of December 31, 2010.

Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is not reimbursed for unused vacation and overtime, if applicable. Sick time is paid for at the rate of 50% for any unused sick pay up to 120 hours. These have not been subjected to auditing procedures.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and its reinsured up to the statutory limit through excess insurance.

Note 11 - Prior Period Adjustment

January 1, 2009 beginning cash has been restated to include the operations of the Ralls County, Missouri 911 board.

Note 12 - Change in Reporting Entity

Pursuant to Missouri House Bill 1942, effective August 28, 2010 emergency service boards established under Section 190.339.02 shall be a body corporate and political subdivision of the state. Due to this change in state law the Ralls County, Missouri 911 Board will not be included in the financial statements of Ralls County, Missouri after December 31, 2010.

Schedule of State Findings

During our audit we noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The Capital Improvement Fund, PA Tax Fund, CERF Fund, Sheriff's Fund, Domestic Fund, Sheriff's Revolving Fund, Use Tax Fund, Land Surplus Fund, Flood Control Fund, and the 911 Board Fund all had expenses exceeding their budget.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Ralls County, Missouri

We have audited the accompanying financial statements of Ralls County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated July 8, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Ralls County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ralls County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Ralls County, Missouri's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying Schedule of Findings and Responses that we consider to be significant deficiencies in internal control over financial reporting. FS 10/09-1, FS 10/09-2, and FS 10/09-3. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ralls County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying Schedule of Findings and Responses FS 10/09-4.

Ralls County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit Ralls County, Missouri's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, County Commission, County Officeholders, others within the entity, and the Missouri State Auditor's Office, and is not intended to be and should not be used by anyone other than these specified parties.

Nichols, Stopp, & VanHoy, LLC

Creve Coeur, Missouri
July 8, 2011

The County of Ralls
New London, Missouri
Schedule of Findings and Responses
December 31, 2010 & 2009

Section 1 - Financial Statement Findings

FS 10/09-01 Condition: During the current year, it was necessary for the auditors of the County to assist with the preparation of the external financial statements and the notes to financial statements.

Effect: If the management of the County does not have the ability to prepare the external financial statements and the notes to the financial statements without the assistance of the auditors, management may be unable to review and take responsibility of the financial statements and notes.

Cause: Management of the County does not possess the technical accounting skills to prepare the external financial statements without the assistance of the auditors.

Recommendation: We recommend the County either provide training to current management, hire additional staff who possess the accounting skills needed to prepare and review the external financial statements, or contract with an outside accountant to prepare and review the external financial statements.

Management's Response: The County will consider alternatives to remedy this Finding.

FS 10/09-02 Condition: Documentation of the County's internal controls has not been prepared.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management has not prepared documentation of internal control.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will consider studying COSO for better guidance, and make a manual.

FS 10/09-03 Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate audit risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will consider meeting once a year with all elected officials to perform a risk assessment.

FS 10/09-04 Condition: During our audit, we noted several funds with actual expenditures that exceeded the budgeted expenditures.

Effect: Missouri Statues requires Counties to prepare an annual budget and expenditures are not to exceed the budget. Due to exceeding budget in certain funds the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk as budget officer will keep better track of budgets and amend the ones that go over.

Section 2 - Follow-Up Prior Year Findings

FS 08/07-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under the Statement on Auditing Standards (SAS) No. 112, Communicating Internal Control Related Matters in an Audit, which is effective for periods ending on or after December 15, 2006, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 112 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Due to the short time frame for the implementation of the new SAS requirements, management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Status: Unchanged.

FS 08/07-02 Criteria: Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters in an Audit,* which is effective for the period ending on or after December 15, 2006, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Effect: The new SAS 112 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Due to the short time frame for the implementation of the new SAS requirements, the County did not prepare financial statements.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Status: Unchanged.

FS 08/07-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate audit risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Status: Unchanged

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Schuyler County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Schuyler County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2010, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Nichols, Stopp, & VanHoy, LLC, Certified Public Accountants, is attached.

Independent Auditor's Report

To the County Commission and
Officeholders of Schuyler County, Missouri

We have audited the accompanying financial statements of Schuyler County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described more fully in Note 1, Schuyler County, Missouri has prepared these financial statements using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Schuyler County, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of the funds of Schuyler County, Missouri, as of December 31, 2010 and 2009, and their respective cash receipts and disbursements, and budgetary results of these funds for the years then ended, on the basis of accounting described in Note 1.

In accordance with Government Auditing Standards, we also have issued our report dated July 8, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain

provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

See Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies

Organized in 1845, the county of Schuyler was named after Phillip Schuyler, a Revolutionary War general. Schuyler County is a county-organized, third-class county and is part of the First Judicial Circuit. The county seat is Lancaster. Schuyler County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, an ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Schuyler County, Missouri.

Schuyler County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Schuyler County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered by the Missouri State Auditor's Office to comprise Schuyler County's legal entity.

Certain elected County officials, such as the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Schuyler County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonable determinable, are presumed to be material.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and certain assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Schuyler County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Schuyler County adopts a budget for each governmental fund.

On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning the following January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures. During our audit we noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The PA Training Fund, User's Fees Fund, Bad Check Fund, County Clerk 5% Election Fund, Law Library Fund, Associate Court Interest Fund, Homeless Prevention & Rapid Housing Fund, and the Sheriff Grant Fund all had expenses exceeding their budget.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the Schuyler County's boundaries for the calendar year 2010 and 2009, for the purposes of taxation was:

	2010	2009
Real Estate	$ 23,434,920	$ 22,800,770
Personal Property	11,031,558	10,953,366
Railroad and Utilities	5,164,254	5,156,955
	$ 39,630,732	$ 38,911,091

The tax levy per $100 of the assessed valuation of tangible taxable property for the calendar years 2010 and 2009 for the purpose of County taxation was as follows:

	2010	2009
General Revenue Fund	$ 0.3225	$ 0.3176
Special Road & Bridge Fund	0.2600	0.2600
Common Road & Bridge Fund	0.4765	0.4765

The County also receives sales tax collected by the State and remitted based on the County’s sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Schuyler County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions (continued)

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Schuyler County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statues require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amount of Schuyler County's deposits was $721,300.24 and $654,358.51, and the bank balance was $739,307.26 and $671,316.75, respectively. At December 31, 2010 & 2009, 100% of Schuyler County's deposits and investments were covered by the Federal Deposit Insurance Company (FDIC) or were collateralized.

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2010, as follows:

Deposits	$ 378,409.60
Investments	341,007.55
Restricted Cash	-
Total Deposits & Investments as of December 31, 2010	$ 719,417.15

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2009, as follows:

Deposits	$ 316,487.17
Investments	336,098.82
Restricted Cash	-
Total Deposits & Investments as of December 31, 2009	$ 652,585.99

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Schuyler County's investment policy does not include custodial credit risk requirements. Schuyler County's deposits were not exposed to custodial credit risk for the years ended December 31, 2010, and 2009.

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Schuyler County or its agent but not in the government's name. Schuyler County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the Schuyler County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Schuyler County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by Schuyler County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). Schuyler County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. Schuyler County's deposits were not exposed to concentration of investment credit risk for the years ended in December 31, 2010 and 2009.

Note 3 - Interfund Transfers

Transfers between funds for the years ended December 31, 2010 and 2009 are as follows:

	2010		2009	
Major Funds:	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue	$ 33,461.15	$ 118,035.25	$ 35,190.94	$ 144,650.90
Road & Bridge	-	33,461.15	37,621.59	35,190.94
Law Sales	118,035.25	-	107,029.31	-
Total	$ 151,496.40	$ 151,496.40	$ 179,841.84	$ 179,841.84

Note 4 - County Employees Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

Note 4 - County Employees Retirement Fund (CERF) (continued)

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than (1000) one thousand hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Section 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994. The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar amount, targeted replacement ratio formula, and the prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death. Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement at age fifty-five with reduced benefit is allowed for the police department, all other departments in the county the age is sixty. Any member with less than eight years creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employee's Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P. O. Box 2271, Jefferson City, MO, 65102-2271, or by calling 1-573-632-9203.

Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2010 and 2009, the County collected and remitted to CERF employee contributions of approximately $36,092.83 and $33,619.17, respectively, for the years then ended.

Note 5 - Prosecuting Attorney Retirement Fund

In accordance with state statue Chapter 56.807 RSMo, Schuyler County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The Schuyler County has contributed $2244 and $2244, respectively, for the years ended December 31, 2010 and 2009.

Note 6 - Post-Employment Benefits

Schuyler County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by County.

Note 7 - Claims, Commitments and Contingencies

Litigation

Schuyler County is not involved in any pending litigations as of December 31, 2010.

Compensated Absences

The County provides employees with up to two weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused vacation and overtime, if applicable. This has not been subjected to auditing procedures.

Note 8 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and its reinsured up to the statutory limit through excess insurance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Schuyler County, Missouri

We have audited the accompanying financial statements of Schuyler County, Missouri as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's basic financial statements as identified in the table of contents, and have issued our report thereon dated July 8, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Schuyler County, Missouri's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Schuyler County, Missouri's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Schuyler County, Missouri's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying Schedule of Findings and Responses that we consider to be significant deficiencies in internal control over financial reporting: FS 10/09-1, FS 10/09-2, and FS 10/09-3. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Schuyler County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying Schedule of Findings and Responses FS 10/09-4.

Schuyler County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit Schuyler County, Missouri's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, County Commission, County Officeholders, others within the entity, and the Missouri State Auditor's Office, and is not intended to be and should not be used by anyone other than these specified parties.

Nichols, Stopp, & VanHoy, LLC

Creve Coeur, Missouri
July 8, 2011

The County of Schuyler
Lancaster, Missouri
Schedule of Findings and Responses
December 31, 2010 & 2009

Section 1 - Financial Statement Findings

FS 10/09-01 Condition: During the current year, it was necessary for the auditors of the County to assist with the preparation of the external financial statements and the notes to financial statements.

Effect: If the management of the County does not have the ability to prepare the external financial statements and the notes to the financial statements without the assistance of the auditors, management may be unable to review and take responsibility of the financial statement and notes.

Cause: Management of the County does not possess the technical accounting skills to prepare the external financial statements without the assistance of the auditors.

Recommendation: We recommend the County either provide training to current management, hire additional staff who possess the accounting skills needed to prepare and review the external financial statements, or contract with an outside accountant to prepare and review the external financial statements.

Management's Response: Schuyler County will take the recommendation under advisement, and try to remedy this finding as funds become available.

FS 10/09-02 Condition: Documentation of the County's internal controls has not been prepared.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management has not prepared documentation of internal control.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: Schuyler County will take the recommendation under advisement.

FS 10/09-03 Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate audit risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: Schuyler County will take the recommendation under advisement.

FS 10/09-04 Condition: During our audit, we noted several funds with actual expenditures that exceeded the budgeted expenditures.

Effect: Missouri Statutes requires Counties to prepare an annual budget and expenditures are not to exceed the budget. Due to exceeding budget in certain funds the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk as budget officer will track budgets and amend them as necessary.

Section 2 - Follow-Up Prior Year Findings

There are no prior audit findings that Government Auditing Standards requires to have follow up action taken by Schuyler County, Missouri for the years ended December 31, 2008 and 2007.

To the County Commission
The County of Texas, Missouri

We have audited the accompanying financial statements of the County of Texas ("County"), Missouri, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the County's financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described more fully in Note I, these financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the County of Texas, Missouri, as of December 31, 2010 and 2009, or the changes in its financial position for the years then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investment balances of the governmental and agency funds of the County of Texas, Missouri, as of December 31, 2010 and 2009, and the receipts, disbursements and budgetary results of the governmental funds for the years then ended, on the basis of accounting described in Note I.

As described in Note XI, the County of Texas has converted from a modified cash (GASB 34) basis of accounting to the regulatory basis of accounting which differs from accounting principles generally accepted in the United States of America, as of and for the years ended December 31, 2010 and December 31, 2009.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 18, 2011 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Texas, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1845 by an Act of the Missouri Territory. In addition to the three Commissioners, there are eight elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk and ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the county of Texas County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning the following January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2010 and 2009, for purposes of taxation was:

	2010	2009
Real Estate	$ 134,955,740	$ 132,972,960
Personal Property	46,213,159	45,402,880
Railroad and Utilities	8,927,869	9,091,268
	$ 190,096,768	$ 187,467,108

During 2010 and 2009, the County Commission did not approve a tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2008 and 2007.

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2010 and 2009, the carrying amount of the County's deposits was $4,817,555.06 and $5,193,340.36, and the bank balance was $9,472,381.26 and $9,684,946.36, respectively. As of December 31, 2010 and 2009, 100% of the County's investments were guaranteed by the U.S. Government.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2010, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	4,817,555.06
Investments		-
Total Deposits & Investments as of December 31, 2010	$	4,817,555.06

The carrying values of deposits and investments at December 31, 2009, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	5,193,340.36
Investments		-
Total Deposits & Investments as of December 31, 2009	$	5,193,340.36

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2010 and 2009.

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2010 and 2009.

III. LONG-TERM DEBT

The county has $14,995,000 Texas County, Missouri Certificates of Participation (Texas County Justice Center Project) Series 2006 dated September 1, 2006. Serial certificates of $9,430,000 mature on December 1, 2021, and term certificates of $5,565,000 mature on December 1, 2025. Principal and interest payments are due annually on December 1, with a variable annual interest rate from 4.00% to 4.60%. First Bank is the paying agent of this bond.

SERIES 2006 COP AMORTIZATION FOR 2009

YEARS ENDING DECEMBER 31,	PRINCIPAL	INTEREST	TOTAL

F.B.O.M. Reserve	-	33,423.48	-	-
Defense & Deductible	-	-	33,341.01	-
TOTAL	$ 133,535.16	$ 133,535.16	$ 179,450.82	$ 179,450.82

IV. INTERFUND TRANSFERS (concluded)

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000 could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, P.O. Box 2271, Jefferson City, MO 65102-2271, or by calling 1-573-632-9203.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2010 and 2009, the County collected and remitted to CERF, employee contributions of approximately for $83,555.79 and $81,565.57, respectively, for the years then ended.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

A. Plan Description

Texas County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, section RSMO. 70.600 - 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly.

The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax exempt. The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

B. Funding Status

Texas County's full time employees do not contribute to the pension plan. The political subdivision is required to contribute at an actuarially determined rate; the current rates for 2010 are 11.2% (general) and 10.1% (police), for 2009 they are 10.2% (general) and 9.7% (police) of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO)

For 2010, the political subdivision's annual pension cost of $162,653 was greater than actual contributions by $7,970, leaving a net pension obligation of that amount at the end of the year. The annual required contribution (ARC) was determined as part of the February 29, 2008 and February 28, 2009 annual actuarial valuations using the entry age actuarial cost method. The actuarial valuation using the entry age actuarial cost method. For 2009, the political subdivision's annual pension cost of $129,238 was equal to the required and actual contributions. The required contribution was determined as part of February 28, 2007 and

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO) (concluded)

February 29, 2008 annual actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 7.5 percent per year, compounded annually, (b) projected salary increases of 4.0 percent per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0 percent to 6.0 percent per year, depending on age, attributable to seniority/merit, (d) pre-retirement mortality based on RP 2000 Combined Healthy Table set back 0 years for men and 0 years for women and (e) post-retirement mortality based on the 1971 Group Annuity Mortality Table for males projected to 2000 set back 1 year for men and 7 years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period as of 2/29/08 was 15 years for the General division and 15 years for the Police division. The amortization period as of 2/28/09 was 30 years for the General division and 8 years for the Police division.

Three Year Trend Information

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage Of APC Contributed	Net Pension Obligation
6/30/2008	$ 117,793	100%	$ 0
6/30/2009	121,914	100%	0
6/30/2010	162,653	95.1%	7,970

REQUIRED SUPPLEMENTARY INFORMATION
Schedule of Funding Progress

Actuarial Valuation Date	(a) Actuarial Value of Assets	(b) Entry Age Actuarial Accrued Liability	(b-a) Unfunded Accrued Liability (UAL)	(a/b) Funded Ratio	(c) Annual Covered Payroll	[(b-a)/c] UAL as a Percentage of Covered Payroll
2/29/2008	$1,820,856	$ 1,732,652	$ (88,204)	105%	$ 1,104,121	0%
2/28/2009	1,574,278	1,820,602	246,324	86%	1,080,455	23%
2/28/2010	1,830,809	2,096,828	266,019	87%	1,446,970	18%

Note: The above assets and actuarial accrued liability do not include the assets and present value of benefits associated with the Benefit Reserve Fund and Casualty Reserve Fund. The actuarial assumptions were changed in conjunction with the February 28, 2006 annual actuarial valuations. For a complete description of the actuarial assumptions used in the annual valuations, please contact the LAGERS office in Jefferson City.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $31,008 and $0, respectively, for the years ended December 31, 2010 and 2009.

VIII. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

IX. CLAIMS, COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is involved in pending litigation at December 31, 2010.

B. Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. Vacation days do not carry forward if they are unused. Upon termination, an employee will not be reimbursed for any unused vacation days. Employees earn one-half day of sick leave per month. The County allows employees to carry forward six days a year and cannot be accrued beyond six days total. An employee will not be reimbursed for unused sick leave. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. ACCOUNTING CHANGE

For the years ended December 31, 2010 and December 31, 2009, the County has elected to change its accounting method from a modified cash basis to the regulatory basis of accounting. This basis recognizes assets, liabilities, fund balance, receipts, and disbursements when they result from cash transactions with a provision for investments and settlements pending (if applicable). The regulatory basis differs from the accounting principles generally accepted in the United States of America and is described in Note I of the notes to the financial statements.

The Senate Bill 40 fund is now included as a fund in the financial statements. In previous years, it was audited separately from the County.

XII. SUBSEQUENT EVENTS

There are no subsequent events to report up to the date of the audit report.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2009, expenditures exceeded those budgeted for the following: election services fund, prosecutor's training fund, defense deductible fund, capital improvement bond fund, deputy sheriff salary fund, special election fund, transfers funds, and F.B.O.M. certificate of payment fund.

B. For the year ended December 31, 2010, expenditures exceeded those budgeted for the following: special road & bridge fund, bridge replacement fund, law enforcement memorial fund, capital improvement project fund, special election fund, transfer funds, and F.B.O.M. reserve fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission
The County of Texas, Missouri

We have audited the financial statements of the County of Texas ("County"), Missouri, as of and for the years ended December 31, 2010 and 2009, and have issued our report thereon dated August 18, 2011. The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies in internal control over financial reporting. (FS 09/10-01, FS 09/10-02 and FS 09/10-03) A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County in a separate letter dated August 18, 2011.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the County Commission, County Officeholders, Missouri State Auditor, the Federal awarding agencies and pass-through entities and is not to be and should not be used by anyone other than those specified parties.

I. FINANCIAL STATEMENT FINDINGS

FS 09/10-01

Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency. SAS No. 115 supersedes SAS No. 112.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Context: During discussions with management, we noted that we will be assisting the County with the preparation of their audited financial statements and footnotes.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 115 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the county's annual budget document and annual financial statement.

FS 09/10-02

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

I. FINANCIAL STATEMENT FINDINGS (concluded)

FS 09/10-02 Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is willing to review this recommendation with the state auditor and the contract auditor to further understand the COSO internal controls.

FS 09/10-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is willing to review this recommendation with the state auditor and the contract auditor to determine various risk assessments.

THE COUNTY OF TEXAS
HOUSTON, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS
YEARS ENDED DECEMBER 31, 2010 AND 2009

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 07/08-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 112, Communicating Internal Control Related Matters in an Audit, which is effective for periods ending on or after December 15, 2006, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 112 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Management's Response: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the county's annual budget document and annual financial statement. The County was not aware of new SAS requirements and questions if county governments of our size are required to comply with SAS standards.

Status: It appears no corrective action plan has been implemented. Therefore, this finding has been re-issued in the current year as FS 09/10-01.

FS 07/08-02 Criteria: Statement on Auditing Standards (SAS) No. 112, *Communicating Internal Control Related Matters in an Audit*, which is effective for periods ending on or after December 15, 2006, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Effect: SAS 112 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

FS 07/08-02 Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County is willing to review this recommendation with the state auditor and the contract auditor to further understand the COSO internal controls. The County was not aware of new SAS requirements and questions if county governments of our size are required to comply with SAS standards.

Status: It appears no corrective action plan has been implemented. Therefore, this finding has been re-issued in the current year as FS 09/10-02.

FS 07/08-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Management's Response: The County is willing to review this recommendation with the state auditor and the contract auditor to determine various risk assessments.

Status: It appears no corrective action plan has been implemented. Therefore, this finding has been re-issued in the current year as FS 09/10-03.

Daniel Jones
& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

To the County Commissioners
Texas County, Missouri

In planning and performing our audit of the financial statements of the County of Texas ("County") as of and for the years ended December 31, 2010 and 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore there can be no assurance that all such deficiencies have been identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in the County's internal control listed below to be significant deficiencies.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Changes Impacting Governmental Organizations
III. Information Required by Professional Standards

Texas County's management has provided written responses to the comments in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of management, County Commissioners, and others within the County, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

Views of responsible officials and planned corrective actions: The County is willing to review this recommendation with the state auditor and the contract auditor to determine various risk assessments.

II. CHANGES IMPACTING GOVERNMENTAL ORGANIZATIONS

a. SAS 115, *Communicating Internal Control Related Matters Identified in an Audit*, is effective for periods ending on or after December 15, 2009 and supersedes SAS No. 112. This standard defines the terms *deficiency in internal control, significant deficiency*, and *material weakness*. It provides guidance on evaluating the severity of deficiencies in internal control identified in an audit of financial statements.

b. SAS 117, *Compliance Audits*, which supersedes SAS No. 74, is effective for compliance audits for periods ending on or after June 15, 2010. This SAS identifies the AU sections that are not applicable to a compliance audit, defines terms related to compliance audits and used in the SAS, and identifies the elements to be included in an auditor's report on a compliance audit. It reflects changes in the compliance audit environment and incorporates the risk assessment standards.

c. SAS 118, *Other Information in Documents Containing Audited Financial Statements*, is effective for audits of financial statements for periods beginning on or after December 15, 2010. This section addresses the auditor's responsibility in relation to other information in documents containing audited financial statements and the auditor's report thereon.

d. SAS 119, *Supplementary Information in Relation to the Financial Statements as a Whole*, is effective for audits of financial statements for periods beginning on or after December 15, 2010. This section addresses the auditor's responsibility when engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *OMB Circular A-133*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated August 18, 2011. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. The County adopted the regulatory basis of accounting to report its financial statements for the years ended December 31, 2010 and 2009. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 18, 2011.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

During the course of our audit, we noted that the Recorder's office account and the Prosecuting Attorney's petty cash account were not reconciled.

Thomas A. Schweich

Missouri State Auditor

PUBLIC SAFETY

Missouri State Water Patrol

September 2011

Report No. 2011-60

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Public Safety, Missouri State Water Patrol

Background	On January 1, 2011, the Missouri State Water Patrol (MSWP) was eliminated, and its powers and duties were transferred to the Water Patrol Division, within the Missouri State Highway Patrol (MSHP). This audit primarily focuses upon the 30 months preceding the transfer.
Missing Funds	The MSWP failed to transfer boater education fees of over $3,000 to the General Revenue Fund, and the money was missing. The audit staff discovered discrepancies between recorded cash receipts and deposit records and requested the MSHP investigate the matter further. In April 2011, a former MSWP clerk was charged with felony stealing. Weaknesses in the MSWP internal controls allowed this theft to go undetected.
Excess Boat Inventory	Twenty-eight boats worth a total of $250,000 remain unused in a warehouse with no clear plans for their future use or disposal. These boats should have been disposed of as surplus property, but we were told a miscommunication prevented them from being prepared/scheduled for surplus .
Fiscal Impact of Merger	Although press releases issued by the Department of Public Safety and the Governor's office indicated the transfer would save the state approximately $3 million, it appears it will actually cost the state an extra $900,000 each year. Although the state will save some money from cutting support staff, not filling vacancies, and terminating a lease, the merger will cost the state nearly $1.8 million more in increased retirement and health care costs each year. Also, the savings estimates claimed the state would save $2.4 million by reassigning water patrol officers, but the state will still have to pay these officers; it will just pay the $2.4 million out of some other state funds.

In the areas audited, the overall performance of this entity was **Fair**.*

American Recovery and Reinvestment Act 2009 (Federal Stimulus)	The Department of Public Safety, Missouri State Water Patrol did not receive any federal stimulus monies during the audited time period.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
John M. Britt, Director
Department of Public Safety
and
Colonel Ron K. Replogle, Superintendent
Missouri State Highway Patrol
Jefferson City, Missouri

We have audited certain operations of the Department of Public Safety, Missouri State Water Patrol, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the 6 months ended December 31, 2010, and the years ended June 30, 2010, and 2009. The objectives of our audit were to:

1. Evaluate the agency's internal controls over significant management and financial functions.

2. Evaluate the agency's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the agency, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. Because this agency became part of the Missouri State Highway Patrol (MSHP) effective January 1, 2011, this information was obtained from the MSHP's management and was not subjected to the procedures applied in our audit of the agency.

For the areas audited, we identified (1) deficiencies in internal controls, (2) significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Public Safety, Missouri State Water Patrol.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	John Luetkemeyer, CPA
Audit Manager:	Gregory A. Slinkard, CPA, CIA
In-Charge Auditor:	Gayle A. Garrison
Audit Staff:	Richard Mosha, MBA
	Wayne Kauffman, MBA

1. Missing Funds

Over $3,000 in boater education fees received by the Missouri State Water Patrol (MSWP) were not properly transmitted to the state General Revenue Fund and are missing. Weaknesses in the controls over cash receipts allowed this situation to occur and remain undetected until the audit.

Sections 306.127 and .128, RSMo, require boaters born after January 1, 1984, and persons convicted of serious boating violations to pass a written examination and carry a boater safety identification card when operating boats and other watercraft on Missouri waterways. Prior to the issuance of cards to individuals, the MSWP collected a fee of $15 for each original boater safety identification card and $10 for temporary, replacement, or duplicate cards. The MSWP deposited these fees into the state General Revenue Fund.

1.1 Missing receipts

A review of boater education fees collected by the MSWP disclosed some monies received were not properly remitted to the state treasury for deposit and are missing.

A detailed comparison of the MSWP receipts register to deposit records disclosed numerous instances where recorded receipts could not be traced to deposits. Most of these missing receipts were recorded as cash. Another comparison of receipts recorded on the MSWP receipts register to boater education revenues reported as received by the state accounting system[1] for the period from July 2008 through December 2010, determined undeposited receipts totaled over $3,000. We also determined the discrepancies ended by early calendar year 2010, approximately a year before the agency became a division of the Missouri State Highway Patrol (MSHP).

In March 2011, we requested the MSHP investigate this matter further. The MSHP subsequently performed an investigation and reported the results to the Cole County Prosecuting Attorney. On April 8, 2011, a former MSWP clerk was charged with felony stealing. According to information filed with the felony complaint, the MSHP determined cash receipts totaling $3,195 were not deposited between January 4, 2008, and December 15, 2009.

1.2 Controls over collections

Weaknesses in MSWP controls over boater education receipts allowed this situation to occur and not be detected.

During the period under review, one clerk received monies and recorded the receipts on a register. The monies were then forwarded to another clerk who prepared the deposit records. However, the MSWP did not perform an independent review to ensure recorded receipts agreed to the monies remitted to the state treasury for deposit. In addition, receipts were not

[1] Statewide Advantage for Missouri (SAM II)

always deposited in a timely manner. For example, we noted some boater education fees totaling $1,495 received in April 2008 were not deposited until July 2008.

While timely depositing was implemented by the time the MSWP merged with the MSHP, as of March 2011, an independent review of recorded receipts to amounts deposited was still not being performed.

To help ensure monies are handled properly, an independent reconciliation of recorded receipts to amounts deposited should be performed.

Recommendations

The Missouri State Highway Patrol:

1.1 Continue to work with the prosecutor related to the prosecution of this matter and the recovery of the missing funds.

1.2 Perform an independent reconciliation of recorded receipts to monies remitted to the state treasury.

Auditee's Response

1.1 When the State Auditor's Office discovered this situation and brought it to the Highway Patrol's attention, the Highway Patrol was able to make a criminal case within a week. The Highway Patrol will continue to work with the prosecuting attorney to prosecute and recover funds to the fullest extent of the law.

1.2 With the merger now in place, the Highway Patrol has worked with the newly created Water Patrol Division to develop proper procedures for handling boater education fees. Even prior to the merger, the Water Patrol was instructed to no longer accept cash, and since the merger, the Water Patrol Division has had a new process established for receiving and depositing revenue. One employee opens the mail and records the receipt, a second employee deposits the fee into the state treasury, a third employee issues the boater safety identification card to the requesting individual, and a supervisor independently reconciles the process on a regular basis. This has been implemented and will continue to be monitored.

2. Excess Boat Inventory

MSWP management of its boat inventory was in need to improvement, and that agency had a significant number of boats in storage which should have been sold or surplused. The current estimated market value of these excess boats totaled over $250,000 (based on average NADA[2] retail values).

In March 2011, we discovered 28 boats were stored in a Jefferson City warehouse with no clear plans for future use. These boats were 11 to 17 years old (based on model year) and the MSHP considered the boats to be serviceable. Three of these boats had been in storage 4 to 5 years and 12 boats had been in storage for at least a year, with 7 more boats put in storage for most, if not all, of the previous boating season (April through September 2010).

Former MSWP officials (who currently work at the MSHP Water Patrol Division) told us these boats had reached an age/usage level where they would begin to require significant repair and should have been disposed of through the State Agency for Surplus Property (SASP); however, we were told a miscommunication apparently occurred regarding which boats should be prepared/scheduled for surplus. At the time of our review only three boats had been designated for disposal with the SASP.

Even though these unassigned boats are not currently used by the Water Patrol Division, they still have value. To ensure the boat inventory of the Water Patrol Division is properly managed, the MSHP should ensure any excess or surplus boats are identified and disposed of in a timely manner.

A similar condition was noted in a previous report.

Recommendation

The Missouri State Highway Patrol ensure the boat inventory of the Water Patrol Division is properly managed and dispose of any boats not needed in a timely manner.

Auditee's Response

Of the 28 boats addressed in this finding, the Highway Patrol has initially identified 20 that are not needed, and is in the process of removing equipment from them and preparing them for disposal. To avoid flooding the market and potentially lowering the sale price, these 20 boats will be sent to Surplus Property at the rate of three or four per month. A schedule has been worked out with Surplus Property, and it will take approximately six months to complete the process, with the final few boats being sent to Surplus Property by approximately December 2011. After that, the Patrol will evaluate the remaining 8 boats and determine the best course of action. Some of those boats are not high value, and may be useful in emergency

[2] The National Automobile Dealers Association (NADA) prepares guides annually with pricing and information on new and used cars, motorcycles, boats, and other items.

situations (e.g., floods, rescues, etc). This could mean that 8 of the 28 may be needed, or some portion of them, and that determination should be made by early 2012. The Highway Patrol will continue to monitor the Water Patrol Division's boat inventory on an ongoing basis.

3. Fiscal Impact of Merger

Press releases issued by the DPS in January 2011, and by the Governor's office when legislation to merge the MSWP with the MSHP was signed in June 2010, indicated the merger should save the state about $3 million. However, our analysis indicates the merger will actually cost the state about $900,000 annually. The press releases presented cost savings associated with the General Revenue Fund, but the cost savings amount did not include some costs the General Revenue Fund would incur, and did not include increased costs that other state funds would incur.

In addition, legislative testimony presented by DPS officials focused on increased efficiency and cost savings related to the General Revenue Fund, but did not provide information concerning increased costs of other affected state funds. Department of Public Safety (DPS), Office of Director personnel testified before the House of Representatives' Public Safety Committee on April 7, 2010, regarding pending legislation (House Bill 1868) to merge the MSWP into the MSHP. That testimony indicated, over time, through attrition, the state General Revenue Fund would save between $2 million and $3 million dollars.

Information in the fiscal note associated with House Bill 1868, estimated savings to the state General Revenue Fund to be between $2.9 million and $3.74 million annually for state fiscal years 2011, 2012, and 2013. Included in the fiscal note cost estimates is a savings of about $500,000 to the General Revenue Fund by eliminating ten support staff positions. Also potential savings to the General Revenue Fund ranging from $0 to $840,000 was included in the fiscal note. These savings would result from possibly vacating a leased building ($0 to $180,000), and potential reductions to the Water Patrol command structure ($0 to $660,000) through future attrition.

Funding shift

Included in the savings estimate for the General Revenue Fund was $2.4 million that resulted from reassigning water patrol officers to other duties and paying them from other state funds during their off season. As a result, the state will not save the $2.4 million but will simply pay those costs from other funds.

MSHP officials testified before the legislature in April 2010 they anticipated reassigning water patrol officers to primarily highway related activities during the off season. MSHP officials indicated it is still their intent for the upcoming boating off season. Therefore, it appears the State Highway and Transportation Fund will bear most of the costs due to the funding shift.

Staffing savings

MSHP officials indicated, as of July 1, 2011, 10 positions were eliminated from the Water Patrol Division budget and that the persons employed in these positions had been terminated from the MSWP staff on or before the January 1, 2011, merge date. As a result, it appears the state saved approximately $403,000 annually due to the elimination of support staff positions.

As of July 1, 2011, two high ranking water patrol officers have left state employment. The MSHP has not promoted remaining officers to these positions but is realigning the rank and duties performed to be consistent with the MSHP rank structure. As a result, the duties formerly performed by the high ranking MSWP officers are now performed by lower ranking MSHP individuals. Annual cost savings for payroll and fringe benefits related to the reduction of the water patrol command structure currently totals $250,000. The MSHP anticipates further savings resulting from additional retirement of former MSWP highly ranked officers within the next few years.

Rent savings

The MSWP terminated the lease of the building it formerly occupied on June 30, 2010, eliminating annual lease payments totaling $144,000. Additional cost savings will occur through reduced utility costs for the leased building which were the responsibility of the state. Total estimated annual savings of $250,000 are anticipated by the DPS as a result of terminating the lease and reduced utility payments.

Increased retirement costs

The fiscal impact due to employees electing to transfer between retirement plans was not included in the fiscal note prepared by the Committee on Legislative Research Oversight Division. The enabling legislation allowed former MSWP employees the option of transferring to other state employee retirement and health care systems. The narrative contained in the fiscal note indicated estimated annual cost increases totaling as much as $2.1 million could occur if all eligible MSWP employees elected to transfer from the Missouri State Employees' Retirement System (MOSERS) to the Missouri Department of Transportation and Patrol Employees Retirement System (MPERS) because the required state contribution rate to the MPERS is higher than MOSERS. MSWP employees were not required to make the election until April 1, 2011. However, the Oversight Division indicated it did not include a cost estimate of the fiscal impact in the calculation total of the fiscal note because it had no way of knowing how many employees would transfer to the MPERS. Current annual estimated retirement system contribution cost increases for former MSWP employees who elected the transfer to the MPERS benefit system total approximately $1.7 million.

Increased health care costs

The fiscal note did not consider the difference in cost to the state for the employees that elected to transfer from the Missouri Consolidated Health Care Plan (MCHCP) to the Missouri Department of Transportation and

Missouri State Highway Patrol Medical and Life Insurance Plan (MHPML). Due to the varying levels of coverage as of June 2011, the state's monthly contribution amounts for active employees under the MCHCP plan were $688 per employee while the contribution amounts under the MHPML plan ranged from $383 to $1,008 per employee. In total, the annual contributions made for former MSWP employees increased approximately $65,000 annually.

Estimated net cost of merger

Based on the information above, it appears savings realized due to the reduction of command and support staff and the elimination of rental costs total approximately $900,000. However, additional costs due to increased contributions for retirement and health care contributions totaled about $1.8 million. As a result, the MSWP merger with the MSHP has actually increased costs to the state by about $900,000 rather than generating a $3 million savings.

To help ensure the legislature makes well-informed decisions concerning pending legislation, it is imperative for state agencies to provide complete and accurate information concerning the fiscal impact to the Committee on Legislative Research Oversight Division. Every effort should be made to ensure information provided to state officials presents a sufficiently comprehensive analysis and fully discloses all information that should be considered by those state officials.

Recommendation

The DPS work with the Committee on Legislative Research Oversight Division to ensure future fiscal notes as well as other information or testimony provided to state officials and the public is as comprehensive, complete, and accurate as possible.

Auditee's Response

Since the MSWP and MSHP were consolidated in January 2011, the two agencies have been focused on realigning their workforce to better respond to Missouri citizens. Because of the timing of the audit, insufficient time has passed since the consolidation to fully realize all of the anticipated savings and efficiencies. Nonetheless, efficiencies have already been realized by having a single agency positioned to respond to public safety needs and deploy officers when and where they are needed. While acknowledging some of the cost savings realized by the consolidation, the audit does not address the positive impact the consolidation has had on the combined agencies' ability to serve the public.

One of the initial positive impacts realized from the consolidation has been the combined response to the unprecedented disasters that have occurred in Missouri during the last eight months. Beginning with the snowstorm in February 2011, the agency was able to assign water patrol officers, along with their four-wheel drive vehicles, to augment road patrols along snowbound highways. This resulted in an additional force of 41 officers

able to respond to impacted motorists during the historic closure of I-70. During the flooding along the Mississippi and Missouri Rivers, the agency was able to assign highway patrol officers alongside water patrol officers conducting boat patrols. This allowed the agency to double the number of boat patrols in the flooded areas. In Joplin, troopers from the combined agency responded to one of the worst disasters in Missouri history. A total of 24 MSWP officers were assigned alongside other troopers to handle security, body recoveries, identifications, and death notifications, as well as investigating the reports of missing persons. This massive task was accomplished through one command structure with the combined resources and assets of the two agencies. Overall, the ability to more efficiently and fluidly assign officers to impacted areas has been a significant benefit to disaster response and recovery.

Going forward, the ability to deploy water patrol officers to other law enforcement duties during the winter months will result in better utilization of these highly skilled and trained personnel and increase the protection afforded to the public. Prior to the consolidation, water patrol officers accrued significant regular-duty overtime during the months of May through September. That overtime was then expended by taking mandatory leave during the winter months. If the officer left employment, the overtime resulted in a liability that the state was required to payout upon their departure. The audit fails to include the anticipated reductions to regular-duty overtime and the benefits that will be realized from those reductions.

During the winter months, water patrol officers can now be assigned to other law enforcement duties as public safety needs dictate. While it is not known exactly how many water patrol officers will be assigned to a particular law enforcement duty during the winter months, the public clearly benefits from officers performing law enforcement duties instead of expending their overtime by taking mandatory leave.

To that end, information provided to the legislature was clear that the law enforcement duties associated with winter assignments would be paid out of other funds. Both testimonial and written information provided to the legislative committees explained that allocating water patrol officers to other assignments during the winter months, such as gaming or highway enforcement, would allow the state to use non-general revenue funds to support officers' salaries when they are assigned to those functions.

Although the consolidation has been in effect less than a year, other efficiencies have been gained by consolidating facilities and equipment. The elimination of the water patrol headquarters has already resulted in the cost savings noted in the auditor's report. Further facility consolidations are underway to combine remote offices in four other locations. These are small remote offices, but will allow for joint use of telephone and data services.

The MSHP is also analyzing functions that has been performed by the MSWP that were similar to the MSHP. The MSWP operated a statewide special weapons and tactics team (SWAT). Those members have been merged into the MSHP regional teams, reducing duplicate training and improving joint response capabilities.

With regard to the cost savings, the auditor's report correctly acknowledges that many of the long-term cost savings predicted have already occurred. Reducing redundant administrative staff has resulted in cost savings of approximately $403,000. Elimination of the headquarters facility has resulted in savings of approximately $250,000. And, through attrition, salaries to high-ranking water patrol officers have already been reduced by approximately $250,000. It is anticipated that further cost savings will be realized as additional high-ranking officers are replaced with lower ranking officers through attrition.

The Department of Public Safety and the MSHP are committed to continuing the core mission of boating safety through its Water Patrol Division. The transition is still underway and the unified agency continues to identify efficiencies and realign assignments during the winter months. While many of these efficiencies may not be able to be quantified initially, a unity of command model is the nationally recognized approach to major disasters and terrorist attacks and has proven particularly successful during the catastrophic events impacting Missouri in 2011. The combined efforts of the MSHP and Water Patrol Division have better served the public and can be expected to create continued benefits.

Missouri State Water Patrol
Organization and Statistical Information

In 1959, the 70th General Assembly enacted legislation for the regulation of boating in Missouri. The resulting agency was called the Missouri Boat Commission, and its purpose was to provide boating safety for the state through registration, inspection, education, and law enforcement. The Omnibus State Reorganization Act of 1974 transferred the Missouri Boat Commission to the Department of Public Safety, and the agency was renamed the Division of Water Safety. In 1989, the Division of Water Safety was renamed the Missouri State Water Patrol (MSWP). During the 2010 legislative session, the General Assembly passed House Bill 1868 which transferred, effective January 1, 2011, the powers and duties of the MSWP to a newly-established division within the Missouri State Highway Patrol (MSHP). The new Water Patrol Division was assigned to MSHP's Field Operations Bureau.

The purpose of the MSWP was to make the waters of the state safe for boating and other water-related activities through law enforcement, registration, inspection, and educational programs. The MSWP was a statewide law enforcement agency that operated in a quasi-military fashion with authority being delegated by rank. For control purposes, the state was divided into six districts with a captain or lieutenant in charge of each district. As of December 31, 2010, the agency had a total of 104 employees. The superintendent of the MSHP now determines policy for the Water Patrol Division, and the division is currently commanded by a major located at the MSHP General Headquarters in Jefferson City. Currently the division is divided into four geographic districts with a captain in charge of each district, with those officials being responsible for supervision of all patrol officers and related field activities in the respective districts. Through attrition, the districts will eventually be commanded by lieutenants. As of January 1, 2011, 83 water patrol officers and 3 civilian employees transferred into the Water Patrol Division. In addition, 6 former water patrol officers and 11 civilian employees transferred to other divisions within the MSHP.

Colonel Radnell Talburt served as Commissioner of the Missouri State Water Patrol until his retirement on April 30, 2009. Lieutenant Colonel Michael Smith served as Acting Commissioner until his retirement on November 1, 2010. Major Tommy Roam then served as Acting Commissioner through December 31, 2010, and was subsequently appointed Commander of the Water Patrol Division.

American Recovery and Reinvestment Act 2009 (Federal Stimulus)

The MSWP did not receive or spend any American Recovery and Reinvestment Act of 2009 monies during the period from July 1, 2008, through December 31, 2010.

Financial information follows.

CITIZENS SUMMARY

Findings in the audit of the Department of Economic Development, Division of Tourism

Conflicts of Interest

The Tourism Commission has not established a conflict of interest policy for its members, and three commission members took part in funding decisions benefiting entities with which they were associated. While a member of the Commission, the Lieutenant Governor took part in approving funding for Tour of Missouri, Inc. Although it was not disclosed on his 2008 or 2009 Personal Financial Disclosure Statements filed with the Missouri Ethics Commission, the Lieutenant Governor was Chairman of this non-profit entity at the time. Also, the current Chairman and a former member of the Commission participated in discussions and program funding decisions which benefited local tourism agencies they represented.

Fund Management

The Commission and the division budgeted to spend more than available in fiscal years 2010 and 2011. The division paid $4 million of fiscal year 2010 expenditures out of its fiscal year 2011 appropriation and expects to pay $4 million of its fiscal year 2011 expenditures from its fiscal year 2012 appropriation. Planning to spend more than you expect to have available in a year does not make financial sense, especially when additional budget cuts could occur.

Transparency of Expenditures

Rather than paying some vendors directly, the division paid its advertising agency a total of $2.2 million in fiscal years 2009 and 2010 which was passed through to other vendors, reducing the transparency of who actually received the funds. Of this $2.2 million, $1.54 million was passed through to Tour of Missouri, Inc.; $480,645 was passed through to subcontractors for website services; and $141,340 was passed through to vendors for conferences, research and other services. The advertising agency had no involvement in most of these services, so it is unclear why it was used to pass monies through to these other vendors. The division also paid the advertising agency an additional $586,056 for website development services, which were not within the scope of the original bid, without soliciting bids or showing the rates were competitively established.

Oversight

The Commission needs to improve its oversight of division budgeting and expenditure activities. Division budgets were not approved or adjusted promptly, and the division unnecessarily paid $66,000 in administrative fees to its advertising agency because the fees were based on the original fiscal year 2010 marketing budget. The budget lacks detail for payroll expenditures, making it difficult for the Commission to exercise appropriate oversight.

In fiscal year 2009, the division paid $709,794 to Tour of Missouri, Inc., $114,209 to its advertising agency for marketing at the Major League Baseball All-Star Game, and $50,000 to a second-tier subcontractor for marketing various athletic events without specific Commission approval. In addition, the division exceeded the fiscal year 2009 budgeted amount for office furniture by $22,167 and exceeded the budgeted amount for travel by $5,400 in fiscal year 2009 and $12,700 in fiscal year 2010.

Division contracts do not allow for adequate oversight of funds, and the division has not enforced contract terms. In a 2-year period, the division paid over $3.21 million to Tour of Missouri, Inc. without defining what costs were allowable, requiring a list or documentation of actual expenses, or providing for penalties if Tour of Missouri, Inc. did not follow the contract terms. Also, the division has not required its advertising agency to provide annual reports or weekly status reports as is mandated by its contract.

Performance Measurement

The Commission and division have not established formal performance goals and do not fully utilize performance data to measure whether or not chosen strategies are effective. The Commission and division made funding decisions related to its advertising agency, the Cooperative Marketing Program, Tour of Missouri, and Welcome Centers without conducting analyses or studies or measuring how these endeavors helped meet division goals. Having defined goals and measuring progress toward meeting them could help the Commission determine how best to use the division's resources.

Payment of Flight Costs of the Governor's Office

The division paid a total of over $3,000 in fiscal years 2009 and 2010 for travel relating to the Governor's Office. In one instance, there was not adequate documentation of the purpose of the flight or who was aboard. We determined the division paid $842 for a flight to St. Louis to promote the 2009 Major League Baseball All-Star game which included no division officials; $1,130 for a flight related to the 50th Anniversary of Silver Dollar City which included no division officials; and $1,100 for a flight to Branson to honor soldiers which appeared to include the Division Director. It appears these flights were primarily related to functions of the Governor's Office rather than tourism, and, therefore, should be paid out of the Governor's Office appropriations so as not to distort the operating costs of the division and the Governor's Office or interfere with the General Assembly's appropriation process.

In the areas audited, the overall performance of this entity was **Fair**.*

American Recovery and Reinvestment Act 2009 (Federal Stimulus)

During the fiscal year ended June 30, 2010, the division used $3.1 million from the Federal Budget Stabilization-Medicaid Reimbursement Fund to fund general operations.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

HARRY J. OTTO, CPA
DEPUTY STATE AUDITOR

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Tourism Commission
and
David Kerr, Director
Department of Economic Development
and
Kathleen Steele Danner, Director
Division of Tourism
Jefferson City, Missouri

To avoid the appearance of a conflict of interest, the State Auditor has recused himself from participation in this audit and has directed the Deputy State Auditor to oversee procedures performed by the State Auditor's professional audit staff. We have audited certain operations of the Department of Economic Development, Division of Tourism, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2010 and 2009. The objectives of our audit were to:

1. Evaluate the division's internal controls over significant management and financial functions.

2. Evaluate the division's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

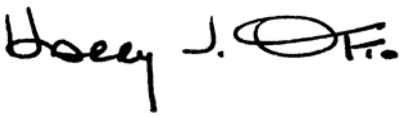
Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures.

The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Economic Development, Division of Tourism.



Harry J. Otto, CPA
Deputy State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Douglas Porting, CPA, CFE

Department of Economic Development
Division of Tourism
Management Advisory Report -State Auditor's Findings

1. Conflicts of Interest

The Tourism Commission has not established a conflict of interest policy for its members. Several instances were noted where commission members took part in funding decisions that benefited entities with which they were associated.

Tour of Missouri

While serving as the Chairman of the Tourism Commission, the Lieutenant Governor also served simultaneously as the Chairman of the Board for Tour of Missouri, Inc., the non-profit entity receiving funding from the Division of Tourism to administer the Tour of Missouri bicycle race in September 2008 and 2009.

The commission minutes do not indicate whether the Lieutenant Governor notified the commission and the division about his role with Tour of Missouri, Inc., and the possibility of a conflict of interest. Based on our review, at least some of the commission members did not appear to be aware of the Lieutenant Governor's role with the non-profit. The Tour of Missouri, Inc. business filings at the Secretary of State's office did not disclose the Lieutenant Governor's role until August 2009. The Lieutenant Governor also did not disclose his role with the non-profit entity per the 'Personal Financial Disclosure Statement' filed with the Missouri Ethics Commission for calendar years 2008 and 2009. This statement requires the disclosure of any non-profit entity in which the individual served as officer, director, employee, or trustee, whether or not there is a financial interest in the non-profit entity.

The Lieutenant Governor, in his role as the Chairman of the Tourism Commission, took part in discussions regarding the funding of the Tour of Missouri and did not abstain from voting to approve commission budgets, which included direct line items for the Tour of Missouri of $1 million and $1.5 million in fiscal years 2009 and 2010, respectively. The Lieutenant Governor was replaced as the Chairman of the commission in November 2009 and business filings with the Secretary of State's Office as of October 2010 show the Lieutenant Governor is no longer an officer with Tour of Missouri, Inc.

Cooperative Marketing Program and First-time Marketing Events Program

Two commission members[1] did not recuse themselves from budget decisions related to the Cooperative Marketing Program and the First-time Marketing Events Program[2] despite representing local tourism agencies which received funding from these programs. The commission approved budgets that included statewide totals of $8.2 million for the Cooperative

[1] Marcia Bennett-Hazelrigg and James Divincen.

[2] Events marketed for the first-time, such as the Pony Express Sesquicentennial in Buchanan County, holiday lights at the Lake of the Ozarks, the return of the Kansas City Chiefs Training Camp to St. Joseph, etc.

Marketing Program and $175,000 for the First-time Marketing Events Program during fiscal years 2009 and 2010. We also identified similar situations in fiscal year 2011. Since division staff allocate budgeted Cooperative Marketing Program funds to local agencies, the commission members did not directly approve division funding for their local agencies' projects. However, one of the members in question served as the Chair of the commission's Budget Committee and the other served on the Budget Committee which makes budget recommendations to the commission as a whole.

The local tourism agencies of the commission members in question received Cooperative Marketing Program funds totaling $687,649 for the periods in which the members served in fiscal years 2009 and 2010. One organization received First-time Marketing Events Program funds totaling $45,000 for the 2 years ended June 30, 2010, according to division documentation. The other agency did not receive direct funds from the division for the First-time Marketing Events Program, but division documentation indicates the agency benefited from $16,102 in funded events during fiscal year 2009 (the period which the member served).

Conflict of interest policy

The commission has not established a conflict of interest policy for commission members.

We identified the commission had not (1) required commission members to disclose all actual and potential conflicts of interest or situations which could present the appearance of a conflict of interest in writing to the commission or the division; (2) established policies for how to handle actual conflicts of interest or the appearance of conflicts of interest; and (3) required commission members to recuse themselves from decision making or actions relevant to the parties involved in the potential conflict.

State law allows up to five members of the commission to be engaged in the tourism industry. While this arrangement allows the commission to benefit from such members' experience in the industry, it also provides opportunity for conflicts of interest when making funding decisions. Without a policy requiring the full disclosure of actual conflicts of interest or situations which could present the appearance of a conflict of interest, transactions may not be performed in a transparent, objective, or ethical manner.

Recommendation

The commission establish a conflict of interest policy that requires commissioners to disclose, in writing, relationships or situations which could result in an actual or appearance of conflict of interest. The policy should identify how to handle conflict of interest situations. In addition, commissioners should abstain from voting on matters when an actual or appearance of conflict of interest has been identified.

Auditee's Response

The Commission Chairman and the division provided the following written response:

We agree that a conflict of interest policy should be established and maintained for commission members.

2. Fund Management

The commission and the division budgeted expenditures in excess of funds available for fiscal years 2010 and 2011, and paid approximately $4 million of fiscal year 2010 expenditures out of the division's fiscal year 2011 appropriation of $13.42 million. The division is also expected to pay approximately $4 million in fiscal year 2011 expenditures from fiscal year 2012 appropriations.

The General Assembly appropriates and authorizes the transfer of monies from the General Revenue Fund to the Division of Tourism Supplemental Revenue Fund, which retains access to remaining cash balances at year end. Due to recent economic pressures, state budget cuts and withholdings have reduced the funds available to the division. Prior to fiscal year 2010 the fund had a sufficient balance to enable the payment of prior year expenditures from expected current year funds available. However, in fiscal years 2010 and 2011, the division budgeted expenditures which exceeded funds available.

	Fiscal Year		
	2009	2010	2011
Beginning cash balance $	5.69	4.49	0.00
Actual cash receipts	20.96	13.27	13.05
Total cash available	26.65	17.76	13.05
Prior year expenses paid in current year	4.37	4.56	3.96
Current year expenses paid in current year	17.79	13.20	9.02
Current year expenses paid in following year	4.56	3.96	4.00[1]
Total obligations	26.72	21.72	16.98
Amount of current year funds (over)/under obligated	(.07)	(3.96)	(3.93)[1]

[1] Estimated from division data

Source: division data, presented in millions

According to an Office of Administration Accounting official, while state law does not specifically disallow the practice of consistently creating excessive liabilities, the practice is not recommended. Significantly obligating funds in excess of appropriated amounts does not appear to align with the intent of the appropriation process established by the General

Assembly. By continuing to obligate significant expenditures to future periods, division officials are potentially limiting the division's ability to operate in the event further budget cuts reduce future appropriations.

Recommendation

The commission and the division should establish policies and procedures to ensure the division's budget is aligned with the total funds appropriated and available for the current fiscal year.

Auditee's Response

The Commission Chairman and the division provided the following written response:

The division was directed by the Office of Administration, Division of Budget and Planning to change from an accrual to a cash basis of accounting in fiscal year 2011. Division staff was told the recommendation was made to be consistent with other state agencies. At the commission meeting on October 1, 2009, the commission voted in favor of making this change.

Although the commission and division management staff changed from an accrual basis to a cash basis of accounting, we continue to monitor expenditures using both methods. We are reimbursing expenditures that have been previously approved, but not reimbursed. Both methods of accounting are used because the approval and reimbursement cycle may cross fiscal years. Division staff tracks costs that are applied to the line items in any approved budget year to make certain that expenditures do not exceed the budgeted amounts from July 1 – June 30 of that fiscal year. Staff monitors expenditures before processing the reimbursement of advertising and/or marketing vendors. The spending activity is charged to the available amount correlating to the applicable approved budgets. Expenditures may be accounted for in one year's cash basis budget and in the previous year's accrual basis budget; however expenditures for any budget year do not exceed the budgeted amount.

3. Transparency of Expenditures

The division paid approximately $2.2 million in fiscal years 2009 and 2010 to its contracted advertising agency which was subsequently passed through to other vendors for services, rather than paying the vendors directly. Passing large payments through a contractor results in reduced transparency of division expenditures. In addition, this pass-through process obscures the identity of the ultimate recipient of the payments and the need for competitive procurement.

The specific transactions noted include the following:

Tour of Missouri

The division paid $1.54 million in fiscal year 2010 to the non-profit entity responsible for the Tour of Missouri bicycle race. However, instead of contracting and directly paying the non-profit entity for the division's
